SUPPLEMENT TO

The Gazette of India.

No. 36.} CALCUTTA, SATURDAY, SEPTEMBER 8, 1877. {Register No. 33.

OFFICIAL PAPERS.

A Supplement to the Gazette of India will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.

Non-Subscribers to the Gazette may receive the Supplement separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.

No Official Orders or Notifications, the publication of which in the Gazette of India is required by Law, or which it has been customary to publish in the Calcutta Gazette, will be included in the Supplement. For such Orders and Notifications the body of the Gazette must be looked to.

GOVERNMENT OF INDIA.

FINANCIAL DEPARTMENT.

RESULT OF THE ALLOTMENT OF TWO AND A HALF CRORES OF 4 PER CENT. PROMISSORY NOTES.

No. 830, dated 9th August 1877.

From—W. Waterfield, Esq., *Officiating Comptroller General,*

To—The Secretary to the Government of India, Financial Department.

I have the honor to report the result of the allotment of two and a half crores of 4 per cent. promissory notes for which tenders were invited by Notification of 7th June last, published in the *Gazette of India* Extraordinary of that date.

2. The minimum recorded under my signature, in accordance with paragraph 11 of the Notification, was laid in a sealed cover on my table at noon of the 9th July last, when the tenders were opened, but it was not necessary to declare the minimum, agreeably to the terms of that Notification.

3. I forward herewith a statement showing the number and amount of tenders at each rate, distinguishing the tenders of Europeans and Natives. In the latter, however, I include all non-Europeans, such as Jews and Armenians, but not tenders on behalf of Court of Wards made by European Officers of Government.

4. There were, it will be seen, 510 tenders, amounting to Rs. 3,32,12,300, *viz.*:—

	Tenders. No.	Amount. Rs.
Natives	373	87,11,100
Europeans	137	2,45,01,200
	510	3,32,12,300

5. Four hundred and sixty-one tenders for Rs. 2,40,46,600, at rates ranging from Rs. 95-5 to Rs. 101 per cent., were accepted in full. Rs. 13,50,000 in four tenders was offered at Rs. 95-4; the proportion allotted at this rate was 70·62 per cent.

6. The produce of the loan at the rates accepted is Rs. 2,41,09,271-1, giving an average rate of Rs. 96-6-11·92 per cent., or a discount on the whole of Rs. 8,90,728-15. But a tender for Rs. 3,000 which was accepted at par has since been cancelled, and the total amount of debt incurred now stands at Rs. 2,49,97,000, for which the Government will receive Rs. 2,41,06,271-1.

7. A list of persons whose tenders are accepted accompanies.

8. The number and amount of unsuccessful tenders were as follows:—

	Number.	Amount. Rs.
Not allotted at Rs. 95-4		3,96,600
Below Rs. 95-4	45	78,15,700

9. Besides the above, three tenders for Rs. 4,000 were rejected as irregular; and two for Rs. 6,000 and another, with amount unspecified, were received after the time fixed by the Notification for the receipt of tenders.

Balance expended ... 5,636

Eastern Jumna Canal.—Demand throughout the month chiefly for sugarcane and secondarily for cotton, rice, and indigo. Rain fell on 29th, but did not affect sugar and rice irrigation, and was barely sufficient for sowing of inferior crops. Kullenpur branch returns not incorporated, not having been received to 15th July.

No remarks for the other canals.

Traffic.—Slight check in the grain traffic towards the end of the month owing to the block at the Cawnpore station of the East Indian Railway and in anticipation of early rains.

There is a falling off in the cotton and oil-seeds traffic, but salts and metals show a considerable increase. Rafting about the same as last month.

ALLAHABAD,
The 28th July 1877.

G. H. D. WALKER,
Asst. Secy. to Govt. N. W. P. P. W. D., Irrigation Branch.

RE AND COMMERCE.

the Mysore Province.

PROVINCE OF MYSORE.

(*No.* 30.)

Condition report for the week ending 1st September 1877.

Bangalore District.—Markets well supplied. Prices steady. There was no rain during the week, except at Anekal and Bangalore, where 20 and 3 cents respectively were gauged. The crops were in a tolerably good condition wherever rain had fallen. Public health continues bad owing to the prevalance of fever, dysentery, &c.

Kolar District.—Markets sufficiently supplied, except in the Gudibanda and Gumnayakanpalya taluks. Prices of food-grains have risen in six out of the ten taluks in the district. Light showers of rain fell in the Kolar, Gudibanda, Sidlagatta and Chikballapur taluks. Javari has been harvested in some taluks. Fever, cholera, small-pox, diarrhœa and dysentery are prevalent.

Túmkúr District.—Markets fairly supplied. Prices fluctuating. No rain during the week. The dry crops are generally withering, but the irrigated crops are doing well. Public health is bad owing to the prevalence of diarrhœa and dysentery.

Mysore District.—Markets continue fairly supplied, except in the Gundlupet and Malvalli taluks, where importation was slack. Prices almost stationary. Light showers of rain fell in six out of the eleven taluks in the district; the quantity registered at their head-quarters ranging from 13 to 80 cents. The crops, excepting those under irrigation below channels, are withering for want of rain. Javari was harvested in some taluks, but the yield was very poor. Public health is indifferent. Fever, dysentery and cholera prevail.

Hassan District.—Markets fairly supplied, except in the Harnhalli taluk. Prices have a rising tendency. Light showers fell in seven out of the nine taluks in the district, the quantity registered at their head-quarters ranging from 8 cents to 1·27 inches. The paddy crops in the Malnad hoblis of the Manjarabad, Belur and Hassan taluks are doing well; but all the crops in the other taluks are withering for want of rain, or are being destroyed by insects. Sugar-cane, maize, green and black gram were harvested in some taluks. Fever, dysentery, cholera and small-pox are still prevalent.

Shimoga District.—Markets fairly supplied. Prices fluctuating. Rain fell generally in the district. The crops in the Malnad taluks are reported to be doing well; while in the maidan they are withering for want of rain. Fever and dysentery are still prevalent.

Kadur District.—Markets sufficiently supplied, except in the Mudgere and Lakvalli taluks, where it is difficult to procure ragi. Prices pretty steady. Rain fell in all the taluks, the quantity gauged at the head-quarters of which varied from 7 cents to 2·65 inches. The crops are in some places withering for want of sufficient rain. Public health is bad owing to the prevalence of fever, small-pox, dysentery, and cholera also to a limited extent.

Chitaldroog District.—Markets sufficiently supplied, except in the Davangere and Budihal taluks, where importation is slack. Prices of food-grains rose in four taluks, and remained stationary in the other four. Light showers of rain fell in all the taluks, except Chitaldroog and Davangere, the maximum quantity registered being only 60 cents. The standing crops, with the exception of those under tanks and wells in the Chitaldroog, Kankuppa, Hosdurga and Hiriyur taluks, are reported to be withering for want of rain. Fever, dysentery and other diseases are still prevalent, except in the Budihal and Dodéri taluks.

General Remarks.

The reports for the week ending 1st September 1877 shew that there has been a deficiency of rain generally except in the Malnad tracts, and that the dry crops recently sown were threatened with a total failure which could only be averted by an early fall of rain. Good showers have since fallen, however, over the province generally, and agricultural prospects may be said to have improved, more especially in the Nundydroog and Nagar divisions.

2. Public health continues much the same as last reported. The number of deaths from cholera during the week was 184, being 113 more than in the previous week.

3. While the season continued to be unfavourable for agricultural operations, the ryots have, during the week under report, come pretty freely to the relief works. The daily average number of persons employed under revenue officers had risen to 29,295, being 3,651 more than in the previous week. The increase was general in all the districts excepting Shimoga and Kadur. The Deputy Commissioner of the Túmkúr district reports that road works are being rapidly pushed on, and that arrangements have been made to have gangs of 50 men working on every ½ mile of road, temporary accommodation in huts being provided for the gangs at frequent intervals, a measure which, it is believed, will tend to keep the coolies on the works, and enable their work to be better supervised.

4. The number of persons employed on works carried out by the Public Works Department was 24,206, or 1,231 more than in last week.

5. The amount sanctioned for works in progress under revenue officers was Rs. 18,40,726, of which Rs. 12,45,892 were expended, leaving an available balance of Rs. 5,94,834. The expenditure during the week amounted to Rs. 22,919, or Rs. 4,433 more than in the preceding week, as shewn below :—

	Past week.	Present week.
	Rs.	Rs.
Bangalore district	6,186	8,102
Kolar "	2,902	3,883
Túmkúr "	1,865	2,766
Mysore "	535	2,458
Hassan "	1,362	1,426
Shimoga "	1,676	1,751
Kadur "	1,457	435
Chitaldroog "	1,739	1,208
Bangalore Municipality	643	711
Mysore "	121	179
Total ...	18,486	22,919

6. The amount sanctioned for works carried on by the officers of the Public Works Department was, according to the latest accounts received from the Examiner, Public Works Accounts, Rs. 34,32,007, of which Rs. 25,22,216 were expended.

7. The daily average number of persons charitably relieved was 227,067, consisting of 57,376 men, 90,980 women and 78,711 children; the increase over past week being 13,357, as shewn hereunder :—

	Increase over past week.	Decrease.
Bangalore district	4,828	0
Kolar "	2,405	0
Túmkúr "	1,819	0
Mysore "	0	149
Hassan "	850	0
Shimoga "	525	0
Kadur "	1,077	0
Chitaldroog "	1,323	0
Bangalore Municipality	517	0
Mysore "	162	0
Total ...	13,506	149
Deduct decrease ...	149	
Net increase ...	13,357	

8. In the Ashtagram division active measures have been taken to draft paupers from the Government kitchens to large works, and at Mysore 200 persons were taken over from the camp to the water-works where, it is said, they are doing fair work.

9. From a statement furnished by the Deputy Commissioner of Kadur district, it would appear that out of a daily average number of about 3,000 persons, shewn as charitably relieved, 427, or nearly one-seventh, were employed, some as cooks, sweepers and guards, &c., in the kitchens, and others in collecting metal, embanking tank bunds, and on petty municipal and other works. It will be requisite in future that those, from whom work of any kind is exacted, in return for food and clothing gratuitously supplied to them, should be separately shewn in the weekly statements.

10. The total expenditure incurred up to date on account of charitable relief is Rs. 16,95,239, of which Rs. 1,74,700 were spent during the week, as shewn below :—

	Rs.
Bangalore district	40,551
Kolar "	13,789
Túmkúr "	37,831
Mysore "	1,570
Hassan "	7,526
Shimoga "	2,434
Kadur "	2,229
Chitaldroog "	24,902
Bangalore Municipality	42,456
Mysore "	1,412
Total ...	1,74,700

11. The proportion of the number charitably relieved, *viz.*, 227,067 to the total population and the population of the affected area, was 4·49 and 8·71 respectively; but, excluding the Nundydroog division, the number relieved in the other districts was 1·14 per cent. on the total population and 2·21 on the affected population.

12. The number relieved on works was 53,501, or about 1·05 per cent. on the total population and 2·05 on the population of the affected area.

13. The weight of grain imported by rail during the week, (including consignments to the Kolar-road station,) was 5,634 tons, being 1,847 tons more than in the previous week, as shewn below:—

	Past week.	Present week.
From Madras	3,125	4,908
„ Beypore, Malabar and Coimbatore districts	174	238
„ Trichinopoly, Tanjore and Negapatam ...	473	450
„ other places	15	38
Total ...	3,787	5,634

14. About 2,572 tons, or 134 more than in last week, were exported by road from Bangalore to the interior of the province and the frontier taluks of the Madras Presidency, as noted below:—

	Tons.
Towards Túmkúr district	918
„ Bellary and Chitaldroog districts	460
„ Mysore district	397
„ Oossoor in the Salem district	148
To taluks adjoining Bangalore	649
Total ...	2,572

15. The prices of food-grains have been somewhat fluctuating. There was a tendency to a further rise in the Bangalore, Mysore and Chitaldroog districts, and the maximum and minimum rates, which prevailed in each district, were as shewn hereunder:—

	Maximum in lbs. per rupee. 2nd sort rice.	Maximum in lbs. per rupee. Ragi.	Minimum in lbs. per rupee. 2nd sort rice.	Minimum in lbs. per rupee. Ragi.
Bangalore district ...	10½	13	8½	10
Kolar „ ...	10¾	13	8½	11
Túmkúr „ ...	9½	11	8	10
Mysore „ ...	9	13	8	10
Hassan „ ...	9	11	8	8
Shimoga „ ...	10	9	6½	8
Kadur „ ...	9	10½	7	9
Chitaldroog „ ...	8½	11	7	10

16. As the time approaches for the resort of the labouring population to the coffee districts, it may be expected that emigration will be resumed, but to an extent far less than in former years, if the people have profited by the experience of the past year.

17. The Deputy Commissioner of the Kolar district reports that the number of Mysore paupers deported from the adjoining districts of Bellary, Cuddapah and North Arcot of the Madras Presidency, was 407, while about 1,310 persons, belonging to Her Majesty's territories, have been, during the past six months, relieved charitably or employed on works in the Kolar district, some of whom are still being maintained pending recovery in the kitchens; the Collectors of the districts to which they belong having been addressed requesting them to make the necessary arrangements for their deportation.

"By Order,"

T. R. A. THUMBOO CHETTY,

Assistant Secretary.

T. R. A. T.

INTERIM REPORT.

Heavy showers have fallen since the 2nd instant, and though the rainfall has been slight at Mysore, it has been more abundant at Bangalore and in the districts to the north and north-west of it. The prospects of the season have been materially improved.

Bangalore, 8th September 1877.

T. R. A. T.

Scarcity in the Deccan and Southern Mahratta Country.

Statement No. XLIII regarding the scarcity in the Deccan and Southern Mahratta Country, together with a summary of Govt. orders issued during the week ending 13th September 1877.

Districts.	Area in square miles.	Affected area in square miles.	Population of district.	Affected population.	Collectors' reports by telegram, dated 7th to 13th September 1877.	Works in progress. * Such as digging and repairing wells, prickly-pear clearances, &c.
† All the labourers upon the Dhond-Manmad Railway have been included under Ahmednagar.
‡ Corrected figures given.
§ Approximate figures given.
‖ Rates not reported.
¶ For details and dates see table appended.

The telegrams received during the week show a continuance of the general improvement noted last week. The kharif crops have in most places revived, and in some are absolutely good. The sowing of winter crops progresses. But more rain is immediately wanted in parts of Nasik, Poona and Ahmednagar.

2. Prices of grain are slightly lower in most of the affected districts. There is no improvement in Kaladgi, where they are highest of all. And in Khandesh prices have risen during the week.

3. The number of people upon relief works in the nine affected districts is 2,79,297 against 2,82,006 last week, and there are also 1,430 hill-men and immigrants employed in Ratnagiri. The increase in Dharwar still continues. There is also an increase in Khandesh and Poona, probably due to people who left the works during the recent heavy falls of rain having again returned.

4. Cholera still continues to decrease.

5. The table showing the rainfall and prices in each taluka is appended.

6. The following table gives the expenditure by Government, during the week ending 25th August, upon charity in the relief of the aged and infirm poor; and in payments made to the young children of labourers employed upon relief works. Comparing the results shown in the table below with those shown in the last summary, it will be seen that the number of persons in receipt of Government charitable relief has increased from 54,859 to 76,541, while the number of children under 7 years of age has increased from 78,578 to 81,192. During the week referred to there was again a considerable increase in the number of people upon relief works as compared with the preceding week.

The number of people charitably relieved was 25·98 per cent. of the number of labourers upon relief works during the same week.

Districts.	Collector's discretionary grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116 of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.		
	Average number of persons relieved during the week.	Expenditure during the week.	Total expenditure up to date.	Average number of children, and of women taking care of them.	Expenditure during the week.	Total expenditure up to date.

‡ No expenditure has been incurred by the Collector.

§ No expenditure has been incurred by the Collector or the Executive Engineer.

7. The following table gives the distribution of the people among the relief works under the Public Works Department in the nine affected districts employing 1,000 labourers, or more, during the week ending 1st September. It will be seen that 2,35,840, or more than four-fifths of the labourers were concentrated upon the works enumerated :—

Districts.	Works.	Number of labourers.	Total.	REMARKS.

	Hubli-Kaladgi Road ...	2,453		
	Hullial-Annigerry Road ...	1,693		
	GRAND TOTAL ...	...	235,840	

8. Tables (A) and (B) are appended as usual. It will be seen that, during the week ending 1st September, the number of people upon Civil Works in the nine affected districts was 25,524, the number upon works under Public Works Department Agency being 255,798. The proportion of people upon the former is, therefore, about 10 per cent. of the total. It is to be noted that the figures given in these tables are taken from the progress returns of the works, and are brought up to the week ending 1st September, while the figures in the table prefixed to this summary are taken from the Collector's telegrams, and refer to the week ending 8th September. It will be seen that the number of persons now on relief works is less by 123,175 than the number in the week ending 9th June—the period in which the number was highest.

9. Maps are not sent with this Summary.

10. A table is appended, showing the condition of the affected Native States.

11. With regard to the movements of food-grains, 1,036 tons were exported from Bombay to the Southern Mahratta Ports during the week ending 8th September, and during the same period 3,935 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusawal-Nasik lines, making a total of 4,971 tons for the week. The table below shows the quantities of grain sent by sea and rail from October till the 8th September to the Southern Mahratta Ports and the Railway Stations in the distressed districts. It will be seen that the total amount delivered up to the 8th September was 3,98,265 tons:—

Food-grains sent to	In October, November and December 1876.	In January, February and March 1877.	In April and May 1877.	In June 1877.	In July 1877.	In August 1877.	In September up to 8th.	Total.
	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.
Southern Mahratta ports ...	44,215	46,332	50,056	4,491	857	15,204	1,036	162,191
South-Eastern line, from Poona to Sholapur ...	67,195	41,708	25,450	20,348	20,484	21,506	3,391	200,082
North-Eastern line, from Bhusawal to Nasik ...	12,829	7,471	3,567	2,014	1,524	8,043	544	35,992
TOTAL ...	124,239	95,511	79,073	26,853	22,865	44,753	4,971	398,265

There has been a considerable decrease in the amount of grain imported into the famine districts both by sea and rail, the deliveries amounting to 4,971 tons against 9,133 tons in the previous week.

12. There has been a net decrease of 2,337 in the number of people upon relief works, and an increase of 2,614 in the number of young children. There has also been an increase of 21,682 in the number of people upon charitable relief as compared with the figures recorded last week. The increase is chiefly in Belgaum and Poona.

13. The improvement in the general situation noticed in the last summary still continues. Good rain has fallen in the southern talukas of Dharwar where it was greatly needed, and the fall in the eight famine Collectorates south of Khandesh has, on the whole, been very satisfactory indeed. High prices still prevail, and retard improvement amongst the poorer classes of the people.

C. J. MERRIMAN, Colonel, R. E.,
Acting Secretary to Government.

Telegraphic returns of more recent rain have been received, but cannot yet be properly collated.

The monsoon set in on the 19th June above Ghauts.

* This is chiefly eastern rain.

† For the week ending 25th August. ‡ For the week ending 18th August.

Weekly relief reports of the Kistna and Kurnool districts for the week ending 18th August 1877.

Proceedings of the Board of Revenue, Madras, No. 4034, *dated 29th August* 1877.

Read relief reports for the week ending 18th August 1877, from the Collector of Kistna, dated 21st August 1877, and from the Collector of Kurnool, dated 21st August 1877.

The relief reports for the Kistna and Kurnool districts for the week ending 18th August will be submitted to Government in continuation of Board's Proceedings, dated 24th instant, No. 3950.

2. *Prices and Rainfall.*—Prices in *Kistna* show a tendency to rise; there is a slight advance as regards rice at five stations and as regards cholum at seven, prices being stationary elsewhere. Ragi has risen at three stations and fallen at two; at Sattinapalli the rise is so considerable as to indicate the probability of error. Cumboo has risen at three stations and fallen at one. Rain was registered at every station and at all, except three, the fall ranged between an inch and two inches, the average being 1·29 inches. In *Kurnool* prices were stationary throughout the district with the exception of a slight rise in the prices of cholum and a fall in the prices of rice and ragi in Ramalkota taluk, a decline in the price of cholum at Nandial and an advance as regards ragi at Koilkuntla and Nandial. Rain fell in six taluks, but it was nowhere very heavy.

3. *Number on Relief Works.*—The total number on works in the *Kistna* district has not been reported, accordingly the figure for the previous week has been repeated in the general review. Numbers on the Commamur canal are stated to have fallen from 18,578 to 2,512, owing to the opening of the Romperu drainage work.

For *Kurnool* details are as follow:—

Taluks.	11th August.	18th August.	
Ramalkota	38,764	38,423	— 341
Nandikotkur	21,550	20,450	—1,100
Nandial	29,090	26,640	—2,450
Sirwell	20,131	20,035	— 96
Koilkuntla	25,565	24,922	— 643
Pattikonda	25,838	24,287	—1,551
Cumbum	46,703	41,198	—5,505
Markapur	12,705	16,271	+3,566
Total ...	220,346	212,226	—8,120

The decrease in Cumbum and increase in Markapur is due to the transfer of coolies from the former to the latter taluk for employment on the road from the Mantralu Ghaut to the Kistna frontier: the decrease elsewhere is due partly to relegation of infirm coolies to gratuitous relief and partly to transfers of gangs. The higher scale of wages was in force everywhere.

4. The following are the details for works supervised by the professional department:—

Taluks.	Number of Works.	Outlay. In the week.	Outlay. To the end of the week.	Number of coolies.
		Rs.	Rs.	
Ramalkota	19	8,823	1,66,293	11,034
Nundikotur	10	17,868	3,49,343	20,450
Nandial	6	7,033	2,35,521	15,969
Sirwell	8	18,687	4,84,235	20,035
Koikuntla	3	...	3,798	...
Pattikonda	27	5,381	57,445	7,124
Markapur	1	...	1,316	...
Total ...	74	57,794	12,97,951	74,612

5. *Gratuitous Relief.*—In the Kistna district the inmates of camps numbered 1,363 and recipients of village relief 5,880, the total being 7,243 against 5,966 in the previous week; the increase occurs chiefly in Narasarowpeta and is due to greater pressure. The mortality was eleven deaths in camps and five amongst those relieved in villages.

The *Kurnool* details are as follow :—

Taluks.	11th August.	18th August.	
Ramalkota	14,658	15,307	+ 649
Nandikotkur	9,773	9,634	— 139
Nandial	10,585	9,186	—1,399
Sirwell	8,012	8,356	+ 344
Koilkuntla	13,074	11,465	—1,609
Pattikonda	9,295	8,844	— 451
Cumbum	15,705	15,556	— 149
Markapur	5,130	5,676	+ 546
Total ...	86,232	84,024	— 2,208
In camps and relief houses	25,113	24,071	—1,042
In villages	17,819	23,803	+5,984
3-pie children	43,300	36,150	—7,150

The increase in the number of those in receipt of village relief is due to relegation from works and greater intensity of distress; the falling off in the number of three-pie children occurs chiefly in Nandial and Cumbum: explanation has been called for. The number of deaths during the week was 415; the death-rate in Ramalkota is still very high, but the proportion to the total is not so great as in the week before; there were 41 deaths among three-pie children, of which two-thirds are entered against Pattikonda. In camps and villages deaths numbered 245 and 129, respectively, or in the ratios of 519 and 323 per mille per annum. The expenditure on gratuitous relief was Rupees 40,230 during the week and Rupees 4,01,143 up to the end of the week.

C. A. GALTON,

Acting Secretary.

Statement showing the statistics of gratuitous relief in certain districts of the Madras Presidency for the week ending 18*th August* 1877.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 20TH SEPTEMBER 1877.

General Remarks.—In Madras moderate general rain is reported from every district; agricultural operations are actively progressing, and the surviving crops are in good condition; prices however have not fallen. The number on relief works is 708,255, and on gratuitous relief 1,633,437; the former is less by 64,839 and the latter more by 119,882 than last week. In Mysore there has also been good and general rain, and agricultural prospects are improved; the total number on works is 53,601 and on charity 221,176; the former is 100 more and the latter 5,881 less than last week. In Bombay there has been general but light rain in the Deccan, good rain in the Southern Mahratta Country, Násik, and the Konkan: in Guzerat a good fall is reported from Surat, but elsewhere only light showers; in Kattywar and Baroda there has been good but partial rain; in Sind there has been no more rain, and the river is very low; the crops are in good condition in the Southern Mahratta Country, Sholapur and Satara; in the North Deccan, Khandesh, Násik and Guzerat they are fair, but require more rain; in Sind the late rain did good, but the low state of the river causes anxiety. The numbers on relief works are 242,860 and on charity 170,380; the former is less by 37,867 and the latter more by 12,647 than last week. In the Central Provinces rain is required in Saugor, where rice and cheap millets have suffered much, Damoh, Nimár and Sambalpur; elsewhere prospects are good. In Berar there has been no rain, but the crops are in good condition; rain is wanted. No rain is reported from Central India; the drought continues at Gwalior and Neemuch, and emigration from the North into Malwa is increasing. In Rajputana there has been during the last fortnight good rain in parts of Marwar, Jeysulmere, Bikanir, Jhallawar, and parts of Harowtee, besides showers in Ajmere; in Ulwur prospects are very bad, and there is a general absence of fodder and pasture in all the North-Eastern States. In Bengal there has been heavy rain in the Eastern and Northern Districts, and good rain throughout Bengal proper, Chota Nagpore, and Orissa; prospects are favourable; in Behar prospects have improved, but more rain is wanted in Patna, Sarun and Champarun. In Assam there has been rain both in the valley and Sylhet, and prospects are good. In Burma the rainfall continues steady and abundant, and the crops are in excellent condition where not injured by floods. In the North-Western Provinces and Oudh no rain has fallen except trifling showers at Jhánsi; a steady dry west wind has blown throughout the week, and done great damage to the *kharif* crops, besides checking the sowings for the *rabi*; prices have risen in Rohilkhand, but are steadier elsewhere. In the Punjab the only rainfall has been a shower at Ráwalpindi; there is no improvement in prospects.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Vizagapatam (Sept. 17th)	·3	Rice 7·4, *cholum* 9·8, *raggi* 12·4, *cumboo* 16·3; camp 195 daily; private charity 3,060 daily.
Godavery („ „)	1·30	Rice 7·4, *cholum* 9·36, *raggi* 10·80, *cumboo* 14·84; dry and wet crops good; harvest of *korra*, *chama*, *gingelly* and *cumboo*, outturn from one-fourth to three-fourths; water over anicut 53 inches.
Kistna („ „)	2·23	Rice 6·78, *cholum* 9·21, *raggi* 10·02, *cumboo* 10·75; on works 8,586; children not reported; relief camps and houses 1,122; village relief 9,611; rain very useful for standing crops; *sajja* harvesting, outturn about three-fourths; the improvement in prospects continues, but prices continue high.
Nellore („ 15th)	1·49	Rice 5·77, *cholum* 7·17, *raggi* 7·86, *cumboo* 8·16; on works 23,368, and some supervised by Public Works Department unreported; canal 26,987; children 5,889; camps and houses 28,418; village relief 2,199; crops fair; agriculture active.

Bellary („ 15th)	1·2	Rice 5·47, *cholum* 6·03, *raggi* 6·53, *cumboo* 5·71; on works 104,289; children 17,291; camps and houses 28,882; village relief 228,976; dry and wet crops generally fair; harvest none.
Kurnool („ „)	·46 (average in 6 taluks.)	Rice 5·37, *cholum* 6·54, *raggi* 6·92, *cumboo* 7·24; on works 175,188; children 27,663; camps and houses 21,004; village relief 54,665; private charity about 5,700; surviving crops in fair condition; prospects have much improved lately; agricultural operations are briskly carried on.
North Arcot („ 14th)	1·52	Rice 5·8, *cholum* 6·7, *raggi* 6·5, *cumboo* 7·4; wheat 5·4; on works 82,499; children 18,226; camps and houses 23,526; village relief 86,913; crops generally good; harvest of paddy, *raggi* and *cumboo*, outturn poor.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*concluded.* South Arcot (Sept. 15th)	Rain general, average 1·68.	Rice 5·68, *cholum* 7·56, *raggi* 6·91, *cumboo* 9·29; on works 2,482; children none; in camps and relief houses 30,807; villages 40,508; continued freshes in all rivers; growing crops much improved; *raggi* flourishing, harvested in parts; *raggi, cumboo* and paddy, outturn rather poor.
Tanjore („ „)	2·34	Rice 6·0, *cholum* 8·93, *raggi* 8·87, *cumboo* 11·5; on works none; children 6,163; camps and houses 56,540; village relief 33,919; rivers nearly ¾; wet crops doing well; *car, cururai* and some dry grains harvested, yield moderate.
Trichinopoly („ „)	1·19 (average of district); good rain in Pudukotai.	Rice 5·26, *cholum nil*, *raggi* 7·85, *cumboo* 6·98; on works 7,533; children 1,392; camps and houses 6,408; village relief 1,195; dry crops benefited and tanks supplied by this good general rain; early paddy, *cumboo* and *raggi* harvested in several parts, outturn ⅝ average.
Madura („ „)	1·17	Rice 5·83, *cholum* 7·34, *raggi* 7·95, *cumboo* 8·16; on works 26,268; in camps and houses 23,629; village relief 54,872; children 5,701; the rain has fallen generally everywhere, good in some parts; some paddy harvested in Periacolum, *cumboo* in some villages of Melur.
Tinnevelly („ 17th)	Light rain in north ...	Rice 5·85, *cholum* 8·85, *raggi* 8·70, *cumboo* 8·85; camps and houses 18,053; village relief 3,900; private charity 5,542; wet crops generally good; crops under wells and dry crops drooping for want of rain.
Coimbatore („ 15th)	·99	Rice 5·97, *cholum* 6·90, *raggi* 7·61, *cumboo* 7·59; on works 27,866; children 2,896; camps and houses 189,311; village relief 29,163; crops where not already lost have improved from late showers; harvest of dry grains in parts, outturn in some places ½, in others ¼ and less.
Nilgiris („ „)	2·54	Rice 5·60, *cholum* 6·30, *raggi* 6·83, *cumboo* 6·52; relief works none; camps and houses 752; village relief 10; harvest of *gangee*, wheat, mustard and *samay*, outturn *samay* between ⅜ and ¼, rest ⅛.
Salem („ 17th)	2·91	Rice 5·52, *raggi* 6·55, *cumboo* 6·19, *cholum* 6·41; on works 48,970; children 90; camps and houses 137,480; village relief 174,440; private charity 40; cholera prevalent, small-pox in parts; dry crops fair in parts; labour number rising 20 per cent., due to commencement of fresh works; number in camps and houses rising 17 per cent., and village relief 20 per cent., due to large admissions owing to increase of famine.
Malabar („ 15th)	1·10	Rice 7·72, *raggi* 9·06; gratuitous relief 75; private charity 15,484; rain seasonable and sufficient; harvesting of *kani* crops continues, outturn above average; transplanting of *magarom* crop progressing.
Chingleput („ „)	4·0 in Trivellore; from 1·0 to 1·5 in Chingleput, and ·5 to 1·0 in other taluks.	Prices, rice second sort 6·29, *raggi* 7·06, *cumboo* 7·70, *cholum* 6·99; on relief works 24,093; gratuitous relief in camps 33,425, in other places 56,336. *General Remarks.*—General prospects much improved, but prices do not fall; total number fed gratuitously 1,633,437; total number on relief works 708,255; exports of grain from Madras by rail 8,402 tons during the week ending the 15th instant.
Bombay— (Sept. 20th) *Sind*— („ 19th) Kurrachee ...	On 3rd, 4th and 5th ·81 in Manora; ·73 in Dadu; 1·73 in Sehwan; 4·20 in Manjhand; 2·66 in Dula Khan; 4·96 in Tatta; 3·52 in Jerruck; 2·83 in Sakro; 5·33 in Kotri and Ghorabári; 3·62 in Keti; 3·10 in Mirpur Batoro; 3·43 in Belo; 3·70 in Játi; 6·38 in Shahbandar.	River on 17th 11 feet 8 inches, last year 16 feet 3 inches; freshes in Gaj filling all tanks and watering 1,150 acres, outlook very poor though improved by rain.
Shikárpur ...	...	No signs of rain; river only 9 feet; wheat crops looking well, but *maka* will suffer heavily; very little *rabi* cultivation is to be looked for; days hot, nights cool; fever and coughs prevailing.
Hyderabad ...	...	River fallen 5 inches since last report; crops require more water; fever in 3 talukas.
Upper Sind Frontier ...	...	Weather sultry; water-supply low; crops suffering owing to want of rain.
Guzerat— (Sept. 19th) Ahmedabad ...	·03	Total rainfall 14·36, more wanted; crops in good condition.
Kaira ...	Light showers throughout collectorate.	More rain required for rice; other crops doing well.
Surat ...	3·08 in all talukas except Jalalpur.	More rain wanted; cholera at Surat, Bulsar and Pardi, 6 deaths.
Broach ...	·48	Total rainfall 12·73, more wanted in Ahmod; *kharif* crops withered; public health good.

On page 2425 of the Supplement to the *Gazette of India* of 8th September, opposite South Arcot for "rice 5·5" read "5·85."

On page 2426 of the same Gazette, opposite Coimbatore for "*cholum* 6·84" read "6·83."

On page 2429 of the same Gazette, opposite Henzada in British Burma for "in Myanoung 136·0" read "36·0."

On page 2488 of the Supplement to the *Gazette of India* of the 15th September, in the rainfall column opposite Kurrachee for "20 in Manjhand" read "4·20."

On page 2489 of the same Gazette, in the rainfall column opposite Dharwar for "1·91 in Hangal" read "2·91"

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*concluded.*		
Khandesh and Násik—		
Khandesh ...		
Násik ...	Good rain in Igatpuri and Peint, little elsewhere; heavy showers in Násik on 18th.	Rain much required for *rabi* sowing; *kharif* crops tolerably good in 5 talukas, bad elsewhere; 65 deaths from cholera.
Konkan— (Sept. 19th)		
Tanna ...	1·13	Total rainfall 57·15, more wanted; condition of crops the same as before; cholera continues in 4 talukas.
Deccan— (Sept. 19th)		
Poona ...	·35 (average) ...	*Rabi* sowing commenced; few cases of cholera in Junnar, Sirur and Bhimthadi talukas and of small-pox in Junnar.
Ahmednagar ...	·32	Total rainfall 15·66, slight in 4 talukas; *rabi* sowing commenced in 6 talukas where *kharif* crops are good, middling in 2 talukas; rain urgently wanted in 4 talukas; 8 deaths from cholera.
Sholapur ...	·30	Total rainfall 27·26; 8 deaths from cholera; people suffer from high prices.
Satara ...	·44	Total rainfall since 1st June 15·0; rain has also fallen in other places; weather warm and cloudy; crops in good condition except in parts of Mán, Wai, and Jauli; 4 deaths from cholera.
Southern Mahratta Country—(Sept. 19th)		
Belgaum ...	·77 in Belgaum; 1·10 in Bidi; ·95 in Parasgad; ·42 in Sampgaon; ·15 in Gokák; ·14 in Chikori.	Total rainfall 33·53, fall general throughout district; crops doing well; rice requires still more rain; small grain crops, *bajri, savi,* and *raggi* will be reaped two weeks hence; no cholera.
Dharwar ...	·28 in Dharwar; ·68 in Mugud; ·48 in Hubli; ·99 in Nawalgand; ·39 in Nargund; 1·17 in Gadag; 1·95 in Mundargi; ·15 in Shiggaon; ·04 in Ranibennur; ·59 in Hangal; ·73 in Karajgi; ·81 in Kalghatgi; ·14 in Hirekerur; ·80 in Ron.	*Jowari* crops in flourishing condition everywhere; sowing of late crops and cotton progressing; fever prevails in 5 talukas; mortality among poor continues high.
Kanara ...	1·07 in Karwar ...	Total rainfall 60·67; 51 deaths from cholera.
Kaládgi ...	·99	Total rainfall 14·45, fall general; surviving *kharif* doing well, *bajri* and *rabi* sowing commenced; green grass slightly but generally available; cholera in 2 talukas, 16 deaths.
Kattywar and Gaekwar's Territory—(Sept. 19th)		
Rájkot ...	3·39	Total rainfall 12·63; prospects improved; fever increasing slightly.
Wadhwán ...	*Nil* in Wadhwan; some in districts.	Crops thriving where rain fell; health good.
Baroda ...	2·90	Total rainfall 20·29.
		General Remarks.—The rain which fell in Sind did good, but the low state of the river causes anxiety; in Guzerat crops as yet are fair, but more rain is wanted; in Konkan prospects are favourable; in North Deccan, Násik, Khandesh and Ahmednagar crops are tolerably good, but there as well as in Poona more rain is much required; in Sholapur, Satara, and the Southern Mahratta Country prospects are decidedly good; on works 242,860; on charity 88,347; young children 82,033; prices, *jowari* from 7¼ pounds per rupee in Karwar to 27½ pounds in Khandesh.
Bengal— (Sept. 20th)		
Chittagong ...	·16	
Noakholly ...	11·17	Health fair.
Chittagong Hill Tracts	14·32	
Hill Tipperah ...	5·50	
Backergunge ...	6·75	District healthier.
Furreedpore ...	3·20; 7·72 in Madareepore.	
Dacca ...	3·12	No rain since 13th.
Tipperah ...	1·87	
Mymensingh ...	9·78	
24-Pergunnahs ...	·87	Health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*concluded.*		
Jessore ...	5·33	
Nuddea ...	1·08	
Moorshedabad ...	6·27	
Pubna ...	7·24	Fever still prevalent.
Rajshahye ...	5·15	
Bogra ...	3·82	Fever less prevalent.
Maldah ...	16·22	Fever prevalent.
Dinagepore ...	3·22	
Rungpore ...	4·06	Health fair.
Cooch Behar ...	16·05	Health good.
Jalpáiguri ...	6·39	
Darjeeling ...	2·99	
Midnapore ...	*Nil*	Fever prevalent.
Howrah ...	5·02	
Hooghly ...	*Nil*	Health normal.
Burdwan ...	·87	Fever prevalent.
Bankoora ...	9·14	
Beerbhoom ...	8·76	
Sonthal Pergunnahs ...	9·12	
Bhágalpur ...	*Nil*	
Monghyr ...	*Nil*	
Purneah ...	1·93	
Durbhunga ...	·04	
Mozufferpore ...	·16	
Sarun ...	·28	
Chumparun ...	·37	Cholera decreasing.
Patna ...	*Nil*	Health good.
Gya ...	8·36	
Shahabad ...	*Nil*	
Hazáribágh ...	3·93	
Lohardugga ...	3·87	Health good.
Manbhoom ...	6·03	
Singhbhoom ...	4·01	District healthy.
Balasore ...	·23	Cholera ceased; cattle plague in several places.
Cuttack ...	·42	Cholera in town; cattle disease here and there.
Pooree ...	1·44	Cattle disease appeared.
		General Remarks.—Heavy rain of last week has done slight damage in places but generally much good; improved prospects in Darjeeling, Jalpáiguri, Cooch Behar, Dacca and Furreedpore; prospects in Behar also better, but more rain still wanted in Patna division, partially in Sarun and parts of Chumparun; rice crops in Manbhoom quite affected by blight.
N.-W. P. and Oudh—		
Benares (Sept. 19th)	No rain since 10th.	
Allahabad („ 20th)	*Nil*	Hot west wind.
Jhánsi ...	Slight showers on 15th and 16th at north; none elsewhere.	Prices rising; emigrants passing to Malwa at the rate of 30,000 a day.
Agra („ 19th)	*Nil*	No improvement in prospects of crops; prices steadier; emigrants' cattle dying on the roads; hot westerly winds still prevail.
Meerut („ „)	*Nil*	Hot west wind blowing.
Bareilly („ „)	*Nil*	Strong hot winds have blown, ruining *kharif* crops; prices rising steadily; wheat 9½ and gram 10½ Government seers per rupee; ploughing for *rabi* abandoned for want of rain.
Kumaun ...	...	Report not received.
Lucknow („ 20th)	*Nil*	Wind westerly and hot; mornings and evenings cool, but heat during day excessive.
Sitapur („ 19th)	*Nil*	Hot west wind.
Fyzabad („ „)	*Nil*	Crops suffered from heat and west wind; wheat 11 seers per rupee.
		General Remarks.—No rain has fallen from date of last week's report; strong westerly winds have blown steadily throughout the province to the ruin of the *kharif* crops; sowings for the *rabi* are also checked; prices have risen in Rohilkhand but elsewhere are steadier; large numbers of people are emigrating from Jhánsi to Malwa.
Punjab— (Sept. 19th)		
Delhi ...	*Nil*	Health good.
Hissar ...	*Nil*	Prospect of *kharif* hopeless; forage scarce; health good.
Umballa ...	*Nil*	No improvement to crops; health good.
Jullundur ...	*Nil*	Wheat at 16 seers.
Lahore ...	*Nil*	Health good.
Ráwalpindi ...	·3	Agricultural prospects little improved; health good.
Mooltan ...	*Nil*	Ploughing for *rabi* commenced; health good.
Pesháwar ...	*Nil*	Unirrigated crops failed; health good.
Dera Ismail Khan ...	*Nil*	Crops suffering; health good.
		General Remarks.—Slight rain at Ráwalpindi, none elsewhere; no improvement in the agricultural prospects during the past week; the general health continues good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Central Provinces—		
UpperGodávari(Sept.15th)	1·8	Cloudy, cool; crops improved by recent rain; *jowar* sowing continues; cholera slightly prevalent; prices risen considerably.
Sambalpur ...	1·60	Rice on high lands reaping; that on the low lands require more rain; prices steady.
Biláspur ...	3·65	Crops continue favourable; fever prevalent; prices steady.
Raipur ...	·43	Prospects continue favourable; health good; prices stationary.
Bálaghát ...	·68	Prospects very favourable; fever continues.
Chhindwára ...	2·30	Prospects favourable; *kodo* and *kutki* harvesting; fever continues; prices falling.
Chánda (Sept. 16th)	·17	Transplanting rice completed; health good; prices risen slightly.
Betúl („ 17th)	·30	Prospects favourable; health good; prices stationary.
Bhandára („ 18th)	4·78	Prospects very good; fever continues; prices stationary.
Nágpur („ 19th)	...	Clear; crops doing well; prices stationary.
Wardha ...	·45	Prospects excellent.
Nimár ...	*Nil*	More rain wanted; small-pox continues; prices slightly risen.
Hoshangabad ...	·41	Prospects continue favourable.
Narsinghpur ...	*Nil*	Crops look well; health good; prices fallen.
Jubbulpore ...	·09	Prospects good, but more rain wanted; fever prevalent; prices rising.
Saugor ...	·09	Rice, *kodo* and *kutki* utterly ruined; *jowar* and cotton good; crowds of immigrants from the North-West Provinces; prices rising.
Seoni ...	·05	Transplanting completed; health good.
Mandla ...	1·13	Prices slightly risen.
Damoh ...	·43	More rain wanted; prices stationary.
		General Remarks.—Rain required in Sambalpur, Saugor, Damoh and Nimár; rice and other inferior grain are reported to have been utterly ruined at Saugor for want of sufficient rainfall; prospects of *kharif* crops elsewhere continue favourable.
British Burma— (Sept. 20th).		
Arrakan Division—	12·0 in Akyab ...	Public health good; paddy crops promise well everywhere.
Pegu Division—		
Rangoon ...	5·36	Public health normal; water not yet fallen sufficiently to allow of replanting in Hlaing and northern parts of Hinawbee and Angyee townships; young plants not readily obtainable in western parts of Angyee; replanting commenced on higher grounds; elsewhere reports favourable; price of unhusked rice falling, but husked rice selling at Rs. 5 per basket retail in places; total rainfall 85·4 inches.
Thonkwa ...	Rainfall steady ...	Health generally good; crops excellent where not affected by floods; replanting in some parts damaged by floods.
Bassein ...	2·84	Health indifferent, fevers and bowel complaints prevalent; total rainfall 111·47 inches; ploughing and transplanting going on in central and southern half of district; river falling fast.
Henzada ...	2·97 during week ending 15th instant; 3·40 in Myanoung during week ending 8th; 3·70 in Mengyee during week ending 7th.	Total rainfall in Henzada 70·3 inches, in Myanoung 42·10, and in Mengyee 50·40; deaths from cholera in Kanoung township 22, in Myanoung 129, in Kyanghin 5; otherwise public health good; replanting progressing; crops prospects favourable.
Prome ...	·95	One death from cholera in Prome, 13 in Poungday township, 6 in Shwedoung; total rainfall 44·12 inches; cultivation progressing.
Thayetmyo ...	2·03	Four deaths from cholera in Thayetmyo; cultivation backwards; total rainfall 54·04 against 27·90 inches last year.
Tenasserim Division—	7·24 in Amherst; 2·89 in Tounghoo; 6·2 in Shwegyeen.	Public health good; replanting of crops progressing in Amherst and Tounghoo districts.
		General Remarks.—Slight cattle disease in Okpho, Tsannay, Monio and Tahpoon townships of Henzada district; no fall in prices of food-grains.
Assam—		
Gauháti (Sept. 20th)	1·05; occasionally heavy showers have fallen.	Weather unsettled; transplanting of *sali dhan* continues; prospects favourable; public health good.
Sylhet („ „)	6·44 ...	Prospects favourable.
Mysore and Coorg— (Sept. 20th.)	1·62 in Bangalore; 1·1 in Coorg; good showers have fallen generally in the province.	Agricultural prospects have been improved by recent rain; ordinary rice selling at Bangalore at 11 lbs. per rupee; daily average number of persons on relief works and charitably relieved as per statement last tabulated is in the—

Bangalore district, including the town ...	7,265	and	97,498
Kolar	4,260	„	19,664
Túmkúr	7,894	„	48,355
Mysore	867	„	3,893
Hassan	1,406	„	11,951
Shimoga	1,347	„	3,739
Kadur	556	„	2,740
Chitaldroog	5,159	„	33,336
Total ...	28,754	„	221,176

excluding those employed by the Professional Department, daily average of which is 24,847.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Hyderabad Assigned Districts—		
Amráoti (Sept. 20th)	*Nil*	Crops good; rain needed.
Central India— (Sept. 19th)		
Indore ...	*Nil*	
Gwalior ...	*Nil*	
Neemuch ...	*Nil*	
Rutlam ...	*Nil*	
Sutna ...	*Nil*	
		General Remarks.—Drought continues at Gwalior and Neemuch; emigration from north increasing daily.
Rajputana—		
Abu (Sept. 20th)	*Nil*	Sultry with occasional clouds; prices risen considerably.
Sirohi („ 16th)	...	Water-supply good in wells; health good; prospects not improved; cloudy.
Marwar („ 19th)	Very good rain in that portion of Mullani bordering Sind on 5th and 6th; also over three parts of Jesulmir on 7th.	In Jodhpore last two days hotter, otherwise no change.
Bikanir („ 8th)	*Nil* at Bikanir; good rain in certain districts.	Cloudy; occasional hot winds less severe; cholera disappeared in Koloo and adjacent villages; prices same as last week.
Meywar („ 14th)	...	Water-supply and health good; about two-thirds crops; winds, light clouds.
Harowtee („ 15th)	*Nil* in Deoli, Kota and Tonk; ·66 in Shahpura.	Grass drying; prices rising; prospects less favourable.
Jhallawar („ 14th)	·45	*Kharif* prospects good.
Ajmere („ 20th)	Slight showers in several parts.	High wind; prospects unchanged; cattle leaving in search of fodder; health good.
Bhurtpur („ 10th)	*Nil*	Wind westerly; prices rising.
Ulwur ...	*Nil*	Prospects very bad.
Nepal (Sept. 12th)	3·71	Agricultural prospects much improved; there has been good rain during the past week; towards the east of the valley the rice is maturing rapidly; unless the cold sets in too soon, an autumn harvest not much below the average will be secured.

RE AND COMMERCE.

Weekly condition report of the distressed districts of the Mysore Province.

PROVINCE OF MYSORE.

(*No.* 31.)

Condition report for the week ending 8th September 1877.

Bangalore District.—Markets well supplied, except in the Kankanhalli taluk where importation was slack. Good rain fell throughout the district, and from 1·35 to 4·85 inches were registered at the head-quarters of taluks. The crops have been much benefited by these showers and are reported to be generally in good condition. The prospects of the season have improved, late ragi has been sown and employment is beginning to be given in weeding. There has also been some improvement in the health of the people.

Kolar District.—Markets fairly supplied, except in two taluks, *viz.*, Gudibanda and Gumnayakanpalya. Prices at Kolar, rice 10 lbs., ragi 11½ lbs. per rupee. Rain fell in all the taluks of the district, the quantity gauged at the head-quarters thereof varying from 1 to 5·62 inches. Many tanks received a considerable supply of water. Crops have generally revived and are in tolerably good condition; but more rain is needed. Fevers and other diseases are still prevalent.

Túmkúr District.—Markets sufficiently supplied. Prices steady. Rain fell in all the taluks during the week, and from 50 cents to 5·56 inches were registered at their head-quarters. The tanks have been generally replenished, and there is much improvement in the agricultural prospects, especially in the Túmkúr taluk. The dry crops that survived the drought are beginning to revive, and irrigated crops are in good condition. Late ragi, horse-gram and sávé were sown during the week. But the number of persons on relief works and in relief camps has not diminished as was hoped, but has rather increased. Diarrhœa and dysentery are still prevalent.

Mysore District.—Markets fairly stocked with grain. Prices almost stationary. Light showers of rain fell throughout the district, the maximum quantity registered being 2·10 inches at Heggaddevankote. But it has been insufficient and too partial to improve materially the condition of the dry crops. Fresh sowings have been made in some places. Dysentery still prevalent and some cases of cholera.

Hassan District.—Markets continue fairly supplied, except in the Attikuppa taluk and in Manjarabad where ragi is hardly procurable. Prices fluctuating. Rain fell in all the taluks, but in some it was light: the quantity registered at the head-quarters of taluks varied from 15 cents to 3·87 inches. Crops in the Malnad and also below channels elsewhere are doing well; but those in the maidan are withering. Late ragi and horse-gram have been sown in parts of the Attikuppa taluk. Sugarcane has been cut in this taluk, and maize and gram have been reaped in Arkalgúd. Prospects remain unchanged. Fevers and dysentery prevalent and some cases of cholera.

Shimoga District.—Markets fairly supplied, except in the Honnali taluk. Prices unsteady. Rain fell generally throughout the district. The standing crops are generally in fair condition. Fresh sowings have been carried on in parts. Public health is indifferent owing to the prevalence of fever, dysentery and cholera.

Kadur District.—Markets sufficiently supplied, except in the Lakvalli taluk, where importation was slack. Prices pretty steady. There has been rain throughout the district varying from 66 to 7·6 inches at head-quarters of taluks. The standing crops are reported to be withering in some places, especially in the maidan taluks, for want of more rain. Fever and dysentery are still prevalent.

Chitaldroog District.—Markets continue fairly supplied, except in two taluks, *viz.*, Davangere and Budihal. Prices fluctuating. Good rain has fallen in all the taluks, the quantity registered at their head-quarters ranging from 32 cents to 5·30 inches. The tanks have received a supply of water, and six of them are said to have breachad in the Davangere taluk. The condition of

the crops is now reported to be good, and the prospects of the district have improved generally. Javari and ragi will be harvested in a short time and rabi is being sown. The numbers in the relief camps have slightly decreased. There is a good deal of fever, dysentery, &c., in several taluks, and some cases of cholera.

GENERAL REMARKS.

The reports for the week ending September 8th are encouraging. Rain has fallen over almost the whole province and has done much good; in the eastern portion of the province it has been constant and heavy, but has been lighter and more local in the central tract. The dry crops have everywhere revived, and are expected now to yield a moderate return, but their area is small. Late ragi has been sown in the three eastern districts, and will, if further rain is not withheld, mature in November or December. The tanks have all received some water and many are filled, so that the irrigated crops which depend on them are thriving; and preparations are everywhere being made to sow the rabi crops. Employment in the field begins to offer a means of subsistence to those who have been forced to look for support to the relief camps and relief works.

2. The number of persons employed on civil relief works was 28,754, being a decrease of 541 as compared with last week's return. The decrease is mainly in Bangalore (3,013) and Kolar (311). On the other hand, Túmkúr, where the famine has been developing itself with greater severity, has an increase of 3,045. The number of works is still very large and the average number of labourers on each is small. The amount expended during the week under report is returned as Rs. 23,271, making up a total expenditure on civil relief works of Rs. 12,69,163.

3. The number of people employed on works under officers of the Public Works Department was 24,847, an increase of 641 over the preceding week. There is a decrease of some hundreds on the tank works in the eastern districts, due to the people leaving the work for field operations; and an equal increase in the dry central tract, especially in Chitaldroog. Several Engineers in the districts report cheerfully both on the prospects of the crops and the tanks, and on the improved spirits of the people. The expenditure of the week has not been reported.

4. The number of persons gratuitously relieved has fallen from 227,067 to 221,176, a decrease of 5,891. There has been an increase of 3,000 in Tumkur, 1,500 in Hassan, and 700 in Shimoga; a decrease of 1,400 in Kolar, 2,000 in Chitaldroog, 1,800 in the Mysore Municipality and 5,600 in the Bangalore Municipality. The decrease is probably due, as stated above, to the scattering of people to their fields the moment any hope of field-employment arose. The numbers relieved during the past week were composed as follows:—

Men	...	...	55,275
Women	...	...	86,951
Children	...	...	78,950

Labour was exacted from 32,000 of these.

The expenditure of the week was Rs. 1,33,165, or Rs. 0-9-8 per head. The cost in each district was as follows:—

		No.	Cost. Rs.	Average cost per head. Rs.	A.	P.
Bangalore district ...	...	63,025	35,334	0	9	0
Kolar " ...	...	19,664	11,967	0	9	9
Túmkúr " ...	...	48,355	38,128	0	12	7
Mysore " ...	...	2,601	2,573	0	15	10
Hassan " ...	...	11,951	9,618	0	12	11
Shimoga " ...	...	3,739	3,116	0	13	4
Kadur " ..	...	2,740	1,984	0	11	7
Chitaldroog " ...	...	33,336	20,655	0	9	11
Bangalore Municipality	...	34,473	9,134	0	4	3
Mysore "	...	1,292	646	0	8	0
Total	...	221,176	1,33,165	0	9	8

The reason for the variations in average cost is that in many cases the amount paid out in cash is shewn, and not the actual expenditure. This will be corrected in future.

5. The weight of grain imported by rail was—

	Tons.
During the preceding week	5,634
During the week under report	4,986
Decrease ...	648

The imports were drawn from the following places :—

	Tons.
Madras	3,946
Beypore, Malabar and Coimbatore districts ...	505
Trichinopoly, Tanjore and Negapatam	504
Other places	31
Total ...	4,986

6. The exports from the town of Bangalore were registered by the octroi officials as follows:—

	Tons.
Towards Túmkúr	884
„ Bellary and Chitaldroog	456
„ Mysore	415
„ Oossoor (Salem district)	139
To taluks adjoining Bangalore	432
Total ...	2,326

or 246 tons less than in the preceding week.

7. The maximum and minimum prices in the different districts were as follows:—

	Maximum in lbs. per rupee.		Minimum in lbs. per rupee.	
	2nd sort rice.	Ragi.	2nd sort rice.	Ragi.
Bangalore district ...	10	13	8½	10
Kolar „ ...	10¾	14	8¼	11
Túmkúr „ ...	9½	11½	8	10
Mysore „ ...	9	14	7½	10
Hassan „ ..	9	11	8	9
Shimoga „ ...	10½	9	6½	8
Kadur „ ...	9	10	7	10
Chitaldroog „ ...	9½	11	6½	8½

The prices for rice are slightly lower than in the preceding week, but there is hardly any variation.

"By Order,"

A. WINGATE,

Additional Secretary.

Satara ...	4,988	2,682	10,64,002	4,61,000	Crops in good condition, except in parts of Man, Wai and Jauli. Grain supply sufficient. 4 deaths from cholera.	Ditto ...	18,538	17,153	1·61	11,74,876	10,02,869	Jowari ... 39 Bajri ... 35	$11\frac{1}{2}$ 12	$12\frac{1}{4}$ $12\frac{3}{4}$	54·60	25·43	29·99
Kaládgi ...	5,695	5,695	8,16,037	8,16,037	There has been sufficient rain. Surviving kharif doing well; rabi sowing commenced. 16 deaths from cholera.	Ditto ...	‡92,676	87,619	10·73	30,43,021	20,57,922	Jowari ... 56 Bajri ... 76	$8\frac{1}{3}$ $8\frac{1}{2}$	$9\frac{1}{2}$ $9\frac{1}{4}$	22·43	6·13	12·39
Belgaum ...	4,591	2,660	9,38,750	5,01,000	General rain throughout the district. Crops doing well. Rice requires still more rain. Area of grain crops limited. Bajri, savi and ragi will be reaped two weeks hence. Grain supply sufficient. No cholera.	Ditto ...	23,301	21,668	2·30	12,23,281	8,82,720	Jowari ... 43 Bajri ... 54	$10\frac{1}{2}$ ...	12 ...	30·48	21·34	19·91
Dharwar ...	4,564	3,000	9,88,037	6,30,000	Rain continues. Jowari crops in flourishing condition everywhere. Sowing of late crops and cotton progressing. Rapid decline in prices: local stocks opened and coming to market. Migration to western talukas decreasing.	Ditto ...	32,308	33,410	3·38	13,27,574	10,96,935	Jowari ... 43	9	14	26·39	13·81	15·43
Total ...	54,355	34,183	79,63,92[illegible]	50,18,992			2,50,82[illegible]	2,41,314	3·03	1,43,79,330	92,12,696						

* Such as digging and repairing wells, prickly-pear clearances, &c. † All the labourers upon the Dhond-Manmad Railway have been included under Ahmednagar. ‡ Corrected figures given.

§ Rates not reported. ‖ For details and dates see table appended. ¶ Last week's figures are given, no report from Sholapur having been received this week.

The week's telegraphic news from Sholapur, Kaládgi, Belgaum, Dharwar and the greater part of Satara, is satisfactory. The kharif crops, though small in area, are in good condition; the sowing of winter crops progresses; and prices are steadily falling.

2. In the rest of the affected districts the rain, so urgently needed in some places, is still withheld, and prices show no marked improvement.

3. The number of people upon relief works is again less, being now under a quarter of a million. The numbers are fewer everywhere except Poona, Sholapur and Dharwar, where the numbers have slightly increased.

4. Cholera still continues to decrease very considerably.

5. The table showing the rainfall and prices in each taluka is appended.

6. The following table gives the expenditure by Government, during the week ending 1st September, upon gratuitous relief, and in payments made to the young children of labourers employed upon relief works. Comparing the results shown in the table below with those shown in the last Summary, it will be seen that the number of persons in receipt of Government charitable relief has increased from 76,541 to 88,347, while the number of children under 7 years of age has increased from 81,192 to 82,033. The number of people charitably relieved was 30·46 per cent. of the number of labourers upon relief works during the same week :—

Districts.	Collector's discretionary grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116 of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.		
	Average number of persons relieved during the week.	Expenditure during the week.	Total expenditure up to date.	Average number of children, and of women taking care of them.	Expenditure during the week.	Total expenditure up to date.

* Returns incomplete. † Collector's return not received.

‡ No expenditure has been incurred by the Collector or the Executive Engineer.

7. The following table gives the distribution of the people among the relief works under the Public Works Department in the nine affected districts employing 1,000 labourers, or more, during the week ending 8th September. It will be seen that 2,08,566, or more than four-fifths of the labourers, were concentrated upon the works enumerated :—

Districts.	Works.	Number of labourers.	Total.	REMARKS.

	GRAND TOTAL ...	...	2,08,566	

8. Tables (A) and (B) are appended as usual. It will be seen that, during the week ending 8th September, the number of people upon Civil Works in the nine affected districts was 24,064, the number upon works under Public Works Department Agency being 225,126. The proportion of people upon the former is, therefore, about 10 per cent. of the total. It is to be noted that the figures given in these tables are taken from the progress returns of the works, and are brought up to the week ending 8th September, while the figures in the table prefixed to this Summary are taken from the Collector's telegrams, and refer to the week ending 15th September. It will be seen that the number of persons now on relief works is less by 155,191 than the number in the week ending 9th June—the period in which the number was highest.

9. Maps are not sent with this Summary.

10. A table is appended, showing the condition of the affected Native States.

11. With regard to the movements of food-grains, 1,422 tons were exported from Bombay to the Southern Mahratta Ports during the week ending 15th September, and during the same period 5,965 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusawal-Násik lines, making a total of 7,387 tons for the week. This is an increase of 2,416 tons over the importations of last week, but is less than that of the week preceding. The table below shows the quantities of grain sent by sea and rail from October till the 15th September to the Southern Mahratta Ports and the Railway Stations in the distressed districts. It will be seen that the total amount delivered up to the 15th September was 405,652 tons :—

Food-grains sent to	In October, November and December 1876.	In January, February and March 1877.	In April and May 1877.	In June 1877.	In July 1877.	In August 1877.	In September up to 15th.	Total.
	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.
Southern Mahratta Ports ...	44,215	46,332	50,056	4,491	857	15,204	2,458	163,613
South-Eastern line, from Poona to Sholapur ...	67,195	41,708	25,450	20,348	20,484	21,506	8,827	205,518
North-Eastern line, from Bhusawal to Násik ...	12,829	7,471	3,567	2,014	1,521	8,043	1,073	36,521
TOTAL ...	124,239	95,511	79,073	26,853	22,865	44,753	12,358	405,652

12. Detailed information by weekly written report has been received from the different Collectors, from dates varying from the 1st to the 15th instant. These reports represent the crops as being in good condition everywhere, except in one tract of country comprising the greater part of Násik, the north-western part of Ahmednagar, and the northern part of Poona. Throughout this tract rain is much wanted both to save the kharif and to enable rabi crops to be sown. Unfortunately, the later telegraphic news shows little improvement in this direction.

13. There has been a net decrease of 9,399 in the number of people upon relief works, and an increase of 841 in the number of young children. There has also been an increase of 11,806 in the number of people upon charitable relief.

14. The improvement in the general situation continues, but the prevailing high prices press severely upon the poorer classes.

C. J. MERRIMAN, Colonel, R. E.,
Acting Secretary to Government.

Telegraphic returns of more recent rain have been received, but cannot yet be properly collated.

The monsoon set in on the 19th June above Ghauts.

* The figures for Sholapur are for the ending 1st September, later returns not being available.

† This is chiefly eastern rain.

‡ For the week ending 25th August.

Relief Reports for the week ending 18th August 1877.

Proceedings of the Board of Revenue, Madras, No. 3950, dated 24th August 1877.

The relief reports for the week ending 18th August will be submitted to Government with the usual statements and maps.

Statements.

No. 1. Prices.
„ 2. Relief report.
„ 3. Talukwar abstract of relief.
„ 4. Statistics of gratuitous relief.
„ 5. Talukwar ditto.
„ 6. Number and description of works.
„ 7. Works under the supervision of Public Works Department.
„ 8. Memo. of sums sanctioned.
„ 9. List of special establishment.
„ 10. Imports of grain.

Maps for—

Bellary.
Cuddapah.
Nellore.
South Arcot.
Coimbatore.
Chingleput.
North Arcot.

2. *Prices.*—The district averages show an upward tendency, but it is generally slight; in the Kistna and Madura districts all grains are dearer, and in Nellore, Kurnool, Chingleput, South Arcot, and Trichinopoly two out of the three principal dry food-grains have risen; on the other hand, there is a fall in the prices of all dry food-grains in Tinnevelly and Salem and in two out of three in Coimbatore. Turning to details for the several districts, the market in *Nellore* appears to be for the most part steady; at Venkatagiri there is a general fall; at Darsi a general rise in prices; at Ongole two out of three dry grains have declined; at Atmakur the same proportion has advanced. In *Cuddapah* the fluctuations are nowhere marked, but ragi and rice have gone up slightly, cholum is stationary; in *Bellary* prices have risen again at Hindupur, also at Anantapur; at Harpanhalli there is a slight advance as regards rice, only 4·73 seers being procurable for a rupee. In *Chingleput* prices have risen in the sub-division, in *North Arcot* the same feature is observed in Vellore, Arcot, Palmanair, and Punganur; at Tripatty there is a fall in dry grains, whilst at Maderapauk they are apparently not procurable; in *South Arcot* there is no particular change; in *Trichinopoly* dry grains have risen at head-quarters and are apparently still not procurable at Kulitalai and Udayarpoliem; this should be explained; the same remark applies to the sub-division and Melur in *Madura* and Ottapidaram and Nanguneri in *Tinnevelly*. In *Coimbatore* rice has reached 4·27 seers per rupee; in Collegal it has also risen at Dharapuram; in other respects there is a tendency to fall; in *Salem* also prices are generally stationary.

The highest and lowest prices for rice and the dry grain most commonly in the use are given in the margin.

Districts.	Rice, 2nd sort.		Dry grains.	
	Highest.	Lowest	Highest.	Lowest.
Nellore	5·25	6·50	*7·00	8·00
Cuddapah	4·98	6·22	*5·62	7·50
Bellary	4·73	6·21	†5·02	6·70
Chingleput	6·11	7·00	*6·84	7·53
North Arcot	4·90	6·50	*5·30	10·90
South Arcot	5·25	7·00	*6·36	7·95
Trichinopoly	5·07	6·16	*6·55	7·86
Madura	6·19	6·76	*7·75	8·52
Tinnevelly	6·20	6·90	†8·20	10·00
Coimbatore	4·27	7·24	*5·88	10·01
Salem	5·13	6·35	*4·97	7·69
Malabar	5·63	8·75	*7·33	11·37

* Ragi. † Cholum.

3. *Rainfall.*—Rain was registered in all the distressed districts, but, except in the Kistna, where there was an average of an inch and a quarter, and Malabar, where it reached 9½ inches, the falls were light and partial. In *Nellore* showers fell in seven divisions, in *Cuddapah* in six, and *Bellary* in seven, about an inch and three-quarters being gauged at Gooty. In *Chingleput* there was a good fall at Madrantacam and slight showers in four other taluks; in *North Arcot* no less than nine divisions were visited with rain, but the fall was light; in *South Arcot* there were showers in five taluks, and in *Trichinopoly* in three. In *Madura* and *Tinnevelly* there was a mere sprinkling. *Coimbatore* shows a good fall at Pollachy and showers in two taluks, whilst in *Salem* five taluks received a light fall. More rain is urgently needed everywhere, and the account of the condition of the crops given in the Collector's season telegrams for the week is not more cheering than the description for the previous week.

In *Vizagapatam* the rain is insufficient, and seedlings are dying; in Godavery and Kistna, however, the recent rains have revived the standing crops; in *Nellore* dry crops not irrigated from wells are withering, except in Polur and Udayagiri; the same description is given of their condition in Cuddapah, the northern parts of *Bellary, Trichinopoly*, Madura, Coimbatore, the Nilgiris, and Salem; in North Arcot the crops are poor, and in *South Arcot* stated to be in a critical condition, in *Kurnool* those which have survived are so far in fair condition, and in *Tinnevelly* the standing crops are generally good, but more rain is required in those districts also. In *Chingleput* pasturage is insufficient and water failing. In a few districts where the harvest has commenced the outturn has proved very poor, and prospects are generally gloomy.

4. *Grants and outlay.*—The grants up to the 18th August aggregate Rs. 2,51,68,493, and the outlay was as follows:—

	In the week.	Up to the end of the week.
	Rs.	Rs.
Relief works	7,13,728	2,08,36,620
Gratuitous relief	5,40,072	45,14,502
Total ...	12,53,800	2,53,51,122

E

5. The number and description of works completed and in progress during the week are as shown below:—

	In Progress.		Completed.	
	Number.	Length in miles.	Number.	Length in miles.
Roads—				
New Works	515	3,402	168	755
Repairs	497	4,350	146	754
Total ...	1,012	7,752	314	1,509
Irrigation—				
New Works	84	...	34	...
Repairs	1,378	...	367	...
Miscellaneous	4,198	...	3,614	...
Total ...	6,672	...	4,329	...

6. *Numbers on Relief Works.*—The following figures show the numbers in each district on relief works as compared with the total for the preceding week:—

Districts.	11th August.	18th August.	
Kistna	17,000	17,000	...
Nellore	27,516	37,931	+ 10,415
Cuddapah	142,728	140,175	— 2,553
Bellary	319,824	277,070	— 42,754
Kurnool	220,346	212,226	— 8,120
Chingleput	26,783	28,951	+ 2,168
North Arcot	58,457	64,474	+ 6,017
South Arcot	817	729	— 88
Trichinopoly	2,425	6,375	+ 3,950
Madura	27,116	27,785	+ 669
Coimbatore	27,874	29,725	+ 1,851
Salem	56,882	49,791	— 7,091
Total ...	927,768	892,232	— 35,536
Buckingham Canal	40,857	40,999	+ 142
Junction Canal ... { Under the Executive Engineer ...	4,286	4,150	— 136
Junction Canal ... { Under the Commissioner of Police...	1,596	2,447	+ 851
Employed under the Commissioner of Police on other works...	10,399	12,581	+ 2,182
Underthe President, Municipal Commission ...	2,448	2,338	— 110
Total ...	987,354	954,747	— 32,607

There is a net decrease of 32,607, for which *Bellary* is mainly responsible, the cause being extensive transfers from the works to village relief in Adoni. In *Kurnool* and *Salem* also there is a considerable falling off; in the former case it is not explained; in the latter it appears to be chiefly due to a temporary stoppage of works during transfer to the Public Works Department. In *Nellore* there is an increase of more than ten thousand, which is not explained; it occurs principally in Udayagiri taluk, and is due to transfers from the canal in consequence of the approaching completion of the work in hand before the receipt of the orders of Government directing the continued employment of the labourers in deepening it. Numbers on the Buckingham Canal are stationary; the districts to which the coolies belong are shown in the margin. Those employed under the supervision of the professional department elsewhere numbered 2,555.

Districts.	Forwarded by the R. D.	By P. W. D. Recruiters and Contractors.	Total.
Nellore	274	33,001	33,275
Cuddapah	2,455	1,126	3,581
Kurnool	1,217	...	1,217
Bellary	2,483	388	2,871
Kistna	55	...	55
Total ...	6,484	34,515	40,999

7. In *Cuddapah* there is a slight decrease on the whole, though numbers rose in the sub-division; this is ascribed partly to the removal of inefficients and partly to coolies leaving the works for the harvest. The figures for each taluk are given in the margin. *Bellary* shows a large falling off; as already stated, this is due to the removal from the works in Adoni of a large number of strangers who have been relegated to their own country and transfer of inefficient labourers to gratuitous relief. The decrease in Dhurmaveram and Bellary appears to be also due to transfers to gratuitous relief; the increase in Raidrug seems to be nominal and the result of greater completeness of the returns. The numbers on the Bellary-Hubli Railway were 9,033, of whom 5,348 belonged to Bellary taluk and 3,685 to Hospett.

Taluks.	11th August.	18th August.	—

8. Details for *Kurnool* are not as yet available. In *Chingleput* the increase occurs chiefly in Madrantacam; numbers on the Chingleput-Conjeveram Railway remained the same as in last week, *viz.*, 25,316. In *North Arcot* the increase is general throughout the district; owing to the omission of the Kalastri returns it is considerably understated; probably nearly 5,000 must be added; in *Trichinopoly* increasing distress and an influx of destitute poor from neighbouring districts have swelled the numbers; in *Madura* there was a large accession of numbers in Tirumangalam, but a corresponding falling off in Pulni; the increase in *Coimbatore* is due to greater pressure; the falling off in *Salem* is ascribed to temporary stoppage of work during the completion of arrangements for transferring the supervision to the Public Works Department.

9. The total number of famine coolies working under the supervision of the Public Works Department during the week was 227,039 against 226,239 in the previous week, excluding North Arcot, for which no information has been furnished.

10. The enhanced rate of wages appears to be in force everywhere except parts of Jammalamadugu in *Cuddapah*, Chendragiri, Wallajah, Trittany, Arconum, and Maderpauk in *North Arcot*, and Rapur and Venkatagiri in *Nellore*. The reason for the existence of the lower scale in these places has not yet been explained; the cause of the multiplicity of rates in Jammalmadugu and Pulivendla should be stated.

11. *Gratuitous relief.*—The following are the district totals:—

Districts.	11th August.	18th August.	
Kistna	1,102	7,243	+ 6,141
Nellore	54,114	59,747	+ 5,563
Cuddapah	129,458	128,216	— 1,242
Bellary	206,055	225,702	+ 19,647
Kurnool	86,232	84,024	— 2,208
Chingleput	83,342	84,554	+ 1,212
North Arcot	96,502	101,893	+ 5,391
South Arcot	82,383	85,133	+ 2,750
Trichinopoly	5,557	7,094	+ 1,537
Madura	51,373	50,801	— 572
Tinnevelly	5,968	8,915	+ 2,947
Coimbatore	134,554	147,249	+ 12,695
Nilgiris	157	514	+ 357
Salem	134,028	195,454	+ 61,426
Malabar	78	67	— 11
Total ...	1,070,973	1,186,606	+115,633
In camps and relief houses	430,966	443,728	+ 12,762
In villages	460,526	573,754	+113,228
Three-pie children	178,379	161,881	— 16,498
Kistna*	1,102	7,243	+ 6,141

* Particulars not given.

There is again a formidable increase in the number of those admitted to gratuitous relief; of the net increase amounting to one hundred and fifteen thousand, Salem contributed more than half, in Bellary and Coimbatore also numbers rose considerably. The greater portion of the increase occurs under the head of village relief. There was a large decrease in the number of children in receipt of subsistence allowance on the works; it occurs chiefly in Bellary and Kurnool; numbers fell off considerably in Madura also. Of the 43 deaths amongst the children on the works 41 are entered against Kurnool.

12. The marginal figures show the progress of measures taken for the extension of gratuitous relief, the figures for the past week being adopted for the Kistna district. The increase in the number of relief centres recurs in Coimbatore and Salem, 26 having been newly opened in the former district and 22 in the latter. In *Nellore* nearly half the increase occurs in the number of children in receipt of subsistence allowance on the works. In *Cuddapah* the decrease is not real, there being a large falling off in Royachoti owing to defective returns. In *Bellary* there is a net increase of nearly 20,000, the result of an increase of about 33,000 under the head of village relief, and of a decrease of 3,000 and 10,000 respectively under camps + three-pie children; this is due chiefly to the large transfers from the works to village relief in Adoni; detailed statements have not yet been received for Kurnool. In *Chingleput* the returns for Sydapet showed an excess of nearly 8,500 over the true total owing to an error; the increase during the week under review is therefore really about 9,700; it occurs mainly in Madrantacum and Trivellore; in *North Arcot* also the total is under-stated owing to the omission of figures for Kalastri (4,663 last week) and to an unexplained decrease of 4,400 in Narayanavanam, which will probably prove to be due to an error; in *South Arcot, Trichinopoly* and *Tinnevelly*, the figures do not call for particular remark; distress is being more intensely felt.

	11th August.	18th August.	
Number of relief centres ...	545	597	+ 52
Inspection circles formed ...	790	793	+ 3
Villages in which relief was given	9,374	9,387	+ 13

In *Madura* numbers in camps in Periakolam have diminished by one-half owing to some having been drafted to works and others sent to their villages; in *Coimbatore* there is a large accession of numbers in the sub-division, which is the part of the district most severely affected, whilst in *Salem* the bulk of the increase is due to the admission of 45,000 additional distressed persons to village relief in Darampuri; in this taluk, out of a population of 190,000 nearly 80,000, or 42 per cent., are in receipt of gratuitous relief. A report from Mr. Puckle, just received, states that the condition of the taluk resembles that of the most distressed parts of Cuddapah and Bellary, which sufficiently accounts for the large numbers on the hands of Government. The taluks of Salem, Tripatore, and Kistnaghiry also show a considerable increase. The returns for the Nilgiris were received at the last moment; they should reach the Board's Office on Thursday at latest.

13. The following statement shows the ratio of reported mortality calculated on the average strength for the week under review and that preceding. The death-rate in Cuddapah and North Arcot continues very high :—

Districts.	Camps and Relief-houses.			Village relief.		
	Approximate strength.	Deaths in the week.	Ratio per mille per annum.	Approximate strength.	Deaths in the week.	Ratio per mille per annum.

North Arcot ...	2,015,278	64,474	101,893	166,367	8·25
South Arcot ...	1,755,817	729	85,133	85,862	4·89
Madura	2,266,615	27,785	50,801	78,586	3·47
Coimbatore	1,763,274	29,725	147,249	176,974	10·04
Salem	1,966,995	49,791	195,454	245,245	12·47
Total ...	16,061,814	909,856	1,162,773	2,072,629	12·90

* Inclusive of those employed on the Buckingham Canal.

15. Grants sanctioned by the Board up to date aggregate Rs. 2,68,78,493.

16. The following statement shows transactions under the Land Improvement Act:—

	In the week.	Up to the end of the week.
	Rs.	Rs.
Nellore	2,600	1,01,873
Cuddapah	1,400	1,39,512
Bellary	16,147	3,16,053
Kurnool	...	12,554
Chingleput	9,033	1,22,354
North Arcot	7,445	47,876
Madura	3,430	81,561
Tinnevelly	...	32,900
Coimbatore	4,227	28,126
Salem	4,418	1,19,357
Total ...	48,700	10,05,166

Advances to weavers are noted below :—

	Rs.	Rs.
Cuddapah	722	11,382
Bellary	5,382	75,677
Madura	3,980	14,939
Coimbatore	3,715	20,154
Salem	9,858	3,33,510
Total ...	23,657	4,55,662

There is some error in the figures for *Cuddapah* and *Bellary*, as the total of both descriptions of advances does not correspond with the totals for the previous week *plus* grants made during the week under report. The correct amounts should be reported.

17. The usual statement of establishments is enclosed; the total monthly cost was Rs. 1,36,305; figures for Bellary, Kurnool and Salem for last week are repeated, returns for this week not having been received.

Chingleput ...	6,356
North Arcot ...	5,029
Nellore ...	933
Other districts ...	443
	12,761

Junction canal ...	2,447
Cooum shoals ...	4,322
Powder Mills ...	4,895
Merchant's Magazine ...	625
Repairs of Vysarpady tank...	1,070
Expense Magazine ...	208
Excavating gravel ...	1,461
	15,028

18. The average strength of resident paupers in Madras camp was 12,444 and of non-residents 13,638. Of the 12,761 paupers resident on the 18th August, the districts marginally noted contributed as shown against each. The fresh admissions during the week were 6,275, of whom 2,966 belonged to Chingleput, 2,202 to North Arcot, and 1,021 to Nellore. The numbers employed on various works outside the camps are given in the margin. Except as regards the junction canal it is not known how many of these labourers were supervised by the professional department. The Commissioner of Police will be requested to supply the information in future. The strength in hospital on the 18th August was 888; deaths numbered 215 (of which 203 took place in hospital), or in the ratio of 865 per mille per annum. The outlay during the week was Rs. 33,838 and up to the end of the week Rs. 8,18,776. The president of the municipality had 3,413 paupers in the Sattangad relief camp on the date abovementioned and 2,338 on works. His expenditure during the week was Rs. 1,825 and up to the end of the week Rs. 76,251.

19. As information regarding the imports of food-grains into the Presidency may prove of interest, the Board submit an additional statement showing the importations of rice, paddy, and other grains separately for each maritime district during the week ending 22nd August, and the total imports from 1st May 1876 up to the same date, with an abstract showing the countries whence the grain was exported. The figures for the week comprise the imports at the principal ports (which have been selected for the purpose of the weekly telegram to the Government of India) up to Wednesday last, the returns of the previous week being taken for the minor ports. This statement shows the imports during the week at 20,333 tons.

(True Extract.)

C. A. GALTON,
Acting Secretary.

F

Maps for—

South Arcot.	Chingleput.
Coimbatore.	Madura.
Nellore.	North Arcot.
Bellary.	

The relief reports for the week ending 25th August will be submitted to Government with the usual statements and maps.

2. *Prices.*—The advance noticed in last week's report still continues, but it is so slight in most districts as scarcely to affect the average; it is most noticeable in the Kistna district. Cumboo has fallen slightly in five districts, the marked decline in Chingleput is of no significance, it being only a single quotation. Turning to details for districts, the fluctuations in *Nellore* do not call for remark; in *Cuddapah* rice has risen in the Subdivision and is not quoted at all for Kamalapore, where apparently ragi only is procurable; dry grains are for the most part stationary; in *Bellary* rice has risen at six stations and cholum generally; the quotations for Hurpenhally are exceedingly high, only 4½ seers of rice and cholum and 3⅞ seers of cumboo being procurable for a rupee; *Chingleput* calls for no remark; in *North Arcot* rice has fallen at four stations and dry grains are cheaper at Vellore and Arcot, but have risen at Gudiattum, a few miles further down the line; in *South Arcot* the upward tendency as regards rice is general; in *Trichinopoly* dry grains are not quoted except at headquarters; for some time past the absence of quotations in this district has attracted notice: the Collector should explain the cause; in *Madura* the market is steady; in *Tinnevelly* cholum has risen at Sattur and Sankaranainarkovil and for Ottapedaram and Nanguneri dry grains are not quoted; in *Coimbatore* there is a slight fall in the price of rice at Collegal, but a rise at five stations; there is a marked fall as regards cholum and ragi at Pollachy; in *Salem* there is no material change; dry grains are apparently still not procurable at Oossoor. The highest and lowest prices for rice and the dry grain most commonly in use are given in the margin.

Districts.	Rice, second sort.		Dry grains.	
	Highest.	Lowest.	Highest.	Lowest.
Nellore	5·00	6·25	* 6·50	8·75
Cuddapah	4·56	6·22	* 5·25	7·50
Bellary	4·59	5·94	† 4·51	6·70
Chingleput	6·11	6·79	* 6·41	7·19
North Arcot	4·90	6·80	* 5·30	7·30
South Arcot	5·25	7·00	* 5·56	7·95
Trichinopoly	5·07	5·80	* 6·88	6·88
Madura	6·19	7·18	* 7·75	9·69
Tinnevelly	6·40	6·70	† 7·50	9·90
Coimbatore	4·48	7·24	* 4·78	10·66

Salem	5·13	6·35	* 5·91	7·69
Malabar	5·63	8·75	* 7·33	11·37

* Ragi. † Cholum.

3. *Rainfall.*—Rain was registered in all the distressed districts except Tinnevelly, but it was everywhere very light, the average for Malabar even being only 1·15 inches for the week.

In *Nellore* there was but a light shower in the north; in *Cuddapah* rain was gauged at seven stations and in *Bellary* at six, but the fall nowhere exceeded half an inch and in most cases amounted only to a few cents; in *Chingleput* there was a good fall in Conjeveram and a slight sprinkling in all the other taluks; in *North Arcot* there was very heavy rain at Wallajah, five inches having been gauged; good falls of an inch and more were also registered at Polur, Arcot, Chittoor, and Madupauk, and light showers at six other stations; in *South Arcot* the influence of the monsoon was generally felt; there was a good fall at Virdachellam and nearly an inch at three other stations; in *Trichinopoly* there were very heavy falls of 2½ and 3½ inches, respectively, at Perambalur and Udayarpoliem and good showers elsewhere; in *Madura* all taluks, except Pereacolum, received some rain, but the falls were light; in *Coimbatore* there was only a slight sprinkling and no rain was recorded at Pollachy; in *Salem* there were good showers at Ahtur and Darampuri and a heavy fall on the Nilgiris. Notwithstanding the rain which has fallen the telegraphic season reports for the week unanimously affirm that more is required to save the crops dependent solely on the falling rain from perishing and secure anything like a fair outturn. The showers appear to have been too light and partial, and though they have been of much benefit they have not been sufficient to ensure a moderate harvest; the accounts of the state of the crops do not materially differ from those telegraphed last week.

4. *Grants and Outlay.*—The grants up to the 25th August aggregate Rs. 2,68,69,493, and the outlay was as follows:—

	In the week.	Up to the end of the week.
	Rs.	Rs.
Relief works	6,76,228	2,15,90,925
Gratuitous relief	5,52,347	50,72,299

Junction Canal ... { Under Executive Engineer	4,150	3,606	− 544
Junction Canal ... { Furnished by Commissioner of Police ...	2,447	2,448	+ 1
Employed in town of Madras on other works	12,581	12,859	+ 278
Under President, Municipal Commission	2,338	1,350	− 988
Grand Total ...	954,747	935,262	−19,485

There is again a decrease which occurs chiefly in Bellary. For the *Kistna* district the actual numbers for last week were not reported, 17,000 being merely an estimate; the exact state of affairs cannot be ascertained until the detailed reports are received. For *Nellore* the figures are not complete; there is a slight decrease, returns from Podile and Darsi not having been received; allowing for this the total is probably about the same as last week. The usual details for the Buckingham Canal are noted in the margin. The numbers employed under the Department of Public Works elsewhere were 2,110.

Districts.	Forwarded by the Revenue Department.	By P. W. D. Recruiters and Contractors.	Total number of coolies.
Nellore	270	33,743	34,014
Cuddapah	2,263	1,121	3,389
Kurnool	1,161	...	1,161
Bellary	2,182	388	2,570
Kistna	89	...	89
Total ..	5,965	35,258	41,223

7. In *Cuddapah* there is a considerable increase, which occurs chiefly in Pulivendla, Jammalamadugu, and Royachoti; the explanation as regards the two first taluks is greater pressure of distress and transfer of able-bodied paupers from village relief; for Roychoti no explanation is furnished.

Taluks.	18th August.	25th August.	
Jamalamadugu	29,623	31,368	+1,745
Pulivendla	17,251	19,354	+2,103
Proddatur	9,462	11,068	+1,606
Cuddapah	4,174	4,727	+ 553
Budwail	16,887	15,356	—1,531
Sidhout	2,686	2,803	+ 117
Pullampett	10,168	9,500	— 668
Kadiri	7,624	8.293	+ 669
Royachoti	10,990	13,425	+2,435
Madanapalli	15,628	15,817	+ 189
Voilpaud	15,682	17,192	+1,510
TOTAL ...	140,175	148,903	+8,728

In *Bellary* there is again a considerable falling off; half the decrease occurs in Adoni and is due to the relegation of inefficient coolies from the works to village relief; in Bellary Taluk it is due to the same cause; in Alur and Tadpatri it is stated to be owing to dismissal of coolies, it is presumed with tickets, for relief in their villages. In Dharmaveram there is a considerable increase, on the other hand, owing to the opening of fresh works, and in Hadgali to increase of distress. The numbers on the Bellary-Hubly Railway were 8,079, of whom 4,651 belonged to Bellary taluk and 3,428 to Hospett.

Taluks.	18th August.	25th August.	
Adoni	88,487	75,448	—13,039
Alur	35,178	29,842	— 5,336
Gooty	18,827	18,854	+ 27
Tadputri	26,921	23,675	— 3,246
Anantapur	4,256	2,719	— 1,537
Dhurmaveram	5,537	13,312	+ 7,775
Pennakonda	3,381	2,816	— 565
Hindupur	1,861	1,753	— 108
Madaksira	4,220	4,399	+ 179
Raidrug	27,367	26,016	— 1,351
Bellary	29,695	21,492	— 8,203
Hospett	5,801	5,247	— 554
Sundur	841	779	— 62
Kudlighi	9,584	6,470	— 3,114
Harpanhalli	6,213	6,068	— 145
Huvinhadgalli	8,901	12,977	+ 4,076
TOTAL ...	277,070	251,867	—25,203

8. In *Chingleput* numbers are nearly the same as in the previous week. On the South Indian Railway 23,156 coolies were employed against 25,316 in the week before, elsewhere 1,419 were employed under the Department of Public Works. In *North Arcot* the increase is chiefly nominal and is due to the inclusion of figures for Kalastry in this week's total; in *Madura* it occurs in Tirumungalam taluk and is ascribed to the resumption of agricultural operations in consequence of the recent fall of rain. In *Coimbatore* the fluctuations in the several taluks are slight and call for no remark; in *Salem* the decrease appears to be owing to the incompleteness of the returns.

9. The total number of famine coolies working under the supervision of the professional department was 229,602 against 227,039 in the previous week; and the returns from *North Arcot* are not complete.

10. The enhanced rate of wages seems to have been in force everywhere, except in the taluks of Cuddapah and North Arcot noticed in last week's review and in the Polur Division of Nellore. The multiplicity of rates in Jammalamadugu and Pulivendla shows that the instructions regarding regulation of wages are not observed in those taluks.

11. *Gratuitous Relief.*—The following are the district totals:—

Districts.	18th August.	25th August.	
Kistna	7,243	7,352	+ 109
Nellore	59,747	55,019	— 4,728
Cuddapah	128,216	133,688	+ 5,472
Bellary	225,702	209,566	—16,136
Kurnool	84,024	101,653	+17,629
Chingleput	84,554	87,058	+ 2,504
North Arcot	101,893	126,507	+24,614
South Arcot	85,133	87,845	+ 2,712
Trichinopoly	7,094	9,244	+ 2,150
Madura	50,801	55,217	+ 4,416
Tinnevelly	8,915	13,893	+ 4,978
Coimbatore	147,249	160,704	+13,455
Nilgiris	514	574	+ 60
Salem	195,454	202,999	+ 7,545
Malabar	67	155	+ 88
TOTAL ...	1,186,606	1,251,474	+64,868
In camps and relief-houses	443,728	469,941	+ 26,213
In villages	573,754	617,528	+ 43,774
3-pie children	161,881	156,653	— 5,228
* Kistna	7,243	7,352	+ 109

* Particulars not given.

The increase in the number of those admitted to gratuitous relief is again very considerable, but is less by 50,000 than in the previous week. It occurs chiefly in Kurnool, North Arcot, and Coimbatore; in the two first named districts it appears under the head of Village Relief and in Coimbatore under that of Relief-houses. The abstract at the foot of the statement shows that relief to the poor in their villages is being more widely extended as compared with relief in camps, the distribution of the increase between the two forms of relief being in the ratio of about 6 to 4. There is a decrease of about 14,000 in the number of children in receipt of subsistence allowance on works in Bellary, which is partly counterbalanced by an increase in Cuddapah, Madura, and Coimbatore.

12. The marginal figures show the progress of measures taken for the extension of gratuitous relief adopting last week's figures for the *Kistna* district. The increase in the number of relief centres occurs chiefly in *Coimbatore* and *Salem*, eleven having been newly opened in the former district and twenty-one in the latter; *North Arcot* and *Salem* contribute most largely to the increase in the new Inspection Circles and in the number of villages in which relief was afforded, whilst there is a falling off in *Bellary*. The returns from Nellore are defective, and the total for the week is probably not much, if at all, below that for the previous week. In *Cuddapah* the increase is chiefly in Cuddapah, Budwail, Royechoti, and Madanapally, and is due to increasing distress and to greater completeness of returns; the decrease in *Bellary* is not explained, it occurs chiefly in the Adoni taluk, where a large accession of numbers was noticed last week owing to extensive transfers of inefficient paupers from the works; the returns are probably defective. In *North Arcot* about half the increase is entered against the Wallajah taluk, the reason assigned being greater intensity of distress; the remainder is accounted for to a great extent by the inclusion in this week's total of figures for Kalastry which were omitted last week. In *Madura* the sub-division shows a considerable increase under Village Relief; in *Tinnevelly*, Sattur and Ottapidaram contribute most largely; in *Coimbatore* there is a net increase of 13,455, which is about the number of additional recipients of relief in the Palladam taluk alone; the increase in other parts of the district is counterbalanced by a falling off in Caroor and Oodumalpetta to the extent of about 14,000, owing partly to non-receipt of returns and deportation of strangers to their districts. In *Salem* extensive transfers from Village Relief to Camps were effected in the taluks of Salem, Namkal, and Tripatore. In Oossoor numbers swelled considerably. No returns have as yet reached the Board from Tanjore, but from the telegraphic season report it appears that about 49,000 persons received aid from Government gratuitously during the week.

	18th August.	25th August.	
Number of relief centres	597	637	+ 40
Inspection circles formed	814	845	+ 31
Villages in which relief was given ..	9,616	10,327	+711

13. The following statement shows the ratio of reported mortality calculated on the average strength for the week under review and that preceding. The high rate in Cuddapah and North Arcot Camps continues:—

Districts.	Camps and Relief Houses.			Village Relief.		
	Approximate strength.	Deaths in the week.	Ratio per mille per annum.	Approximate strength.	Deaths in the week.	Ratio per mille per annum.
Nellore	47,675	499	546	636	1	82
Cuddapah	14,769	521	1,839	93,249	287	160
Bellary	28,696	294	534	121,295	336	144

* Inclusive of those employed on the Buckingham Canal.

15. Grants sanctioned by the Board up to date aggregate Rs. 2,69,09,493.

16. The following statement shows transactions under the Land Improvement Act:—

	In the week. Rs.	Up to the end of the week. Rs.
Nellore	3,650	1,08,523
Cuddapah	1,025	1,18,691
Bellary	16,437	3,07,675
Kurnool	300	12,854
Chingleput	4,685	1,27,039
North Arcot	1,260	49,136
Madura	1,305	82,866
Tinnevelly	...	32,900
Coimbatore	150	28,276
Salem	5,459	1,24,816
Total ...	34,271	9,92,776

Advances to weavers are noted below:—

	In the week. Rs.	Up to the end of the week. Rs.
Cuddapah	1,213	19,066
Bellary	8,347	79,095
North Arcot	359	359
Madura	1,679	16,618
Coimbatore	7,366	27,520
Salem	35,697	3,69,207
Total ...	54,661	5,11,865

17. The statement of establishments especially entertained for famine-relief shows the total monthly cost to be Rs. 1,38,151.

18. The average strength of resident paupers in Madras camps was 13,294 and of non-residents 14,520. As regards the 12,653 paupers resident on the 25th August the figures marginally noted show the number contributed by the neighbouring districts. The numbers employed on various works outside the camps were as follow:—

Chingleput	6,433
North Arcot	4,610
Nellore	1,239
Other districts	371
Total ...	12,653

Junction Canal...	2,448	under supervision of P. W. D.
Cooum Shoals	3,924	ditto ditto.
Powder Mills	5,209	ditto ditto.
Merchants' Magazine	1,017	ditto ditto.
Repair of Vasarapady Tank ...	1,044	ditto ditto.
Expense Magazine	208	ditto ditto.
Excavating Gravel	1,457	ditto ditto.
Total ...	15,307	

The strength in hospital on the 25th August was 925; deaths numbered 215 (of which 205 took place in hospital), or in the ratio of 871 per mille per annum. The outlay during the the week was Rupees 26,175 and up to the end of the week Rupees 8,44,951. The President of the Municipality had 2,650 paupers in the Sattangad Relief-camp on the 25th August and 1,350 on works. His expenditure during the week was Rupees 4,954 and up to the end of the week Rupees 81,204.

19. The imports of food-grains into the Presidency during the week were 17,968 tons.

C. A. GALTON,
Acting Secretary.

No. 1.

Average number of Government seers of 80 *tolahs per rupee of different grains, and rainfall in certain districts of the Madras Presidency for the week ending Saturday, the* 25*th August* 1877.

Districts.	Rice, 2nd sort.			Cholum.			Ragi.			Cumboo or Sazza			Wheat.			Horse gram.			Rainfall.

Additional Secretary to the Govt. of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 27TH SEPTEMBER 1877.

General Remarks.—There has been good general rain in Madras, which has been everywhere most beneficial, and agricultural operations are actively progressing; the rain crops are being harvested with a fair outturn in the southern districts; in the north the harvest is small. The total number on relief works is 614,656, and gratuitously fed 1,650,309; the former is less by 93,599 and the latter more by 16,872 than last week. In Mysore also there has been general rain and prospects are decidedly improved; the number on works is 53,745 and in receipt of charity 208,683: the former is more by 144 and the latter less by 12,493 than last week. In Bombay there has been good rain throughout the Deccan and Southern Mahratta Country, where the crops are thriving: in Khandesh more is wanted, and in Guzerat (where there have only been light showers in parts of Surat and Broach) it is very urgently required; in Sind the Indus is very low and prospects are bad. In the Central Provinces the only rain has been trifling showers in Chhindwára and Seoni; the long break is causing anxiety for the *kharif* crops everywhere, especially for the rice in Saugor and Damoh. No rain is reported from Berar, where the crops are generally good; rain is however required. In Central India the only fall reported is at Neemuch; rain is everywhere greatly needed for the *rabi* crops: the immigration into Malwa continues. In Rajputana there have been trifling showers in Harowtee, Ajmere and Ulwur; prospects are not improved. In Bengal there has been heavy rain in the northern districts; in the whole of Bengal proper prospects are favourable; in the Bhágalpur division there has been little, and in Behar hardly any rain; in the Patna division prospects are said to be unfavourable except in parts of Tirhoot, and rain is also required in Pooree. In Assam there has been copious rain in Sylhet, but little in the valley districts; prospects are good. In Burma the rainfall has been less during the past week, and the land where the crops had been destroyed by floods is being replanted; the crops promise well. In the North-Western Provinces no rain has fallen during the week; the wind continues west, and there is every appearance of continued drought. In the Punjab the only fall has been slight showers in Ráwalpindi and Dera Ismail Khan; prospects continue bad, except in Mooltan.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Vizagapatam (Sept. 25th)	·5	September 24th, rice 7·7, *cholum* 11·8, *raggi* 12·9, *cumboo* 16·5; camp 201 daily; private charity 3,060 daily.
Godavery („ „)	1·42	September 24th, rice 7·54, *cholum* 8·98, *raggi* 10·72, *cumboo* 15·85; crops slightly suffering from blight; harvest of *kora*, *chama*, *gingelly*, and *cumboo*, outturn from ⅛th to ⅝ths; water over anicut 30 inches.
Kistna („ 24th)	·65	September 20th, rice 6·84, *cholum* 9·50, *raggi* 8·80, *cumboo* 12·39; on works 8,671; camps and houses 933; village relief 15,588; crops doing fairly; *sajja* in Nandigama, *cholum* in Bezwada suffering from insects; *sajja* harvesting.
Nellore („ 25th)	1·76	September 22nd, rice 5·85, *cholum* 7·36, *raggi* 7·92, *cumboo* 8·32; on works 22,795 reported, probably 2,500 unreported under Revenue Officers and many under Public Works Department; canal 27,048; children 5,768; in camps 20,015 reported, probably 6,000 unreported; village relief 2,734; crops fair; agriculture active.
Cuddapah („ „)	1·16	September 21st, rice 5·65, *cholum* 7·45, *raggi* 7·47, *cumboo* 8·74; on works 126,400; children 26,510; camps and houses 8,403; village relief 135,408; private charity 844; all crops good; *cumboo*, *raggi* and *cholum* harvested in parts, outturn ⅝ths.
Kurnool („ „)	1·46 (average of district.)	September 22nd, rice 5·57, *cholum* 6·79, *raggi* 7·17, *cumboo* 7·57; on works 140,173; children 17,865; camps and houses 20,501; village relief 63,678; private charity 940; surviving crops are in fair condition; agricultural operations are briskly carried on, hence decrease in coolies and 3-pie children; increase in village relief is chiefly owing to relegations.
North Arcot („ „)	2·43	September 21st, rice 5·9, *cholum* 6·9, *raggi* 6·8, *cumboo* 7·5, wheat 4·9; on works 58,513; children 15,698; camps and houses 22,059, decrease owing to non-receipt of relief reports from Punganoor and Kangundi; village relief 87,068; private charity 750; crops generally good; harvest of paddy, *raggi*, *cumboo* and *gingelly*, outturn poor.
South Arcot („ „)	General, average of district 1·88.	September 22nd, rice 5·59, *cholum* 7·03, *raggi* 7·46, *cumboo* 8·56; on works by Revenue Department 443, by Professional Department 1,090; children none; in camps and houses 26,044; villages 76,515; private charity 925; heavy freshes again Ponnair; growing crops in good condition; *raggi* harvested in parts; outturn tolerable.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*concluded.*		
Tanjore (Sept. 25th)	1·04	September 22nd, rice 5·63, *cholum* 9·75, *raggi* 10·02, *cumboo* 9·63; on works none; camp clearing 4,514; children ditto 1,083; camps and houses 11,517; village relief 12,292; private charity 16,699; rivers pretty full; wet crops thriving, dry in good condition, except in Attucotta; harvest, wet, *kar* and *kuruvai*, former in Tanjore, latter in other taluks; dry, *cumboo, cholum* and *raggi;* outturn, *kar* half to full, *kuruvai* less than last year, *cumboo, cholum* and *raggi* from one-fourth to full.
Trichinopoly („ „)	3·46 (average of district); good rain in Puddukotta.	September 22nd, rice 5·47, *cholum nil, raggi* 9·17, *cumboo* 8·46; on works 7,640; children 1,600; camps and houses 6,552; village relief 2,137; sowing vigorous; crops much benefited, and wells supplied by this week's good general rain; harvest of early paddy, *raggi* and *cumboo* continues, outturn above half; good flood in Cauvery.
Madura („ 24th)	General rain (average 2·55.)	September 22nd, rice 5·65, *cholum* 7·20, *raggi* 8·16, *cumboo* 8·09; on works 18,601; children 2,365; in camps and houses 24,552; village relief 59,068; some *raggi* paddy sowing on garden lands harvested in Periacolum; slight freshes in the Viga and Periacolum rivers.
Tinnevelly („ 25th)	1·60	September 24th, rice 6·60, *cholum* 9, *raggi* 8·10, *cumboo* 8·85; camps and houses 19,980; village relief 4,137; private charity 8,366; crops improving by recent rains; harvest of paddy, *raggi* and *cholum* in parts; outturn, wet crops about three-fourths, dry crops about one-fourth; low freshes in rivers of Sattur taluk; some tanks in Strivelliputtur received partial supply; great improvement in prospects.
Coimbatore („ „)	1·36	September 22nd, rice 6·32, *cholum* 7·28, *raggi* 8·60, *cumboo* 8·23; on works 26,262; children 2,384; camps and houses 183,865; village relief 27,632; private charity 1,620; crops benefited by rain; harvest of *raggi* in parts, outturn from three-fourths to one-eighth.
Nilgiris („ „)	3·13	September 22nd, rice 5·44, *cholum* 6·15, *raggi* 6·78, *cumboo* 6·94; relief works none; camps and houses 907; village relief 10; private charity about 200 at Coonoor; harvest, *samay*, wheat and *gangee*, outturn between one-half and one-fourth.
Salem („ „)	3·85	September 24th, rice 5·51, *raggi* 6·47, *cumboo* 6·31, *cholum* 6·25; on works 44,400; children 180; camps and houses 187,130; village relief 173,720; private charity 70; dry crops fair in parts; number in camps and houses rising 36 per cent., due to large admissions owing to increase of famine.
Malabar („ „)	3·10	September 22nd, rice 7·89, *raggi* 8·91; gratuitous relief 52; private charity 4,969; rain seasonable and sufficient; harvesting of *kanni* crops in progress in seven taluks, outturn above average; transplanting *magarom* crops proceeding in six taluks.
Chingleput („ „)	From 1·0 to 2·25 in Conjeveram, Trivellore and Ponnery; about 1·75 in Madratakam and 1·0 in Chingleput and Sydapet.	September 22nd, rice 6·32, *raggi* 7·58, *cumboo* 8·69, *cholum* 730; on relief works 19,123; gratuitous relief in camps 30,412; in other places 57,444.
		General Remarks.—General prospects improved; total number on works 614,656; total number gratuitously fed 1,650,309; exports of grain by rail from Madras 8,157½ tons during the week ending the 22nd instant.
Bombay— (Sept. 27th) *Sind*— („ 26th)		
Kurrachee ...	*Nil*	River 9 feet 11 inches on 24th, average from 1871 to 1875 12 feet 8 inches; great injury to crops from want of water; rats doing mischief in talukas Tatta, Sákro, Ghorabári and Sháhbandar, most in latter.
Shikárpur ...	...	All canals save Ghár and Sukkur nearly empty; *kharif* outturn will be very deficient; scarcely any land fit for *rabi* cultivation; no signs of rain; fever prevalent.
Hyderabad ...	...	River falling rapidly, is much lower than usual for time of year; reaping of early crops commencing; usual autumnal sickness amongst men and cattle.
Upper Sind Frontier ...	*Nil*	Weather sultry; *kharif* prospects gloomy owing to insufficient supply of water; small-pox in Deh and Wariamabad.
Guzerat— (Sept. 26th)		
Ahmedabad ...	...	No change.
Kaira ...	*Nil*	Total rainfall since 1st June 17·0, during corresponding period last year 30·0; weather very hot.
Surat ...	·03 in Surat, Jalálpur and Olpád.	More rain greatly wanted for crops; cholera at Surat and Bulsar, 7 deaths.
Broach ...	·35 in Wágra ...	Rain greatly wanted; if it does not rain in 3 or 4 days, crops will wither; cholera in Broach and Hánsot talukas; heat intense.

Revised season telegram from Tanjore for week ending the 15th September 1877.

Price of rice 5·67, *cholum* 8·65, *raggi* 8·65, *cumboo* 9·23; camp clearing 3,179; children 628; camps and houses 6,052; village relief 5,335; rainfall 2·15.

On page 2488 of the Supplement to the *Gazette of India* of the 15th September 1877, opposite Madura for "in camps and houses 24,457" *read* "23,357."

On page 2528 of the Supplement to the *Gazette of India* of the 22nd instant, opposite South Arcot for "in camps and relief houses 30,807" *read* "31,807"; and after "villages 40,503" *read* "private charity 827; cholera less."

On the same page opposite Coimbatore for "village relief 29,163" *read* "20,163."

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*concluded.*		
Khandesh and Násik—(Sept. 26th)		
Khandesh ...	Trifling showers in 7 talukas; 1·5 in Nizámpur.	Crops generally fair, but rain much wanted; 7 deaths from cholera; fever prevalent.
Konkan— (Sept. 26th)		
Tanna ...	·91	Total rainfall 58·06, more immediately required; cholera still exists in 4 talukas.
Deccan— (Sept. 26th)		
Poona ...	Average 1·67 ...	Average rainfall from 5th June 15·57; *kharif* crops which survived previous drought doing well, and *rabi* sowing in progress; fall of rain during week generally satisfactory throughout district.
Ahmednagar ...	1·14 in Nagar ...	Total rainfall 16·80; rain fell throughout all talukas; *kharif* doing well; *rabi* sowing in progress; rain still required in Akola, Sángamner, Kopargaon and parts of Ráhuri and Newása; 25 deaths from cholera.
Sholapur ...	1·19	Total rainfall 28·45; 7 deaths from cholera.
Satara ...	1·47	Total rainfall 16·47; rain has fallen in other parts of district also; crops very good; prospects improved; 6 deaths from cholera.
Southern Mahratta Country—(Sept. 26th)		
Kanara ...	1·2 in Karwar ...	Total rainfall 61·87; 58 deaths from cholera; rice harvest on coast commenced; prospects good.
Kaládgi ...	1·30	Total rainfall 15·75, fall general; *kharif* thriving; *rabi* sowing progressing; green grass generally procurable; slight cholera in 3 talukas, deaths 13.
Kattywar and Gaekwar's Territory—(Sept. 26th)		
Rájkot ...	·05	Total rainfall 12·68, more wanted; weather oppressive and cloudy.
Wadhwán ...	·10	Total rainfall 2·84; crops suffering; health good.
Baroda ...	*Nil*	Public health fair; weather very hot and close.
		General Remarks.—The absence of rain and the low state of the river in Sind causes much anxiety there; in Guzerat more rain is urgently required immediately, but in the Deccan, Konkan, the Southern Mahratta Country and Kanara prospects are good.
Bengal—		
Chittagong ...	·14	
Noakholly	2·47	Health good.
Chittagong Hill Tracts	6·38	
Hill Tipperah ...	2·21	Health good.
Backergunge ...	1·97	
Furreedpore ...	*Nil*; 1·09 in Madareepore.	
Dacca ...	1·29	
Tipperah ...	1·56	
Mymensingh ...	·78	
24-Pergunnahs ...	·48	Health good.
Jessore ...	*Nil*; 1·1 in Bagirhat; 2·78 in Magoora.	Fever prevalent.
Nuddea ...	*Nil*	
Moorshedabad ...	·15	Health good.
Pubna ...	·50	
Rajshahye ...	·58	Fever still prevalent.
Bogra ...	2·58	Fever prevalent in places, otherwise health good.
Maldah ...	·14	Fever still prevalent.
Dinagepore ...	·76	
Rungpore ...	5·34	Some fever, otherwise health good.
Cooch Behar ...	4·90	
Jalpáiguri ...	6·48	Health not good; cattle disease prevalent.
Darjeeling ...	3·22	
Midnapore ...	*Nil*	Fever abnormally prevalent.
Howrah ...	*Nil*	
Hooghly ...	·44	Health normal.
Burdwan ...	*Nil*; ·13 in Boodbood.	Fever prevalent.
Bankoora ...	·83	

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*concluded.*		
Beerbhoom ...	1·71	
Sonthal Pergunnahs ...	1·32	
Bhágalpur ...	*Nil*	
Monghyr ...	*Nil*	
Purneah ...	·10	
Durbhunga ...	·38	
Mozufferpore ...	*Nil*	
Sarun ...	*Nil*; ·03 in Sewan.	
Chumparun ...	*Nil*	
Patna ...	·03	Health good.
Gya ...	*Nil*	
Shahabad ...	*Nil*	
Hazáribágh ...	*Nil*	Cattle disease diminishing.
Lohardugga ...	*Nil*	Health good.
Manbhoom ...	·53	
Singhbhoom ...	·54	District healthy.
Balasore ...	·92	Cattle plague still prevails to some extent.
Cuttack ...	·63	
Pooree ...	·52; ·85 in Khoordah.	Cattle disease prevalent.
		General Remarks.—Heavy rain in North Bengal and prospects much improved; prospects in other parts of Bengal Proper continue generally favourable; rain wanted in places; damage done in Burdwan, Midnapore, Howrah and Tipperah by floods; in Mymensingh, Chittagong, and Chittagong Hills crops injured by late excessive rain; prospects in Patna division not favourable except in parts of Tirhoot; in Pooree also rain wanted.
N.-W. P. and Oudh—		
Benares (Sept. 26th)	...	No change; weather hot and dry.
Allahabad („ 27th)	*Nil*	Sky clear.
Jhánsi („ „)	*Nil*	Wheat eleven seers per rupee; emigration from district 200 a day; emigrants passing through district from Gwalior, Agra and Etáwah 1,000 a day.
Agra („ 26th)	*Nil*	Prospects very gloomy; prices steady; emigrants' cattle still dying on roads; hot westerly winds prevail.
Meerut („ „)	*Nil*	No change.
Bareilly („ „)	*Nil*	Wind sometimes easterly, otherwise every appearance of settled fine weather; if no rain falls very little *rabi* will be sown.
Lucknow („ 27th)	*Nil*	Prevailing wind westerly; evenings and mornings cool, but heat great in day times; villagers flocking into Lucknow for work; slight increase in crime; prices stationary.
Sitapur („ „)	*Nil*	East wind; sky clear.
Fyzabad („ „)	*Nil*	No change for the better.
		General Remarks.—No change in the weather during the week; sky clear; prevailing wind westerly, and every appearance of continued drought; emigrants continue to pass through Jhánsi to Malwa from Gwalior and the Agra division, and their cattte are reported to be dying on the roads; prices though high are fairly steady.
Punjab— (Sept. 26th)		
Delhi ...	*Nil*	No improvement in agricultural prospects; health good.
Hissar ...	*Nil*	*Kharif* harvest generally hopeless, except on canal lands; pasturage scarce; health good.
Umballa ...	*Nil*	Crops withering; health good.
Jullundur ...	*Nil*	Prices of grain unaltered.
Amritsar ...	*Nil*	No improvement in agricultural prospects; crops being injured by rats; health good.
Lahore ...	...	Rain required; health good.
Mooltan ...	*Nil*	Ploughing for *rabi* proceeding; *kharif* prospects considerably improved; health good.
Ráwalpindi ...	Slight rain ...	*Kharif* prospects bad; health good.
Peshávar ...	...	Report not received.
Dera Ismail Khan ...	Slight rain ...	Crops suffering; health good.
		General Remarks.—There have been slight showers in Ráwalpindi and Dera Ismail Khan only during the week; the prospects of the *kharif* harvest have not improved, except in Mooltan; the public health continues good.
Central Provinces—		
Upper Godávari (Sept. 22nd)	...	Crops suffering for want of rain; *jowar* sowing continues; cholera abating; prices high.
Sambalpur ...	·31	Reaping rice on high lands continues, rice on low lands suffering for want of rain; some transplanted rice has dried up; other crops fair; health good; prices rising.
Biláspur ...	...	Crops continue satisfactory, but more rain wanted for rice which will be seriously damaged if rain withholds for another week; fever continues; prices steady.
Raipur ...	...	Prospects favourable, but more rain wanted for rice; fever, small-pox and cattle disease prevalent; prices steady.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Central Provinces— *concluded.*		
Bálaghát ...	...	Transplanting rice suffering for want of rain; fever prevalent; prices unchanged.
Chhindwára ...	·04	Prospects favourable; fever continues; prices steady.
Chánda (Sept. 23rd)	...	Transplanting rice not completed for want of rain; other *kharif* crops good; no epidemic; prices rising.
Betúl („ 24th)	...	*Kharif* on the whole favourable, but more rain wanted; health good; prices rising.
Bhandára („ 25th)	...	Prospects of *kharif* favourable as yet, but more rain wanted for rice; fever continues; prices rising.
Nágpur („ 26th)	...	Prospects of *kharif* favourable, but rain is required for preparing land for *rabi* sowings; health good; prices unchanged.
Wardha ...	*Nil*	Prospects of *kharif* favourable as yet.
Nimár ...	...	Sun scorching; rain urgently required; small-pox and cattle disease continue; prices rising.
Hoshangabad ...	...	Prospects of *kharif* fair, but more rain wanted.
Narsinghpur ...	...	Prospects of *kharif* fair as yet; rain wanted; health good; prices rising.
Jubbulpore ...	...	Prospects good; rain much wanted on high grounds; *rabi* sowing commenced; fever prevalent; prices rising.
Saugor ...	...	Bright sunshine with hot winds; *kharif* crops suffering; 43,662 emigrants from the north-west and Gwalior entered Saugor and 37,196 left the district towards Jubbulpore, Narsinghpur and Bhopal.
Seoni ...	·10	Rain required; prices rising.
Damoh ...	...	Rain much wanted; rice crops show signs of drying up; prices rising.
Mandla ...	...	Prospects of early rice good; late rice is suffering for want of rain; fever continues; prices rising.
		General Remarks.—Long break causing anxiety for *kharif* crops everywhere, specially rice in Saugor and Damoh.
British Burma— (Sept. 27th).		
Arrakan Division—	*Nil*	Public health good; paddy crops continue to promise well; a seasonable break in the weather.
Pegu Division—		
Rangoon ...	0·73	Public health normal; prices of grain still abnormally high; floods subsiding; replanting going on; reports from southern part of Angyee, from Syriao and from Pegu favourable; total rainfall 86·23 inches.
Thonkwa ...	Rainfall steady ...	Health good; replanting in townships affected by floods.
Bassein ...	1·22	Health indifferent; total rainfall 112·69 inches; ploughing and transplanting continue; floods subsided.
Henzada ...	*Nil*; 0·3 in Myanoung during week ending 15th; ·60 in Mengyee.	Total rainfall in Henzada 70·3, in Myanoung 42·40, and in Mengyee 51 inches; 1 death from cholera in Okpho, 11 in Kyanghin; otherwise health good; crop prospects fair.
Prome ...	0·4	Fifteen deaths from cholera in Padoung, 3 in Shwedoung; total rainfall 44·6 inches; cultivation progressing.
Thayetmyo ...	*Nil*	Six deaths from cholera of a severe type in Thayetmyo town, 12 deaths in cantonments; troops being moved into camp; river high and still rising; cultivation prospects more favourable; total rainfall 54·04 inches.
Tenasserim Division—		
Mergui (Sept. 15th)	·33	Sixty-seven acres destroyed in Palaw township by insects; 160 buffaloes died from disease; cholera in Mergui town.
Tavoy („ „)	7·5	Public health good; crops destroyed by inundation have generally been replanted and promise well; price of paddy risen to Rs. 105 per 100 baskets.
		No report received for the Tenasserim division for the week ending the 22nd instant; telegraphic communication interrupted.
		General Remarks.—No change to report in the condition of the crops which is generally favourable; land on which crops have been destroyed by high floods is being replanted.
Assam—		
Gauháti (Sept. 27th)	·1	Mornings and evenings cool; days clear and hot; fogs have begun to appear over river in mornings; tea and *sali dhan* doing well; *asu* crops gathered in, low average outturn.
Sylhet („ „)	9·88	Rain continues steadily; prospects of crops good; some fever and cholera in places.

On page 2491 of the Supplement to the *Gazette of India*, opposite Prome in British Burma, for "80 in Mahathama," *read* "8;" and in the rainfall column opposite Tenasserim Division for "26·3 in Tounghoo" *read* "2·63."

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Mysore and Coorg— (Sept. 27th)	1·40 in Bangalore; 2·86 in Coorg.	The fall of rain has been general and agricultural prospects are decidedly improved; prices still very high; ordinary rice selling at Bangalore 10½lbs. per rupee; daily average number of persons on relief works and charitably relieved as per statement last tabulated is in the— Bangalore district, including the town ... 7,267 and 88,340 Kolar ... ... 4,738 " 17,865 Túmkúr ... ... 8,444 " 46,848 Mysore ... ... 777 " 3,061 Hassan ... ... 861 " 12,398 Shimoga .. .. 1,272 " 4,204 Kadur ... ... 630 " 3,033 Chitaldroog ... ... 4,714 " 32,934 Total ... 28,803 " 208,683 excluding those employed by the Professional Department, daily average of which is 24,942.
Hyderabad Assigned Districts—	*Nil*	Crops generally good, except those on hard soil which are not thriving; rain now much needed.
Central India— (Sept. 26th)		
Indore ...	*Nil*	
Gwalior ...	*Nil*	
Rutlam ...	*Nil*	
Sutna ...	*Nil*	
Neemuch ...	·75	Total 8·28. *General Remarks.*—Emigrants still pouring into Malwa; rain everywhere greatly needed for *rabi* crops.
Rajputana—		
Abu (Sept. 27th)	*Nil*	Very hot and sultry; clouds during afternoon.
Sirohi (" 23rd)	...	Tanks drying; water in wells good; health good; prospects bad; cloudy and sultry.
Marwar (" 27th)	*Nil*	Heat excessive throughout week.
Meywar (" 21st)	...	Water supply and health good; about ⅝ crops; easterly winds; clouds collecting.
Harowtee (" 22nd)	·08 in Deoli; *nil* in Kotah, Tonk and Shahpura.	Prospects gloomy.
Jhallawar (" 21st)	...	Tanks and wells low; health good.
Ajmere (" 27th)	Slight partial showers.	Rain insufficient to measure; done little good; heat excessive; prospects unchanged; grain importation from Delhi and Jubbulpore commenced; rates stationary; upwards of 3,000 immigrants from Marwar, Mewát and Bhurtpore arrived on railway works; health good.
Bhurtpore (" 26th)	...	Weather cloudy; prospects not improved.
Ulwur ...	·09	Prospects could hardly be worse.
Nepal (Sept. 19th)	0·91	If rain falls soon, agricultural prospects will be fair; there has been no rain for the past five days; more is wanted to bring on the rice which was transplanted late in the season.

G. H. M. BATTEN,
Offg. Secretary to the Govt. of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

Weekly condition report of the distressed districts of the Mysore Province.

PROVINCE OF MYSORE.

(*No.* 32.)

Special famine report for the week ending 15*th September* 1877.

Statement No. 32, *regarding famine relief operations in the Province of Mysore, for the week ending the* 15*th September* 1877.

During the past week the weather has continued to be very favourable, frequent showers alternating with sunshine; and wherever there are crops in the ground they have benefited materially. Irrigated ragi, javari and bajra have been harvested, and this has had some effect on the market; the price of bajra falling in the Kolar district from 10 to 14 seers, and in Chitaldroog to 8 seers. In the western districts dry ragi has also been cut. The land is also being actively ploughed for the rabi crops, and late ragi and gram have been sown: the ragi sown at the end of August, and the rice irrigated from tanks and from the Cauvery channels are flourishing. Grass is abundant and the cattle are getting into fair condition.

2. There is however one tract which has not shared in the general improvement, *viz.*, the eastern portion of the Hassan, Kadur and Shimoga districts, and the western part of Chitaldroog, the tract which skirts the base of the western ghats and the malnad taluks, and which the clouds have passed over without rain. The crops sown are reported to be withered or withering here; whereas everywhere else those that had not absolutely perished have revived and are doing well.

3. The markets are reported to be generally well supplied, except in the case of a few taluks. The imports by rail have however considerably diminished, being only 3,173 tons during the week, against 4,986 in the previous week. They were drawn from the following places:—

	Tons.
Madras	2,515
Beypore, Coimbatore and Malabar districts	254
Trichinopoly, Tanjore and Negapatam...	378
Other places	26
Total ...	3,173

The following statement shews the exports from the town of Bangalore, as registered by the octroi officials:—

	Tons.
Towards Túmkúr	635
„ Bellary and Chitaldroog	280
„ Mysore	395
„ Oossoor (Salem district)	178
„ taluks adjoining Bangalore	375
Total ...	1,863

which is less by 463 tons than the reported exports of the preceding week.

There is a slight decrease in prices, especially in ragi, due no doubt to the coming in of the new crop and to the improved prospects. The maximum and minimum in retail prices in the districts of the province are shewn below:—

Prices of food grains during the week:—

	Maximum in lbs. per rupee. 2nd sort rice.	Maximum in lbs. per rupee. Ragi.	Minimum in lbs. per rupee. 2nd sort rice.	Minimum in lbs. per rupee. Ragi.
Bangalore district ...	11	13	9	10
Kolar „ ...	11	13½	8¼	11
Túmkúr „ ...	9½	12	8¼	10
Mysore „ ...	9	14	7½	10
Hassan „ ...	9½	11½	8	9
Shimoga „ ...	10½	10	6	8
Kadur „ ...	9	10	8	10
Chitaldroog „ ...	9	12	7½	9

4. The number of labourers on civil relief works is almost unaltered, being 28,803 against 28,754 in the week before. There has been an increase of 478 in Kolar and of 550 in Túmkúr against a decrease of 445 in Hassan and the same number in Chitaldroog. These decreases are unexplained. The cost of this labour is stated to be Rs. 18,966, but this return is evidently imperfect.

5. The Public Works Department has employed 24,942 labourers against 24,847 in the last report. In the Bangalore, Kadur, and Túmkúr districts there has been a moderate

increase in the number, due to the opening of works to relieve the paupers and to the famine-labour beginning to come in. In Mysore and Hassan, on the contrary, the numbers have decreased, and in other districts there has been little or no change; this is explained as partly due to the return of labourers to field employments, and, in Hassan, to sickness among the coolies.

6. There has again been a decrease in the number gratuitously fed at relief camps. The total having fallen from 221,176 to 208,683. The variations in the different districts are as follows:—

	Increase.	Decrease.
Bangalore district	...	1,152
" Municipality	...	8,006
Kolar district	...	1,799
Túmkúr "	...	1,507
Mysore "	...	220
" Municipality	...	612
Hassan district	447	...
Kadur	293	...
Shimoga	465	...
Chitaldroog	...	402
Total ...	...	12,493

The improvement in agricultural prospects and the efforts made to enforce restrictions on the applicants have both contributed to this result. Of the total number relieved—

49,538	were men.
83,479	" women.
75,666	" children.
Total ... 208,683	

7. The expenditure on relief camps up to the 8th September was Rs. 18,28,404; and during the week ending September 15th it was Rs. 1,80,302, and was distributed as follows:—

	No. relieved.	Cost. Rs.	Average cost per head. Rs. A. P.
Bangalore district	61,873	45,146	0 11 8
Kolar "	17,865	11,421	0 10 3
Túmkúr "	46,848	35,247	0 12 0
Mysore "	2,381	1,583	0 10 8
Hassan "	12,398	9,975	0 12 10
Shimoga "	4,204	3,676	0 14 0
Kadur "	3,033	1,719	0 9 1
Chitaldroog "	32,934	23,591	0 11 6
Bangalore Municipality ...	26,467	47,559	1 12 9
Mysore " ...	680	385	0 9 1
Total ...	208,683	1,80,302	0 13 10

This however only shews the cash expenditure of the week, not the actual cost of food and establishment, which will hereafter be shewn.

8. A few deaths from cholera are reported, but there is no epidemic sickness, and the health of the province has generally improved.

9. During the week orders have been issued closing 9 relief kitchens in Bangalore, 2 in Kolar, 12 in Mysore, and 19 in Hassan: the sick and infirm being transported to relief camps at the head-quarters of taluks, where the able-bodied also will be received on the two conditions of residence and work, till they can be provided for on large public works. All works in the Public Works Department that can be stopped without detriment have been stopped, and the whole strength of the department is being concentrated on large relief works to employ not less than 1,000 men for 3 months; several of such works have already been put in hand. Similarly in the Civil Department the petty relief works which occupied 10 or 20 people apiece have been stopped; stronger parties are to be concentrated on them, where possible, in order to finish them off quickly; and larger works which will employ at least 300 men for 1 month are being planned. These however will only be subsidiary to the Public Works Department, either for the employment of the weak and emaciated, or as safety valves for labour if at any time the Public Works Department cannot employ all applicants. The ration of cooked food at all relief camps has been fixed uniformly at 1 lb. of rice or ragi flour, with condiments: and the rates of wages on civil relief or public works have been fixed on a sliding scale so as to buy 1⅛ lbs. of grain, with something over for condiments, 9 pie in the case of the heavier and 3 pie in the case of the lighter task.

BANGALORE,
22nd September 1877.

"By Order,"

A. WINGATE,
Additional Secretary.

Manager's Office,
Agra, 1st October 1877.

(Sd.) G. F. MATHEW,
For Manager.

No. 91M., dated Poona, 23rd September 1877.

From—Lieut.-Col. H. F. HANCOCK, R. E., *Under Secy. to Govt. of Bombay, P. W. Dept. (Railway)*,

To—C. E. BERNARD, Esq., C.S.I., *Additional Secretary to Government of India.*

I AM directed to acknowledge the receipt of your letter No. 850 (Famine), dated 17th instant, forwarding letter from the 1st Assistant Resident, Hyderabad, No. 11 P., dated 29th August last, on the subject of short deliveries of grain by the Great Indian Peninsula Railway Company.

2. Since the date of that letter the position of matters at Hyderabad has altered somewhat for the better. The prices of food-grains have fallen, and although they are still very high, it is not just at present the favourite market, and booking has of late been slack.

3. From 1st to 20th September inclusive, the number of grain wagons delivered daily on to the Nizam's State Railway has averaged $29\frac{2}{5}$=235 tons.

4. From 1st to 17th, the number loaded daily for the Nizam's Railway averaged 20 only, *viz.* :—

	About.
From East Indian Railway	5
Jabalpur District, Great Indian Peninsula Railway	$1\frac{1}{2}$
Nagpur	$7\frac{1}{2}$
Bombay	6
Total ...	20 or

say 160 tons.

The difference was made up from the number of wagons under load on the 1st, but not delivered till after that date.

5. It is quite possible that merchants may have been, and may still be, willing to send more grain *viâ* the East Indian Railway; but the latest reports show that the tendency is now towards the North-Western Provinces. In any case the Great Indian Peninsula Railway Company have only engaged to take 100 wagons daily at Jabalpur loaded with grain for the famine districts, and it rests with the East Indian Railway and northern lines to settle their destination. From 1st to 17th instant, the daily average for the Nizam's line was as above shewn five only.

6. As regards the Jabalpur and Nagpur Districts, the short deliveries are entirely due *now*, whatever may have been the case last month, to the full number not being booked. The order on both these districts is to give absolute preference for Nizam's line up to 40 wagons or 80 for the two daily, and all are being sent from Bombay that offer. The railway arrangements are now satisfactory, and provided that the merchants book, the daily average of 300 tons will be, barring accidents, maintained.

No. 95M, dated Poona, the 23rd September 1877.

From—Lieut.-Col. H. F. HANCOCK, R.E., *Under Secy. to the Govt. of Bombay, P. W. Dept.* (*Railway*),

To—C. E. BERNARD, Esq., C.S.I., *Additional Secy. to the Govt. of India.*

I HAVE the honour to forward herewith three statements of wagon returns from 1st to 21st September 1877, inclusive, namely :—

No. 1. Wagons from northern lines despatched from Jabalpur.

„ 2. Wagons delivered on to the Nizam's line.

„ 3. Return of grain and other wagons worked into Raichore and on to the Madras line.

Wagons from lines despatched from Jabalpur.

H. F. HANCOCK, *Lieut.-Col., R. E.,*
Under Secy. to the Govt. of Bombay.

No. 877, dated Simla, the 3rd October 1877.

From—C. BERNARD, ESQ., C.S.I., *Addl. Secy. to the Govt. of India,*
To—The Secy. to the Govt. of Bombay, Railway Dept.

I AM directed to acknowledge the receipt of your letters Nos. 91 and 95, dated 23rd September, which furnishes information regarding the quantities of grain carried into the famine districts of Madras and Hyderabad by the Great Indian Peninsula Railway during the first twenty-one days of the past month.

2. His Excellency the Viceroy in Council observes that a daily average of 834 tons of grain has been worked into the Madras Railway junction at Raichore, and that a daily average of 255 tons has been worked on to the Nizam's branch railway. These results are very much better than the working during the month of August. The Government of India has much pleasure in acknowledging that the improvement is due to the unremitting attention given by His Excellency the Governor in Council to the subject, and to the increased exertions with which the Great Indian Peninsula Railway officers have responded to the demands of the country and of the Government.

3. The Governor General in Council is aware that the preference, given to grain consignments to Southern India above all other traffic, causes inconvenience to the merchants and to the export trade of Bombay. But in the face of the great needs of the population in the famine-stricken districts, there was no choice but to give such preference. It is not unknown to His Excellency the Governor in Council that the Government of India have done all that was possible to meet the requirements of the Bombay export trade, by ordering from England one hundred additional engines; a bonus is being given for the early delivery of these engines, and it is promised that from 50 to 60 will be delivered in India before the end of January next. It was understood, at the conference held by the Viceroy with the Government of Bombay and its officers at Poona on the 23rd August, that the want of engines is the only obstacle to the Great Indian Peninsula Railway's carrying both the ordinary and the famine traffic.

4. The Government of India understands from your letters under acknowledgment, and also from information received by His Excellency the Viceroy on his return journey to Simla, that the needs of the North-West Provinces are already affecting the grain traffic from Hindustan to Southern India, and that the grain exports from the Nerbudda Valley, as far west as Gadurwara, have turned eastwards and go towards Agra instead of towards Bellary. Anticipations are also expressed that, after the 15th of this month, there will be little northern grain to go forward to the famine districts, though despatches may be expected to continue from Nagpore and Berar.

5. It is satisfactory for the Government of India to know that, so far as can be foreseen, this falling off in despatches from the north will not injuriously affect the position in Southern India. Despatches of food-grains to the Madras Presidency from Bengal and Burma have, for several weeks past, averaged from 3,600 to 4,600 tons a day; and during the week ending on the 26th September the despatches of food-grains from Bengal and Burma to the Madras ports averaged 5,454 tons a day. The very favourable rain of September has done incalculable benefit to the standing and to the coming crops; already in some parts grain pits have been opened, hoarded grain has come into the market, and the demand for imported grain has diminished. A small, but quite appreciable and most welcome, quantity of food is being everywhere obtained from the petty millet crops, which have ripened or are ripening to harvest. And if the October rains are favourable, there will, it is believed, be sufficient food for the people until the great winter harvest ripens in January. Prices have but slightly fallen; and the continuance of dear prices will draw in supplies of food from Bengal where there is a large surplus of rice ready for export.

Statement No. XLV regarding the scarcity in the Deccan and Southern Mahratta Country, for the nine days ending 29th September 1877.

* These figures include all the labourers upon the Dhond-Manmad Railway, a large number of whom are not relief but ordinary labourers.

† These figures relate to some period between 8th and 15th, the information not tallying with the weeks.

‡ These figures are for the week ending 15th.

§ For details and dates see table appended.

The week's telegraphic news regarding agricultural prospects is very satisfactory, as it shows that rain has begun to fall in all the districts where it was specially needed. The kharif crops continue to improve, and the sowing of winter crops is more general.

2. Prices also—with the sole exception of Khandesh where there is a very slight rise, but where prices are still lower than in any other affected district—show a steady improvement.

3. The number of people upon relief works is, according to the latest information, less by 22,398 than the number reported last week. The only district in which there is any substantial increase is Ahmednagar, and the increase there is on the railway works. These works cannot now be held to be purely relief works, as, in order to complete the railway as soon as possible, the system of piece-work and petty contracts has been introduced, and persons not in need of relief are attracted to, and engaged upon, the work. In future statements the number of ordinary labourers, and that of labourers really employed on the railway as a means of relief, will be shown separately.

4. The number of deaths from cholera is again fewer than in the preceding week.

5. Weekly written reports received since the issue of the last statement bring the detailed information concerning the different Collectorates, some to the 15th and others to the 22nd instant. A table showing the rainfall and the prices of staple grains as ascertained from these reports is appended. The account of the agricultural prospects generally continues favourable, except in Násik and the north-west of Ahmednagar. The kharif crops have much improved in Násik and Poona, but more rain is wanted to make the sowing of rabi general in these districts. Similar improvement has not taken place in the worst talukas of Ahmednagar; and though some rain has been reported by telegraph since the date of the written report, even the latest information shows that much more rain is still wanted in parts of Kopargaon, Akola and Sangamner.

6. The following table gives the expenditure by Government, during the week ending 8th September, upon gratuitous relief, and in payments made to the young children of labourers employed upon relief works. Comparing the results shown in the table below with those shown in the last statement, it will be seen that the number of persons in receipt of Government charitable relief has increased from 88,347 to 91,170, while the number of children under 7 years of age has decreased from 82,033 to 71,838. The number of people charitably relieved was 36·36 per cent. of the number of labourers upon relief works during the same week.

Districts.	Collectors' discretionary grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116 of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.		
	Average number of persons relieved during the week.	Expenditure during the week.	Total expenditure up to date.	Average number of children, and of women taking care of them.	Expenditure during the week.	Total expenditure up to date.

	GRAND TOTAL ...	...	174,217	

8. Tables A and B are brought up to the week ending 15th instant. The number of persons on works under Public Works Department agency in the nine affected districts was at his date 189,773, and on works under Civil agency 22,913. The percentage of persons upon works under Civil agency has thus risen during the week from 9·6 to 10·7 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 94,50,404, which, with the expenditure of Rs. 1,08,224 upon works in Ratnagiri and Kanara, and Rs. 7,02,671 from the Collectors' discretionary allowances, gives a total of Rs. 1,02,61,299.

9. Maps are not sent with this summary.

10. From the appended table showing the condition of the affected Native States it will be seen that some improvement has taken place in Kolhapur, the Southern Mahratta States, Akalkot, Jath and Sawant Wari, and in all these States, except Jath, prices have fallen. In Savanur more rain is urgently needed. Phaltan shows no improvement. No report has been received from Pant Pratinidhi.

11. During the week ending 22nd instant, 708 tons of food-grains were exported from Bombay to the Southern Mahratta ports, and 4,533 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusawal-Nasik lines, making a total of 5,241 tons for the week. This is less by 2,146 tons than the importations of the previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 22nd September 1877 to the Southern Mahratta ports and the Railway stations in the distressed districts. It will be seen that the total amount delivered up to the 22nd September was 410,893 tons:—

Food-grains sent to	In October, November and December 1876.	In January, February and March 1877.	In April and May 1877.	In June 1877.	In July 1877.	In August 1877.	In September up to 22nd.	Total.

12. There has been a net decrease of 22,950 in the number of people upon relief works, and a decrease of 10,195 in the number of young children. There has, on the other hand, been an increase of 2,823 in the number of people upon charitable relief.

13. The improvement in the general situation is more marked, but the prices, though somewhat easier, still press severely upon the poorer classes.

C. J. MERRIMAN, Colonel, R. E.,
Acting Secretary to Government.

C. E. BERNARD,
Additional Secy. to the Govt. India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 4TH OCTOBER 1877.

General Remarks.—In Madras there has been good general rain in all districts, and prospects continue to improve; prices are falling, and harvesting is going on. The total number on works is 628,259, and gratuitously fed 1,603,721; the former is 13,603 more and the latter 46,588 less than last week. In Mysore there has been excellent rain and prospects are favourable; agricultural operations are being actively carried on; the numbers on works and in receipt of charity are not stated, but the latter, which was last week 208,683, is said to be now 46,791 less. In Bombay there has been good rain throughout the Deccan, the Southern Mahratta Country and the Konkan, where prospects are very favourable; in Khandesh and Násik there has been good but somewhat partial rain: more is required, but the crops are in fair condition; in Guzerat the crops are still fair, though more rain is urgently required in many parts of the province; none has fallen in Kattywar or Baroda, where the crops are suffering; in Sind there is no improvement. In the Central Provinces there has been a little rain in the Upper Godávari, Chindwára, Betúl, Bhandára, Chánda, Nágpur, Wardha, Mandla and Seoni districts, but the rice is everywhere suffering from the want of rain, and in some places has been already lost; the prospects of the *kharif* in Saugor and Damoh are critical. In Berar the crops are reported to be still good, but rain is much needed. In Central India the drought continues general; prices are rising, and immigration into Malwa from the North continues. In Rajputana no rain is reported except trifling falls at Abu and Deoli; there is no improvement in prospects. In Bengal there has been moderate rain in the Northern, Eastern and Central districts, except Mymensingh and parts of the Eastern Hill Tracts, where the fall has been excessive and has damaged the crops; in Bengal Proper prospects are fair; in the whole of Behar the crops are still suffering from drought, and in places are already lost; want of rain is also felt in parts of Pooree. No rain has fallen anywhere in the North-Western Provinces or Oudh during the week, and prospects continue bad. In the Punjab also there has been no rain, and no improvement in prospects. In Assam there has been abundant rain in Sylhet, but little in the valley; prospects are good. In Burma the fall has been light in most districts, and more is required for the rice lately planted out. In Nepal a fortnight without rain has changed prospects greatly for the worse, and half the rice crop is expected to be lost.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Kistna (Oct. 1st)	1·50	September 27th, rice 6·84, *cholum* 9·82, *raggi* 10·26, *cumboo* 13·88; on works 7,913; relief camps and houses 896; village relief 16,296; crops doing well; *sajja* and *cholum* in Bezwada, Guntoor and Nandigama being eaten by locusts; *sajja*, maize and *gingelly* harvesting; outturn fair; prices falling gradually.
Nellore („ 2nd)	1·07	September 29th, rice 5·93, *cholum* 7·44, *raggi* 8·06, *cumboo* 8·62; on works 24,794; canal 27,160; children 5,552; camps and houses 18,872; village relief 3,008; crops fair; agriculture active.
Cuddapah („ „)	2·0	September 28th, rice 5·82, *cholum* 7·88, *raggi* 7·83, *cumboo* 9·53; on works 109,509; children 21,490; camps and houses 7,760; village relief 125,765; all crops good; *cumboo* and *cholum* harvested in parts, outturn one-fourth.
Bellary („ „)	1·6	September 29th, rice 5·96, *cholum* 7·11, *raggi* 7·63, *cumboo* 6·96; on works 103,812; children 14,410; camps and houses 29,118; village relief 230,696; dry and wet crops generally fair; *cholum*, *raggi* and *cumboo* being harvested in few places; prices falling.
Kurnool („ „)	1·48	September 29th, rice 5·83, *cholum* 6·99, *raggi* 7·91, *cumboo* 8·12; on works 146,948; children 22,457; camps and houses 18,990; village relief 75,311; surviving crops thriving well; agricultural operations briskly carried on; prices generally falling owing to recent rains, and appearance of new dry grain from Hyderabad territory in Kurnool.
North Arcot („ „)	3·02	September 28th, rice 6·0, *cholum* 6·4, *raggi* 7·0, *cumboo* 7·5, wheat 5·2; on works 67,345; children 14,763; camps and houses 22,680; village relief 101,599; private charity 750; crops generally good; harvest of paddy, *raggi*, *cumboo*, and *gingelly*, outturn poor.
South Arcot („ „)	General rain ...	September 29th, rice 5·72, *cholum* 7·47, *raggi* 8·16, *cumboo* 8·81; on works 3,184; children none; in camps and houses 24,023; villages 56,252; freshes again in Ponnair; growing crops in good condition; *raggi* harvested in parts, outturn tolerable.
Tanjore („ „)	·9	September 29th, rice 5·68, *cholum* 9·56, *raggi* 9·82, *cumboo* 9·67; on works none; camp clearing 2,008; children ditto 459; camps and houses 6,017; village relief 17,018; rivers nearly full; wet crops thriving, dry in good condition except in parts of Paltucotta where they are withering, outturn of *kar* and paddy, full average in parts, and three-fourths in others; *curuvai* between half and three-fourths; *cumboo*, *cholum* and *raggi* one-fourth to full.

On page 2597 of the Supplement to the *Gazette of India* of the 29th September, opposite Nellore for "in camps 20,015 reported" read "20,115," opposite Cuddapah for "children 26,510" read "26,520," and for "private charity 844" read "834."

Bellary, 27th September (omitted to be telegraphed last week).—September 22nd, rice 5·61, *cholum* 6·53, *raggi* 7·2, *cumboo* 6·41; on works 93,646; children 14,612; camps and houses 29,602; village relief 219,175; rainfall 1·40; dry and wet crops generally fair; harvest none; prices falling.

On page 2598 of the same Gazette, in the rainfall column opposite Tanjore for "1·04" read "1·84;" opposite Tinnevelly for "private charity 8,366" read "7,396."

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*concluded.*		
Trichinopoly („ 2nd)	2·86	September 29th, rice 5·98, *cholum nil*, *raggi* 7·47, *cumboo* 8·87; on works 6,330; children 1,317; camps and houses 5,126; village relief 2,654; sowing continues; tanks supplied; harvest of early paddy, *raggi* and *cumboo* in parts, outturn nearly a nine-anna crop; rivers rising; fair rain in Puddukottai.
Madura („ „)	2·57	September 29th, rice 5·98, *cholum* 7·77, *raggi* 8·64, *cumboo* 8·67; on works 14,199; children 4,060; in camps and houses 24,214; village relief 69,575; freshes continue in the Viga; some paddy harvest in Periacolum.
Tinnevelly („ „)	1·10	October 1st, rice 7·05, *cholum* 9·0, *raggi* 8·80, *cumboo* 9·0; camps and houses 19,587; village relief 3,574; private charity 2,362; crops improving; harvest of paddy, *raggi* and *cholum* still continues, outturn of wet crops about three-fourths, dry crops about one-fourth.
Coimbatore („ „)	2·84	September 29th, rice 6·38, *cholum* 9·28, *raggi* 8·29, *cumboo* 7·24; on works 28,089; children 2,379; camps and houses 160,344; village relief 30,106; private charity 1,429; crops in good condition; harvest of *raggi*, dry grains and paddy, outturn from half to one-fourth and less.
Nilgiris („ „)	3·05	September 29th, rice 5·58, *cholum* 6·04, *raggi* 7·31, *cumboo* 6·93; relief works none; camps and houses 682; village relief 10; private charity about 200 at Coonoor; harvest of *samay* and *raggi*, outturn between half and one-fourth.
Salem („ „)	2·07	October 1st, rice 5·64, *raggi* 6·93, *cumboo* 6·82, *cholum* 6·87; on works 50,120; children 430; camps and houses 186,470; village relief 159,750; private charity 70; dry and wet crops thriving; harvest paddy, *cumboo* and *raggi* in parts, outturn about half.
South Canara („ „)	3·66	September 29th, rice 8·66, *raggi* 10·64; first rice crop harvested in parts.
Malabar („ 1st)	4·79	September 29th, rice 8·14, *raggi* 11·14; gratuitous relief 52; private charity 2,296; rain seasonable and sufficient; harvesting of *kani* crops almost completed, outturn above average; transplanting *magarom* crops proceeding, prospects very good.
Chingleput („ 2nd)	·5 in Conjeveram and from 1·25 to 2·25 in other taluks.	September 29th, prices, rice second sort 6·43, *raggi* 8·89, *cumboo* 8·91, *cholum* 7·58; imports, rice 155·62, *raggi* 29·03 tons; on relief works 19,605; gratuitous relief in camps 26,026, in other places 49,909. *General Remarks.*—General prospects improving; prices falling; total number on works 628,259; total number gratuitously fed 1,603,721; exports of grain by rail from Madras during the week ending the 29th ultimo 9,663 tons.
Bombay— (Oct. 3rd)		
Sind— („ 2nd)		
Kurrachee ...	Slight rain in Jati on 16th and 17th.	River on 1st 8 feet 10 inches; village Bana entirely destroyed by river.
Shikárpur ...	...	Rice crop harvest commenced; much has perished from want of water; *rabi* ploughing commenced; very small area fit for cultivation; cough generally prevalent; cattle disease in three talukas.
Hyderabad ...	...	River 8 feet 9 inches on 2nd, exact average of 10 years preceding *18·68 on same date, but 4 feet 3 inches less than same date last year, and 2 feet 7 inches less than average of last nine years.
Upper Sind Frontier ...	...	Weather cooler; heavy dews at night; *kharif* prospects gloomy owing to low supply of water; mouth of desert canal filled up; Sonewah ceased flowing; fever prevalent.
Guzerat— (Oct. 2nd)		
Ahmedabad ...	*Nil*	Weather warm; crops good.
Kaira ...	...	No change; weather very hot.
Surat ...	*Nil*; slight showers in Jalálpor, Chikhli, Bulsar and Párdi.	More rain urgently needed for standing crops; cholera at Surat, Rânder, Jalálpor, Bulsar and Párdi, 16 deaths.
Broach ...	2·0	Total rainfall 14·73; prospects gloomy in Ahmod, Jambusar, and Wágra talukas for want of rain; crops middling in Broach and good in Ankleswar; cholera in Broach talukas, cases 27, deaths 17.
Khandesh and Násik— (Oct. 2nd)		
Khandesh ...	1·75 in Dhulia; 2·25 in Parda; 1·75 in Sirpur; showers in 13 talukas.	Crops fair; thunderstorms prevalent; cholera disappeared; great heat generally everywhere.
Násik ...	Good rain in all talukas except Nándgaon and Báglán.	*Kharif* crops improved and promising in Báglán; more rain required; operations for *rabi* begun; cholera prevalent, deaths 11.
Konkan— (Oct. 2nd)		
Tanna ...	3·05 in all talukas except Dáhánu and peta Umbargám.	Total rainfall 60·7; cholera slightly exists in two talukas.

* *Sic* in telegram: according to the data given the average for the past ten years should be 11·6 feet.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*concluded*.*		
Deccan— (Oct. 2nd)		
Poona ...	1·46	Total rainfall 16·91; prospects of crops favourable; *rabi* sowing progressing in all talukas; cholera prevalent, deaths 5.
Ahmednagar ...	1·17 in Nagar ...	Total rainfall 19·07; the rain fell throughout all talukas; *kharif* well; *bajri* suffering from excessive rain in Shrigonda; *rabi* sowing progressing in all talukas; 34 deaths from cholera.
Sholapur ...	1·65	Total rainfall 31·10; young crops good everywhere; sowing of *rabi* in progress; prices falling.
Satara ...	5·82	Total rainfall 22·29; good rain in all talukas; crops flourishing; cholera prevalent, deaths 7.
Southern Mahratta Country— (Oct. 2nd)		
Kanara ...	5·83 in Karwar ...	Total rainfall 67·70; cholera continues; rice harvest on coast.
Kaládgi ...	2·88	Total rainfall 18·63; *rabi* sowing progressing except in Indi where retarded owing to heavy rain; cholera exists, deaths 2 in Hungund.
Kattywar and Gaekwar's Territory— (Oct. 2nd)		
Rájkot ...	*Nil*	Weather hot; crops suffering from want of more rain; health good.
Wadhwán ...	*Nil*	Crops have suffered; prices of grain rising; weather very hot.
Baroda ...	*Nil*	Public health good.
		* *General Remarks.*—Prospects in Sind are bad in consequence of want of water; in Guzerat they are still fair though more rain is urgently required; in the Deccan, Konkan and the Southern Mahratta Country prospects are generally very favourable owing to the recent timely fall of rain.
Bengal—		
Chittagong ...	2·85

Balasore ...	·93	District healthy.
Cuttack ...	1·41	
Pooree ...	3·95	Some cholera and cattle disease.
		General Remarks.—Prospects fair in all districts of Bengal Proper, except Mymensingh and parts of Chittagong Hills and Hill Tipperah where crops have been damaged by excessive rain; nearly the whole of the Patna division is still suffering from drought, and crops in places are ruined; want of rain also felt in Lohardugga and parts of Pooree; reaping of early crops nearly finished; ploughing for *rabi* commenced.

* *Supplementary report for week ending the 26th September 1877 which was not received in time for publication in the last Gazette.*

On works 219,910; on charity 91,170; young children 71,838; prices *jowari* from 8¼ pounds per rupee in Dharwar to 24 pounds in Khandesh; average Dharwar 12 pounds, Khandesh 17 pounds.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
N.-W. P. and Oudh—		
Benares (Oct. 3rd)	...	No change; hot westerly wind; rain urgently wanted.
Jhánsi (" ")	*Nil*	Wheat 10 and ¾ seers per rupee.
Agra (" 2nd)	*Nil*	Hot westerly winds prevailing; prospects becoming worse; about 450 people in poor-house and 2,300 on relief works.
Meerut (" 3rd)	*Nil*	Ploughing for *rabi* commenced on irrigated lands; prices rising.
Bareilly	...	No change since last report.
Lucknow (Oct. 3rd)	*Nil*	No change.
Sitapur (" ")	*Nil*	East wind; clear sky.
Fyzabad (" ")	...	West wind in beginning of week damaged crops; wind lately east; some promise of rain; prices steady, exportations having ceased.
		General Remarks.—No rain has fallen since the last report, and agricultural prospects are as bad as ever; relief works have been opened in Agra and a poor-house started; prices have not materially risen during the week, as there is less demand for grain for export.
Punjab— (Oct. 2nd)		
Delhi ...	...	Prospects of harvest very gloomy for want of rain; prices rising; health good.
Hissar ...	*Nil*	*Kharif* on unirrigated lands lost; prospects of *rabi* gloomy; cattle suffering; prices rising; the poor leaving the division in search of employment.
Umballa ...	*Nil*	Crops nearly withered; health good.
Jullundur ...	*Nil*	Prices unaltered.
Amritsar ...	*Nil*	No improvement in agricultural prospects; health good.
Lahore ...	...	Rain greatly needed; health good.
Mooltan ...	...	No report received.
Ráwalpindi ...	*Nil*	*Kharif* prospects gloomy; health fair.
Peshâwar ...	*Nil*	Health good.
Dera Ismail Khan ...	*Nil*	Total failure of *kharif* crops on *daman* lands; health good.
		General Remarks.—No rain and no improvement in agricultural prospects; the public health continues good; the poor in Hissar division reported to be leaving in search of employment.
Central Provinces—		
Upper Godávari (Sept. 29th)	·30	Prospects of *kharif* somewhat better, but more rain wanted; *jowar* sowings completed; cholera continues; prices risen.
Sambalpur ...	*Nil*	Crops good, except *mal* rice, which requires more rain; some rice of this description has already dried up; prices rising; exports increasing.
Biláspur ...	*Nil* since 16th Sept.	Rice on high land in critical condition and on low land fading and requires more rain; fever prevalent; prices rising.
Raipur ...	...	Prospects of *kharif* favourable as yet; rain much wanted for rice; should dry weather continue, outturns will be seriously affected; fever, small-pox and cattle disease prevalent; prices steady.
Bálaghát ...	...	Cloudy and hot; rain much wanted for rice on high lands which is suffering; fever continues; prices stationary.
Chhindwára ...	·38	Prospects favourable; prices steady.
Chánda ...	·09	Rice and *jowar* suffering for want of rain; health good; prices rising.
Betúl (Sept. 30th)	·86	Prospects fair; rain wanted; prices stationary.
Bhandára (Oct. 2nd)	·12	Rice crops when irrigated continues favourable; rice on high lands and *jowar* are suffering for want of rain; fever continues; prices rising.
Nágpur (" 3rd)	·02	*Kharif* crops doing well; *rabi* sowings delayed for want of rain; health good; prices falling.
Wardha ...	·16	Prospects good, but rain required.
Nimár ...	...	Heat intense; crops on high lands withering; small-pox continues; prices falling.
Hoshangabad ...	...	Prospects fair, but more rain wanted.
Narsinghpur ...	...	Rain much wanted; health good; prices slightly fallen.
Jubbulpore ...	...	Very hot, with occasional clouds; prices steady.
Saugor ...	...	Rain impatiently looked for; crops failing; prices rising.
Seoni ...	·70	Crops doing well; prices fallen.
Damoh ...	...	Rice crops drying up; prices rising.
Mandla ...	Slight rain ...	In places late rice suffering; prices rising.
		General Remarks.—Rice crops in all districts, especially in unirrigated portions, are suffering from want of rain, and in some places have already dried up; prospects of *kharif* in Damoh and Saugor critical.
British Burma— (Oct. 4th).		
Arrakan Division—	1·0 in Akyab ...	Public health good; agricultural prospects very promising.
Pegu Division—		
Rangoon ...	·49	Public health good; no change in state of crops, and no important change in prices; half of the crops in Hmaubee and Hlaing townships estimated as damaged; total rainfall 86·72 inches.

On page 2600 of the Supplement to the *Gazette of India* of the 29th September, opposite Jhánsi in the North-Western Provinces for "emigrants passing through district from Gwalior, Agra and Etáwah 1,000 a day" read "10,000 a day."

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
British Burmah—*concld.*		
Bassein ...	2·09	Health good; total rainfall 114·78 inches; ploughing and transplanting continue.
Henzada ...	9·32 in Henzada during week ending 29th ultimo; ·20 in Myanoung and ·80 in Mengyee during week ending 22nd.	Total rainfall in Henzada 70·35, in Myanoung 42·60, and in Mengyee 51·80 inches; cattle disease in 3 townships; 7 deaths from cholera in Monio, 2 in Tsanyway, and 2 in Okpho; crop prospects good; rain wanted.
Prome ...	·85 during fortnight...	Two deaths from cholera in Prome, 3 in Shwedoung, 2 in Padoung, and 28 in Poungday; cultivation progressing; total rainfall 45·44 inches.
Thayetmyo ...	·40	Cholera still prevalent, but on the wane, some troops moved to opposite side of river in consequence; standing crops promising, but need more rain; total rainfall 54·08 inches; river falling.
Thonkwa ...	...	Report not received.
Tenasserim Division— (Sept. 22nd)	1·95 in Amherst; 2·4 in Shwegyeen; ·63 in Toungho.	Public health good; paddy replanted in Amherst district doing well; Shwegyeen flooded, crops destroyed, crops on high grounds good; planting progressing in Toungho.
(„ 29th)	·94 in Amherst; 3·12 in Shwegyeen; 2·51 in Toungho.	Public health good; result of last planting of paddy in Amherst still very uncertain; slight damage from insects reported from Zeah township; crops on high grounds in Shwegyeen good; replanting progressing in Toungho; rain wanted.
		General Remarks.—No change to report; prices of grain still very high; rain wanted for the crops lately planted out.
Assam—		
Gauháti (Oct. 4th)	·11	Weather unsettled; becoming cool; mornings foggy; tea prospects good; rice crops progressing favourably.
Sylhet („ „)	19·35	Excessive rain at commencement of week, but weather changed to fair; general prospects good.
Mysore and Coorg— (Oct. 3rd)	5·24 in Bangalore; heavy showers in the districts also.	Prospects favourable; agricultural operations actively carried on; ordinary rice sells at Bangalore at 12 lbs. per rupee, and *raggi* in outlying districts even cheaper; decrease of 46,791 in numbers gratuitously relieved up to last Saturday; this is due partly to improvement in prospects of field employment, to enforcement of conditions of residence and labour in camps, and to transfer of able-bodied paupers to public works; health generally fair, but two officers attacked with cholera in Túmkúr district, and outbreaks of that disease reported also from elsewhere.
Hyderabad Assigned Districts— (Oct. 3rd)	*Nil*	Crops still good, except those on hard soil, which are not thriving; rain much needed.
Central India— (Oct. 2nd)		
Indore ...	*Nil*	
Gwalior ...	*Nil*	
Neemuch ...	*Nil*	
Rutlam ...	*Nil*	
Sutna ...	*Nil*	
		General Remarks.—Drought continues throughout Agency; prices rising; immigration into Malwa from Gwalior and Rajputana increasing; cholera at Goona, Gwalior and on high road between these two places.
Rajputana—		
Abu (Oct. 4th)	·02	Heavy clouds; windy; prospects of rain.
Sirohi (Sept. 30th)	...	Water-supply in wells and health good; crops not improved; heat intense.
Marwar (Oct. 4th)	...	Great heat throughout week; owners of cattle beginning to move abroad searching for forage.
Meywar (Sept. 28th)	...	Water-supply and health good; about two-thirds average crop; windy and clear.
Harowtee („ 29th)	·20 in Deoli; *nil* in Kotah, Tonk and Shahpura.	Intense heat day and night; clear; prospects bad.
Jhallawar („ 28th)	*Nil*	*Jowar* suffering from hot air and droughts; prices rising.
Ajmere (Oct. 4th)	*Nil*	Three-quarters of cattle migrated; immigration from Agra, Ulwur, Bhurtpore and Marwar going on; large grain importation arriving by railway; prospects very bad; health good.
Nepal (Sept. 26th)	*Nil*	No rain for nearly a fortnight; prospects much changed for the worse; it is estimated that one-half the rice crop will be lost:— Fine rice is now ... ... 5½ seers per rupee. Coarse ditto ... ... 7 „

G. H. M. BATTEN,
Offg. Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

THE LATE COLONEL D. G. ROBINSON, R. E.

RESOLUTION,—By the Government of India, P. W. Dept., No. 220E.-T., dated Simla, 25th September, 1877.

READ—

A letter from the Officiating Director-General of Telegraphs in India, No. 75 E.-T., dated 10th September, 1877, forwarding a Circular letter from the Director of the Bureau International des Administrations Telegraphiques to the Heads of the Foreign Telegraph Administrations announcing the lamented death of Colonel D. G. Robinson, R. E.

READ ALSO—

Further letters from the Officiating Director-General of Telegraphs in India, Nos. 81 E.-T., dated 20th September, and 84 E.-T., dated 24th September, 1877, forwarding a translation of a letter from the Head of the German Telegraph Administration, Privy Counsellor Stephan, and a letter from the Direction of Italian Telegraphs on the same subject.

ORDER.—Ordered that these esteemed testimonies to the value of Colonel Robinson's services as Director-General of Telegraphs in India be published for general information in the Supplement to the *Gazette of India*.

BUREAU INTERNATIONAL DES ADMINISTRATIONS TELEGRAPHIQUES.

CIRCULAIRE No. 240.

Berne, le 7 Août, 1877.

MONSIEUR LE DIRECTEUR GÉNÉRAL—

Je viens de recevoir et j'ai encore le regret d'avoir à porter à votre connaissance la triste annonce d'une perte nouvelle que vient de faire la télégraphie dans la personne de M. le Colonel Robinson, Directeur Général des télégraphes des Indes britanniques mort le 27 Juillet dernier à bord du bâtiment sur lequel il s' etait embarqué pour revenir des Indes en Angleterre, en raison de l'état de sa santé.

Depuis plusieurs années déjá, M. le Colonel Robinson était à la tête de l'important service des télégraphes indiens et dans le cours de son administration, il avait été chargé de l'honorable mission de représenter son Gouvernement à la commission télégraphique de Berne en 1871 et aux Conférences générales de Rome et de St. Pétersbourg. Les délégués des autres Offices qui out eu dans ces diverses circonstances l'occasion d'entrer en relations personnelles avec M. le Colonel Robinson se rappelleront la part considérable qu'il a prise alors au réglement des graves questions de la télégraphie extra-européenne et l'esprit de conciliation dont il a donné des preuves réiterées d'autant plus méritoires peut-être que nul plus que lui n'apportait d'ardeur et de conviction dans la défense des intérets qui lui etaient confiés. Ayant pu apprécier la haute compétence administrative et l'intelligence profondément pratique qui dans M. le Colonel Robinson distinguaient le fonctionnaire public et en mème temps les éminentes qualités de coeur et d'esprit qui caractérisaient en lui l'homme privé, tous les anciens membres de la commission de Berne et des Conférences de Rome et de St. Pétersbourg s'associeront certainement aux vifs regrets que cette perte inattendue aura causés tant aux nombreux personnel de son Administration qu'à sa famille et à ses amis.

No. XXX of 1877.

Weekly condition report of the distressed districts of the Mysore Province.

PROVINCE OF MYSORE.

(*No.* 33.)

Special famine report for the week ending 22nd September 1877.

Statement No. 33, regarding famine relief operations in the Province of Mysore, for the week ending the 22nd September 1877.

	Inches.
Bangalore	2·6
Kolar	3·1
Túmkúr	1·5
Mysore	1·8
Hassan	2·
Kadur	2·
Shimoga	1·7
Chitaldroog	2·2

The weather during the last week has been all that could be desired; there have been frequent showers of rain with bright sunny weather between. The rainfall has averaged about 2 inches and has been universal, the dry tract mentioned in the previous week's report having received a liberal downfall. Such of the early (dry) ragi as survived the drought has revived beyond all expectation and may yet produce a good crop, but it is not ripe yot. The irrigated ragi and rice are being cut in many parts. The late ragi is looking as well as possible, and the sowing of horse-gram and other rabi crops is proceeding under favourable conditions.

2. The markets continue to be well supplied. The imports by rail have been 4,200 tons, or 1,027 tons more than in the previous week: such temporary ebbs and flows appear to be due to accidental causes. The imports have been sent from the following quarters:—

	Tons.
Madras	3,520
Beypore, Coimbatore and Malabar	267
Trichinopoly, Tanjore and Negapatam...	379
Other places	34
Total ...	4,200

On the other hand the exports from Bangalore Municipality as registered by the octroi officials have been 1,896 tons, or 33 tons more than in the previous week. They were despatched to the following quarters:—

	Tons.
Túmkúr	346
Bellary and Chitaldroog	279
Mysore	571
Oossoor (Salem district)	272
Round Bangalore	428
Total ...	1,896

3. Prices are again a little easier than in the preceding week. The following statement shews the maximum and minimum prices in the districts of the Province:—

	Maximum in lbs. per rupee.		Minimum in lbs. per rupee.	
	Rice.	Ragi.	Rice.	Ragi.
Bangalore district ...	10½	13	8	11
Kolar „ ...	11½	16	9	11½
Túmkúr „ ...	10	16	9	10
Mysore „ ...	9	14	8	10
Hassan „ ...	10	14½	8	9
Kadur „ ...	9	14	8	10
Shimoga „ ...	10½	12	6½	8
Chitaldroog „ ...	10	16	8½	10

In rice there is a fall of about ½lb. per rupee both in the maximum and minimum scales. In ragi the minimum rate is almost unchanged, but in the maximum there is a great fall, in Túmkúr for instance the maximum was 12 lbs. per rupee and now it is 16 lbs.

4. The number of labourers on civil relief works has increased from 28,803 to 31,280, a rise of 2,477. The increase runs through all districts except those of the Nagar division, in all three of which there is an unexplained decrease. In the others the increase is as follows:—

Bangalore	236
Kolar	568
Túmkúr	1,946
Mysore	128
Hassan	920

But the Bangalore Deputy Commissioner in his own return shows an increase of 2,640. The discrepancy will be enquired into.

5. The Public Works Department returns shew 25,271 labourers against 24,942 previously, an increase of only 329. There is a decrease everywhere except in the Bangalore district, where the large number of relief labourers put on the State Railway and the Túmkúr road brings up the total. A good many of the works are on tanks and have been stopped by the water; in many cases it is reported that the labourers have left to work on their fields.

6. The numbers gratuitously fed in relief camps have fallen from 208,683 to 161,892. The decrease is very general and almost universal, but it is largest in the Bangalore district and Municipality in Kolar, Túmkúr and Chitaldroog; in fact in those districts where the numbers were most overgrown.

	Week ending— September 15th.	Week ending— September 22nd.	Decrease.	Increase.
Bangalore district ...	61,873	45,795	16,078	...
,, Municipality ...	26,467	15,342	11,125	...
Kolar district ...	17,865	8,698	9,167	...
Túmkúr ...	46,848	41,297	5,551	...
Mysore ...	2,381	2,575	...	194
,, Municipality ...	680	707	...	27
Hassan district ...	12,398	12,147	251	...
Kadur ...	3,033	2,828	205	...
Shimoga ...	4,204	3,984	220	...
Chitaldroog ...	32,934	28,519	4,415	...
		Total ...	46,791	

The decrease is partly due to the improvement in the prospects of field employment, and would have occurred in any case. It is partly due also to the enforcing of the conditions of residence and labour, and to the effects made to relegate the paupers to works. Of the numbers in the relief camps of the Bangalore Municipality, which have fallen by 19,000 in the last fortnight, over 5,000 have been put on the State Railway and the adjacent embankment; about 2,000 on the embankment of the Alsur lake; and about 1,000 more on different projects, the water works, and two lines of road. The improvement in the condition of the labourers is already obvious; they are cheerful, healthy and contented, and those who a fortnight ago were thought hardly able to lift a pick-axe, are now doing a fair day's work. Of the rest some have left for their villages, some prefer to beg about the town, but these will be collected and brought in by the Police. To every applicant either labour or food is offered: if labour cannot be provided, their food is given till the applicant can be set to work. The want of tools is still one of the greatest difficulties.

7. The cost of gratuitous feeding is returned as follows:—

	Per head. Rs. A. P.
Bangalore district	0 13 0
,, Municipality	Not returned.
Kolar	0 10 6
Túmkúr	0 12 3
Mysore	0 15 3
,, Municipality	1 14 8
Hassan	0 12 9
Kadur	0 15 8
Shimoga	0 8 4
Chitaldroog	0 10 7

An explanation will be called for of the excessive figures received from the Mysore Municipality.

"By Order,"

BANGALORE,
29th September 1877.

A. WINGATE,
Additional Secretary.

Further report regarding the type of fever prevailing in the Bombay Presidency during the Famine.

No. 525, dated 28th September 1877.

From—DR. S. C. TOWNSEND, *Offg. Sanitary Commissioner with the Govt. of India,*

To—C. BERNARD, Esq, C.S.I., *Additional Secy. to the Govt. of India.*

I HAVE the honour to forward for the information of the Government of India, copy of a letter dated 14th instant from Doctors Lewis and Cunningham with reference to the nature of the fever prevalent in Bombay in the early months of the current year.

Dated 14th September 1877.

From—DOCTORS T. R. LEWIS AND D. D. CUNNINGHAM, *Special Assistants to the Sanitary Commissioner with the Government of India,*

To—DR. S. C. TOWNSEND, *Offg. Sanitary Commissioner with the Government of India.*

WE have the honour to acknowledge the receipt of the "extract" from paragraph 4 of a despatch from the Secretary of State to the Government of India, No. 53 (Revenue), dated 26th July 1877, intimating that the further report promised in a communication by one of ourselves to your office regarding the fever then prevalent in Bombay* would be awaited.

* Report by Dr. T. R. Lewis, dated, Calcutta, 16th May 1877.

2. The proposal to submit this further report was, in great measure, made on the supposition that the statements then current regarding the wide distribution of a like fever in Madras were correct. Personal enquiry, however, made it evident that fevers so far from being exceptionally severe, were decidedly in abeyance.† No opportunity was therefore afforded for instituting the suggested comparisons.

† Report by Dr. D. D. Cunningham, dated Calcutta, 18th June 1877.

3. We have however availed ourselves of the opportunities which the various hospitals and jails of Calcutta afford of carefully observing the forms of fever which have prevailed during this season, but as yet have not observed any which could be regarded as fairly comparable with those which were prevalent in Bombay during the earlier part of the year—the fevers here being for the most part, manifestly 'intermittents' and 'continued.'

4. Since our reports were written, Surgeon-General Hunter of Bombay has submitted to the Local Government an exhaustive account of the leading features of the fever recently prevalent in that city, accompanied by numerous charts of temperature. This report corroborates the inferences which were made in the communication regarding this fever referred to in the despatch, *viz.*, that (*a*) in none of the cases in which the blood-spirillum had been observed 'could the origin of the fever have been directly attributed to want;' and that (*b*) the clinical history of the fever presented 'no well marked feature which would be sufficient to distinguish it from the class of fevers usually referred to as 'remittents' in this country.' German authorities also state that the fever in which the blood-spirillum was originally found "manifested a distinctly *remittent* character."‡

5. With regard to the first cited of these conclusions, we beg to draw special attention to the circumstance that it is in complete accordance with the experience hitherto acquired in connection with the presence of spirilla in the blood. None of the observers who detected these organisms in Europe have in the remotest manner implied that their presence in the blood was associated with want; on the contrary, Geissler expressly states that the fever in which they occur (commonly referred to in Germany as recurrent-typhus) is *not* a famine fever. Indeed it so happened that at the time of one of the epidemics, the wages of the labouring classes were exceptionally high§.

‡ Geissler in Schmidt's Jahrbücher, 1875.

§ "*Der Recurrens-typhus ist Kein Hunger-typhus Gerade die Tagelohnarbeiten waren damals gut bezahlt.*" Geissler, op-cit.

H. F. HANCOCK, *Lieut.-Col., R. E.,*
Consulting Engineer for Railways.

No. 107-110M, dated Poona, 29th September 1877.

From—LIEUT.-COL. H. F. HANCOCK, R. E., *Under Secy. to the Govt. of Bombay, Public Works Dept.*,

To—The Secretary to the Government of India, Public Works Dept.

I AM directed to submit for information the accompanying copy of report No. 99 M A, dated 27th instant, from the Consulting Engineer for Railways, Bombay, and in inviting attention to the arrangements made for dealing with the traffic under the altered conditions which now prevail, to state that the Bombay Government will continue to do their best to keep up the daily deliveries of 300 tons on to the Nizam's line and 900 tons into Raichore, but that the tide of famine grain traffic has apparently turned towards the north instead of from the north, and that they cannot predict the result.

No. 99 M A, dated Poona, 27th September 1877.

Memorandum by LIEUT.-COL. H. F. HANCOCK, R. E., *Consulting Engineer for Railways, Bombay.*

I HAVE discussed the present position of the traffic on the Great Indian Peninsula Railway with Mr. Barnett, Mr. Conder, Captain Oldham and Lieutenant Beauclerk, who has just returned from visiting the Jubbulpore line and Nagpore branch.

It is established that—

(1.)—We cannot count on any further supplies for the famine districts from the northern lines, as the recent rise of prices in the North-West has diverted them to Cawnpore, &c.

(2.)—Grain is now being booked to the North-West Provinces from stations on the Great Indian Peninsula line between Kundwah and Bhosawul.

Probably also from districts served by the Holkar State Railway.

(3.)—If high prices in the North-West continue, grain may be sent from Nagpore from Bombay, even back from Poona where large stocks have accumulated.

(4.)—Very little grain is now being booked anywhere on the Great Indian Peninsula Railway for the Nizam's line or for Madras stations. There are some wagons for both places on the road, but these will soon be cleared off.

(5.)—There is a large accumulation of wagons almost all from northern lines for Sholapur.

(6.)—Merchants in the Central Provinces now desire to book to—

(*a.*)—Bombay,

(*b.*)—Sholapur and Goalburga,

(*c.*)—Nasik, &c.,

not to Poona or Nizam's line or Raichore.

(7.)—A certain number of engines will be set free for other work by—

(*a*)—the falling off in through consignments from the East Indian Railway;

(*b*)—the reduction in booking to Nizam's line and Raichore, should this reduction be permanent.

Under all these circumstances I have come to the conclusion in which I believe all those I have consulted concur that the proper course will be—

to issue the notice drafted by Mr. Conder and marked A;

to restrict the *general* traffic to be taken from northern lines at Jubbulpore as heretofore to 40 or 50 wagons daily, and to utilise the engines set free by the cessation of *famine* traffic (100 wagons) heretofore received from northern lines in clearing Great Indian Peninsula stations.

This arrangement to continue so long only as the present condition of affairs remains unchanged, but it is to be distinctly understood that up to the quantities already stipulated for absolute preference is to be given to famine grain, that all the grain that can be obtained for Raichore and the Nizam's line up to the quantity promised is to be sent, and that 2,000 tons of grain are to be sent daily over the Bhoreghât so long as that quantity is worked, and the stations* to which it may be consigned can receive it.

* (*N. B.*)—Poona, Sholapur, &c., owing to limited accommodation, can only unload a certain number of wagons daily.

A

GREAT INDIAN PENINSULA RAILWAY.

NOTICE.

Booking of grain, &c.

NOTICE is hereby given that from Monday next, the 1st of October, grain and seed will be accepted in limited quantities at all stations for conveyance to any station of this Railway, subject to the condition that absolute preference will be given to that which is consigned to stations on the Madras Railway, to stations on the Nizam's Railway, and to stations of the Great Indian Peninsula Railway between Poona and Raichore, both inclusive.

BOMBAY
26*th September* 1877.

* These figures include all the labourers upon the Dhond-Manmad Railway, a large number of whom are not relief but ordinary labourers.

† These figures are for the weeks ending 15th and 22nd respectively. ‡ Corrected figures given. § Rates not reported. ‖ For details and dates see table appended.

The week's telegraphic news is again satisfactory. There has now been sufficient rain for the present everywhere, except in four talukas of Khandesh, three of Nasik and one of Poona.

2. Prices are falling everywhere, and in five of the Districts—Khandesh, Ahmednagar, Sholapur, Satara and Belgaum—the improvement in this respect is very considerable.

3. The number of people upon relief works is now 182,158, which is less by 36,758 than the number for the previous week. The number quoted still includes a number of ordinary labourers upon the Dhond and Manmad Railway, the necessary information for deducting them not having been received. Dharwar is the only district in which the number of labourers on relief works shows no decrease. The Collector, however, anticipates a considerable falling off shortly. The reduction is most marked in Kaladgi.

4. Cholera continues to decrease, and has now disappeared from three of the nine districts.

5. Weekly written reports received since the date of the last Statement bring the detailed information in the case of the Nasik, Poona, Sholapur and Satara Collectorates up to the 29th September, and in the case of the other five affected districts to the 22nd idem. The usual rainfall table compiled from these reports is appended. The kharif crops are in good condition everywhere, and the harvest has commenced in Ahmednagar, Satara and Kaladgi. The sowing of rabi progresses satisfactorily on the whole, though in some places in the districts to the north it is retarded for want of rain, while in Sholapur, on other hand, it is retarded by excessive rain. The cotton sown in Dharwar in August is reported to be well up and vigorous.

6. The following table gives the expenditure by Government, during the week ending 15th September, upon gratuitous relief, and in payments made to the young children of labourers employed upon relief works. Comparing the results shown in the table below with those shown in the last Statement, it will be seen that the number of persons in receipt of Government charitable relief has increased from 91,170 to 97,694, while the number of children under 7 years of age has decreased from 71,838 to 64,654. The number of people charitably relieved was 45·75 per cent. of the number of labourers upon relief works during the same week.

Districts.	Collectors' discretionary grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116 of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.		
	Average number of persons relieved during the week.	Expenditure during the week.	Total expenditure up to date.	Average number of children, and of women taking care of them.	Expenditure during the week.	Total expenditure up to date.

	GRAND TOTAL ...	...	1,49,779	

8. Tables A and B are brought up to the week ending 22nd ultimo. The number of persons on works under Public Works Department agency in the nine affected districts was at this date 168,207, and on works under Civil agency 22,371. The percentage of persons upon works under Civil agency has thus risen during the week from 10·7 to 11·7 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 97,17,101, which, with the expenditure of Rs. 1,19,367 upon works in Ratnagiri and Kanara, and Rs. 7,63,647 from the Collectors' discretionary allowances, gives a total of Rs. 1,06,00,115.

9. Maps are not sent with this summary.

10. From the appended table showing the condition of the affected Native States it will be seen that the improvement noticed last week continues, and that prices have fallen everywhere except in Phaltan where they are stationary.

11. During the week ending 29th September, 153 tons of food-grains were exported from Bombay to the Southern Mahratta ports, and 4,342 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusawal-Nasik lines, making a total of 4,495 tons for the week. This is less by 746 tons than the importations of the previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 29th September 1877 to the Southern Mahratta ports and the Railway stations in the distressed districts. It will be seen that the total amount delivered up to the 29th September was 415,388 tons :—

Food-grains sent to	In October, November and December 1876.	In January, February and March 1877.	In April and May 1877.	In June 1877.	In July 1877.	In August 1877.	In September 1877.	Total.

12. There has been a net decrease of 36,121 in the number of people upon relief works, and a decrease of 7,184 in the number of young children. There has, on the other hand, been an increase of 6,524 in the number of people on charitable relief.

13. The improvement in the general situation is more decidedly marked, but the poorer classes of the people still suffer from the prevailing high prices.

C. J. MERRIMAN, Colonel, R. E.,
Acting Secretary to Government.

C. E. BERNARD,
Additional Secy. to the Govt. India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 11TH OCTOBER 1877.

GENERAL REMARKS.—In Madras favourable rain is reported from all districts; agricultural operations are actively going on, and prices falling; the total number on works is 587,298, gratuitously fed 1,531,255: the former is less by 41,031 and the latter by 72,466 than last week. In Mysore also there has been good rain, the crops are flourishing, and prices falling; the number on works is 69,693, gratuitously relieved 126,204: the latter is 35,688 less than last week. In Bombay there has been abundant rain in Guzerat, where the *rabi* is now safe, in the Konkan, and Southern Mahratta Country; in the Deccan the rain has been moderate, except in Sholapur where it has been excessive: *rabi* sowings are going on; in Khandesh and Násik also the fall has been good, but more is wanted in the former district; in Sind the river is still low and prospects are bad. In the Central Provinces rain has fallen in all districts except Sambalpur; prospects are much improved, but more is required in some districts for the rice. In Berar an inch and a half is reported, and the prospects of the crops are excellent. Abundant rain has fallen throughout Central India, and prospects are much improved; immigration into Malwa is decreasing. In Rajputana there has been general and most opportune rain, which has saved the *rabi*, though in most places too late for the *kharif*. In Bengal there has been little rain in the Central districts of Bengal Proper, and more is wanted in Burdwan, Bankoora, Midnapore, Jessore, Pubna and Furreedpore; in Orissa and Chota Nagpore rain is also required; there has been a good fall throughout Behar, and prospects have improved. In Assam there has been little rain, and none in Sylhet; prospects are good. In Burma there has been fair rain, but the Irrawaddy has again flooded some of the tracts lately replanted, and in Bassein and Henzada there will in consequence be a considerable falling off in the area cultivated. In the North-Western Provinces and Oudh the whole aspect of affairs has been changed by a general and heavy fall of rain, which has secured the *rabi* sowings and greatly benefited the *kharif* crops which have survived the drought. In the Punjab there has also been general rain, except in Pesháwar and Mooltan; the prospects of the *rabi* have much improved.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Kurnool (Oct. 6th)	2·46 (average of the districts.)	Rice 5·91, *cholum* 7·41, *raggi* 8·24, *cumboo* 9·11; on works 129,795, children 17,012; camps and houses 15,785; village relief 71,595; standing crops thriving well; agricultural operations briskly carried on; prices are generally falling.
Nellore („ „)	1·25	Rice 5·99, *cholum* 7·55, *raggi* 8·50, *cumboo* 8·77; on works about 31,000; canal 28,092; children 5,083 reported; camps and houses about 15,500; village relief 2,770 reported, returns very incomplete; crops fair; agriculture still active.
Tinnevelly („ 8th)	1·0	Rice 7·65, *cholum* 9·90, *raggi* 9·90, *cumboo* 8·40; camps and houses 11,275; village relief 2,652; crops improving; sowing active in distressed taluks; harvest of paddy nearly over, except in Tenkarai, outturn reported to be nearly half on the average, but no doubt more.
South Canara („ 6th)	3·28	Rice 9·09, *raggi* 10·87; cholera and fever subsiding; first rice crop harvested in parts; outturn good.
Cuddapah („ 5th)	1·94	Rice 5·92, *cholum* 8·0, *raggi* 8·48, *cumboo* 10·23; on works 96,101; children 19,649; camps and houses 6,957; village relief 120,142; all crops good; *cumboo* harvested in parts, outturn ⅝ths.
Salem („ 8th)	2·12	Rice 6·34, *raggi* 6·90, *cumboo* 7·62, *cholum* 7·76; on works 52,500; children 370; camps and houses 199,330; village relief 158,000; crops thriving; harvest of paddy, *cumboo* and *raggi* in parts, outturn about half.
North Arcot („ 5th)	1·73	Rice 6·3, *cholum* 7·1, *raggi* 7·6, *cumboo* 8·0, wheat 5·2; on works 74,577; children 14,817; camps and houses 21,042; village relief 121,887; crops generally good; harvest of paddy, *raggi* and *cumboo*, outturn poor.
Trichinopoly („ 6th)	2·39 (average)	Rice 6·16, *cholum nil*, *raggi* 10·15, *cumboo* 10·45; on works 6,236; children 1,377; camps and houses 5,084; village relief 2,173; sowing in all parts; paddy being transplanted; early paddy, *cumboo* and *raggi* harvested in parts, outturn about a 9-anna crop; good rain in parts of Puducottai; *raggi* last week 9·33 instead of 7·47.
Tanjore („ „)	·24	Rice 5·80, *cholum* 8·72, *raggi* 10·70, *cumboo* 10·05; on works none; camp clearing 21; children none; camps and houses 2,894; village relief 8,506; rivers about ¾ths; wet crops thriving, dry in good condition except in Puttucotta where they are withering; harvest outturn of *kuruvai* and *kadappu* ½ to ¾, *kar* ½ to full, *cumboo* and *raggi* ⅛ to ¾.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*concluded.*		
Chingleput (Oct. 6th)	From ·12 to ·75 in *kasba* stations, and from ·75 to 1·5 in some of the villages of the different taluks except Conjeveram where no rain.	Rice, second sort, 6·85, *raggi* 9·52, *cumboo* 9·24, *cholum* 7·94; on relief works 11,407; gratuitous relief in camps 23,935; in other places 60,773.
Kistna („ 9th)	1·57 (average.)	October 4th, rice 7·09, *cholum* 10·27, *raggi* 10·90, *cumboo* 13·75; on works 6,731; relief camps and houses 228; village relief 16,783; crops good; *sajja, cholum* and young plants of some other dry crops slightly damaged by locusts in some taluks; *sajja* still harvesting, outturn about ¾; gingelly in Gudivada and Bander harvested, outturn about ½; reports of Guntoor and Bezwada relief camps not received; relief camps at Santaravur and Bapatla taluk abolished.
Bellary („ „)	1·8	October 6th, rice 6·0, *cholum* 7·86, *raggi* 8·83, *cumboo* 7·99; on works 86,071; children 6,086; camps and houses 27,302; village relief 236,515; dry and wet crops generally fair; *cholum, raggi* and *cumboo* being harvested in few places; decrease on works due to improved prospects and absence of returns from two taluks; prices falling.
Coimbatore („ „)	1·83	Rice 6·68, *cholum* 7·33, *raggi* 8·78, *cumboo* 7·50; on works 24,548; children 972; camps and houses 133,249; village relief 18,641; crops look well; harvest of paddy and *raggi*, outturn paddy full, *raggi* half or less.
Nilgiris („ „)	2·0	October 6th, rice 5·22, *cholum* 6·32, *raggi* 7·42, *cumboo* 6·53; relief works none; camps and houses 689; village relief 6; harvest of *raggi, samay, ganjee*, wheat and *koralie*, outturn between ½ and ⅓th.
Malabar („ 8th)	5·0	October 6th, rice 8·64, *raggi* 11·62; gratuitous relief 76; rain most favourable and sufficient; harvesting of *kani* crop and transplanting of second crop almost completed; prospects good.
Madura („ 9th)	2·11	October 6th, rice 6·39, *cholum* 8·11, *raggi* 9·30, *cumboo* 8·97; on works 18,612; children 1,471; in camps and houses 24,929; village relief 77,093; freshes continue in the Viga; some *jinai* and *raggi* harvested in Dindigul.
South Arcot („ „)	1·0 (average) no rain in Trinomallay and Chillambaram.	October 6th, rice 6·28, *cholum* 7·84, *raggi* 9·51, *cumboo* 9·35; two returns not received; on works by Revenue Department 398, by professional 2,882; children 55; in camps and houses 13,610; villages 40,868; freshes again in Ponnair; crops thriving; *raggi*, millet and paddy harvested in parts, outturn tolerable.
		General Remarks.—General prospects continue favourable; prices tending downwards; numbers decreasing; total number on works 587,228; total number gratuitously fed 1,531,255; exports of grain by rail from Madras during the week ending the 6th instant, not yet reported.
Bombay— (Oct. 10th)		
Sind— (Oct. 9th)		
Kurrachee ...	Slight rain in Belo taluka on 4th.	River at Kotri on 8th, 8 feet 1 inch; *jowari* and *bajri* being harvested at Jerruck and Sháhbandar; rats doing some mischief in 4 talukas.
Shikárpur ...	...	Great loss to rice crops from deficiency of water; *jowari* early sowings somewhat better, late sowings withering from want of water; *kharif* outturn will be barely 8 annas; scarcely any *rabi* to be looked for; no signs of rain.
Hyderabad ...	Slight rain in 4 talukas south and east of Hyderabad.	River falling slowly, 9 inches fall during week, 3 feet 6 inches lower on 9th than on same date last year; usual autumnal sickness slight; *kharif* reapings have commenced.
Upper Sind Frontier ...	*Nil*	Weather warm; *kharif* prospects gloomy owing to drought; fever prevalent.
Guzerat— (Oct. 9th)		
Ahmedabad ...	5·64	Total rainfall 19·90 fallen throughout district; crops much improved.
Panch Máháls ...	Nearly 2·0 from 3rd to 7th.	*Rabi* safe.
Kaira ...	Good rain throughout collectorate; 5·5 in Kaira.	*Bajri* slightly injured; other crops good; *rabi* prospects encouraging.
Surat ...	·70 in all talukas.	Standing crops well; cholera in 3 talukas, 13 deaths.
Broach ...	1·95 in Broach; 2·07 in Wagra; 4·45 in Ahmod; 4·50 in Jambusar; 1·12 in Ankleswar; 4·32 in Hánsot.	Standing crops much improved; re-sowing commenced where crops had withered; health good; cholera cases 24, deaths 14, in Broach taluka.
Khandesh and Násik— (Oct. 9th)		
Khandesh ...	From 6th to 9th 1·3 in Taloda; 1·05 in Nandurbár; ·15 to ·96 in 12 talukas.	Crops and public health good; young crops want rain in 6 talukas.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay,—*concluded.*		
Násik ...	Good and sufficient rain almost everywhere.	*Kharif* crops promising; *rabi* sowing begun; price lower.
Konkan— (Oct. 9th)		
Tanna ...	4·74	Total rainfall 65·44; rice crops thriving; cholera continues in Wára taluka; fever in district.
Colába (Oct. 8th)	6· in Alibág	Total rainfall 59·09; small-pox at Alibág; cattle disease at Mahád; weather and crops good.
Ratnagiri („ 2nd)	·53	Total rainfall 85·06; cutting of *haríe* crops continues; prospects very promising; 26 deaths from cholera in 4 talukas.
Deccan— („ 9th)		
Poona ...	·97	Total rainfall 18·81; crops and sowing as last reported; health and weather good.
Ahmednagar ...	·13	Total rainfall 19·20, fallen more or less in all talukas; *kharif* generally well except in Kopargaon, Sangamner, and parts of Akola and Ráhuri where it has generally failed; *rabi* sowings progressing; 23 deaths from cholera.
Sholapur ...	·21	Total rainfall 31·31; *kharif* crops good; excessive rain retards *rabi* cultivation, but extends time of sowing; condition of people slowly improving.
Satara ...	·18	Total rainfall since 1st June 22·47, fallen in all talukas; *kharif* crops generally well; sowing of *rabi* begun in some places; prospects good; 22 deaths from cholera.
Southern Mahratta Country— (Oct. 9th)		
Belgaum ...	Abundant rain throughout district.	Crops well; *rabi* sowing progressing.
Dharwar ...	Rain fell throughout Collectorate.	Crops excellent, except rice crops which require more rain; sowing of late crops and cotton progressing; fever continues in 4 talukas.
Kanara ...	5·0 in Karwar	Total rainfall 72·70; cholera continues, deaths 59 during fortnight; rice harvest on coast; prospects good.
Kaládgi ...	2·63; rain in 6 talukas from ·30 in Muddebihál to 2·03 in Bijápur.	Total rainfall 21·66; *rabi* sowing progressing except at Bijápur where it is retarded owing to excessive rain; *kharif* good.
Kattywar and Gaekwar's Territory— (Oct. 9th)		
Rájkot ...	·04	Total rainfall 14·92; weather hot; state of crops improving; health good.
Wadhwán ...	2·90 in Wadhwán.	Rain general throughout Jháláwad, total in Wadhwán 5·74; crops improved; health good.
Baroda ...	·62 since 6th.	Total rainfall 23·64.
		General Remarks.—Throughout the Presidency except in Sind, where prospects are gloomy, the general outlook continues favourable, though in parts of Ahmednagar the *kharif* has partly failed, and in parts of Khandesh the young crops want more rain.
Bengal— (Oct. 10th)		
Chittagong ...	·42	
Noakholly ...	2·2	Health good.
Chittagong Hill Tracts	3·17	
Hill Tipperah ...	1·62	
Backergunge ...	2·03	Fever prevalent, but general health fair.
Furreedpore ...	·40	
Dacca ...	·86	
Tipperah ...	·03	
Mymensingh ...	5·19	
24-Pergunnahs ...	·01	Fever prevalent, but public health fair.
Jessore ...	·70	
Nuddea ...	1·72	
Moorshedabad ...	·64	Health good.
Pubna ...	*Nil*	Fever prevalent.
Rajshahye ...	·99	Fever still prevalent.
Bogra ...	1·69	Some fever, otherwise district healthy.
Maldah ...	*Nil*	
Dinagepore ...	·12	
Rungpore ...	*Nil*	Health improved.
Cooch Behar ...	6·69	Health good.
Jalpáiguri ...	*Nil*	
Darjeeling ...	·30	
Midnapore ...	·05	
Howrah ...	·58	
Hooghly ...	·24	Fever prevalent.
Burdwan ...	·18	Ditto.

On page 2624 of the Supplement to the *Gazette of India* of the 6th October, in the rainfall column opposite Ahmednagar for "1·17 in Nagar" read "2·27"; and opposite Sholapur for "1·65" read "2·65."

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal,—*concluded.*		
Bankoora ...	*Nil*	
Beerbhoom ...	·54	
Sonthal Pergunnahs ...	3·46	
Bhágalpur ...	1·27	Raining at time of report.
Monghyr ...	3·38	
Purneah ...	·33	
Durbhunga ...	7·48	
Mozufferpore ...	3·67	
Sarun ...	·43	Showers falling at time of report.
Chumparun ...	·47	Cholera decreasing.
Patna ...	5·59; heavy shower on 10th instant.	Health good.
Gya ...	·16; nearly 1·0 since reported.	
Shahabad ...	1·42	
Hazáribágh ...	*Nil*	
Lohardugga ...	*Nil*	
Manbhoom ...	*Nil*	
Singhbhoom ...	·45	District healthy.
Balasore ...	·18	
Cuttack ...	·02	Sporadic cholera in *sadar* and Jajpore, otherwise health good.
Pooree ...	1·05	
		General Remarks.—In Bengal Proper prospects generally favourable, but more rain wanted in Burdwan, Bankoora, Midnapore, Jessore, Pubna and Furreedpore; in Mymensingh and Chittagong crops much damaged by excessive rain, in latter replanting going on; rain in Patna Division this week, heavy in Patna and Tirhoot, prospects somewhat imp:oved; more rain wanted in Monghyr and in Orissa and Chota Nagpore Divisions generally; *rabi* sowing progressing.
N.-W. P. and Oudh—		
Benares (Oct. 9th)	2·0 to 3·0 rain since the 7th.	*Kharif* prospects greatly improved; *rabi* sowings secured.
Allahabad („ 10th)	Good fall of rain throughout the district during the last few days; 3·9 at Allahabad.	This rain will enable *rabi* to be sown everywhere, and has benefited the *kharif* crops which survived the drought.
Jhánsi („ „)	2·25 at Head Quarters on 6th and 7th	Rain believed to have been general; this will save *rabi*; weather still cloudy; wheat fallen to 10 seers per rupee.
Agra („ 9th)	1·3 to 7·7 throughout the district.	Prospects considerably improved; ploughing commenced; relief parties diminishing; prices improved.
Meerut („ „)	4·1	Sowings assured.
Bareilly („ 10th)	6·6	Rain sufficient for *rabi* sowings throughout district; a portion of *kharif* saved; general health good; no disease among cattle.
Lucknow ...	2·4 at *sadar*; 2·0 at Mohanlalganj; 3·0 at Malihabad.	
Sitapur ...	4·4 at *sadar*.	Rain general but unequal; tanks not filled; sugarcane and pulse revived; *rabi* sowings ensured if seed grain be obtained, but Mahajans deal for cash only.
		General Remarks.—A general and heavy fall of rain reported from each division, securing *rabi* sowings and greatly improving the *kharif* crops which have survived the drought; prices have fallen several seers.
Punjab— (Oct. 9th)		
Delhi ...	6·0	Prospects brighter everywhere; health good; prices falling.
Hissar ...	Very slight rain.	Autumn harvest lost; cattle suffering from want of forage; health good.
Umballa ...	1·3; 3·0 in Ludhiána on 6th.	No improvement to crops; health good.
Jullundur ...	·5	Health good.
Amritsar ...	·8	Early *rabi* crops secured; health good.
Lahore ...	·5	More rain required; health good.
Mooltan ...	*Nil*	P.oughing and sowing for *rabi* proceeding; health good.
Ráwalpindi ...	1·0; favourable rain at Gujrát and Jhelum.	Rain sufficient for *rabi* sowing; health fair.
Pesháwar ...	*Nil*	Health good.
Dera Ismail Khan ...	Slight rain at Dera Gházi Khan; *nil* elsewhere.	Prices rising; health good.
		General Remarks.—Rain has fallen pretty generally and the *rabi* prospects have much improved; health continues good.
Central Provinces—		
Upper Godavári (Oct. 6th)	1·35	Some rice dried up for want of rain; irrigated rice fair, but requires more rain; cholera continues; prices steady.
Sambalpur ...	*Nil*	*Mal* rice nearly all destroyed, but some may be saved if rain falls soon; other rice crops are suffering for want of rain, but will not fail altogether; health good; prices rising.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Central Provinces,—*concld.*		
Bilâspur ...	1·30	Rain beneficial; prospects improved; fever continues; prices slightly risen.
Raipur ...	1·9	Prospects favourable, but more rain wanted for rice; small-pox, fever and cattle disease prevalent; prices stationary.
Bálaghát ...	1·50	Prospects favourable; fever continues; prices unchanged.
Chhindwára ...	1·58	Prospects favourable; fever prevalent; prices steady.
Chánda ...	7·90	More rain wanted for rice; health good; prices rising.
Betúl (Oct. 8th)	2·47	Prospects favourable; prices steady.
Bhandára („ 9th)	1·12	Prospects fair; more rain wanted for rice crops.
Nágpur („ 10th)	4·27	More rain required for crops on light soil; slight fever prevalent; prices falling.
Wardha („ „)	1·65	Prospects good.
Nimár ...	·84	Prospects improved; small-pox continues.
Hoshangabad ...	2·68	Prices unchanged.
Narsinghpur ...	3·0	Prospects improved; health good; prices falling.
Jubbulpore ...	1·7	*Rabi* sowing progressing; health fair; export to North-West brisk; prices unchanged.
Saugor ...	1·33	Rain beneficial; prices declining.
Seoni ...	3·70	Crops much benefited; prices stationary.
Damoh ...	...	No report received.
Mandla ...	·33	Prospects favourable as yet, but rain much wanted; fever continues; prices unchanged.
		General Remarks.—More or less rain has fallen in all districts, except Sambalpur; prospects improved, but more rain is required for rice crops in some districts, particularly Sambalpur.
British Burma— (Oct. 10th).		
Arrakan Division—	Under 1·0 in Akyab	Agricultural prospects good; cholera reappeared in town of Sandoway and in portions of that district, otherwise public health good.
Pegu Division— Rangoon ...	4·71	State of agricultural prospects and health fair; replanting commenced in unfavourable weather; rain wanted in Angyee township; prospects good with exception of 3 circles; in Hline and Hinawbee townships ⅔rds of paddy west of railway destroyed, replanting going on; paddy little injured in Hpounglong township; fever and cattle disease in 2 townships; total rainfall 91·67 inches.
Thonkwa ...	Rainfall steady	Health generally good; replanting continues; crops not destroyed are in excellent condition.
Bassein ...	·96	Fevers prevalent; total rainfall 115·74 inches; transplanting going on.
Henzada ...	1·81 during week ending 6th instant; 0·30 in Mengyee, and nil in Myanoung during week ending 29th ultimo.	Total rainfall in Henzada 72·16, in Myanoung 42·60, and in Mengyee 52·10 inches; slight cattle disease in 2 townships; 67 deaths from cholera in Mengyee, 6 in Monio, 1 in Asanyuay, and 2 in Kyanghin; small-pox in Henzada town; crops progressing; replanting unsuccessful.
Prome ...	1·0	Cholera in Poungday sub-division, 7 deaths, Shwedoung 5; otherwise healthy; total rainfall 46·45 inches, crops promise fairly.
Thayetmyo ...	·76	Public health generally good; cholera ceased; crops progressing; total rainfall 54·84 inches.
Tenasserim Division—	2·28 in Amherst; 4·22 in Tounghoo; 1·88 in Shwegyeen.	Public health good; result of replanting in Amherst district still very uncertain; replanting continues in Tounghoo district, acres destroyed reduced to 3,805; second planting in Shwegyeen district saved by timely rain; in 2 circles loss expected to be considerable, elsewhere not serious.
Mergui (Sept. 29th)	1·41	Destroyed crops were replanted; those not injured doing well; cholera in Mergui town.
Tavoy („ 30th)	5·0 during fortnight.	Public health fair; crops appear healthy and promising.
		General Remarks.—The rainfall during the past week has done some good, but the rise of the Irrawaddy has again damaged some of the crops latterly planted; there will be a large falling off in the area under cultivation in the Bassein and Henzada districts.
Assam—		
Sylhet (Oct. 10th)	*Nil*	Some damage done by flood in places; general prospect favourable.
Gauháti („ „)	·55	Weather variable; mornings and evenings cool; rice cultivation and tea manufacturing progressing favourably; public health good.
Mysore and Coorg— (Oct. 10th)	·84 in Bangalore; ·29 in Mysore, and 2·63 in Coorg.	Prices falling; crops flourishing; prospects encouraging; daily average number employed on works under civil officers as per return last tabulated was 31,038, and under professional department 38,655; 126,204 persons were fed gratuitously against 161,892 in previous week; this decrease is due to improved prospects, resumption of ordinary occupations, and stricter supervision of camps.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Hyderabad Assigned Districts— (Oct. 10th)	1·50	Crops will now be excellent.
Central India— (Oct. 9th)		
Indore ...	3·10	Total 21·96.
Gwalior ...	3·40	„ 9·21.
Neemuch ...	6·93	„ 15·21.
Rutlam ...	·81	„ 19·5 .
Sutna ...	2·12	„ 24·96. *General Remarks.*—Rain has done much good; immigration into Malwa continues, but the number of immigrants is decreasing; cholera on the road between Sipri and Goonah.
Rajputana—		
Abu (Oct. 10th)	1·82	Clear sky; rather cool.
Sirohi („ 7th)	·60; fair rain fell in southern districts.	Tanks, wells and health good; ploughing commenced in some districts.
Meywar („ 5th)	·1	Water-supply and health good; average crop about two-thirds; windy and cloudy.
Ajmere („ 8th)	About 2·0.	
Jeypore („ 9th)	1·75	Cloudy; more rain expected; prospects improved and prices falling; barley 14 seers, wheat 12, gram 12; health good.
Bhurtpore („ 8th)	7·50	Still cloudy.
Ulwur („ 9th)	1·68	Rain too late to save any portion of *kharif* but favourable for *rabi*; more urgently required for sake of pasture of cattle.
Marwar („ 10th)	Good showers in Sojat, Jaitáran, Páli, Godewar, Jálor and Mullani on the 5th; ·10 in Jodhpore on 6th.	Emigration from Mairta and through Páli at 400 per day each place.
Harowtee („ 8th)	3·0 in Deoli; 3·80 in Kotah; 6·20 in Tonk; 2·31 in Shahpura.	Condition most favourable for *rabi* sowings: fears for grass removed; prospects cheering; famine averted.
Jhallawar („ 5th)	Good showers in districts.	Prospects brightening.
Nepal (Oct. 2nd)	0·12	Prolonged drought has done much damage; probably not more than one-half the rice crop will be saved; but there are as yet no apprehensions of actual scarcity.

Meerut division reports "about two inches of rain on 1st and 3rd of the month."

Eastern Jumna Canal.—Little or no rain throughout the month, and very heavy demand for water.

No remarks from other canal divisions.

Traffic.—Decline in all descriptions of traffic owing to the anticipated closure of canal.

ALLAHABAD,
The 30th August 1877.

G. H. D. WALKER.

GOVERNMENT OF INDIA.

Continuation sheets of the Supplement published at Calcutta on this date.

[illegible] ysore Province.

Special famine report for the week [illegible] *ber* 1877.

Statement No. 34, *regarding famine relief operations in the Province of Mysore, for the week ending the* 29*th September* 1877.

Prospects continue favorable. During the past week there have been frequent and heavy showers, the rainfall averaging throughout the Province from 2 to 3½ inches, and therefore generally heavier than in the previous week. The tanks have in most places received a good supply, and in many there has not been so much water for several years. The harvesting of the early crops continues, the crops still in the ground are promising, and agricultural operations for late sowings active.

2. The imports of grain by rail amounted to 4,734 tons, or 534 tons more than for the week ending the 22nd instant. The markets are fully supplied. The imports were received from the following quarters:—

	Tons.
Madras	4,399
Beypore and Malabar	94
Trichinopoly, Tanjore and Negapatam...	154
Other places	87
Total ...	4,734

From Bangalore 1,751 tons were exported to places in the interior, or 145 tons less than last week. The export was to the following quarters:—

	Tons.
Túmkúr	456
Bellary and Chitaldroog	239
Mysore	518
Oossoor (Salem district)	55
Round Bangalore	483
Total ...	1,751

3. Prices are again a little easier, the tendency to a slight fall having continued in most districts. The following statement shews the maximum and minimum prices in the districts of the Province:—

	Maximum in lbs. per rupee.		Minimum in lbs. per rupee.	
	2nd sort rice.	Ragi.	2nd sort rice.	Ragi.
Bangalore district ...	12	14	9	13
Kolar " ...	12	16	9½	12
Túmkúr " ...	11	17	9	10
Mysore " ...	9½	14	8	10
Hassan " ...	10	15	8½	9½
Kadur " ...	9	14	8	10
Shimoga " ...	11	14	8	9½
Chitaldroog " ...	12	16	8	10½

In Bangalore there has been a material fall in rice and ragi in both the maximum and minimum scales, ragi now selling at 14 and rice at 12 lbs. per rupee. Rice is cheapest in Bangalore, Kolar and Chitaldroog, and ragi in Kolar, Chitaldroog and Túmkúr. Local stores of ragi have been produced for sale in several districts.

4. The number of laborers on civil relief works was 31,038, or 242 less than in the previous week, but the returns having come in for the first time in a new form, the figures are not quite accurate. There was an increase of 1,524 laborers in Bangalore and of 1,766 in Mysore, and a decrease of 1,066 in Túmkúr and of 1,015 in Chitaldroog. The other variations were not remarkable.

5. Under the Public Works Department 27,655 laborers were employed, or an increase of 2,384. The increase was chiefly in Bangalore, whilst Kolar, Túmkúr, Hassan and Kadur shew a decrease. Laborers continue to leave the works for field occupation, and officers report that in parts where prospects are most encouraging, people neither seek the works nor relief camps.

The State Railway is the only very large work in progress, and more than 7,000 are now working upon it. The Bangalore and Mysore water-supply projects occupy 3,000 between them: the other works are chiefly roads and tanks, some of which have only been recently commenced.

6. The numbers gratuitously fed in relief camps have again fallen and now amount to 126,204, or about the number returned for the week ending 7th July. The decrease is very general, but it is largest in the Bangalore, Túmkúr, and Kolar districts. In the Bangalore Municipality there was a small increase:—

		Week ending— September 22nd.	Week ending— September 29th.	Decrease.	Increase.
Bangalore district	...	45,795	20,256	25,539	...
„ Municipality	...	15,342	15,395	..	53
Kolar district	...	8,698	6,291	2,407	...
Túmkúr „	...	41,297	36,310	4,987	...
Mysore „	...	2,575	2,638	...	63
„ Municipality	...	707	710	...	3
Hassan district	...	12,147	11,165	982	...
Kadur „	...	2,828	2,682	146	...
Shimoga „	...	3,984	3,075	909	...
Chitaldroog „	...	28,519	27,682	837	...
Total	...	161,892	126,204	35,807	119

7. The net decrease amounts to 35,688, and is due to the same causes which operated last week, namely, improved prospects, resumption of ordinary occupations, and stricter supervision of the camps. It is most marked in the districts to most benefited. More than 12,000 people are being employed near Bangalore, and as more work becomes available, further transfers from the relief camps can be made. The condition of the people on the works continues a marked contrast to their appearance in the relief camps. The orders to refuse no applicant continue in force.

8. The cost of gratuitous feeding is returned as follows:—

	Per head. Rs.	A.	P.
Bangalore district	1	2	4
„ Municipality	0	8	9
Kolar district	0	10	2
Túmkúr „	0	12	5
Mysore „	0	14	9
„ Municipality	0	7	5
Hassan district	0	12	4
Kadur „	0	11	1
Shimoga „	0	13	2
Chitaldroog „	0	8	11

or an average cost of 12 annas per head.

"By Order,"

Bangalore, 6th October 1877.

A. WINGATE,
Additional Secretary.

INTERIM REPORT.

Weather continues showery. Prospects encouraging.

Bangalore, 6th October 1877.

* These figures include all the labourers upon the Dhond-Manmad Railway, a large number of whom are not relief but ordinary labourers. † Ordinary labourers excluded.
‡‡ These figures are for the weeks ending 22nd and 29th September respectively. § For details and dates see table appended.

The season continues to improve. Eight talukas were mentioned last week as requiring more rain, and this week the number is reduced to four—three in Khandesh and one in Nasik. The kharif crops have generally failed in those talukas in the north-west of Ahmednagar mentioned in the last statement but one as the worst.

2. Prices are more fluctuating, but on the whole show further improvement.

3. A decrease of 63,902 in the number of labourers upon relief works follows this week upon the decreases of 22,938 and 36,758 shown in the last two statements. But about 25,000 of this week's decrease should strictly be divided among several preceding weeks, as it consists of the number of ordinary labourers engaged upon the Dhond and Manmad Railway, who have now for the first time been distinguished from the relief labourers upon the same work, and left out of account. It is satisfactory to notice that the numbers are now getting less in every one of the nine districts.

4. Cholera has now disappeared from all the affected districts, except Nasik and Ahmednagar. In the last named district the number of deaths is increasing.

5. Weekly written reports received since the date of the last statement bring the detailed information in the case of the Nasik, Poona, Sholapur and Satara Collectorates up to the 6th October, and in the case of the other five affected districts to the 29th September. The usual rainfall table compiled from these reports is appended. The kharif crops continue in good condition almost everywhere, but are suffering for want of rain in the south and the east of Khandesh, and in the north of Ahmednagar. The same cause prevents the sowing of winter crops in some places in the same districts; while in others, particularly in Sholapur, Satara and Kaladgi, that work is impeded by excessive rain. On the whole, however, the sowing of winter crops progresses satisfactorily, and where the only impediment is excessive rain, the same cause which now delays sowings serves also to extend the time for possible sowing.

6. The following table gives the expenditure by Government, during the week ending 22nd September, upon gratuitous relief, and in payments made to the young children of labourers employed upon relief works. Comparing the results shown in the table below with those shown in the last statement, it will be seen that the number of persons in receipt of Government charitable relief has decreased from 97,694 to 96,083, while the number of children under 7 years of age has decreased from 64,654 to 55,972. The number of people charitably relieved was thus just half as many as the labourers upon relief works during the same week.

Districts.	Collectors' discretionary grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116 of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.		
	Average number of persons relieved during the week.	Expenditure during the week.	Total expenditure up to date.	Average number of children, and of women taking care of them.	Expenditure during the week.	Total expenditure up to date.

* Returns incomplete.

7. In the following table are enumerated the works under Public Works Department agency upon which more than a thousand persons were employed in the week ending 29th ultimo. The total number engaged on these large works constitutes over 74 per cent. of the whole number of labourers upon relief works:—

Districts.	Works.	Number of labourers.	Total.	REMARKS.
Khandesh ...	Dhulia-Pimpalner Road ...	2,783	5,198	
	Bombay-Agra Road ...	2,415

	Hullial-Annigeri Road ...	2,154		
	GRAND TOTAL ...	...	1,23,747	

8. Tables A and B are brought up to the week ending 29th ultimo. The number of persons on works under Public Works Department agency in the nine affected districts was at this date 140,157, and on works under Civil agency 24,855. The percentage of persons upon works under Civil agency has thus risen during the week from 11·7 to 15· per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 98,46,769, which, with the expenditure of Rs. 1,20,667 upon works in Ratnagiri and Kanara, and Rs. 8,20,732 from the Collectors' discretionary allowances, gives a total of Rs. 1,07,88,168.

9. Maps are not sent with this summary.

10. From the appended table showing the condition of the affected Native States it will be seen that the accounts of the crops continue favourable, and that prices continue to fall. Little additional information has been received as regards the number of people upon the relief works.

11. During the week ending 6th October, 101 tons of food-grains were exported from Bombay to the Southern Mahratta ports, and 3,736 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusawal-Nasik lines, making a total of 3,837 tons for the week. This is less by 658 tons than the importations of the previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 6th October 1877 to the Southern Mahratta ports and the railway stations in the distressed districts. It will be seen that the total amount delivered up to the 6th October was 419,225 tons :—

Food-grains sent to	In October, November and December 1876.	In January, February and March 1877.	In April, May and June 1877.	In July 1877.	In August 1877.	In September 1877.	In October (up to 6th).	Total.

12. There has been a net decrease of 63,732 in the number of people upon relief works, and a decrease of 8,682 in that of young children, and a decrease of 1,611 in that of people on charitable relief.

13. There is considerable improvement in the general situation, but the high prices still press heavily upon the poor.

C. J. MERRIMAN, Colonel, R. E.,
Acting Secretary to Government.

C. E. BERNARD,
Additional Secy. to the Govt. India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 18TH OCTOBER 1877.

GENERAL REMARKS.—In Madras abundant rain is reported from the Malabar Coast, and good general rain elsewhere: prospects continue good, and agricultural operations are actively progressing; prices are slowly falling. The number on relief works is 530,299, and gratuitously fed 1,283,966; the former is less by 56,929 and the latter by 247,289 than last week. In Mysore there has been excellent general rain, and the crops are flourishing; the number on works is 62,506 and gratuitously relieved 103,750: the former is less by 7,187 and the latter by 22,454 than last week. In Bombay there has been heavy rain in the Southern Mahratta Country and Ratnagiri, and good showers throughout the Deccan: none has fallen in Guzerat, Kattywar, Khandesh or Násik; the crops are generally in good condition in Bombay proper, but want more rain in parts of Ahmednagar, Násik, and Khandesh; in Sind there is no improvement. In the Central Provinces there has been good rain in Chhindwára and Mandla, and slight showers in a few other districts: the prospects of the *kharif* are good everywhere except in Sambalpur, Saugor and Damoh, where the rice has failed: the *rabi* sowings are being vigorously pushed on. No rain is reported from Berar, but the crops are in good condition. None has fallen in Central India: prospects in Malwa and Baghelkhand are good, but immigrants are still coming southwards in large numbers from the direction of Gwalior. In Rajputana very slight showers are reported from Ajmere, Jodhpore and Ulwur; more rain is generally wanted to permit of sowings in Ulwur and Jeypore. In Bengal there has been good general rain, which has made prospects favourable throughout Bengal proper and Behar; in Pooree, Lohardugga and Singhbhoom the crops are however suffering from want of rain. No more rain has fallen in the North-Western Provinces and Oudh; sowings for the *rabi* are everywhere in active progress; prices are still high, but prospects generally good. In the Punjab a good fall of rain is reported from Ráwalpindi, and showers in Hissar, Jullundur, Amritsar and Pesháwar: ploughing and sowing for the *rabi* are going on. Rain has fallen in Nepal, where prospects are now improved. In Assam there has been rain, and prospects are favourable. In Burma there has been moderate rain, and the condition of the crops generally is good: a considerable portion of the area where the rice was destroyed by floods has been replanted, but the weather latterly has not been favourable to the young crops.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Kurnool (Oct. 16th)	·89 (average in 5 taluks.)	October 13th, rice 5·98, *cholum* 7·60, *raggi* 8·44, *cumboo* 9·66; on works 115,393; children 15,347; camps and houses 14,268; village relief 69,230; figures for Koilkuntla, Sirwell and Markapur estimated, return not being received; standing crops thriving well; agricultural operations vigorously carried on.

Shikárpur ...	...	No change.
Hyderabad ...	...	*Kharif* reaping, *rabi* progressing, prospects poor; river abnormally low; fever in 7 talukas.
Upper Sind Frontier ...	...	Weather cool; heavy dews at night; *kharif* crops withering for want of water; earlier crops ripening; *rabi* prospects gloomy; fever prevalent.
Guzerat— (Oct. 17th)		
Ahmedabad ...	*Nil*	Crops good.
Pánch Maháls ...	*Nil*	Close and cloudy.
Kaira ...	...	No change; weather and public health good.
Surat ...	*Nil*	Cholera in Surat and Choryási, 4 deaths; fever in 3 talukas.
Broach ...	*Nil*	Cholera in Broach taluka, 9 cases, 5 deaths; crops thriving.
Khandesh and Násik— (Oct. 17th)		
Khandesh ...	*Nil*	*Kharif* very fair, but late crops and *rabi* require rain; prices considerably down; public health good.
Násik ...	*Nil*	*Kharif* reaping and *rabi* sowing progressing; prospects good except in Yeola; cholera slight; prices lower.
Konkan— (Oct. 17th)		
Tanna ...	...	Crops good except in two talukas; cholera continues in parts of the district.
Colába (Oct. 15th)	·58 in Alibág ...	Total rainfall 59·67; small-pox at Alibág and cattle disease at Mahád; weather and crops good.
Ratnagiri („ 9th)	2·92	Total rainfall 87·98, fallen more than was needed in some talukas; *harie* crops being cut; prospects continue to be promising; 12 deaths from cholera in two talukas.
Deccan— („ 17th)		
Poona ...	·63	Total rainfall 19·22; prospects of crops, &c., as last reported; deaths from cholera in Junnar and Haveli 4; a few cases of small-pox in Junnar; health and weather good.
Ahmednagar ...	*Nil* in Nagar; ·75 in Karjat on 12th.	*Bajri* harvesting generally progressing; *rabi* sowing continues; rain still required in parts of Sangamner, Kopargaon, and Ráhuri; 70 deaths from cholera.

On page 2661 of the Supplement to the *Gazette of India* of the 13th instant, opposite Bellary for "village relief 236,515" read "238,515," and opposite Madura for "children 1,471" read "1,671."

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*concluded.*		
Sholapur ...	·56; showers in talukas.	Total rainfall 31·87; *kharif* crops good; *rabi* sowing progressing; condition of people improving.
Satara ...	1·40; heavy rain in Tásgaon; in other talukas fall varying from ·07 in peta Khandála to 3·73 in Khánápur.	Total rainfall 23·98; crops good throughout; sowing of *rabi* retarded in some places; 17 deaths from cholera.
Southern Mahratta Country— (Oct. 17th)		
Belgaum ...	2·11; rain throughout district; maximum 2·90 in Gokak; minimum ·18 in Athni.	Total rainfall 43·54; crops generally well hitherto, but fear expressed about their safety if rain should continue; *rabi* sowing in progress.
Dharwar ...	2·77	Total rainfall 23·82; fall general; in some parts heavy; north-east monsoon appears to have just commenced; crops flourishing; sowing progresses, but is impeded by rain; fever prevalent in some talukas but not severe; condition of the poor much improved.
Kanara ...	3·67 in Karwar ...	Total rainfall 76·37; 32 deaths from cholera; rice harvest continues.
Kaládgi ...	·61 in Kaládgi; ·17 in Muddebihál; ·45 in Sindgi; ·11 in Bágewári; ·60 in Bágalkot; ·07 in Hungund.	*Kharif* crops continue good; *rabi* sowing progressing.
Kattywar and Gaekwar's Territory— (Oct. 17th)		
Rájkot ...	*Nil*	Health generally good.
Wadhwán ...	*Nil*	Crops and health same as before; in Chotila and Sáyla talukas large number of sparrows have appeared causing damage to crops.
Baroda ...	*Nil*	Cotton slightly damaged by last fall; public health good.
		General Remarks.—Crops throughout the presidency proper, with the exception of parts of Ahmednagar, Násik, and Khandesh, good; in Sind there is no improvement; the north-east monsoon appears to have set in throughout the Southern Mahratta Country.
Bengal— (Oct. 17th)		
Chittagong ...	·46	
Noakholly ...	·13	Health good.
Chittagong Hill Tracts	1·55	
Hill Tipperah ...	·83	
Backergunge ...	·01	Health good.
Furreedpore ...	2·38	
Dacca ...	·68	
Tipperah ...	1·79	
Mymensingh ...	·35	
24-Pergunnahs ...	1·35	Health fair; some cholera in Busseerhat and Barrackpore; fever abating.
Jessore ...	3·77	
Nuddea ...	·85	
Moorshedabad ...	1·83	Health good.
Pubna ...	2·74	Fever in *sadar*; some cholera at Serajgunj and Shahzadpore.
Rajshahye ...	2·02	Fever still prevalent.
Bogra ...	2·27	Some fever, otherwise health fair.
Dinagepore ...	Return not received.	
Rungpore ...	·91	Health good.
Cooch Behar ...	·62	Fever prevalent, otherwise health good.
Jalpáiguri ...	·10	
Darjeeling ...	·14	
Midnapore ...	2·06	
Howrah ...	1·57	
Hooghly ...	1·62	
Burdwan ...	2·26	Fever in Culna and Jehanabad.
Bankoora ...	3·55	
Beerbhoom ...	·74	
Sonthal Pergunnahs ...	1·48	
Bhágalpur ...	Return not received.	
Monghyr ...	2·85	
Purneah ...	·64	
Maldah ...	3·89	
Durbhunga ...	1·67	
Mozufferpore ...	1·9	
Sarun ...	2·53	Heavy rain in interior.
Chumparun ...	·96	Cholera almost ceased.
Patna ...	·24	Health good.
Gya ...	1·68	

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*concluded.*		
Shahabad ...	1·41; ·24 in previous week and not 1·42 as reported.	
Hazáribágh ...	1·37	
Lohardugga ...	·28	
Manbhoom ...	1·16	
Singhbhoom ...	·17	District healthy.
Balasore ...	2·15	Sporadic cholera in Bhuddruck sub-division.
Cuttack ...	2·22	Cholera and cattle disease still reported.
Pooree ...	*Nil*; 1·02 in Khoordah.	
		General Remarks.—In Bengal Proper the general prospects are favourable, but in Mymensingh and Furreedpore a good rice harvest is not expected; in Behar the general prospects are much improved by heavy rain of last week, only in Chumparun more rain wanted; in Pooree, Lohardugga and Singhbhoom crops suffering from want of rain; *rabi* cultivation progressing almost everywhere.
N.-W. P. and Oudh—		
Benares (Oct. 16th)	*Nil* since 10th October.	Cold weather set in.
Allahabad („ 17th)	*Nil*	*Rabi* sowings progressing.
Jhánsi („ „)	*Nil*	*Rabi* sowings begun.
Agra („ 16th)	*Nil*	Ploughing for *rabi* in progress; rates steady; emigration stopped; relief parties diminished.
Bareilly („ 17th)	*Nil*	Prices still high; gram sowing commenced; health good.
Lucknow („ „)	*Nil*	Heavy dews at night; prospect fair.
Sitapur („ „)	*Nil*	*Rabi* sowings commenced.
		General Remarks.—Weather clear since last report; cold weather set in, and *rabi* sowings progressing; prices still high, but prospects generally good.
Punjab— (Oct. 16th)		
Delhi ...	*Nil*	Ploughing and sowing for *rabi* in progress; health good.
Hissar ...	Slight rain in parts of the division.	Rain not sufficient for *rabi* cultivation; fodder scarce; health generally good, but a few small-pox cases in Rohtak district.
Umballa ...	*Nil*	*Rabi* sowings commenced; health good.
Jullundur ...	·2	Health good.
Amritsar ...	·3	More rain wanted for *rabi* sowings; health good.
Lahore ...	*Nil*	*Rabi* sowings in progress; health good.
Mooltan ...	*Nil*	Ploughing and sowing for *rabi* proceeding; health good.
Ráwalpindi ...	1·7	*Rabi* prospects good all over; autumnal fever prevalent.
Pesháwar ...	·3	Health good.
Dera Ismail Khan ...	*Nil*	No hope of *rabi* on *daman* unless rain falls soon; prices rising; health good.
		General Remarks.—Moderate showers of rain fell in parts of the province; ploughing and sowing for *rabi* progressing; public health generally good.
Central Provinces—		
Upper Godávari (Oct. 13th)	·47	*Kharif* crops destroyed partially, rice in some places entirely, owing to want of seasonable rain; *jowar* sowings completed; prospects of remaining crops favourable as yet; cholera continues; prices steady.
Sambalpur ...	·20	Prospects of rice towards north good, towards south bad; cotton and sugarcane good; prices risen.
Biláspur ...	·25	Prospects good; fever continues; prices steady.
Raipur ...	·49	Prospects favourable; more rain wanted for rice; *rabi* sowings progressing; cattle disease prevalent; prices falling.
Bálaghát ...	·87	Prospects very favourable; *rabi* sowings continued; fever prevalent; prices easy.
Chhindwára ...	2·27	Prospects favourable; fever continues; prices steady.
Chánda (Oct. 14th)	·78	Rain wanted for rice, other *kharif* crops doing well; health good; prices stationary.
Betúl („ 15th)	...	Clear; prospects favourable; health good; prices stationary.
Bhandára („ 16th)	*Nil*	Prospects of *kharif* much improved by previous week's rain; fever continues; prices steady.
Nágpur („ 17th)	...	Cloudy; *kharif* crops in excellent condition; *rabi* sowings progressing; health good; prices falling.
Wardha ...	*Nil*	Prospects of *kharif* good; *rabi* sowings progressing.
Nimár ...	*Nil*	*Kharif* prospects improved by previous week's rain; small-pox continues.
Hoshangabad ...	*Nil*	*Jowar* improving; prices fallen.
Narsinghpur ...	*Nil*	Prospects fair; health good; prices fallen.
Jubbulpore ...	...	Clear; *rabi* sowings progressing everywhere; fever continues; prices easier.
Saugor ...	*Nil*	*Rabi* sowings progressing; immigration ceased; prices declining.
Seoni ...	...	Clear; *kharif* gathering; *rabi* sowings delayed on account of recent rains; prices fallen.
Damoh ...	·36	*Rabi* sowings commenced; prices risen.
Mandla ...	1·29	Crops much benefited; fever continues; prices stationary.
		General Remarks.—Good rain in Chhindwára and Mandla; slight in Sambalpur, Biláspur, Upper Godávari, Raipur, Bálaghát and Chánda; no rain in other districts; prospects of *kharif* good everywhere, except at Sambalpur, Saugor and Damoh, where greater portion of rice has failed; Chánda requires more rain for rice; *rabi* sowings are vigorously pushed on everywhere; prices falling.

On page 2664 of the Supplement to the *Gazette of India* of the 13th instant, in the rainfall column opposite Chanda in the Central Provinces for "7·90" read "·90."

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
British Burma—		
(Oct. 17th).		
Arrakan Division—	1·0 in Akyab	Agricultural prospects continue to promise well; cholera reappeared in Sandoway town and portions of Sandoway district, otherwise public health good.
Pegu Division—		
Rangoon ...	...	Crops reported to be flourishing in Pegu, and good in Syriam sub-division; general prospects of harvest good; public health good; slight cattle disease in Syriam sub-division; very little change in prices of food, grain stocks of paddy low in parts, and reserved for home consumption; no actual distress reported.
Thonkwa ...	Rainfall nominal	Health and crops good.
Bassein ...	1·7	Fevers prevalent; slight cholera; total rainfall 117·4 inches; crops progressing favourably.
Henzada ...	·36 during week ending 13th; 2·50 in Myanoung and 3·0 in Mengyee during week ending 6th.	Total rainfall in Henzada 72·52, in Myanoung 45·10, and in Mengyee 55·10 inches; slight cattle disease in 4 townships; 1 death from cholera in Mengyee, 6 in Monio, otherwise health good; crop prospects favourable.
Prome ...	1·59	Cholera in Mahathaman, 7 deaths, 4 in Poungday sub-division, otherwise healthy; total rainfall 48 inches; crops require more rain badly.
Thayetmyo ...	2·60	Public health generally good; crops progressing; river falling; total rainfall 57·44 inches.
Tenasserim Division—	3·70 in Amherst; 3·98 in Shwegyeen.	Public health good; late plantings in Amherst still very doubtful; crops progressing.
Tounghoo ...	·36	More rain required for replanted paddy.
		General Remarks.—Crops unaffected by the floods still promise well; it is estimated that about one-fourth of the rice crops in the Henzada district and one-sixth of that in Bassein was destroyed by the late floods; a good portion of the land has been replanted, but the weather latterly has not been favourable to young crops; price of grain much fallen owing, it is said, to the favourable reports of rain in the Madras Presidency.
Assam—		
Gauháti (Oct. 17th)	·65	Mornings and evenings cool; fog over river in mornings; prospects of all crops favourable.
Sylhet („ „)	2·38	Prospects of crops appear promising; fever and cholera in places.
Mysore and Coorg— (Oct. 17th)	Heavy showers general; 3·86 in Bangalore since Wednesday; ·70 in Mysore; ·20 in Coorg.	Retail prices at Bangalore, ordinary rice 14 lbs. and *raggi* 19 lbs. per rupee; wholesale prices half to one pound cheaper; crops flourishing; for week ending 6th October daily average number on civil works was 27,009, and on professional department works 35,497; increase due to drafting labourers to the larger works; number gratuitously relieved 103,750; decrease general in all the districts.
Hyderabad Assigned Districts—		
Amráoti **(Oct. 17th)**	*Nil*	Crops in good condition.
Central India— (Oct. 16th)		
Indore ...	*Nil*	
Gwalior ...	*Nil*	
Neemuch ...	*Nil*	
Rutlam ...	*Nil*	
Sutna ...	*Nil*	
		General Remarks.—Prospects in Malwa and Baghelkhand good: emigrants still passing in large numbers through Goona and Neemuch; cholera at Morar; two soldiers and several natives also died on road between Sipri and Goona.
Rajputana—		
Ajmere (Oct. 17th)	Very slight shower in Beawur on the 12th.	Prices steady.
Jeypore („ „)	*Nil*	Ploughing and sowing active in some parts, but more rain wanted; prices firm; health good.
Jodhpore („ „)	One or two slight showers in district.	Emigration continues; health good.
Deoli („ 14th)	*Nil*	Prospects good; weather cloudy; prices falling.
Ulwur („ 17th)	·08	Ground being prepared under wells, but rain insufficient for sowing on unirrigated land; great mortality among cattle after recent rain; emigrants returning.
Nepal (Oct. 10th)	1·30	Prospects improved by rain.

On page 2664 of the Supplement to the *Gazette of India* of the 13th instant, opposite Mysore and Coorg for "under professional department 38,655" read "27,655."

On page 2626 of the Supplement to the *Gazette of India*, dated the 6th instant, in the rainfall column opposite Henzada in British Burma, for "9·32" read "·32."

G. H. M. BATTEN,
Offg. Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations under the provisions of the Act of Parliament 24 & 25 Vic., Cap. 67.

The Council met at Simla on Wednesday, the 10th October 1877.

PRESENT:

His Excellency the Viceroy and Governor General of India, G. M. S. I., *presiding.*

His Honour the Lieutenant-Governor of the Panjáb, C. S. I.

His Excellency the Commander-in-Chief, K. C. B.

The Hon'ble Sir E. C. Bayley, K. C. S. I.

The Hon'ble Sir A. J. Arbuthnot, K. C. S. I.

Colonel the Hon'ble Sir Andrew Clarke, R. E., K. C. M. G., C. B.

Major-General the Hon'ble Sir E. B. Johnson, K. C. B.

The Hon'ble Whitley Stokes, C. S. I.

The Hon'ble F. R. Cockerell.

The Hon'ble T. C. Hope, C. S. I.

STAMP BILL.

The Hon'ble MR. COCKERELL introduced the Bill to consolidate and amend the law relating to Stamps and Court-fees and moved that it be circulated for the purpose of eliciting opinion thereon. He said that, as a considerable period—nearly two years—had elapsed since leave was given to introduce a Bill on this subject, it seemed expedient that he should remind the Council of the scope of the former project of legislation and give some explanation of the circumstances which had delayed its progress and led to the proposal of the several further modifications of the present law provided for in the Bill now introduced. When their late colleague, Mr. Inglis, moved for leave to introduce a Bill for the alteration of the stamp law it was proposed to bring together the Stamp Act of 1869, the Court-fees Act, so much of Act XIII of 1875 as related to the fees leviable on probates and letters of administration, and the several exemptions and remissions of duty and fees which the Governor General in Council had in the exercise of the powers vested in him by the Stamp and Court-fees Acts from time to time allowed; and also to explain and amend the provisions of the existing law in regard to which questions had been raised, and interpretations and constructions laid down through the decisions and rulings of the Courts.

Such a measure of consolidation and amendment was in itself very necessary in the interest of the public convenience alone; for, between the year 1870 and the time when the Council was asked to sanction the introduction of a Bill relating to stamps and Court-fees, there had been hardly less than forty cases of remissions and reductions of duty and fees and other orders of Government relating to this subject, all constituting amendments of the existing law and scattered over numerous editions of the *Gazette of India.*

Before further progress in the desired legislation could be made, the much vexed question of the propriety and expediency of substituting the use of impressed for adhesive stamps, with the object of checking the frauds which were alleged to be prevalent to such an extent as to imperil the security of the revenue, became ripe for decision, and was referred to a Committee of which his honourable colleague (Mr. Hope) and he (MR. COCKERELL) were members. As the complete abandonment of the use of adhesive stamps in judicial proceedings would have necessitated very material alterations in the law relating to Court-fees, further action in the Legislative Department in respect of the Stamp Bill was suspended until the Committee had made its report. The opportunity

was taken of referring also to the consideration of this Committee the question of the feasibility of such amendments of the stamp law as would conduce to its improved working and the acquisition of a larger revenue.

About the same time that these questions were referred to the Committee, the Government of India through its Financial Department circulated certain proposals for the amendment of the law and directed the several Local Governments, after consulting their subordinate officers, to report thereon. Suggestions as to the propriety or expediency of other amendments were also invited. The main points referred thus for the opinion of the Local Governments were—(1) the omission from the Stamp Act of any specification of the description of stamp to be used for the realization of stamp duties or Court-fees, and the substitution therefor of a power to the Government to regulate the use of a particular description of stamp for specified purposes by rules; (2) the specification in the Act of fees of fixed amount chargeable for the service of processes in lieu of the present system under which those fees are determined by rules framed by the High Courts, and the restoration to the executive of the same power of regulating the process-serving establishments as it has in regard to all other establishments; and (3) the reservation to the Governor General in Council of the power of making rules under the Stamp and Court-fees Act, now exercised by the Local Governments subject to the sanction of the Government of India.

The local authorities returned an almost unanimous assent to the propriety and expediency of these proposals, and at the same time submitted their views as to other amendments of the law. The Committee specially appointed for the consideration of the questions above referred to submitted their report; this report was sent by the Home Department to the several Local Governments, and a fresh set of opinions on all the matters treated of in it was thus elicited.

The result of all this was that the entire subject of the revision of the stamp law had been considered and discussed in much detail by the local authorities; and he (MR. COCKERELL) had thus had the great advantage in framing those provisions of the Bill, which embraced amendments of the existing law, of consulting the two sets of opinions elicited from local officers engaged in the administration of the law and best qualified from their experience of its operation both to point out its practical defects and to suggest appropriate remedies. The proposed alterations of the law contained in the Bill were for the most part based upon such recommendations of the Committee as had met with the approval of the local authorities, and the suggestions of various officers; and he (MR. COCKERELL) had much confidence therefore in presenting the Bill to the Council as a measure which was, as regards its main features at least, in complete accordance with the views of the chief administrative officers of the several parts of the empire to which a general law on this subject would apply.

Though there was a general consensus of opinion in favour of the proposed legislation, objections had been raised in some quarters. For instance the expediency of reuniting in one Act the provisions of the law relating to stamp duties, and that by which Court-fees are regulated was questioned. It was said that the present practice of keeping these two subjects distinct had worked smoothly and satisfactorily, and was best adapted to public convenience, inasmuch as the classes of persons who were chiefly affected by, and interested in knowing the requirements of the law in regard to the use of general stamps, were not much concerned in litigation and the liabilities of suitors in the matter of the payment of Court-fees.

Now he (MR. COCKERELL) regarded stamp duties and Court-fees rather as different branches of the same subject than as two distinct subjects. The duties and the fees were both levied by means of stamps the sale proceeds of which were entered under the same head in the public accounts, and both were regulated by the same administrative agency. Nor could he agree with the conclusion that the persons who had to do with general stamps had little or no interest in the subject of Court-fees; he thought on the contrary that, a few purely commercial transactions involving the use of bills of exchange, bills of lading, &c., excepted, the agency employed for determining the proper stamp duties chargeable on instruments executed in connection with the conveyance of inter-

ests in property, or obligations for the payment of money, was generally the same as that to which persons about to engage in litigation would have recourse; for he believed that it was no more the practice to frame instruments evidencing the transfer of any interest in property, than to draw up a plaint in a suit or an application to a Court, without the aid of legal practitioners. On the other hand, there were distinct advantages in the combination of the existing enactments relating to stamp duties and Court-fees as the provisions of the law regarding the description of stamps to be used, the refund of the value of spoiled stamps, the sale of stamps and the general administration of these sources of revenue were common to both, so that a considerable saving in the enacting provisions would be effected by the proposed consolidation.

Then it had been urged that further legislation at the present time on the subject of stamps and Courts' fees was premature, and that these repeated alterations of laws affecting the transactions of a very large number of persons were extremely harassing and detrimental to public convenience. He would read to the Council what had been written by the person who might be said to be the most prominent if not the only exponent of this feeling:—

"I hope that the Government will deprecate the passing of this measure. When the last General Stamp Act was passed in 1869 and the Court Fees Act in 1870, it was hoped that the wearisome and vexatious alterations of the law on these two subjects (of which there have been so many) had come to an end. The law of 1866,* to which the public and the profession were beginning to get accustomed, was completely altered in form, and the system of separating ordinary stamps from Court Fees adopted. I see no reason now for altering this system and re-uniting the Stamp Act with the Court Fees Act."

* Probably 1862 is meant, as no Stamp Act was passed in 1866.

The writer of these remarks was a person who might reasonably have been expected to be better acquainted with the facts of the case. If it were true in any measure that the stamp laws did come under the frequent revision of the Legislature, it could hardly be a matter for surprise or reprobation, because the very fact that the law on such a subject affects the transactions of a very large number of persons and is on that account more used and subjected to greater wear and tear probably than any other Act on the Statute-book, indicates in itself the necessity for its periodical repair. But in order to show how much at variance with the real facts was the statement which he had just read, he (MR. COCKERELL) must crave the indulgent forbearance of the Council whilst he entered into a very brief retrospect of past legislation in regard to stamps.

Up to 1860, the law regarding both branches of the stamp revenue was distinct in the different Presidencies, having been contained in certain Regulations of the Madras, Bombay and Bengal Codes respectively. Previously to that year the law had undergone no alteration in Bengal for a period of 31 years, in Bombay for 33, and Madras for 44 years; in the year 1860, the first general stamp law for all India was enacted; the Council would remember that the period was one of great financial pressure, when the Income-tax was first introduced and the tax-yielding resources of the Empire were being strained to the utmost limit feasible. The gross stamp revenue, which up to that time had not exceeded seventy lakhs of rupees, was in the first year's operation of Act XXXVI of 1860 almost doubled. It was hardly to be expected that such a great and sudden change of the law should be made without some mistakes, and accordingly in 1862 it was found necessary to amend the law for the purpose of remedying certain inequalities of taxation and undue pressure of particular duties caused by the previous Act, but the fresh legislation then adopted was entirely in the direction of the relief of the tax-payer and created no new burdens.

In 1866 there was a demand for strengthening judicial establishments, and it was thought that the cost of the measure might be met by a corresponding increase of the stamp-fees leviable on the institution of suits. A Committee was appointed in that year for the consideration of the subject, and the Act relating to stamp-fees levied in the Courts passed in 1867 was based on that Committee's recommendations. The Act of 1867 related to fees levied in the Courts by means of stamps, and left untouched the law relating to general stamps.

In 1868, fresh legislation was commenced in regard to the subject of general stamps and resulted in the passing of the General Stamp Act of 1869. The object of the Act of 1867 had been not merely to provide for the cost of improving

and strengthening the judicial establishments, but also to repress to a certain extent litigation of a frivolous and vexatious character which was said to have been partly encouraged by too low rates of Court-fees. The decrease in litigation, however, resulting apparently from the operation of the Act of 1867, was found to be so excessive as to justify the apprehension that the tentative rates of fees imposed thereby had over-reached the mark and amounted to a practical prohibition in many cases of legitimate redress of actual wrongs. Accordingly in 1870 a relieving measure was adopted, designated the "Court-fees Act," by which the fees theretofore chargeable on the majority of suits were reduced to the extent of about 2½ per centum. The Stamp Act of 1869 and the Court-fees Act of 1870 contained the law in force on these matters up to the present time. It would be seen therefore that the sum total of stamp-legislation during the last half century consisted of three Acts for the imposition of stamp duties and four Acts relating to Court-fees, whilst some of these measures had been adopted exclusively in the interest of the tax-payer. This indicated, in his opinion, the very reverse of a meddlesome spirit on the part of the legislature in dealing with this important subject, and established the groundless character of the animadversions upon the past legislation in connection with stamps of the writer of the letter which had been read, and the objection to the present measure founded thereon.

With these introductory remarks by way of explanation of the circumstances attending the proposed legislation on this subject, he would now pass to the consideration of the Bill before the Council.

The primary object of the Bill, as had been already explained, was the consolidation of all enactments in force treating of stamp duties or Court-fees. It was designed further to explain and simplify the requirements of the law in regard to these matters by large additions to the interpretation clauses, a clearer and more systematic arrangement of its several provisions, and a simpler classification of the documents liable to stamp duty or chargeable with Court fees enumerated in the schedules.

The most important amendments contemplated by the Bill had for their object the acquisition of a substantial increase of revenue. These provisions were of two kinds and might be described as (1) defensive, and (2) offensive. The former were by far the most important.

There was no branch of the revenue to which the law afforded so small a measure of protection as that of stamps; in the case of the excise, the inland customs, the sea customs and the opium revenue, the law armed the several officers responsible for the administration of those departments with large powers in aid of the realization of the revenue. They might search suspected persons and places for the purpose of discovering contraband practices and evasions of the requirements of the law. But in the case of stamps the revenue officer had no such power; public opinion would not uphold the authorization by law of the entry into houses and search of places where deeds and instruments were deposited, for the purpose of ascertaining whether documents liable to Stamp-duty had been properly stamped. Yet without some power of this kind the Collector of Stamp Revenue was practically almost helpless in regard to the prevention of frauds, and must wait till the possessor of an unstamped or insufficiently stamped document himself disclosed the breach of the law, by producing it before some Court or public officer.

In these circumstances it was only to be expected that the evasion of the payment of stamp duties and the loss of revenue resulting therefrom would be very great; and it should be the especial aim and object of a stamp law to render the available agency for the detection of evasions and securing their due punishment as effective as possible. The existing law as well as that which preceded it, contained express directions to Courts and public officers not to admit in evidence or in any way act upon documents which being liable to stamp duty were produced before them unstamped or insufficiently stamped; but in order to prevent undue harshness and excessive injury to individuals where the omission to use the necessary stamp arose out of ignorance rather than an attempt to evade the requirements of the law, it was enacted that the Collector or Civil Court—

"If satisfied that the omission to execute the instrument on properly stamped paper did not arise out of any intention to evade payment of the duty prescribed by law,"

might, on payment of the amount required to make up the full duty,

of the case, cause the instrument to be stamped and thereafter treat it for evidence or other purposes as a valid instrument.

This in substance had been the law on this subject, with some unimportant variations as regards the amount of penalty to be levied in such cases, from the year 1860 up to the present time, and the only substantial difference in dealing with improperly stamped documents was that whilst the earlier Acts, although they prescribed the punishment to be awarded for the offence of under-stamping, made no provision as to the action to be taken by Civil Courts when they were not satisfied that the omission to use a proper stamp was otherwise than wilful, there was in the present law, which had been in force since 1869, an express direction to these Courts to impound the unstamped or insufficiently stamped document in such cases, and send it to the Collector in order that the offender might be criminally prosecuted.

Now these provisions had wholly failed to secure the object in view. There was abundant evidence to show that the Civil Courts before which instruments liable to stamp duties were most commonly produced, habitually ignored the obligation imposed upon them by the law to exercise due vigilance and discrimination for the protection of the interests of the revenue in this matter; he could cite numerous opinions which had been expressed by executive officers to this effect; but, inasmuch as the evidence of persons who were in some degree specially responsible for the due realization of the revenue might be open to the objection that it was interested and one-sided, he would merely bring before the Council, in support of the statement which he had made above, what judicial authorities of large experience had themselves to say on this subject.

A Judicial Commissioner in submitting his opinion in regard to needed amendments of the stamp law recommended the abolition of the power vested in Civil Courts to admit in evidence unstamped or insufficiently stamped documents, if satisfied that the default did not arise from an intention to evade payment of stamp duty. He said :—

"I am satisfied that this power entails on Government a very serious loss of revenue. As a rule, documents are admitted or rejected without any enquiry as to the intention to evade payment of stamp duty; and although the Civil Courts are bound, on the admission of such documents, to levy the duty and penalty prescribed by the law, as a fact a great number of documents are admitted without payment of either duty or penalty. The Civil Courts should be bound to send all such documents to the Collector, and in the event of the Collector intimating that the requisite duty had not been paid within a time to be specified by the Court, the document should not be admitted in evidence."

He would next read to the Council the opinion expressed by a very experienced and able District Judge in the Madras Presidency. That officer reporting on this subject said :—

"With regard to the alterations of the stamp law proposed in paragraph 19 of the Committee's report, I have to observe that as far as my experience goes the Courts of this country are not to be trusted with discretion in admitting in evidence improperly stamped or unstamped documents. Under the old law the Courts could admit such documents unless fraud was patent, and in practice I believe such documents invariably were admitted. The natural consequence was that almost every merchant and money-lender was willing to run the remote risk of having to pay a penalty in consideration of the present certain gain of cheating the Government."

A Chief Commissioner also reported as follows :—

"The Judicial Commissioner discusses at some length the provisions of the law regarding the admission by the Civil Courts of unstamped or insufficiently stamped documents, the levy of penalties, and the institution of criminal prosecutions. He says that the Courts are unduly lenient in admitting as evidence unstamped or insufficiently stamped documents; that as a rule such documents are admitted without enquiry and without payment, and that frequently a document which has been produced in a Civil Court is withdrawn when the penalty is demanded."

Here then was complete evidence of an indisputable kind, not only as to the fact of the habitual reception by the Civil Courts exercising original jurisdiction of documents not bearing a proper stamp without any attempt at discrimination as to the character of the evasion of the use of a proper stamp, but also to the effect that the Courts wilfully defeated the intention of the law in constituting them agents for the discovery of offences against the revenue, by allowing persons who had committed such offences to withdraw the proofs of their criminality, without any determination of the question as to their liability to punishment.

The law directly prohibited the admission of unstamped documents in evidence as a means of discovering the omission to pay the proper stamp duty, but an offence was committed whenever an instrument was executed without the use of a proper stamp, and it was difficult to believe that the Courts could in good faith so misapprehend the object of the law as to suppose that the person producing an unstamped or insufficiently stamped instrument was not punishable for the omission to use a proper stamp so long as he did not elect to put the instrument in evidence.

To obviate as far as possible these causes of failure in the prevention of the evasions of the payment of stamp duties, a new course of procedure for dealing with unstamped documents was provided by the Bill. The Courts must still be used as the discovering agency; this could not be avoided as instruments liable to stamp duty were necessarily produced before them in far greater numbers than before any other authority. The Bill (section 30) required the Courts to examine every instrument produced before them liable to stamp duty and determine the question of it being properly stamped, whether it was required to be put in evidence or not. The subsequent sections of chapter IV of the Bill laid down the course to be followed in the case of documents not properly stamped; they must be impounded and sent to the Collector, but to prevent miscarriage of justice through the suppression of good evidence, such documents might be received in evidence on payment of deficient duty with interest and a certain amount by way of additional duty: in such cases a copy of the document would be sent to the Collector instead of the original and the liability to a criminal prosecution in respect of the under-stamping would be in no way affected by the circumstance that the instrument had on certain conditions been allowed to be put in evidence.

The prevalent disinclination of the Courts to presume fraudulent intention where an instrument not properly stamped was produced might, it was thought, be in great measure due to those provisions of the law which tended to invalidate wholly an instrument which had been wilfully under-stamped, and the consequent destruction of evidence involved in the finding by the Court that the under-stamping was fraudulent; it was perhaps natural that the Courts responsible for the administration of justice between litigants should manifest great reluctance to do anything by which good evidence would be destroyed; the new provisions of the Bill would relieve them of any embarrassment on this ground.

The aim and object of legislation in this direction was to give a deterrent rather than a vindictive power to the penal provisions of the law; and it was thought that the fear of a prosecution before the Magistrate and the infliction of criminal penalties would, if the contingency of such consequences of the evasion of the payment of stamp duties could be established as a potent factor in the calculations of the executants of instruments liable to such duties, be sufficiently repressive, and that there need be no recourse to the extreme measure of the invalidation of documents not properly stamped in ordinary cases.

The other provisions designed to secure an increase of revenue had been described as "offensive," by which he meant that they involved an enhancement of existing rates of duty in certain cases—a direct attack in short upon the pocket of the tax-payer!

As the most important amongst the changes of this kind, he might mention the increased duty which it was proposed to levy on bonds, conveyances and the like, where the amount involved exceeded Rs. 1,000, on all bills of exchange, policies of insurance and instruments evidencing a contract for the repayment of loans made for short periods on the deposit of valuable securities, the abolition of the minimum rate now chargeable on bonds and the reduction of the limit of exemption from the payment of the one-anna duty on receipts for the payment of money in satisfaction of a debt.

The enhancement of the rates now chargeable on bonds, conveyances and similar instruments involving a large amount, bills of exchange and policies of insurance generally, could be justified on grounds of equity; for the alteration involved no more than the equalization of *ad valorem* rates generally; it would simply have the effect of bringing the rate of duty heretofore imposed on these documents up to the general standard of rates which had long been in

force in regard to the large majority of instruments liable to *ad valorem* stamp duties.

The large majority of documents, contributing the bulk of the revenue derived from "General Stamps," consisted of bonds, conveyances and other instruments similarly chargeable the amount involved in which did not exceed Rs. 10,000. They were charged at an average rate of half and one per centum respectively on the maximum amount of the classes or ascents by which the assessment of the rate was regulated, but when the amount involved in the transaction in reference to which the instrument was executed, exceeded Rs. 10,000, the rate of percentage of the duty on the amount taxed became gradually less. Now that was not the principle of the mode of assessment adopted under the stamp laws of England; there the rate of duty maintained the same proportion to the amount involved in the instrument subjected to the duty-charge without limit or reserve, and it was proposed to adopt a similar rule in this country. The change would cause a considerable increase in rates of duty charged on amounts exceeding Rs. 10,000. As regards amounts exceeding Rs. 1,000 and not exceeding Rs. 10,000, some increase of rates would be entailed by the substitution of classes or steps of Rs. 1,000 in lieu of those of 500 each on the maximum amount of which the percentage rate of duty was levied. This classification for the purpose of assessing the duty was also in conformity with the scale obtaining under the English law.

The proposed increase in the case of all bills of exchange and policies of insurance rested on the same grounds; those instruments had hitherto been taxed relatively to other documents subject to an *ad valorem* duty below English rates; the proportion which the Indian rates of duty chargeable on the general class of bonds and conveyances to the rates levied in England on similar instruments was not maintained in the case of bills and policies. He did not wish it to be supposed that the fact of the Indian rates being thus made, as regards all instruments subject to the *ad valorem* mode of charge, generally higher than the English rates, had been overlooked, they were intentionally made higher, because the former rates, though calculated to work satisfactorily where the transactions affected by the stamp law were numerous, would be wholly inadequate to the production of the required amount of revenue under the conditions of a far less extensive trade and commercial activity and the higher rates therefore had been necessarily adopted in this country.

His argument in support of the amendments of the law in regard to these duties was simply this, that, whereas the large mass of documents subjected to an *ad valorem* duty had borne the higher rates without objection from any quarter since the year 1860, the proposed enhancements were consistent with past legislation and based on equitable considerations; for they involved nothing more than an equalization of *ad valorem* rates in accordance with the heretofore generally prevailing standard and an increase only in respect of those instruments which tested by that standard had up to the present time been too lightly assessed. As regards policies of insurance he might add that the rates now proposed were in force previous to the passing of the Act of 1869.

The exemption of life policies which had been introduced by that Act with the view, he believed, of encouraging such insurances in this country as a provision for families, would not be continued. Insurance on lives was more commonly effected by way of security for loans, and there was no reason why such transactions should be protected from special taxation more than other commercial transactions.

The changes of which he had next to offer some explanation were in a contrary direction. In extenuation of the proposed abolition of the minimum rate of duty levied on bonds the equalization principle could not be pleaded. The increase of that rate from two to four annas was based on the consideration that as the transactions requiring the execution of instruments of that class, and involving very minute amounts were so numerous, a large increase of revenue would be obtained by the change without imposing an undue burden on the tax-payer. The four-annas rate was not now proposed for the first time; it was the minimum rate under the Act of 1860, but reduced by the Act of 1862. He could not find that any substantial reason had been adduced for such reduction; it was stated during the discussion in Council of the details

of that Act, that the higher rate was too great and likely to induce evasion, but no grounds were assigned for this conclusion, and he could not see how a duty of four annas only could have any prohibitory influence on transactions of this class when a fee of double the amount was readily forthcoming in the case of every petty application to a Court of justice. As to the greater risk of evasion he entirely disbelieved that within certain moderate limits the rate of duty chargeable had anything to do with the matter. There could not be a lower rate of duty than the one anna chargeable on receipts and yet no duty probably was so constantly evaded.

The proposed reduction of the limit of exemption from the payment of duty in the case of receipts was dictated by similar considerations to those just stated in regard to bonds for small amounts. It was designed to obtain a substantial increase of revenue by the imposition of a very small rate of duty on a very large number of transactions.

The other proposed amendments were hardly of sufficient importance to justify his further detention of the Council by any detailed explanation in regard to them. He would only mention the suggested substitution of an *ad valorem* charge for the present low rate of fixed duty imposed on instruments contracting for the repayment of loans made on the deposit of valuable securities for short periods, and the new tax on certain members of the legal profession. It seemed clearly equitable and consistent with the general principle governing the imposition of stamp duties that these transactions should be taxed in reference to the amount of the accommodation obtained.

Advocates and attorneys were required in England to pay duty on the documents entitling them to practise their profession in the Courts of law, so also in this country Vakíls and Mukhtárs had for a long time been subject to the payment of stamp duty on their licenses or certificates which had to be renewed annually. There could be no reason consequently for continuing the exemption now enjoyed by advocates and attorneys of the High Courts, and it was proposed to tax them accordingly. The rates fixed by the Bill were not higher than those paid under analogous circumstances in England.

In regard to Court fees no changes were proposed except in the case of processes, to which he had already referred, and fees leviable on the institution of suits in Courts of Small Causes, and on probates and letters of administration. It was proposed to assimilate the Presidency Towns' rates in these last cases to those levied in the Courts of this class situated outside of the towns, by a depression of the former, and a corresponding elevation of the latter rates. The town-rate of institution-fee had hitherto been two annas per rupee, or $12\frac{1}{2}$ per centum, whilst the mufassal rate was the same as that levied in other Civil Courts, namely, $7\frac{1}{2}$ per centum on the amount sued for.

It was proposed to substitute an even 10 per centum as a mean rate for all Small Cause Courts. As he had spoken of the general provisions of the Bill as in accordance with the views of the local authorities, he should mention that their concurrence did not extend to the alteration of the rates of fees leviable in Small Cause Courts, or to the particular amount of fees to be charged for the service of processes, as provided by the Bill. These amendments of the existing law were inserted in the Bill at a late stage of its preparation and without consultation of local officers; they would need especial consideration; if the reduction of rates in the Presidency Town Courts was adopted in respect of institution-fees, those relating to the service of processes issuing from the same Courts would also need revision, and corresponding amendments of Act IX of 1850 would have to be made.

The duty leviable on probates and letters of administration had been introduced by the Act of 1870, and the rate then fixed, two per centum on the assets of the estate, was a purely tentative limit. It was thought that an additional half per centum might fairly be imposed, as compared with the rate at which these duties were levied in England, where legacy and succession duties were also in force; the estates of deceased persons in this country would still be most favoured. The annual income from these fees had now reached about five lakhs and might under the more developed operation of the Hindú Wills be expected to show a steady progressive increase.

It only remained to state his anticipations in regard to the increased revenue from stamps and Court-fees in the event of the adoption of the changes of the law provided for by the Bill. In regard to the results of the more

stringent provisions of the Bill for the prevention of evasions, his estimate could only be in great measure conjectural; the present annual income from general stamps was under ninety lákhs; he thought therefore that he might take credit for eight lahks or ten per centum on this head; the improved returns from the abolition of the present minimum rate on bonds would be about eight lakhs; the increased rates on bills of exchange might be expected to yield an additional income of about four lakhs, and that on bonds and conveyances involving amounts in excess of Rupees 1,000 about two lákhs.

The increase to be expected from the reduced limit of exemption in the case of receipt stamps, and from the additional duty to be imposed on probates, letters of administration and certificates, together with the alteration of the institution-fees in Courts of Small Causes, amounted to about five lákhs.

He trusted that these proposals would be regarded as moderate, and that they would be accepted by the public as providing for a substantial progressive increase of the stamp revenue, without imposing an undue burden upon the tax-payer.

He did not propose to refer the Bill at present to a Select Committee. It was one of those measures which would not ordinarily be brought forward at Simla, and his only object in introducing it now was to secure its early publication and give as much publicity as possible to the proposed amendments of the law ere the Bill came under the consideration of a Select Committee in Calcutta.

The Motion was put and agreed to.

The Hon'ble MR. COCKERELL also moved that the Bill be published in the *Gazette of India* in English, and in the local Gazettes in English and in such other languages as the Local Governments should direct.

The Motion was put and agreed to.

MADRAS DISTRICT JUDGES BILL.

The Hon'ble MR. STOKES introduced the Bill to enable the District Judges of the Presidency of Fort St. George to suspend and remove certain ministerial officers, and for other purposes, and moved that it be referred to a Select Committee. He said that this Bill, like the rest of the business down in his name on to-day's list, was a small matter, and inasmuch as (to quote Herrick) "a little stream best suits a little boat," he would trouble the Council with a very short speech about it. The first section of the Bill was, as he had already explained, intended to give the District Judges in Madras the power which District Judges possessed in other parts of India of suspending and removing the ministerial officers of Subordinate Judges and Munsifs. The second and last section was copied from the Bengal Civil Courts Act, 1871, section 37, and would enable District Judges to transfer ministerial officers from one Munsif's Court to another in the same district. As had been remarked in a letter which he had received from the late Acting District Judge of Trichinopoly, "It often happens that, while there is not sufficient reason for removal, it is very expedient to break up a set of subordinates who have begun to intrigue."

The Motion was put and agreed to.

The Hon'ble MR. STOKES also moved that the Bill be published in the *Gazette of India* in English, and in the *Fort St. George Gazette* in English and in such other languages as the Local Government should direct.

The Motion was put and agreed to.

PANJÁB LAWS ACT AMENDMENT BILL.

The Hon'ble MR. STOKES also moved for leave to introduce a Bill to amend the Panjáb Laws Act, 1872. He said that the North-Western Provinces Land-Revenue Act, sections 193 and 194, provided for the superintendence, by the Board of Revenue as a Court of Wards, of the persons and property of seven classes of persons. Of these the first four classes were disqualified females, minors, idiots and lunatics.

The PRESIDENT asked what, technically, was the difference between an idiot and a lunatic.

The Hon'ble MR. STOKES replied that an idiot was one that has had no understanding from his birth, a lunatic was one that has had understanding, but has lost the use of his reason. The fifth, sixth and seventh classes were persons incapable, from physical defects or infirmities, to manage their own estates: persons convicted of a non-bailable offence and disqualified, by vice or bad character, from managing their estates; and persons declared by the Local Government, on their own application, to be disqualified from managing their estates. The provisions relating to the seventh class had been found extremely useful in the North-Western Provinces, and had been largely brought into effect. Now the Panjáb Laws Act provided locally for the first four of these classes: but it said nothing about the fifth, sixth or seventh; and inconvenience had recently been felt owing to the inability of the Local Government to comply with the request of a certain eminent but impecunious Sikh Guru, (the head of the Sodhi family, the custodian of what was regarded as the original copy of the Granth), who, feeling himself disqualified to manage his own estates, had applied that Government should assume the administration of his property and arrange for the liquidation of his debts. The primary object of the Bill which MR. STOKES now asked leave to introduce was to supply this defect in the law of the Panjáb.

Another amendment, suggested by section 173 of the Oudh Land-Revenue Act, 1876, was the addition of a clause providing that persons whose property was under the superintendence of the Court of Wards should not be competent to create, without the sanction of the Court, any charge upon, or interest in, such property or any part thereof. It was obvious that there was not much use in trying to settle the affairs of an insolvent landholder if, during the process of liquidation, he was allowed to incur fresh debts and charge his property therewith.

Lastly, the opportunity would be taken to make the correction in the drafting of section 5 of the Panjáb Laws Act, to which he had referred on a previous occasion.

The Motion was put and agreed to.

NORTH-WESTERN PROVINCES LAND-REVENUE ACT AMENDMENT BILL.

The Hon'ble MR. STOKES also moved for leave to introduce a Bill to amend the North-Western Provinces Land-Revenue Act, 1873. He said that the chief object of this Bill was to make in the North-Western Provinces one of the amendments of the law which he had just mentioned as necessary in the Panjáb, that is to say, to render disqualified proprietors incapable of entering into certain contracts save with the sanction of the Court of Wards. The Bill had been framed at the request of the Local Government; and the opportunity would be taken to make a verbal amendment in section 194 of the Act, and to clear up a doubt as to the effect of section 29.

The Motion was put and agreed to.

NEGOTIABLE INSTRUMENTS BILL.

The Hon'ble MR. STOKES also presented the preliminary Report of the Select Committee on the Bill to define and amend the law relating to Promissory Notes, Bills of Exchange and Cheques.

PANJÁB COURTS BILL.

The Hon'ble MR. STOKES also presented the Report of the Select Committee on the Bill to consolidate and amend the law relating to Courts in the Panjáb.

The following Select Committee was named:—

On the Bill to enable the District Judges of the Presidency of Fort St. George to suspend and remove certain ministerial officers, and for other purposes,—the Hon'ble Sir Edward Bayley, the Hon'ble Mr. Cockerell and the Mover.

The Council adjourned to Wednesday, the 17th October 1877.

A. PHILLIPS,
Secretary to the Government of India,
Legislative Department.

Offg. Secretary to the Govt. of India.

Continuation sheets of the Supplement published at Calcutta on this date.

T.

Mysore Province.

PROVINCE OF MYSORE.

(*No.* 35.)

Special famine report for the week ending 6*th October* 1877.

Statement No. 35, *regarding famine relief operations in the Province of Mysore, for the week ending the* 6*th October* 1877.

The rainfall was generally lighter. The fair weather has been beneficial to the crops, especially to ragi, which was suffering in places from excess of moisture. Harvesting continues, sowing operations are general, and lands are being prepared for the late crops. The tanks have got a good supply, many have been breached, and the prospects of the late harvest are good. A considerable area in some taluks is reported unsown, and to remedy this liberal grants of takavi for seed grain will be made under proper precautions. The Famine Commissioner is now on tour, and in consultation with local officers is arranging suitable relief works in each taluk, organizing the relief camps, and taking measures for a more thorough system of village inspection and for giving readier access to relief. A Famine Code has been issued laying down detailed instructions for the management of professional and civil works and of relief camps, providing for medical assistance and special treatment of persons reduced by want and securing that none requiring aid and support are, owing either to ignorance or neglect, allowed to remain unrelieved in their villages. Generally it may be said that prospects are encouraging, but that the present condition of the people and the high prices of staple articles of food necessitate the utmost exertion and watchfulness on the part of the authorities. On the other hand, there is an evident disposition on the part of the people to return to their ordinary occupations, and applicants for relief are fewer.

2. The imports of grain by rail amounted only to 2,486 tons, or 2,248 tons less than last week, due probably to the influence of falling prices caused partly by the better prospect and partly by the production of local stores hitherto concealed. The imports were received from the following quarters:—

	Tons.
From Madras	2,260
„ Beypore and Palghat	95
„ Nagpore, Negapatam and Trichinopoly	60
„ other places	71
Total ...	2,486

From Bangalore 1,726 tons were exported to places in the interior, or 25 less than for the week ending the 29th ultimo. The export was to the following quarters:—

	Tons.
Túmkúr	382
Bellary and Chitaldroog	224
Mysore	508
Usur (Salem District)	257
Round Bangalore	355
Total ...	1,726

3. Prices are fluctuating, and owing to a change in the form of submission of the returns, information is not so complete. But the downward tendency noticed last week continues and is again most marked in Bangalore. The following statement shews the maximum and minimum prices so far as they have been returned:—

	Maximum in lbs. per rupee.		Minimum in lbs. per rupee.	
	2nd sort rice.	Ragi.	2nd sort rice.	Ragi.
Bangalore district (for 7 taluks) ...	13	17	11	14
Hassan „ (for 4 taluks) ...	11½	15	10	11
Shimoga „	12	15	7½	8
Chitaldroog „	11	18	8½	11½

4. The number of laborers employed on civil works was 27,009, or 4,029 less than last week. There was a decrease of 1,372 in the Bangalore District; of 1,264 in Túmkúr; 1,450 in Mysore, and of 1,793 in Chitaldroog: and an increase of 1,227 in Kolar. The decrease is partly accounted for by the general causes already indicated, partly by transfer to larger works under professional supervision and partly by the exclusion from some of the returns of people employed on other than relief works, *i. e.*, works sanctioned from relief funds.

5. Under the Public Works Department 35,497 laborers were employed, or an increase of 7,842. The increase was almost entirely in the Bangalore and Túmkúr Districts. The following is a list of some of the works recently begun :—

	Number employed.
State Railway	7,600
Alsur Tank	2,196
Bangalore-Mysore Road	2,296
Bangalore water-supply	2,594
Bangalore-Túmkúr Road	678
Nelamangala-Túmkúr Road	2,044
Hiriyur-Bellary Road	1,411
Mysore water-supply	2,594
	21,413

From which it will be seen that a considerable portion of the labor has been drafted to the larger works.

6. The numbers gratuitously fed in relief camps amounted to 1,03,750, shewing a decrease of 22,454, chiefly in Túmkúr, Chitaldroog and Hassan :—

	Week ending—			
	September 29th.	October 6th.	Decrease.	Increase.
Bangalore District ...	20,256	18,761	1,495	...
,, Municipality ...	15,395	14,617	778	...
Kolar District ...	6,291	4,682	1,609	...
Túmkúr ,, ...	36,310	27,780	8,530	...
Mysore ,, ...	2,638	2,401	237	...
,, Municipality ...	710	687	23	...
Hassan District ...	11,165	8,485	2,680	...
Kadur ,, ...	2,682	2,192	490	...
Shimoga ,, ...	3,075	2,619	456	...
Chitaldroog ,, ...	27,682	21,526	6,156	...
Total ...	1,26,204	1,03,750	22,454	...

7. The number on civil and professional works amounts to 62,506 compared with 1,03,750 on charitable relief. The difficulty has not been so much in getting people to work as in providing work for them, and the accounts of their condition upon works and of the outturn of labor are satisfactory, and particularly so where gangs have been for any time upon the works. On the other hand, the condition of the people gratuitously fed continues depressed and unhealthy.

8. The average cost of gratuitous feeding per head is returned as follows :—

	Per head. Rs.	A.	P.
Bangalore District	0	8	11
,, Municipality	0	8	5
Kolar District	0	10	11
Túmkúr ,, ...	0	11	8
Mysore ,, ...	1	2	5
,, Municipality	0	8	1
Hassan District	0	12	3
Kadur ,, ...	0	9	9
Shimoga ,, ...	0	10	11
Chitaldroog ,, ...	0	9	2

or an average cost of 10 annas 4 pies per head against 12 annas for last week.

BANGALORE,
12th October 1877.

"By Order,"

A. WINGATE,
Additional Secretary.

Poona ...	5,099	2,500	9,07,235	3,18,601	There have been showers in five talukas. Prospects are good. Rabi sowing progresses in all the talukas. 5 deaths from cholera	19,870	17,523	1·93	16,06,009	12,92,001	Jowari ... 65 Bajri ... 51	17½ 17¼	17½ 17¼	30·60	20·76	22·35
Sholápur ...	4,496	4,496	7,18,034	7,18,034	Excessive rain is doing slight damage to the kharif crops in the Sangola and Malsiras talukas, and has in some places retarded rabi sowing. The condition of the people is improving.	11,680	10,916	1·52	35,92,704	17,75,079	Jowari ... 66 Bajri ... 60	20 20	19½ 24½	25·21	8·11	29·89
Satara ...	4,988	2,682	10,64,002	4,61,000	Rain has fallen throughout the district, and it has been injuriously heavy in some places. Rabi sowing progresses. 24 deaths from cholera.	13,326	11,737	1·10	11,88,794	10,48,554	Jowari ... 39 Bajri ... 35	19 21½	19½ 25	54·60	25·43	39·55
Kaládgi ...	5,695	5,695	8,16,037	8,16,037	A good deal of rain has fallen during the week. The kharif crops are in ear in four talukas. Rabi sowing progresses. 2 deaths from cholera.	*19,986	*14,360	1·75	30,46,024	22,42,248	Jowari ... 56	11¾	12½	22·43	6·13	19·21
Belgaum ...	4,591	2,660	9,38,750	5,01,000	More than an inch of rain has fallen in every taluka during the week. The crops are generally doing well, but a continuance of the rain will injure them. Rabi sowing progresses. 1 death from cholera.	15,138	12,341	1·31	14,58,248	9,67,149	Jowari ... 43	15½	15¾	30·48	21·34	31·51
Dharwar ...	4,564	3,000	9,88,037	6,30,000	Heavy rain in the central and northern districts: moderate in the east and south. The condition of the crops is excellent, and that of the people is rapidly improving.	28,718	22,378	2·26	15,49,860	11,96,429	Jowari ... 43	13½	13	26·39	13·81	22·20
Total ...	54,355	34,183	79,63,927	50,18,992		1,18,256	96,949	1·21	1,51,00,971	99,71,880						
Emigrants from the affected districts employed in Ratnagiri and Kanara						* 1,624	* 1,824									
Grand Total						1,19,880	98,773									

* These figures are for the weeks ending 29th September and 6th October respectively.

† For details and dates see table appended.

The week's rainfall has been, generally speaking, light in the north, and, gradually increasing through the central districts, has been heavy in the south. In a few talukas in Khandesh, Nasik and Ahmednagar the crops have suffered for want of moisture, while in Sholapur, Satara, Kaladgi and Belgaum some injury to the kharif has already been done by too much rain, and no break in the weather has yet occurred.

2. Prices are considerably easier in the three districts to the north of Poona; probably the drier weather bringing the harvest nearer is the principal cause of this advantage. In the other districts, however, though the relief is not so considerable, there still is, on the whole, an improvement: the only district in which there is none is Dharwar. Prices are absolutely highest in Kaladgi and Dharwar; but in both of these districts, though jowari is selling at only 12 or 13 pounds a rupee, there is maize or other small grain of the new year in the market selling at 19 or 20 pounds a rupee.

3. There has been again a substantial decrease in the number of the labourers on relief works. The whole number is now under one lakh.

4. Cholera has unfortunately again broken out in Satara, where 24 deaths occurred during the week. On the whole, there have been 93 deaths in the week against 85 last week.

5. Written reports have been received from the Collectors of Nasik, Poona and Sholapur for the week ending the 13th instant. No weekly report has been received from Satara. From the other five Collectorates reports for the week ending 6th instant have been received. The usual table showing the rainfall and the prices of staple food grains in the weeks to which the reports relate is appended. There is little change to notice with regard to the season and the crops. There are still complaints of want of rain in parts of Khandesh, Nasik and Ahmednagar, while in other parts of Ahmednagar and in some of the districts to the south the rain has been too heavy. The Collector of Kaladgi in particular reports that a break in the weather is urgently needed to ripen the kharif. The later telegraphic information summarized above gives a somewhat darker colour to these complaints of excessive rain.

6. The following table gives the expenditure by Government, during the week ending 29th September, upon gratuitous relief, and in payments made to the young children of labourers employed upon relief works. The number of children has fallen during the week from 55,972 to 48,732. No accurate comparison can be made of the number of labourers on charitable relief, as the returns from Satara are incomplete. The numbers may be taken approximately at 90,862, or less by 5,221 than those given for the preceding week. And as, by reason of the Kaladgi returns for that week being incomplete, the numbers shown in the last statement were less by 1,438 than the real number of persons on charitable relief, the actual decrease for the week ending 29th September is about 6,659 :—

Districts.	Collector's discretionary grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116 of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.		
	Average daily number of persons relieved during the week.	Expenditure during the week.	Total expenditure up to date.	Average daily number of children, and of women taking care of them.	Expenditure during the week.	Total expenditure up to date.

*Returns incomplete.

7. In the following table are enumerated the works under Public Works Department Agency upon which the average daily number of persons employed has amounted to five hundred for the week ending 6th instant. The total number engaged on these large works constitutes 72·34 per cent. on the whole number of labourers upon relief works. The table has hitherto been confined to works on which one thousand persons were employed, but as the numbers on all works are now so rapidly decreasing, it has been extended now so as to include works engaging five hundred labourers:—

Districts.	Works.	Number of labourers.	Total.	REMARKS.
Khandesh ...	Dhulia-Pimpalner Road ...	2,112	4,825	
	Bombay-Agra Road ...	2,088		
	Songir-Nandurbar Road ...	625		
Násik ...	......	...	...	
Ahmednagar ...	Dhond-Manmad Railway ...	1,000	1,000	Approximate number of relief labourers.
Poona ...	Nira Canal	11,099	18,729

	Poona-Hurryhur Road ...	6,486		
	Ron-Nawalgund Road ...	3,629		
	Hubli-Kaládgi Road ...	2,871		
	Hullial-Annigeri Road ...	1,852		
	GRAND TOTAL ...	...	81,184	

8. Tables A and B are brought up to the week ending 6th instant. The number of persons on works under Public Works Department agency in the nine affected districts was at this date 90,883, and on works under Civil agency 21,338. The percentage of persons upon works under Civil agency has thus risen during the week from 15 to 19 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 99,71,880, which, with the expenditure of Rs. 1,22,077 upon works in Ratnagiri and Kanara, and Rs. 8,67,110 from the Collectors' discretionary allowances, gives a total of Rs. 1,09,61,067.

9. Maps are not sent with this summary.

10. From the appended table showing the condition of the affected Native States, it will be seen that the accounts of the crops continue favourable, and that prices, though they have risen again at Savanur and Jath, on the whole maintain their downward tendency. The number of people upon the relief works continues to diminish slowly.

11. During the week ending 13th October, 40 tons of food-grains were exported from Bombay to the Southern Mahratta ports, and 4,183 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusawal-Nasik lines, making a total of 4,223 tons for the week. This is more by 386 tons than the importations of the previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 13th October 1877 to the Southern Mahratta ports and the railway stations in the distressed districts. It will be seen that the total amount delivered up to the 13th October was 423,448 tons:—

Food-grains sent to	In October, November and December 1876.	In January, February and March 1877.	In April, May and June 1877.	In July 1877.	In August 1877.	In September 1877.	In October (up to 13th).	Total.
	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.
Southern Mahratta ports ...	44,215	46,332	54,547	857	15,204	3,319	141	164,615
South-Eastern line, from Poona to Sholapur ...	67,195	41,708	45,798	20,484	21,506	16,256	6,219	219,166
North-Eastern line, from Bhusawal to Násik ...	12,829	7,471	5,581	1,524	8,043	2,519	1,700	39,667
TOTAL ...	124,239	95,511	105,926	22,865	44,753	22,094	8,060	423,448

12. There have been decreases of 21,107 in the number of people on relief works, 7,240 in the number of young children, and 5,221 in the number of people on charitable relief.

13. The improvement in the general situation continues.

C. J. MERRIMAN, Colonel, R. E.,
Acting Secretary to Government.

Relief Reports for the week ending 29th September 1877.

Proceedings of the Board of Revenue, Madras, No. 4649, dated 5th October 1877.

The relief reports for the week ending 29th September 1877 are herewith submitted to Government.

Statements.

- No. 1. Prices.
- „ 2. Relief report.
- „ 3. Talukwar abstract of do.
- „ 4. Statistics of gratuitous relief.
- „ 5. Talukwar ditto.
- „ 6. Number and description of works.
- „ 7. Memo. of sums sanctioned.
- „ 8. List of special establishment.
- „ 9. Imports of grain.

2. *Prices* are falling almost everywhere. The district averages show rise, and that but slight, only in the cases of dry grains in *Tanjore*, cumboo in *Coimbatore* and *Chingleput*, and cholum in the *Nilgiris*; everywhere else there is a fall. Taking all grains, the district rates show that, of the districts in the plains, prices now range highest in *Salem*. In the Nellore district there is not much change; the fall of prices is observed in the northern taluks adjoining *Kistna*, where rates have been falling for some weeks. In Cuddapah change is most marked in the three north-western taluks, and in Kadiri and Madanapalli, where prices, especially of dry-grains, are cheaper. In Kadiri there is a fall of three seers and upwards in the prices of ragi and cholum, or nearly 50 per cent. In *Bellary* also prices are falling or stationary almost everywhere. In *Chingleput* ragi has fallen at 5 stations out of 6; the rise in cholum applies to one only. In *North Arcot* the only cases of rise of price are rice at Palmanair and cholum at Arni, and these are fractional only. In *South Arcot* there is a considerable fall in Trinomalai; elsewhere rates are either stationary or falling. The rise in dry grain in *Tanjore* is due to the Pattukottai taluk, and that adjoining it, Mannargudi. In *Trichinopoly* cholum is not sold; other grains are cheaper owing to harvest. In *Madura* rates are falling except in Periakolum, where rice and cholum are stationary and ragi has risen. At head-quarters there was a strong fall. In *Tinnevelly* also prices are easier. In *Coimbatore* rice has risen a little in Collegal, and there has been a sudden increase, amounting to 25 or 30 per cent. in the rates for ragi and cumboo in Dharapuram. On the *Nilgiris* there is a satisfactory fall in ragi, and in *Malabar* in rice. In *Salem* prices at head-quarters are falling, and fluctuating elsewhere: the rise in the district averages is due to the Kistnagiri taluk. The highest and lowest quotations for rice and dry grain are given as usual in the margin. The range is in many cases great, and is due chiefly to harvest having been got in some taluks and not in others.

Districts.	Rice.		Dry grains.	
	Highest.	Lowest.	Highest.	Lowest.
Nellore	5·50	6·50	*7·00	* 9·25
Cuddapah	4·98	6·22	*6·00	*10·50
Bellary	5·13	7·29	†6·18	† 8·76
Chingleput	6·11	6·79	*7·15	* 9·59
North Arcot	5·50	6·50	*5·40	* 8·60
South Arcot	5·25	6·34	*6·75	* 9·54

Malabar	5·17	10·67	*7·00	*16·25

* Ragi. † Cholum. ‡ Cumboo.

3. *Rainfall.*—All districts received rain, and the district averages for the week fell below an inch only in Nellore and Chingleput and in the distressed taluks of Tinnevelly. In the north of *Nellore* nearly two inches fell, and a nearly equal amount in the extreme south of *Chingleput*; but the intervening tract received but slight showers. In *Cuddapah* the rain was heavy and well distributed, especially in the eastern taluks and the sub-division. Good rain is reported from all taluks of *Bellary* except Hadgalli; more than three inches fell in Kudlighi. In *North Arcot* the rain was very heavy; 11·42 inches are reported from Polur, but this must be erroneous. The chief fall was in the upland taluks, from Kangundi to Tripatti. In *South Arcot* the fall in Trinomalai and Tindivanum, adjoining Chingleput, and in Virdachellam was good; in *Tanjore* light but general, good in Puttukottai; in *Trichinopoly* from two to three inches except in Udayarpolliam; in *Madura* 5·05 inches in Melur, four inches in Pereakulam, and very good in other taluks, except Ramnad. In *Tinnevelly,* Ottapidarum got 1·8 inches; the rain was very light elsewhere. At Erode in *Coimbatore* 6·35 inches were registered, and the southern taluks received heavy rain. On the *Nilgiris* and in the Collegal taluk there was good rain. There was but little in the Wynaad, but the Malabar average was nevertheless 4·29 inches.

4. The outlay on relief-works and gratuitous relief is reported as follows:—

	In the week.	Up to the week.
	Rs.	Rs.
Relief-works	4,64,878	2,46,93,433
Gratuitous relief	9,06,687	89,70,427
Total ...	13,71,565	3,36,63,860

5. *Numbers on relief-works.*—The district totals are compared below :—

Districts.	22nd Sept.	29th Sept.	
Kistna	8,301	8,351	+ 50
Nellore	56,527	53,767	— 2,760
Cuddapah	127,171	109,994	— 17,177
Bellary	100,500	99,587	— 913
Kurnool	140,173	144,558	+ 4,385
Chingleput	19,200	19,304	+ 104
North Arcot	58,513	67,345	+ 8,832
South Arcot	1,533	3,184	+ 1,651
Janjore	4,514	2,008	— 2,506
Trichinopoly	7,640	6,921	— 719
Madura	18,601	14,199	— 4,402
Tinnevelly	...	1,806	+ 1,806
Coimbatore	26,867	28,088	+ 1,221
Salem	44,319	51,117	+ 6,798
Town of Madras	23,160	24,352	+ 1,192
Total ...	637,019	634,581	— 2,438

6. In the above statement the numbers on the Buckingham Canal are included under *Nellore* district. They were 27,160 against 27,048 on the 22nd September. The *Nellore* district returns are again grossly imperfect, no reports having been sent in by the officers of the Public Works Department. The Board request that orders on the subject may be issued in that department. In *Cuddapah* there is a large decrease amounting to 10,601 in Pulivendla, Proddatur, and Jammalamadugu ascribed to closing of certain works and weeding the gangs of persons who can live without State aid. In other taluks of the principal division the changes are slight. In the sub-division there is decrease spread over all taluks. Of 6,019 owing to relegation of weakly coolies to village relief and to return of able-bodied persons to their villages for cultivation. The decrease in the *Bellary* district is very slight on the whole; the details for taluks are given marginally. It is probable that the numbers have really increased as the fall in Hadgalli and Raidrug is ascribed to imperfect return. That in Penkondah is due to weeding of gangs. Works have been temporarily stopped in Harpunhalli, and there are none in progress in Alur or Tadpatry. The increase in Adoni is ascribed to retention of immigrants, in Dharmaveram to more complete return, and in Kudlighi to commencement of fresh works. The Board do not understand why the numbers in Raidrug should be so high compared with other taluks. The Collector's attention is called to the fact. The Bellary-Hubli Railway employs 5,372 persons in the Bellary taluk and 2,976 in Hospett; total 8,348 against 8,138 on the 22nd September.

Taluks.	15th September.	22nd September.	
Adoni	10,575	13,347	+ 2,772
Gooty	5,501	5,668	+ 157

Raidrug	32,048	29,826	— 2,212
Bellary	13,444	13,382	— 62
Hospett	7,238	8,506	+ 1,268
Kudlighi	5,503	6,993	+ 1,490
Harpanhalli	117	......	— 117
Hadgalli	11,012	6,903	— 4,109
Total ...	100,500	99,587	— 913

7. The increase in the numbers on works in Kurnool is not explained in the Collector's telegram. In *Chingleput* the numbers on the South Indian Railway have fallen from 9,464 to 8,588. The numbers on other works under professional agency have increased by 3,123, and those on civil works have decreased by nearly the same amount. The increase in *North Arcot* is to a great extent nominal, the Punganur return having been wanting last week. Numbers have increased in Kalastri and Kungundi, but decreased elsewhere; and the true result for the whole district is a decrease of about 3,500. The increase in *South Arcot* is on professional agency works in Kallakurchy. The fall in *Tanjore* is due to the cessation of the work of forming relief camps and to the coolies having been sent to the Coleroon embankment works or returned home for cultivation, and that in *Madura* to imperfect returns from Dindigul. A return has been received from Tinnevelly showing that 1,806 coolies are now employed under the Department of Public Works. In *Coimbatore* numbers on works have risen owing to greater distress and to drafts of able-bodied persons from the camps. The *Salem* increase results from imperfect returns last week.

	22nd September.	29th September.
Junction Canal Executive Engineer ..	4,420	276
Commissioner of Police	2,693	2,650
President, Municipal Commission (Sattangad Camp.)	1,389	825
Other works in the town	14,658	16,601
Total ..	23,160	24,352

8. The numbers in Madras town were 24,352 against 23,160 on the 22nd September. Details are given in the margin.

9. The information regarding works under the professional department is so imperfect that the Board do not submit the usual statement on the point this week.

10. *Rates of Wages.*—There is little change in wages. In the taluks of Chendragiri Wallaja, Tritani, Arconum, and Maderpauk in the district of *North Arcot* wages on the old scale appear to be still paid. In *Bellary* money-wages have been substituted for those paid partly in kind in Penkonda; the reverse change has taken place in Raidrug; while in Hospett the following scale has been introduced:—*men* ¾ seer + ½ anna, *women* ¾ seer + ¼ anna, *children* ⅜ seer + ¼ anna, which accords with no scale prescribed.

11. *Gratuitous Relief.*—District, &c., totals are as follows:—

Districts.	22nd September.	29th September.	
Kistna	16,407	16,636	+ 229
Nellore	32,976	27,432	— 5,544

In villages	927,328	941,623	+ 14,295
Three-pie children	88,393	87,195	— 1,198
Kistna*	16,407	16,636	+ 229
TOTAL ...	1,631,399	1,595,292	— 36,107

* Particulars not known.

12. There is a small decrease on the whole, resulting from decrease in camps and increase in village relief. The change in the character of the camp relief under recent orders probably accounts for this. Numbers have fallen considerably in *Salem* and *Coimbatore,* where they were excessive, and also in *South Arcot* and *Cuddapah,* but they have increased in *Bellary* and *Kurnool.* The decrease in the Nellore district occurs under camp relief, and is partly due to incompleteness of returns. Of the decrease in *Cuddapah* the greater portion is under village relief, and occurs almost entirely in the sub-division, where numbers have fallen by 10,106 owing chiefly to elimination of able-bodied persons from the lists. Village relief has increased in *Bellary* to the full extent above shown. Heavy rise in numbers occurs in the Bellary, Kudlighi, Harpanhalli, and Gooty returns, and in most of these cases is due to imperfection of return last week. About two-thirds of the decrease in Chingleput is under camp relief. The increase in *North Arcot* and the decrease in *South Arcot* are both to a great extent nominal and due to wrong returns. The rise in *Madura* is of the same kind. The *Tanjore* comparative return is as usual utterly wrong and useless. The decrease in *Coimbatore* occurs under camp reliefs, chiefly in the taluks of Pulladum and Udumulpettah, and is due to drafts to works and to improvement in the season. In *Salem* the decrease is under village relief and is most marked in the Dharampuri and Tripatur taluks.

13. The general statement of gratuitous relief shows that there are now 1,026 inspection circles, and that relief is organized in 13,879 villages out of 30,731 in the distressed tract (Kistna excluded).

14. The following statement shows, as usual, the mortality in camps and under village relief. There is evidently a gross mistake in the *Chingleput* returns; 4,280 persons under village relief are reported to have died in Trivellore taluk on a strength of 28,929. The Collector is

inquiring on the subject. The mortality is very high in camps in *Cuddapah* and *North Arcot* and in the *Trichinopoly* district :—

	Total	...	28,717	74,646

17. The establishment statement is appended. The monthly cost is Rs. 1,52,573.

18. The average strength of resident paupers in the Madras camps is 3,324, and 18,703 on the average received a meal as non-residents. A large number of these persons (19,251 on the 29th September) are sent to labour on works in the town almost exclusively under the Public Works Department. The new admissions to the camps were only 387 during the week. Those remaining on the 29th were residents of the following districts:—Chingleput 962, North Arcot 1,806, Nellore 107, other districts 7; total 2,882. The strength in hospital was 818, and there were 147 deaths in the week. The Commissioner of Police spent Rs. 32,923 in the week and Rs. 10,80,746 up to the week. The President of the Municipality spent Rs. 1,468 in the week and Rs. 1,02,046 up to the end of the week. The numbers employed by him at the Sattangad camp have already been included in those on relief works.

19. The imports of food-grains by sea amounted to 16,056 tons.

(True Extract.)

C. A. GALTON,

Acting Secretary.

Famine Relief.

Proceedings of the Government of Madras, Revenue Department (Famine Relief), dated 15th October 1877, F. R. No. 2331.

The Governor in Council has, by a telegraphic order of the 13th instant, called the attention of Collectors to the importance of utilising to the utmost the present favourable change in the season. The recent rainfall has materially restored the condition of growing crops; many crops are being now harvested; land is nearly everywhere in a fit state for cultivation; and the rains of the north-east monsoon may be shortly expected. Prices have been gradually declining. In this state of the country it is of the utmost importance to its future prosperity that every exertion should be at once made to induce, encourage, and facilitate the return of people to their own homes and ordinary occupations. There may not unnaturally exist some feeling of hesitation amongst many, especially amongst those who have wandered from their own districts, to leave their present shelter, but the interests of the country demand that every available hand shall be turned to agriculture, and every exertion used to increase and expedite the growth of the newly-sown crops, on which the people must rely to restore the prices of food-grains to a normal state.

2. That this necessity is appreciated by the people is evinced by the fact that large numbers have already of their own accord left works and camps for agricultural employ, and that in many districts the area cultivated is larger than usual at this period. Yet in these districts more, and in others much, can be done, and no divisional officer should feel satisfied while any available land in his division remains uncultivated.

3. The Governor in Council desires also to impress on Collectors the urgent necessity for reducing, as rapidly as may be, the numbers who are receiving State charity on relief-works, in relief-camps, &c., and consequently of diminishing the heavy drain on current expenditure.

4. The general principles on which relief is to be administered are already laid down in G. O. of 24th September, No. 2847. The Government have spared no pains to relieve and sustain, and also to provide employ for, the people; now, however, agricultural or other usual employment is obtainable, and district officers must take care that the measures which were necessary for relief of the famine-stricken are not converted into a prolonged demoralising and pauperising charity.

5. A judicious but firm application of the tests and limitations laid down in the Government Order referred to will prevent the danger while meeting any necessity; but laxity or indecision in any district may not improbably result in the continued dependence of a large pauperised population on State aid through another year.

6. Where the numbers on relief-works are materially diminished, proportionate diminution should be made in the establishments, and labour should be consolidated so as to economise supervision. When the numbers in camps are materially diminished, subordinate establishments should be also diminished, or otherwise utilised, permanent officers of the districts being allowed to resume their ordinary work. The general relief organisation of a district, however, is not to be reduced or broken up until further instructions from the Government, the nature of which will be regulated by the advent and extent of the monsoon rains.

7. The Governor in Council has had before him applications for sanction for many new works of a petty and local character, the possible benefit to arise from which can only be of a purely temporary character. He considers such works undesirable, but does not, however, desire to fetter the discretion of Collectors, and therefore will not generally refuse to sanction works recommended by them; but the sanction will only be accorded upon the distinct understanding that Collectors, before recommending any works for sanction, satisfy themselves that such works are essential to the proper extent of relief, and are not urged from motives of purely local interest, or instigated by subordinates who hope for an opportunity to make an illicit gain from the relief expenditure.

(True Extract.)

J. H. GARSTIN,

Additional Secretary to the Government.

No. 979, dated Simla, 26th October 1877.

From—C. BERNARD, Esq., C.S.I., Additional Secy. to the Govt. of India, P. W. Dept. (Famine),

To—J. H. GARSTIN, Esq., Additional Secy. to the Govt. of Madras, Revenue Dept.

IT is with the greatest satisfaction that His Excellency the Viceroy in Council has received a copy of the Proceedings of the Madras Government in the Famine Department, No. 2331, dated the 15th instant.

2. The favourable change in the season which is described in your first paragraph is most hopeful, and His Excellency in Council is glad to learn by a telegram received last night that the north-east monsoon has at length arrived to supplement and complete the hopeful prospects for the future.

3. The orders of His Grace the Governor urging all district officers to take the fullest advantage of this satisfactory change in the prospects of the season by inducing people to return to their ordinary avocations, are most judicious and opportune, for, as he justly observes, "the interests of the country now demand that every available hand shall be turned to agriculture:" and no less necessary is the caution conveyed to district officers to "take care that the measures which were necessary for relief of the famine districts are not converted into a prolonged demoralising and pauperising charity."

4. The returns received during the past three weeks show that with the returning prospects of agricultural prosperity, the orders issued by the Madras Government on the 24th September have already borne good fruit, the numbers of people receiving Government aid having diminished during the current month by 6¾ lakhs, or by more than one-fourth of the whole number; and His Excellency in Council doubts not that with the continued improvement in agricultural prospects and with the steady fall in the price of food, which should be the natural consequence thereof, the admirable orders now issued by the Madras Government will have the effect of speedily restoring the province to its normal state, will foster the habitual self-reliance of its people, and will relieve the imperial finances from the severe strain which during the past season they have undergone.

C. BERNARD,

Additional Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 25TH OCTOBER 1877.

GENERAL REMARKS.—In Madras the North-East monsoon is said not yet to have burst; but good general rain has fallen in all districts, being scanty only in Madras, parts of Chingleput, and Kurnool. Prospects are everywhere good, and prices are falling in most districts, rising in one or two, and stationary in six: the harvest where gathered has yielded a fair outturn. The number on works is 484,365, and on charity 1,060,034, showing decreases of 45,939 and 223,932 respectively compared with last week. In Mysore the weather continues showery, and the crops are flourishing; the number on works is 72,202 and on charity 88,759: the former is more by 9,696 and the latter less by 14,991 than last week. In Bombay there has been abundant rain in the Deccan and the Southern Mahratta Country, and moderate falls in Khandesh and Násik and parts of the Konkan: elsewhere none is reported; in Sind there is no improvement, but elsewhere throughout the Presidency prospects are good, except in a few places in the Deccan, Konkan and Southern Mahratta Country where damage has been done by excessive rain. In the Central Provinces good rain has fallen in Nágpur, Seoni and the Upper Godávari, and slight showers in Chánda, Bhandára and Saugor; prospects are generally good, and sowings for the *rabi* are progressing. In Berar there has been some rain and prospects are good. In Central India none has fallen, and the cold weather has set in; the emigrants are reported to be returning to Gwalior. In Rajputana there has been no rain during the week; more would be beneficial in Ajmere and Sirohi. In Bengal there has been a good fall of rain in Pooree, where it was needed: elsewhere rain is reported only in small quantity from a few districts; more would do good, but prospects are generally favourable. No rain is reported from Assam, where the crops promise well. In Burma good rain has fallen in Bassein, but elsewhere the fall has been scanty and in many districts none has fallen, which is unfavourable to the lately replanted rice. No rain is reported from the North-Western Provinces or Oudh; the recent falls have proved generally sufficient for the *rabi* sowings, which are going on everywhere. In the Punjab there has been slight rain in Amritsar, Jullundur and Peshâwar; sowings for the *rabi* are progressing, but rain is much wanted in Hissar, Umballa and Lahore.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Ganjam (Oct. 20th)	1·5	Rice 9·25, *raggi* 14·66, *cumboo* 19·60, *cholum* 15·20; imports, Chilka land rice 193 tons; some 2,000 people fed daily by private charity at Berhampore.
Vizagapatam („ 22nd)	·9	Rice 8·1, *cholum* 10·2, *raggi* 13·0, *cumboo* 15·6; camp 217 daily; private charity 3,060 daily.
Godavery („ „)	2·26	Rice 8·96, *cholum* 11·21, *raggi* 14·46, *cumboo* 17·14; paddy good though slightly suffering from blight in Amlapuram, Ellore and Chinnaveram; harvest of *korra, chama, arugu* and *hudama*, outturn from ½ to ¾; water over anicut 34 inches.
Kistna („ 18th)	·81	Rice 7·13, *cholum* 10·82, *raggi* 11·73, *cumboo* 14·37; on works 4,866; camps and houses 317; village relief 16,469; crops generally good; *korra*, castor and *giddyonna* reported slightly damaged by locusts in Narsarowpet and Vinukonda taluks; *cholum* is blighted in some places.
Nellore („ 20th)	1·83	Rice 6·32, *cholum* 7·91, *raggi* 9·40, *cumboo* 9·40; on civil works 16,587; on Department Public Works works 9,910; canal 28,912; children 6,286; camps and houses about 10,900; village relief 1,889; crops fair; agriculture still active.
Cuddapah („ 19th)	1·12	Rice 7·01, *cholum* 9·65, *raggi* 10·21, *cumboo* 12·63; on works 59,273; children 9,981; camps and houses 5,304; village relief 80,342; crops good; *cumboo* and *raggi* harvested in parts, outturn ½.
Bellary („ 20th)	2·0	Rice 6·65, *cholum* 8·47, *raggi* 10·49, *cumboo* 8·95; on works 66,932; children 9,990; camps and houses 20,313; village relief 169,010; dry and wet crops generally fair; *cholum, raggi* and *cumboo* being harvested; prices falling.
Kurnool („ „)	·04 (average in 7 taluks).	Rice 6·06, *cholum* 7·76, *raggi* 8·89, *cumboo* 10·23; on works 107,050; children 15,794; camps and houses 12,739; village relief 64,142; standing crops thriving well; agricultural operations vigorously carried on; figures for Nandial, Sirwell and Markapur estimated, returns not being received.
North Arcot („ 19th)	2·50	Rice 8·4, *cholum* 9·0, *raggi* 10·4, *cumboo* 10·0, wheat 5·3; on works 63,643; children 12,845; camps and houses 17,431; village relief 114,799; crops good; harvest of paddy, *raggi* and *cumboo*, outturn poor.
South Arcot („ 20th)	General rain; 1·65 (average of district.)	Rice 7·41, *cholum* 9·40, *raggi* 10·89, *cumboo* 11·20; on works, Revenue Department, 1,289; professional, 2,069; children 47; camps and houses 6,481; villages 41,546; private charity 236; crops good; *raggi*, *cumboo* and paddy harvested in parts, outturn tolerable.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*concluded.*		
Tanjore (Oct. 20th)	1·16	Rice 5·89, *cholum* 10·2, *raggi* 12·87, *cumboo* 14·18; on works none; children none; camps and houses 1,248; village relief 4,822; private charity 4,661; rivers above ¾ full; wet crops thriving, dry in good condition except in some parts of Pattucottai; harvest, outturn of *kuruvai, kadappu* and *kar* ½ to full, *cumboo, cholum* and *raggi* ⅛ to ¾.
Trichinopoly („ „)	2·68 (average of district.)	Rice 6·23, *cholum nil, raggi* 10·32, *cumboo* 10·70; on works 7,600; children 1,120; in camps 2,740; village relief 1,914; returns incomplete; sowing continues; early paddy, *cumboo* and *raggi* harvested in parts, outturn about a nine-anna crop.
Madura („ „)	General rain; 2·28 (average of district.)	Rice 6·85, *cholum* 8·42, *raggi* 9·38, *cumboo* 9·39; on works 14,374; children 1,054; in camps and houses 20,808; village relief 56,888; good freshes in the Viga, highest 8 feet.
Tinnevelly („ 22nd)	2·15	Rice 7·80, *cholum* 9·30, *raggi* 9·45, and *cumboo* 10·05; camps and houses 62·56; village relief 1,969; standing crops good.
Coimbatore („ 20th)	3·02	Rice 7·41, *cholum* 10·17, *raggi* 10·57, *cumboo* 8·53; on works under civil agency 8,505; children 832; camps and houses 84,233; village relief 16,202; crops in good condition; harvest of *raggi* and paddy, in part outturn ⅓ to full; taluk reports encouraging.
Nilgiris („ „)	4·59	Rice 6·16, *cholum* 6·80, *raggi* 8·41, *cumboo* 8·16; relief works none; camps and houses 724; village relief 11; harvest of *samay* and *raggi*, outturn about ¼.
Salem („ 22nd)	2·42	Rice 8·09, *raggi* 9·95, *cumboo* 11·29, *cholum* 8·70; on works 65,460; children 330; camps and houses 45,510; village relief 101,780; crops thriving; *cumboo* harvest ready.
South Canara („ 20th)	1·58	Rice 9 69, *raggi* 10·99; first rice crop harvested in most parts, outturn good.
Malabar („ „)	2·73	Rice 9·26, *raggi* 10·5; gratuitous relief 84; private charity 403; sufficient and seasonable harvesting of first crop and transplanting of second crop are nearly completed; prospects very good.
Chingleput („ „)	·5 to 1·0 in all the taluks except Sydapet.	Rice second sort 8 66, *raggi* 12·61, *cumboo* 11·88, *cholum* 10·80; on relief works 9,668; gratuitous relief in camps 14,282; in other places 61,035.
Madras („ 23rd)	·02	Rice second sort 8·03, *raggi* 14 63, *cholum* 8·4; imports, rice 9,933, other grains 3,137 tons.
		General Remarks.—General prospects continue good; north-east monsoon not yet burst; prices rising slightly in one or two districts, stationary in six, falling in all others; harvest where gathered fair; total number on works 484,365; total number gratuitously relieved 1,060,034.
Bombay— **(Oct. 24th)**		
Sind— („ „)		
Kurrachee ...	*Nil*	River on 21st 7⅓ feet; crops in Sehwan and Dadu talukas drying up for want of water; *rabi* sowings progressing; many persons leaving the Kohistan taluka for want of forage for cattle; cotton being picked; rats doing some damage in three talukas; fever prevalent.
Shikárpur ...	...	*Kharif* reaping general; fever generally prevalent.
Hyderabad ...	...	No change.
Upper Sind Frontier ...	...	Weather cold; early *kharif* crops ripening, late ones withering; *rabi* prospects bad; fever and dysentery prevalent.
Guzerat— (Oct. 24th)		
Ahmedabad ...	*Nil*	*Kharif* harvesting progressing.
Pánch Mahály ...	...	Heavy dews; mornings cold.
Surat ...	*Nil*	Five deaths from cholera; crops well.
Broach ...	*Nil*	Mornings cool; fever prevalent; crops good; *rabi* sowing commenced.
Khandesh and Násik— (Oct. 24th)		
Khandesh ...	From ·75 to ·03 in 8 talukas.	*Kharif* generally good, poor in places; *rabi* sowing completed; prices risen slightly.
Násik ...	...	Thunder with rain in parts till Sunday; total rainfall 19·50; great improvement in Yeola.
Konkan— (Oct. 24th)		
Tanna ...	...	Early crops suffering greatly in Dáhanu taluka, not expected to be more than 8 annas in Wára taluka; late crops fair in former and about 12 annas in latter; elsewhere crops good; cholera decreased.
Colába (Oct. 22nd)	·03 in Alibág ...	Total rainfall 59·70; small-pox at Alibág; cattle disease at Mahád; weather and crops good.
Ratnágiri („ 16th)	1·18	Total rainfall 89·16; continuous heavy rain is considered injurious to *holvi* or early crops, cutting of which progresses; prospects still promising; 8 deaths from cholera in two talukas.
Deccan— („ 24th)		
Poona ...	·94 up to the 22nd ...	Total rainfall 20·19, too much in Bhimthari, no damage yet; health and weather good; 2 deaths from cholera in Junnar, 3 in Haveli.

On page 2623 of the Supplement to the *Gazette of India* of the 6th instant, opposite Hyderabad in Bombay for "exact average of 10 years preceding 18·68 on same date" read "1868."

Rajputana—		
Jhallawar (Oct. 18th)	1·30 during the week ending the 12th.	Weather cloudy and sultry.
Deoli („ 22nd)	*Nil*	Health and prospects good ; weather clear.
Sirohi („ 21st)	*Nil*	Great scarcity of fodder.
Bhurtpore („ 17th)	...	Ploughing general ; price fallen ; emigrants returning.
„ („ 24th)	...	Prospects unchanged ; clear sky ; prices steady.
Kerowli („ 17th)	...	Ploughing general ; food supply abundant ; health and prospects generally good.
Ajmere („ 24th)	*Nil*	Expecting rain after cloudy weather ; much land ploughed which will be fallow if rain fails ; sky clear ; mornings and evenings cool ; days very hot ; railway imported grain upwards of 5,000 maunds ; immigration 14,840, upwards 11,000 being from Marwar.
Nepal (Oct. 16th)	·08	The rice crop was much benefited by rain of last week ; the harvest will begin in a few days and it is now hoped that the outturn will be nearly ¾ths of the average.

G. H. M. BATTEN,
Offg. Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations under the provisions of the Act of Parliament 24 & 25 Vic., Cap. 67.

The Council met at Simla on Wednesday, the 17th October 1877.

PRESENT:

His Excellency the Viceroy and Governor General of India, G.M.S.I., *presiding*.
His Honour the Lieutenant-Governor of the Panjáb, C.S.I.
His Excellency the Commander-in-Chief, K.C.B.
The Hon'ble Sir E. C. Bayley, K.C.S.I.
The Hon'ble Sir A. J. Arbuthnot, K.C.S.I.
Colonel the Hon'ble Sir Andrew Clarke, R.E., K.C.M.G., C.B.
Major-General the Hon'ble Sir E. B. Johnson, K.C.B.
The Hon'ble Whitley Stokes, C.S.I.
The Hon'ble F. R. Cockerell.
The Hon'ble T. C. Hope, C.S.I.

PANJÁB COURTS BILL.

The Hon'ble MR. STOKES moved that the Report of the Select Committee on the Bill to consolidate and amend the law relating to Courts in the Panjáb be taken into consideration. He said that the Bill as introduced had been subjected to careful examination by the learned Judges of the Panjáb Chief Court. *Plus vident oculi quam oculus* was an old and true proverb; and here, as always happened when three additional pairs of intelligent eyes were brought to bear on a complicated draft, some errors and omissions had been detected. Of these, however, only two were important enough to require mention. The Committee had added, at Mr. Justice Plowden's suggestion, a section declaring the Chief Court to be a High Court within the meaning of sections 633 and 637 of the new Code of Civil Procedure. The result would be that the Judges of the Chief Court would take evidence and record judgments and orders in such manner as the Court might by rule direct, and that any non-judicial act which the Code required to be done by a Judge might be done by the Registrar, to the great saving of valuable time. The second amendment was in section 46, which declared that Judges should not try suits in which they were personally interested. This might obviously sometimes cause great and useless inconvenience, for example, when the Judge happened to hold a share or two in the Bank of Bengal and the Bank was suing a tradesman on a bill of exchange for Rs. 100. We had accordingly provided that the parties might waive objection to the jurisdiction of a Judge having interest in the subject-matter. The only other change which he would mention was that the Bill would come into force on receiving His Excellency's signature, instead of on such day as the Local Government should appoint.

It was right to add that the Chief Court had asked that jurisdiction to hear summary suits on negotiable instruments might be conferred upon it. But the Chief Court, like the High Court at Allahabad, had no ordinary original civil jurisdiction; on such Courts the framers of the new Code of Civil Procedure did not intend to confer jurisdiction to hear this class of suits; and the request of the Chief Court was therefore refused. This would cause no inconvenience to the public; for His Honour the Lieutenant-Governor could, and doubtless would, by notification under the new Code, section 538, clause (*e*), apply sections 532—537 of the Code to the Courts of all or some of the Deputy Commissioners. The Chief Court could then, if it liked, withdraw and itself try all such summary suits instituted in these Courts and remit the decrees for execution to the Courts from which the suits had been so withdrawn.

His Honour THE LIEUTENANT-GOVERNOR expressed his approval of the provisions of the Bill in its present form.

The Motion was put and agreed to.

The Hon'ble MR. STOKES also moved that the Bill as amended be passed.

The Motion was put and agreed to.

PANJÁB LAWS ACT AMENDMENT BILL.

The Hon'ble Mr. Stokes also asked leave to postpone the introduction of the Bill to amend the Panjáb Laws Act, 1872.

Leave was granted.

NORTH-WESTERN PROVINCES LAND-REVENUE ACT AMENDMENT BILL.

The Hon'ble Mr. Stokes also introduced the Bill to amend the North-Western Provinces Land-Revenue Act, 1873, and moved that it be referred to a Select Committee. He said that the primary object of this little Bill was to deprive persons whose estates were under the management of the local Court of Wards of power to charge or alienate those estates. But it would also remove a doubt as to the effect of section 29 of the Act, which provided that—

> "A rate may be imposed by order of the Collector of the District on the annual value, or on the cultivated area, of all the mahâls composing the circle of each patwárí, or partly in the one way, and partly in the other, for defraying the salary of such patwárí, and any charges incurred on account of any additional establishment required for the proper supervision, maintenance and correction of the patwárís' records."

Doubts existed, which he confessed he himself shared, as to whether this section authorized the application of any part of the fund so raised to defray the cost of the village-maps on which the correctness of patwárís' records mainly depended. But, in the opinion of their hon'ble colleague Sir John Strachey, Mr. Batten and other experienced North-West officials, it was expedient that the fund should be applicable for this object. The Bill would accordingly add an explanation to section 29 to the effect that charges incurred in the preparation of village-maps should be deemed charges within the meaning of this section.

The Motion was put and agreed to.

The Hon'ble Mr. Stokes also moved that the Bill be published in the *Gazette of India* in English, and in the *North-Western Provinces and Oudh Gazette* in English and in such other languages as the Local Government should direct.

The Motion was put and agreed to.

DISTRESSED SEAMEN'S EXPENSES RECOVERY BILL.

The Hon'ble Mr. Stokes also moved for leave to introduce a Bill to provide for the recovery in British India of wages due to, and expenses incurred in respect of, certain seamen and apprentices. He said that the Merchant Shipping Acts of 1854 and 1855 provided, in all necessitous cases occurring out of the United Kingdom, for subsisting and relieving distressed seamen who were British subjects, and for sending them home, or burying any who died in such circumstances, at the public expense, with a right of recovery over against any master or owner liable to pay such wages or such expenses. This right of recovery was given only to the Board of Trade. But the distressed seamen in question were in many cases Natives of India, and belonged to ships which were either registered in or traded to India, and which were seldom, if ever, found within the ports of the United Kingdom. In such cases the Board of Trade had considerable difficulty in recovering the sums expended. When the distressed seamen were Natives of this country, these expenses were charged to the Indian revenue. It was therefore desirable that the Government of India should be enabled to empower some person here to sue, in case the ships or persons chargeable were found in this country. The Bill would effect this object by providing that such suits might be brought in the name of the Secretary of State in Council by such persons as the Governor General in Council might, by notification in the *Gazette of India*, generally or specially authorize in that behalf.

The Motion was put and agreed to.

INDIAN FOREST BILL.

The Hon'ble Mr. Hope moved that His Honour the Lieutenant-Governor of the Panjáb be added to the Select Committee on the Bill to amend the law relating to the management and preservation of Government forests, to the transit of forest-produce and to the duty leviable on timber. He

said that he ought perhaps to explain that this motion was necessary for technical reasons. The Hon'ble Mr. Egerton had, on February 14th, when an Additional Member of the Council, been appointed a member of the Select Committee on the Forest Bill and had actually served in that capacity up to the present time. But, as he had sent in his resignation of the post of Additional Member when he assumed the office of Lieutenant-Governor, it was held that a re-appointment to the Select Committee was necessary in order to validate his signature of the Report which was about to be presented.

The Motion was put and agreed to.

The Hon'ble Mr. Hope also presented the Report of the Select Committee on the Bill to amend the law relating to the management and preservation of Government forests, to the transit of forest-produce and to the duty leviable on timber. He said that in doing so he must first explain why the direction of the Council given on the 31st of January last, that the Report should be presented in two months, had not been complied with. Those two months corresponded with the time that the Council had remained in Calcutta, and the late Law Member, Sir A. Hobhouse, together with the Secretary, had been so occupied with the Civil Procedure Code and other urgent legislation that they had been quite unable to give any time to the Forest Bill. The two months had not, however, been lost, as an informal committee, consisting of the Hon'ble Mr. Egerton, Mr. Batten, the Secretary to the Government of India in the Department of Revenue, Agriculture and Commerce, Dr. Schlich and Mr. Baden Powell, the Conservators of Bengal and the Panjáb, together with Mr. Hope himself, had, with the approval of Sir A. Hobhouse, considered the Bill and revised it thoroughly. On coming to Simla Mr. Hope had, he said, been unable to find any leisure for the Bill until recently when he had been relieved of his Famine duties.

As to the Bill itself, he was glad to say that the original draft of it had been most favourably received by all the Local Governments except that of Madras. The Chief Commissioner of British Burma, a province which was perhaps more interested in the matter than any other, had expressed his opinion that the Bill would meet all the necessities of the case, and that it would render superfluous the prosecution of the separate Bill for British Burma which had been introduced into the Council. The Chief Commissioner of the Central Provinces had written thus:—"Of the scope of the Bill and its general arrangement the Chief Commissioner is glad to be able to express his hearty approval, and it appears to him to provide for all matters connected with Forest conservancy that can be fairly attempted in India for some time to come." The Commissioner of Coorg said that the provisions of the Bill seemed to him "suitable for adoption." The Chief Commissioner of Assam had only one suggestion for improvement to make. The Commissioner in Sindh reported that he "considers its provisions applicable to Sindh, and that he has no alterations or additions to suggest." The Conservator of the Northern Division, Bombay, said: "the Bill seems to me to be complete and fully to meet the circumstances and wants of the Northern Division," and the Bombay Government consider that the Bill "will serve its purpose." As to Bengal, the report was that "the present draft appears to the Lieutenant-Governor sufficiently to meet the requirements of Bengal." The Conservator of the North-West Provinces said: "I think the Bill provides for every thing that is required," while the Panjáb, as represented on the Select Committee by His Honour the Lieutenant-Governor, was understood to be satisfied. Mr. Hope did not mean to imply that the whole of the expressions of approval he had quoted were unqualified. In some cases they were, but in others they were accompanied by objections or suggestions regarding particular points. All these had been carefully considered, and many had led to material improvements.

Mr. Hope thought that he might safely say that the Bill now presented was very superior in scope, precision, adaptability and care of all popular rights to the draft as introduced. Wherever rights could not be allowed to continue (and he believed such cases would prove comparatively few), provision had been made for compensation or commutation; wherever mere regulation was sufficient, care had been taken to leave the people all which in practice they could reasonably require. The objections of Madras had not been forgotten. The Bill had been so materially altered to meet them that he had now every hope that the Madras Government, considering also the scope which the power of making rules gave for meeting local peculiarities, would find them-

selves able to accept it. If, however, the event should be otherwise, then this Bill offered no obstacle, as Sir A. Hobhouse had explained to the Council, to separate local legislation.

As to the character of the Bill generally, MR. HOPE trusted that any persons who were still disposed to think any part of it arbitrary, would remember that, without effective regulation and conservation of forests, not merely the public revenue, but the public themselves, would suffer, and even risks of famine might be infinitely increased. On this subject he thought the Council would be interested to hear the views regarding the condition of Southern India recently expressed by a distinguished administrator, which were as follows:—

"The southern peninsula of India has been or is being denuded, not only of its forests but also of its jungles, its brushwood, its groves, its trees. The denudation has been, as I understand, going on near the sources and the upper courses of the many rivers which water the country. This, perhaps, is being in some degree checked. But with the progress of coffee planting, and with the assertion of communal rights on behalf of the people, the utmost vigilance will be needed to keep it within bounds. If it were to proceed unchecked, there would be imminent danger of the rivers running dry by reason of the catchment basins and the drainage areas near their sources being rainless. And as these rivers supply the great canal systems, this danger has only to be mentioned in order to be felt. The same argument applies in a lesser degree to the tanks or lakes which are second only to the canals in usefulness for irrigation. It has already been seen how precarious is the position of these reservoirs, even with one year's drought. The progress of the country causes the price of timber and of firewood to rise. The introduction of Railways has, in the absence of any local coal-mines, greatly augmented the demand for fuel. Strong temptations are thus inevitably offered to the people at large to fell, cut and lop recklessly; to bring every log, stump and stick to market; to dig out the very roots of the jungle, so stopping any chance of reproduction, without thought for the future. There are stories to be heard everywhere of groves and hedgerows and scattered trees being cut for sale. In the midst of cultivated tracts there are to be seen bare, sterile hillsides, said to have been forest-clad within living memory. In such localities the climate is supposed to have changed for the worse. Beyond the Ghât mountains, in Bellary and Kurnool, the treeless, shrubless aspect of the country is as wonderful as it is melancholy. These are the very districts where famine has been occasionally epidemic, and where scarcity is almost endemic. Any thoughtful spectator must perceive that, according to all meteorological experience, and to the almost certain teachings of proved fact, these fine districts were not destined by nature to be the prey and sport of famine or scarcity, but have been rendered subject to these calamities by the thoughtless action of man. Even the numerous groves planted in the last generation by the great Collector Mr. Robertson, whose name is still a household word, were made over many years ago to the villagers, and have been mostly cut down. Trees, jungle and forests must, indeed, be thinned and cut for the use of man; but they need never be exhausted, and something might always be left for reproduction."

Nothing could be more true and worthy of attention than these graphic and practical remarks. Regarding the necessity for regulation of the use of forests in the interests of the public, MR. HOPE would conclude by quoting the opinion of the Secretary of State, not very long ago communicated to the Government of India:—

"Her Majesty's Government are, as you are aware, fully impressed with the importance of the adoption of efficient measures for preserving the forests of India, whilst they admit also the necessity of those measures being so framed as to interfere as little as possible with private rights, which may have grown up on behalf of villages or individuals. On the other hand, it must be remembered that as civilisation advances these rights become less and less necessary to the cultivators, and are found frequently incompatible with the superior rights of the whole community, among whom the cultivators themselves obtain advantage in other ways from the restriction of their ancient privileges. The change to this state of things must be gradual, and so timed as to make the transition as little onerous as may be to those who have held such privileges. In the instance before us, it must be remembered that the absolute concession of these privileges would, as a rule, render the effective preservation of the forests impossible, and, moreover, that this is not an object of private import, but is undertaken by Government for the benefit of the whole community.

"It may be added that all the measures already adopted for several years past must have tended to prepare the minds of the inhabitants of the villages for a change of the nature indicated."

The following Select Committee was named:—

On the Bill to amend the North-Western Provinces Land-Revenue Act, 1873—The Hon'ble Sir Alexander Arbuthnot, the Hon'ble Mr. Cockerell and the Mover.

The Council adjourned to Wednesday, the 24th October 1877.

Meerut division reports—"Demand unlimited. Area of grain crops, including cotton, limited by the very large area of sugarcane requiring constant irrigation;" and Cawnpore Division reports—"Demand very great during the whole month. Indigo cutting commenced about the 20th."

Eastern Jumna Canal.—"Rain at Kalsea 0·8, at Bhainswal 0·3, and none at all at Baraut. The chief demand for the greater part of the month was for sugarcane and rice in the northern, and sugarcane alone in the southern, parts of the canal. Towards the end of the month there was a tendency to irrigate for maize and chari, to the exclusion of sugarcane irrigation; supply not nearly equal to the demand."

No remarks from the other canal divisions.

Traffic.—The downward carriage of grain ceased after the 15th of the month. Nearly the same rates for all kinds of food-grains ruled in the lower divisions of the canal as in the upper divisions.

NOTE.—In the statement for July, 1877, against Bulandshahr district, *for* 64,102, *read* 64,162.

ALLAHABAD, [illegible] October, 1877.

ENT.

e Mysore Province.

October 1877.

Statement No. 36, regarding famine relief operations in the Province of Mysore, for the week ending the 13th October 1877.

The rainfall has been good in the northern and eastern districts, but lighter in Mysore, Hassan and Kadur. Agricultural prospects are on the whole satisfactory. Ragi is suffering in some taluks from blight, and both that jawari have to a certain extent been injured by excessive rain; but taken altogether the dry crops are thriving well, and the tanks have received sufficient water to assure wet crops wherever sown. Information regarding the area cultivated is not yet supplied, but the Deputy Commissioner's weekly reports state that sowing progresses rapidly, and the funds now placed at the disposal of the district officers to assist the ryots in procuring seed will give a further stimulus. Harvesting continues, and the early crops are everywhere rapidly coming to maturity. The relief thus afforded is very appreciable. Not only are prices falling but the demand for field labor is good. The pressure upon State aid is thus proportionately less, but the condition of those who have suffered by the prolonged drought will for some time tax the utmost energy of the district officers. The Famine Commissioner during the past week has inspected the northern part of the Bangalore District and nearly the whole of the Túmkúr District. He reports the crops there are generally in good condition, but some of the early ragi and most of the jawari have had too much rain. He found a great deal of land unsown, and anticipates that the recent orders about takavi will be of much benefit. The cattle were in excellent condition, pasture being abundant, and the people are improving in health and spirits. At the same time, his inspections of villages have brought to light a great amount of suffering, as much as 20 per cent. in each village being estimated to stand in need of relief, but requiring pressure and encouragement to induce the people to avail themselves of it. The famine relief measures cannot therefore be considered complete till the system of village inspection is thoroughly carried out, and that will be done when the additional officers whose services have been applied for and who are now arriving are at their posts. The Chief Engineer has just returned from a tour in Coorg and the Mysore District. The labor market of Coorg is supplied by Mysore immigrants, and he states the coffee planters are glad to employ all comers fit for work. Those reduced by sickness and want have hitherto been sent back to Mysore, but hospitals have now been started in Coorg on a small scale, and it is thought this measure will afford all the relief required at present. In the Mysore District distress has never been so severe, but there too the Chief Engineer found that in spite of promising crops and plenty of field labor, the villages contain many fitting objects for relief who however evince extreme apathy in seeking it, and whom it would be very desirable, especially for the sake of the children, to attract to works.

2. The imports of grain by rail amounted to 4,407 tons, or 1,921 tons more than last week. The imports were received from the following quarters:—

	Tons.
From Madras	3,769
„ Beypore and Palghat	137
„ Negapatam and Trichinopoly	287
„ other places	214
Total ...	4,407

From Bangalore 1,653 tons or 73 tons less than in the preceding week were exported to the following quarters:—

	Tons.
Túmkúr	391
Bellary and Chitaldroog	252
Mysore	545
Usur (Salem District)	220
Round Bangalore	245
Total ...	1,653

3. Prices continue to fall, though in some taluks they have remained stationary and in one or two have even risen a little. The following statement gives the maximum and minimum prices in lbs. per rupee and shews a marked improvement:—

	Maximum in lbs. per rupee. 2nd sort rice.	Ragi.	Minimum in lbs. per rupee. 2nd sort rice.	Ragi.
Bangalore District ...	14½	18	12	15
Kolar „ (for 4 taluks) ...	14½	15½	12	13½
Túmkúr „ (for 5 taluks) ...	12	16	10½	14
Mysore „ (for 4 taluks) ...	11	16	10	14
Hassan „	11	14	9½	14
Kadur „	12½	16	11	11
Shimoga „	12	16	8	11
Chitaldroog „ (for 6 taluks) ...	11	20	9½	15½

4. The number of labourers employed on civil relief works was 32,461, or 5,452 more than last week. There was an increase of 4,610 in the Kolar District, of 1,250 in Bangalore and of 1,008 in Shimoga. In Túmkúr there was a decrease of 2,224. The general increase is due to works under professional supervision not being everywhere ready to receive labor.

5. Under the Public Works Department, 39,741 laborers were employed, or an increase of 4,244 again occurring almost entirely in the Bangalore and Túmkúr Districts. The following is a list of works on which are employed 500 laborers and upwards :—

	Number employed.
State Railway	10,565
Bangalore Water-supply	1,366
Bangalore-Mysore Road	1,988
Bangalore-Túmkúr Road	538
Dod Sume Tank	710
Mallappa Chetti's Tank	1,167
Shimoga Road	1,778
Kunigal-Yadiyur Road	500
Nelamangala-Túmkúr Road	2,751
Bellary Road	1,436
Mysore Water-supply	2,922
Timmanhalli Tank	1,139
	26,860

In the Túmkúr and Bangalore Districts considerable numbers have been successfully transferred from kitchens to works. The improvement is the health and appearance of those transferred is very encouraging.

6. The numbers gratuitously fed in relief camps amounted to 88,757, shewing a decrease of 14,993, distributed as under :—

	Week ending— October 6th.	October 13th.	Decrease.	Increase.
Bangalore District ...	18,761	14,513	4,248	...
" Municipality ...	14,617	13,306	1,311	...
Kolar District ...	4,682	3,992	690	...
Túmkúr " ...	27,780	24,249	3,531	...
Mysore " ...	2,401	2,344	57	...
" Municipality ...	687	696	...	9
Hassan District ...	8,485	7,652	833	...
Kadur " ...	2,192	981	1,211	...
Shimoga " ...	2,619	1,609	1,010	...
Chitaldroog " ...	21,526	19,415	2,111	...
Total ...	1,03,750	88,757	15,002	9
		Deduct increase ...	9	
		Net decrease ...	14,993	

7. The number on civil and professional works amounts to 72,202 compared with 88,757 on charitable relief. The figures for last week were 62,506 and 103,750 respectively. There has been an increase upon both civil and professional works and a decrease in gratuitous feeding; the net decrees of persons relieved on works or charity was 5,297. The special treatment of the sickly and weak, whether in hospitals, relief camps or on works, is daily becoming more effective, and it is hoped has no inconsiderable influence in preventing mortality. The condition of people in their villages is a matter for anxiety, but very active measures are being taken, and there too distress will be dealt with. Open camps are with as much expedition as is safe being converted into closed, and persons in emaciated condition will thus be prevented wandering about till it is too late to save them. The good rainfall and lower prices are working a great change in the general aspect of the people, and this improvement may be expected to continue.

8. The average cost of feeding per head is returned as follows :—

	Per head. Rs.	A.	P.
Bangalore District	0	10	2
" Municipality	0	8	10
Kolar District	0	9	1
Túmkúr "	0	11	0
Mysore "	0	12	5
" Municipality	0	5	9
Hassan District	0	11	4
Kadur "	0	11	6
Shimoga "	0	11	8
Chitaldroog "	0	8	2

or an average cost of 9 annas 11 pies per head compared with 10 annas 4 pies for last week.

Bangalore;
20th October 1877.

"By Order,"

A. WINGATE,
Additional Secretary.

* These figures are for the weeks ending 6th and 13th October respectively.

† For details and dates see table appended.

The chief feature of the week's telegraphic news is the excessive rain that has fallen almost throughout Satara, Kaladgi and Belgaum, and to a lesser extent in parts of Sholapur and Dharwar, and in some few places in Ahmednagar and Poona. This heavy rain, besides the absolute damage it does to the crops, has the effect both of delaying the kharif harvest and impeding the rabi sowings.

2. This unfavourable weather, making general prospects worse, is probably the chief cause of the retardation, discernible this week, of the rate at which prices have been falling since the middle of September.

3. However, the number of labourers upon relief works continues to decrease very rapidly. This week gives a fall of 28,156. The reduction is greatest in Belgaum and Dharwar, but there is reduction more or less in every district, except Ahmednagar, and the increase shown in the case of that district seems rather to imply that the approximate estimates of the number of relief labourers upon the railway works in the last two weeks were made too low than that any real increase in the numbers has since taken place.

4. Cholera continues in Nasik, Ahmednagar and Satara, but the number of fatal cases is not large—only 87 during the week.

5. Written reports have been received from the Collectors of Nasik, Poona, Sholapur and Satara for the week ending the 20th instant, and from the other Collectors for the week ending the 13th instant. More rain is still wanted in the Erandol and Sauda talukas of Khandesh, and the Sangamner, Kopergaon and Rahuri talukas of Ahmednagar; but in the Shrigonda and Jamkhed talukas of Ahmednagar, the Sirur taluka of Poona, and generally throughout the five Collectorates to the south of Poona, there had already, at the periods to which these reports pertain, been too much rain. And unfortunately the later information by telegraph shows that the rain continued long after these reports were written. The injury done to the *warkas* crops in the hill villages of the Satara Collectorate seems to be very general, and in Kaladgi not only has the ripening kharif, but also such winter crops as had already been sown, suffered from the heavy rain.

6. The following table gives the expenditure by Government, during the week ending 6th October, upon gratuitous relief, and in payments made to the young children of labourers employed upon relief works. The number of children has fallen during the week from 48,732 to 40,356. The number of persons being gratuitously relieved in the week ending 29th September was taken in last week's statement approximately at 90,862, and this is found to have been nearly correct. The decrease in the week ending 6th October is 2,911:—

Districts.	Collector's discretionary grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116 of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.		
	Average daily number of persons relieved during the week.	Expenditure during the week.	Total expenditure up to date.	Average daily number of children, and of women taking care of them.	Expenditure during the week.	Total expenditure up to date.

7. In the following table are enumerated the works under Public Works Department agency upon which the average daily number of persons employed has amounted to five hundred for the week ending 13th instant. The total number engaged on these large works constitutes 72·10 per cent. of the whole number of labourers upon relief works :—

Districts.	Works.	Number of labourers.	Total.	REMARKS.
Khandesh ...	Dhulia-Pimpalner Road ...	2,235	3,292

	Hullial-Annigeri Road ...	1,368		
	GRAND TOTAL ...	...	64,907	

8. Tables A and B are brought up to the week ending 13th instant. The number of persons on works under Public Works Department agency in the nine affected districts was at this date 73,091, and on works under Civil agency 16,923. The percentage of persons upon works under Civil Agency has thus fallen during the week from 19 to 18·8 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 1,00,61,279, which with the expenditure of Rs. 1,29,371 upon works in Ratnagiri and Kanara, and Rs. 9,15,384 from the Collectors' discretionary allowances, gives a total of Rs. 1,11,06,034.

9. The condition of the affected Native States is shown as usual in an appended table. The accounts from Kolhapur, Pant Pratinidhi and Savanur are favourable, and the scarcity may now be considered over in Sawant Wari.

10. During the week ending 20th October, 60 tons of food-grains were exported from Bombay to the Southern Mahratta ports, and 2,493 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusawal-Nasik lines, making a total of 2,553 tons for the week. This is less by 1,670 tons than the importations of the previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 20th October 1877 to the Southern Mahratta ports and the railway stations in the distressed districts. It will be seen that the total amount delivered up to the 20th October was 426,001 tons:—

Food-grains sent to	In October, November and December 1876.	In January, February and March 1877.	In April, May and June 1877.	In July 1877.	In August 1877.	In September 1877.	In October (up to 20th).	Total.

11. There have been decreases of 28,156 in the number of people on relief works, 8,376 in the number of young children, and 2,911 in the number of people on charitable relief.

12. The improvement in the general situation continues, and the condition of the people is becoming more satisfactory. On the other hand, considerable anxiety is caused by the excessive rain that continues to fall in the districts south of Poona.

C. J. MERRIMAN, Colonel, R. E.,
Acting Secretary to Government.

C. E. BERNARD,
Additional Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 1ST NOVEMBER 1877.

GENERAL REMARKS.—In Madras there has been excellent general rain, Ganjam and Vizagapatam being the only districts where the fall has been light: the north-east monsoon appears to have generally set in; some damage to standing crops from excessive rain is reported from the Deccan districts, but prospects are generally very good. The number on relief works is 417,370, and on gratuitous relief 944,839; the former is less by 66,995 and the latter by 115,195 than last week. In Mysore there has been general and abundant rain, which has caused some damage to the crops: prospects are however good; the number on works for the week ending the 20th October was 78,488 and on charity 73,838; the former is 6,286 more and the latter 14,921 less than the number for the preceding week. In Bombay there has been a good fall of rain in Broach, and general rain in the Southern Mahratta Country: in Khandesh and the Deccan districts the fall has been light and partial; prospects are generally excellent, except in Sind: fine weather has now set in in the Southern Mahratta Country and the Deccan. In the Central Provinces there has been rain in several districts, which has done much good in Raipur, Biláspur and Bálaghát; sowings for the *rabi* are being vigorously pushed on, and prospects are on the whole good. No rain is reported from Berar; the *kharif* is in good condition, and the *rabi* sowings nearly completed. In Central India there has been no rain; the emigrants from Gwalior are returning, but the emigration through Neemuch continues; prospects are everywhere fair, and *rabi* sowings are beginning. In Rajputana also there has been no rain; it is required in Marwar, Ulwur and Ajmere. In Bengal the rains have generally ceased; the prospects of the crops are good, but more rain is wanted for the winter rice, especially on the high lands; the harvest will probably be below the average in the Patna division and Pooree. In Assam there has been no rain except a slight shower in Sylhet: prospects are good. In Burma there has been a good fall in the Pegu division which has improved the lately replanted crops: the other crops are in excellent condition. In the North-Western Provinces and Oudh no rain has fallen; *rabi* sowings are going on and prices remain steady. In the Punjab no rain has fallen except at Ráwalpindi; agricultural prospects are fair.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Ganjam (Oct. 27th)	·26	Rice 9·47, *raggi* 15·13, *cholum* 15·2, *cumboo* 18·4; more rain urgently wanted; crops withering; private charity in Berhampore discontinued.
Vizagapatam („ 29th)	·6	Rice 8·1, *cholum* 9·9, *raggi* 14·1, *cumboo* 15·7; camps 212 daily; private charity 3,050 daily.
Godavery („ „)	1·72	Rice 8·93, *cholum* 11·51, *raggi* 16·69, *cumboo* 18·7; crops generally good, though slightly suffering from blight in some places; harvest of *raggi, korra, chama* and maize, outturn ¼ to ¾; water over anicut 28 inches.
Kistna („ 25th)	2·06 (average of district.)	Rice 7·53, *cholum* 11·11, *raggi* 11·71, *cumboo* 15·29; on works 4,260; camps and houses 277; Guntur report wanting; village relief 5,117; Guntur and Narsarowpet reports not received; crops generally good; *cholum* reported to be blighted in 4 taluks and damaged by excessive rain in Bezwada; wet paddy also suffers in the Bezwada and Bunder taluks.
Nellore („ 27th)	3·23	Rice 6 50, *cholum* 8·0, *raggi* 9·21, *cumboo* 9·40; on civil works 8,686 reported, probably 13,000; on Department Public Works works not reported, probably 10,000; canal 28,074; children 4,139; camps and houses 7,104 reported, probably 9,000; village relief 2,027; crops fair; agriculture still active.
Cuddapah („ 26th)	1·59	Rice 7·50, *cholum* 9·99, *raggi* 10·42, *cumboo* 13·86; on works 49,489; children 8,495; camps and houses 4,976; village relief 70,882; private charity 720; *cumboo* and *raggi* crops harvested in parts, outturn ½.
Bellary („ 27th)	2·2	Rice 7·37, *cholum* 10·5, *raggi* 12·59, *cumboo* 9·69; on works 55,071; children 7,726; camps and houses 18,786; village relief 165,053; dry crops suffering from excess of rain; wet crops generally fair; *cholum, raggi* and *cumboo* being harvested; future prospects very good; prices falling.
Kurnool („ „)	1·32 (average in 5 taluks.)	Rice 6·10, *cholum* 8·5, *raggi* 9·11, *cumboo* 10·77; on works 92,850; children 11,494; camps and houses 9,316; village relief 58,945; private charity about 200; standing crops generally thriving well; early dry crops reported to have been damaged by excessive rain and ravages of insects; agricultural operations progressing; figures for Koilkuntla, Nandial, Sirwell, and Markapur estimated, returns not being received, probably owing to rain.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*concluded.*		
North Arcot (Oct. 26th)	2·20	Rice 8·8, *cholum* 9·6, *raggi* 10·6, *cumboo* 10·6, wheat 5·5; on works 44,438; children 8,351; camps and houses 13,158; village relief 97,839, decrease owing to fall of rain and non-receipt of relief reports from Kalastri and Public Works Department; private charity 750; crops good; harvest of paddy and *raggi*, outturn poor.
South Arcot („ 27th)	General rain; 4·12 (average of district.)	Rice 7·91, *cholum* 10·08, *raggi* 11·65, *cumboo* 11·86; on works, Revenue Department 875, professional 1,157; children 86; camps 7,299; villages 40,030; rivers in continuous flood; *raggi*, *cumboo* and paddy harvested in parts, outturn tolerable; expectation of future crops excellent.
Tanjore („ „)	3·68	Rice 6·01, *cholum* 11·68, *raggi* 13·75, *cumboo* 13·82; on works none; children none; camps and houses 150; village relief 1,794; private charity 4,399; rivers full; harvest, outturn of *kuruvai*, *kadappu* and *kar* ½ to full; *cumboo*, *cholum* and *raggi* ¼ to ¾.
Trichinopoly („ „)	3·21 (district average.)	Rice 6·87, *cholum nil*, *raggi* 10·48, *cumboo* 11·56; on works 10,713; children 1,361; in camps 2,593; village relief 2,463; sowing vigorous; *kar*, *cumboo* and *raggi* harvested in parts, outturn about a nine-anna crop.
Madura („ „)	Rain general, highest 6·75, average 3·56.	Rice 7·34, *cholum* 9·43, *raggi* 9·99, *cumboo* 10·04; on works 13,205; children 796; in camps and houses 18,136; village relief 45,643; continued freshes in the Viga and Joudar.
Tinnevelly („ 29th)	1·0	Rice 8·20, *cholum* 9·60, *raggi* 9·75, *cumboo* 9·60; camps and houses 3,032; village relief 1,689; crops good.
Coimbatore („ 27th)	1·82	Rice 9·23, *cholum* 10·71, *raggi* 12·01, *cumboo* 9·63; on works 21,903; children 586; camps and houses 64,699; village relief 14,389; crops thriving; harvest of paddy and *raggi* in parts, outturn of paddy full, *raggi* ⅛ to ½; accounts of Department Public Works for 3 taluks not received.
Nilgiris („ „)	1·83	Rice 7·97, *cholum* 7·34, *raggi* 10·46, *cumboo* 8·16; relief works none; camps and houses 388; village relief 10; harvest of *samay* and *raggi*, outturn, *samay* scarcely quantity sown, *raggi* ¼.
Salem („ 29th)	3·15	Rice 8·49, *raggi* 10·81, *cumboo* 14·02, *cholum* 8·62; on works 54,150; children 30; camps and houses 50,800; village relief 98,600; crops thriving; harvest of paddy and *cumboo*, outturn of former full, latter ¾.
South Canara („ 27th)	1·57	Rice 10·10, *raggi* 12·10; first rice crop harvesting continues.
Malabar („ „)	3·87	Rice 10·07, *raggi* 12·96; gratuitous relief 75; rain most favourable and sufficient; harvesting of first crop and transplanting of second, are nearly completed; prospects very good.
Chingleput („ „)	2·5 (average) ..	Rice 8·96, *raggi* 12·62, *cholum* 9·36, *cumboo* 11·88; on works 4,390; children 434; camps and houses 12,406; village relief 65,820; crops in fair condition; *cumboo*, *raggi*, *manakottai* and *kar* harvested in parts, outturn moderate, *kar* good.
Madras („ 30th)	4·18	Rice 8·03, *raggi* 12·63, *cholum* 9·8.
		General Remarks.—General prospects good; north-east monsoon reported to have set in in several districts; prices continue to fall slightly, but generally; total number on works 417,370; total number gratuitously relieved 944,839; exports of grain by rail from Madras 5,184¼ tons during the week ending the 27th October 1877.
Bombay— (Oct. 31st)		
Sind— („ „)		
Kurrachee ...	*Nil*	River at Kotri on 29th 7 feet 1 inch; no change of importance.
Shikárpur ...	Slight drizzling on 28th.	Cotton plants attacked by worms in Ubauro taluka; fever somewhat prevalent.
Hyderabad ...	...	Fever in 12 talukas; small-pox in old Hála; rats in Bágo Tando; *kharif* nearly reaped; *rabi* sowings progressing.
Upper Sind Frontier ...	Very slight rain on night of 28th.	Weather cloudy and warm; *rabi* progressing; *kharif* crops ripening, but poor outturn expected; fever prevalent.
Guzerat— (Oct. 31st)		
Ahmedabad ...	...	No change.
Kaira ...	...	Cholera at Dákor, 12 cases, 4 deaths; *rabi* sowing progressing.
Surat ...	...	No change; one death from cholera.
Broach ...	3·50	Total rainfall 20·18; *kharif* crops harvested; public health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*concluded.*		
Balasore ...	*Nil*	Health good.
Cuttack ...	·32	Cholera and cattle disease prevalent.
Pooree ...	*Nil*	
		General Remarks.—Rain has now generally ceased; few insignificant showers reported in places; prospects of crops good, but more rain wanted for winter rice, especially on high lands; in Patna division rice harvest will be somewhat below average; crops backward in Pooree; rice prospects indifferent in parts of Singhbhoom and Manbhoom; *rabi* sowings going on but require rain in places.
N.-W. P. and Oudh—		
Benares (Oct. 30th)	...	No change.
Allahabad („ „)	...	No change; prospects favourable.
Jhánsi („ 31st)	*Nil*	Field work in progress.
Agra („ 30th)	...	Clear sky; *rabi* sowings progressing; rates steady.
Bareilly („ 31st)	...	No change.
Lucknow („ „)	*Nil*	No change.
Sitapur („ „)	...	*Rabi* sowings progressing; wheat 12 seers.
Fyzabad („ „)	...	*Mash, mote* and sugarcane in irrigated places good; *rabi* sowings going on.
Partabgarh („ 29th)	...	Prospects good.
		General Remarks.—No change; weather clear and settled; *rabi* sowings are going on and prices remain steady.
Punjab— (Oct. 30th)		
Delhi ...	*Nil*	*Rabi* sowings in progress; health good.
Hissar ...	*Nil*	*Rabi* prospects precarious; cattle suffering from want of forage; health good; few cases of small-pox in Rohtak district.
Umballa ...	*Nil*	Health good.
Jullundur ...	*Nil*	Crops and health good.
Amritsar ...	*Nil*	*Rabi* sowings progressing slowly; health good.
Lahore ...	...	Rain much wanted; health good.
Mooltan ...	*Nil*	Sowings for *rabi* in progress; health good.
Ráwalpindi ...	Slight rain ...	Agricultural prospects good; health fair.
Pesháwar ...	*Nil*	Slight fever prevailing.
Dera Ismail Khan ...	*Nil*	
		General Remarks.—No rain fell during the week, except at Ráwalpindi; agricultural prospects fair; health generally good.
Central Provinces—		
Sambalpur (Oct. 26th)	·90	More rain wanted for *rabi*; outturn of *kharif* estimated at 10 or 12 annas; health good; prices steady.
Upper Godávari (Oct. 27th)	·33	Rice partially failed; *jowar* doing well; cholera abating; prices steady.
Biláspur ...	2·32	Crops much benefited, especially rice sown late; prospects good; fever continues; prices steady.
Raipur ...	1·16	Prospects favourable; *rabi* sowings continue; fever prevalent; prices unchanged.
Bálaghát ...	1·1	Prospects favourable; reaping early rice continues; fever prevalent; prices steady.
Chhindwára ...	·25	Clear; prospects favourable; prices stationary.
Chánda (Oct. 28th)	·24	Rice harvest continues; *rabi* sowings progressing; fever prevalent; prices slightly fallen.
Betúl („ 29th)	1·22	Clear; prospects favourable; *rabi* sowings completed; prices stationary.
Bhandára („ 30th)	...	Rice continues favourable; *rabi* sowings progressing; fever continues; prices stationary.
Nágpur („ 31st)	·11	Prospects continue favourable; *rabi* sowings progressing; health good; prices fallen.
Wardha ...	...	Fine; prospects excellent; cotton-picking commenced.
Nimár ...	·10	Clear; prospects fair; small-pox continues.
Hoshangabad ...	...	Cool and pleasant; *rabi* sowings continue; prices easy.
Narsinghpur ...	...	Prospects fair; *rabi* sowings continue; few cases of cholera towards west of district; prices fallen.
Jubbulpore ...	...	Cloudy and cold; *rabi* sowings continue; rice harvest progressing; fever continues; prices stationary.
Saugor ...	...	Sowings progressing; immigrants returning to their home.
Seoni ...	·10	Rice thriving; *rabi* sowings continue.
Mandla ...	Slight rain in places.	Prospects favourable; fever continues; prices stationary.
		General Remarks.—Rain has much benefited crops in Raipur, Biláspur, and Bálaghát; slight damage to *rabi* sowings, *jowar* and cotton reported from Nágpur and Chánda; prospects on the whole good; *rabi* sowings being vigorously pushed on.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
British Burma— (Oct. 31st).		
Arrakan Division—	Nearly 2·0 in Akyab.	Paddy crops continue to promise well; public health good.
Pegu Division— Rangoon ...	4·26	Replanting still going on in parts of Syriam and Hmawbee subdivisions; crops already replanted expected to be good; crops previously sown reported to be in a flourishing condition; public health good; no change in price of food and grains; total rainfall 98·3 inches.
Thonkwa ...	*Nil*	Health good; crops excellent; two-thirds of crops planted after the floods have for want of rain proved failures.
Bassein ...	4·42	Fevers prevalent; slight cholera; crops promise favourably; total rainfall 122·5 inches.
Henzada ...	2·64 during week ending 27th; *nil* in Mengyee during week ending 20th.	Total rainfall 75·16 inches in Henzada, 52·10 in Mengyee; public health good; crop prospects favourable; replantings promise more hopefully.
Prome ...	3·99	One case of cholera in Prome, otherwise healthy; crops looking well; total rainfall 52·35 inches.
Thayetmyo ...	6·20	Public health good; crop prospects good owing to more rain having fallen; total rainfall 63·64 inches.
Tenasserim Division—	·56 in Amherst; 1·31 in Shwegyeen; 2·23 in Tounghoo.	Public health fair; 32 deaths from cholera in Tounghoo; a large portion of last planted paddy in the Amherst district reported to be withering from want of rain and attacks of insects; crops progressing in Shwegyeen and doing well in Tounghoo district.
		General Remarks.—During the past week there has been a good fall of rain in the Pegu division which has improved the condition of the crops lately replanted; the crops unimpaired by floods are in excellent condition.
Assam—		
Ganháti (Oct. 31st)	*Nil*	Weather dry and unusually hot for the season; prospects of crops continue favourable.
Sylhet („ „)	0·06	*Kataria* crop being reaped; general prospects good; cholera still reported.
Mysore and Coorg— (Oct. 31st)	3·3 in Bangalore; 3·49 in Mysore.	Crops flourishing but in parts damaged by excessive rain, especially in Chitaldroog, Shimoga and Coorg; weather showery; health good; ordinary rice selling in Bangalore at 14½ to 15 lbs., and *raggi* 18 to 18½ lbs. per rupee; for week ending 20th October on civil works 30,275, on professional department works 48,213, and on charitable relief 73,838.
Hyderabad Assigned Districts— Amráoti (Oct. 31st)	*Nil*	*Kharif* crops in good condition; *rabi* sowing nearly completed.
Central India— (Oct. 30th)		
Indore	*Nil*	
Gwalior ...	*Nil*	
Rutlam ...	*Nil*	
Sutna ...	*Nil*	
Goona ...	*Nil*	
		General Remarks.—Emigrants returning towards Gwalior; cholera abated; emigration through Neemuch continues; during past 6 weeks 37,847 have passed; weather cold; prospects everywhere fair; *rabi* sowing commenced.
Rajputana—		
Jhallawar (Oct. 25th)	...	Weather bright; mornings cold.
Meywar („ 19th)	...	Water-supply good; *rabi* prospects fair; health good.
Marwar („ 27th	...	Tanks have failed; *rabi* sowings near wells progressing; health good; prices steady.
Harowtee („ 29th)	...	*Rabi* sowings progressing; health good; weather clear.
Ulwur („ 31st)	...	No improvement in prospects.
Jeypore („ 30th)	...	Prospects unchanged; health good.
Ajmere ...	...	*Rabi* sowings want rain; railway grain imports above 2,500 maunds.
Nepal (Oct. 23rd)	*Nil*	Prospects fair.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations under the provisions of the Act of Parliament 24 & 25 Vic., Cap. 67.

The Council met at Simla on Wednesday, the 24th October 1877.

PRESENT:

His Excellency the Viceroy and Governor General of India, G. M. S. I., *presiding*.
His Honour the Lieutenant-Governor of the Panjáb, C. S. I.
His Excellency the Commander-in-Chief, K. C. B.
The Hon'ble Sir E. C. Bayley, K. C. S. I.
The Hon'ble Sir A. J. Arbuthnot, K. C. S. I.
Colonel the Hon'ble Sir Andrew Clarke, R. E., K. C. M. G., C. B.
Major-General the Hon'ble Sir E. B. Johnson, K. C. B.
The Hon'ble Whitley Stokes, C. S. I.
The Hon'ble F. R. Cockerell.
The Hon'ble T. C. Hope, C. S. I.

PANJÁB LAWS ACT AMENDMENT BILL.

The Hon'ble MR. STOKES introduced the Bill to amend the Panjáb Laws Act, 1872, and moved that it be referred to a Select Committee. He said that he had already described the contents of this Bill, with the exception of section 2. The provisions as to pre-emption contained in the Panjáb Laws Act, sections 9—18, were, he was informed, transcribed from the Panjáb Civil Code—a useful body of principles, but one which was never intended to receive the force of law, or to be exposed to the disintegrating action of a stream of judicial decisions. Section 2 of the Bill would replace these provisions by more accurately drawn clauses, and would at the same time give the Local Government a right of pre-emption in respect of sales of land on which trees belonging to Government were standing. The clause relating to this right had been inserted at the suggestion of His Honour the Lieutenant-Governor, who would explain to the Council more satisfactorily than he (MR. STOKES) could the benefits which would result from this addition to the law.

Section 3 of the Bill would add to the Panjáb law a provision that the Court of Wards might take charge of and administer the property of persons declared by the Local Government, on their own application, to be disqualified from managing their estates. To what he had said on this subject when moving for leave to introduce the Bill he would now only add the reasons given by the Panjáb Government when applying for the present legislation:

"In the case of estates paying a large amount of revenue to Government, it is important that the State, for its own interests, should have power to assume the management and prevent their ruin by thriftless or improvident proprietors; and it is not less important—indeed it is perhaps more important—that the Government should possess similar powers in the case of political jágírs; for nothing can be more detrimental to the best interests of the British Government than the existence of members of influential families holding perhaps large assignments from the public revenue, but reduced by extravagance or bad management to misery and indebtedness which timely interference by the Government would have effectually prevented.

"It would be possible, indeed, to some extent to provide for the administration of the estates of insolvent jágírdárs and land-owners by having resort to the insolvency sections of the Panjáb Laws Act; but this remedy has been found in practice to be insufficient, because the insolvent is not deprived of the powers to contract fresh debts, and it has happened that, while the estate of the insolvent is being wound up in the Insolvent Court, he has been incurring fresh debts on the security of his reversionary interest in the income of his estate."

MR. STOKES had already described and (he hoped) justified the amendment which the fourth section of the Bill was intended to make. He would only add that Act IV of 1872 had been already amended by Act XV of 1875, and that the Select Committee to which he hoped the present Bill would be referred, would doubtless consider the propriety of consolidating those Acts with the additions now proposed.

His Honour THE LIEUTENANT-GOVERNOR said that the new provision in section 2, which gave a right of pre-emption in respect of land on which trees belonging to Government were standing, was introduced on his recommendation. In various parts of the Panjáb it was desirable to reserve such rights for Government; but it often happened that land offered for sale was,

for want of a provision like that now proposed to be introduced, acquired by other persons, and rights which the Government would have been glad to acquire went to others, and the land became disforested. Section 3 of the Bill would enable Courts of Wards to take charge of estates of disqualified proprietors on their own application. He considered that this addition to the reasons for disqualifying proprietors would be of much use, and would prevent the ruin of noble, influential and ancient families by the extravagance of the incumbent of the estates.

The Motion was put and agreed to.

The Hon'ble MR. STOKES also moved that the Bill be published in the *Gazette of India* in English and in the *Panjáb Government Gazette* in English and in such other languages as the Local Government should direct.

The Motion was put and agreed to.

DISTRESSED SEAMEN'S EXPENSES RECOVERY BILL.

The Hon'ble MR. STOKES also introduced the Bill to provide for the recovery in British India of wages due to, and expenses incurred in respect of, certain seamen and apprentices, and moved that it be referred to a Select Committee.

The Motion was put and agreed to.

The Hon'ble MR. STOKES also moved that the Bill be published in the *Gazette of India* in English and in the local Gazettes in English and in such other languages as the Local Governments should direct.

The Motion was put and agreed to.

CONSOLIDATED CUSTOMS BILL.

The Hon'ble MR. HOPE presented the preliminary Report of the Select Committee on the Bill to consolidate and amend the laws relating to the administration of the Department of Sea Customs in India, and in doing so observed that, with His Lordship's permission, he would explain in a few words his reason for presenting to the Council, while sitting at Simla, a document relating to matters so important to the mercantile community.

The same occupation with other matters which, as he lately explained, had prevented the progress of the Forest Bill in Select Committee during the past season in Calcutta, had also interfered with this Bill. His late colleague, the Hon'ble Mr. Bullen Smith, had, however, been so good as to go over with him all the more important points raised in the correspondence relating to the Bill and the reports made by the semi-mercantile committees appointed at the three Presidency towns, and had offered opinions and made suggestions which MR. HOPE had carefully noted down. There was, moreover, in a Bill of this sort an immense amount of detailed revision and re-arrangement from a draughtsman's point of view necessary, which would be far better done at leisure at Simla than in the hurry of Calcutta, where so much had to be got through in a short time.

The members of the Committee at Simla consequently thought that it would be better, and more conducive to a good Bill eventually, if they put forth here a preliminary Report embodying the general revision referred to, and the views checked by those of Mr. Bullen Smith where practicable, and published a revised Bill with it, than if they put the whole aside to be dealt with at Calcutta. Before adopting this course, however, MR. HOPE had consulted their colleague in Calcutta, the Hon'ble Mr. Cowie, and was glad to say that he had written that he "cordially concurred" in it.

The following Select Committees were named :—

On the Bill to amend the Panjáb Laws Act, 1872—His Honour the Lieutenant-Governor of the Panjáb, the Hon'ble Mr. Cockerell and the Mover.

On the Bill to provide for the recovery in British India of wages due to, and expenses incurred in respect of, certain seamen and apprentices—The Hon'ble Sir Alexander Arbuthnot, the Hon'ble Mr. Cockerell and the Mover.

The Council adjourned *sine die.*

SIMLA;
The 24th October 1877.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

Lotteries and Race-sweeps.

No. 329.

Extract from the Proceedings of the Government of India in the Home Department (Police),—under date Simla, the 1st November 1877.

READ—

A circular of the Punjab Government, dated the 29th March 1877, withdrawing the prohibition against the publication of advertisements of lotteries not authorized by Government.

Read also—

A letter from the Bengal Government, dated the 13th September 1877, No. 1441T.

RESOLUTION.

ON the 13th September last the Bengal Government forwarded a letter from the Commissioner of Police at Calcutta, reporting that advertisements of lotteries and race-sweeps printed beyond the limits of Lower Bengal are sent in large numbers to hotels and other places of public resort in Bengal, in contravention of section 294A of the Indian penal code, and that the proprietors of newspapers and other periodicals in Bengal complain bitterly that their columns are closed to notices and advertisements which are freely permitted elsewhere. His Honour the Lieutenant-Governor of Bengal considers that the present treatment of lotteries by the different local Governments is exceedingly unsatisfactory; in Bengal the law is strictly enforced, while in the Punjab and elsewhere, it is habitually broken with impunity, and newspapers are allowed to advertise and circulate proposals directly opposed to the provisions of the section of the code cited. His Honour is of opinion that if these lotteries and race-sweeps are mischievous, they should be put down by law, instead of being allowed to develop themselves year by year; but that if they are considered to be a harmless amusement, the prohibitory clause in the penal code should be repealed, and lotteries should not be discouraged. His Honour himself considers them exceedingly mischievous.

2. The Government of India concur with His Honour's opinion as to the mischievous character of the lotteries and race-sweeps advertised, and believe that the mischief is year by year assuming greater dimensions. As the intention of the law on the subject is clear and as its provisions were intended to operate in one province as much as in another, the Government of India consider that the law should be uniformly enforced. Local Governments and Administrations are therefore requested to enforce the law after giving due notice thereof by publication of this Resolution in their several official Gazettes.

ORDER.—Ordered, that this Resolution be forwarded for information and guidance to all Departments of the Government of India, to Local Governments and Administrations, and that it be published in the Supplement to the *Gazette of India.*

ARTHUR HOWELL,

...ORKS DEPARTMENT.

Weekly condition report of the distressed districts of the Mysore Province.

PROVINCE OF MYSORE.

(*No.* 37.)

Special famine report for the week ending 20th October 1877.

Statement No. 37, regarding famine relief operations in the Province of Mysore, for the week ending the 20th October 1877.

Rain has been general throughout the Province, and heavy in the Districts of Mysore, Hassan and Kadur, which were mentioned last week as having received a lighter fall than other Districts. The growing crops continue in good condition, and a very fair yield is anticipated. Jowari in parts is still reported to suffer from continued wet, but much of the diseased ragi has improved. All the tanks are full, and preparations for the Vaishaki or late crops are being actively made. Harvesting continues, and sowing operations are general. The Famine Commissioner spent the week travelling through the Chitaldrug District, and states that though there is very much land out of cultivation in the south-east and east of the District, what crops there are are fairly good, and that in the west and north-west the crops are uncommonly fine, and almost the whole land taken up. A little sun is all that is required to ripen the grain. He visited the Timmenhalli Tank work and was much pleased with the arrangements made and considers it a creditable and successful relief work. From Kolar very good accounts have been received, and the famine area may now be considered confined to Bangalore, Túmkúr, and parts of the Kadur, Chitaldrug and Hassan Districts.

2. The imports of grain by rail amounted to 2,950 tons, or 1,457 tons less than last week. The imports were received from the following quarters:—

	Tons.
From Madras	2,586
" Beypore	33
" Negapatam and Trichinopoly	116
" Sholapur	25
" other places	190
Total ...	2,950

From Bangalore 1,437 tons, or 216 tons less than in the preceding week, were exported to the following quarters:—

	Tons.
Túmkúr	310
Bellary and Chitaldrug	174
Mysore	592
Usur (Salem District)	155
Round Bangalore	206
Total ...	1,437

3. Prices show a marked improvement, especially in Kolar, Bangalore, Túmkúr, Shimoga and Chitaldrug. The following statement gives the maximum and minimum prices in lbs. per rupee:—

	Maximum in lbs. per rupee.		Minimum in lbs. per rupee.	
	2nd sort rice.	Ragi.	2nd sort rice.	Ragi.
Bangalore District ...	16	21½	13	16
Kolar " (for 7 taluks) ...	18	24	11	16
Túmkúr " (for 6 taluks) ...	15	21	11	16
Mysore " (for 10 taluks)...	11½	16	9	12
Hassan "	13	17	9	11
Kadur "	13	16	10	12
Shimoga "	14	22	9	12
Chitaldrug "	12	22	10	16

4. The number of labourers employed on civil relief works was 30,275, or 2,186 less than last week. The decrease was due to 5,068 fewer persons being employed in the Kolar District, where relief is now scarcely required. There was an increase of 2,871 labourers in Túmkúr and of 1,286 in Chitaldrug.

5. Under the Public Works Department, 48,213 labourers were employed, or an increase of 8,472, occurring chiefly in Bangalore and Kadur. The following is a list of works on which are employed 500 labourers and upwards :—

District.	Work.	Number employed.
Bangalore ...	State Railway	16,552
	Bangalore Water-supply	985
	Bangalore-Mysore Road	1,844
	Dod Súne Tank	664
	Mallappa Chetti's Tank	1,477
Túmkúr ...	Nelamangala-Túmkúr Road	3,123
	Bellary Road	850
	Túmkúr-Shimoga Road	767
Chitaldrug ...	Timmanhalli Tank	1,400
Mysore ...	Mysore Water-supply ...	2,895
Kadur ...	Channel from Devanur to Keresante Tank...	1,683
	Shimoga-Arsikere Road	811
		33,051

6. The numbers fed gratuitously in relief camps amounted to 73,838, showing a decrease of 14,517, distributed as under :—

	Week ending— October 13th.	Week ending— October 20th.	Decrease.	Increase.
Bangalore District ...	14,513	13,058	1,455	...
,, Municipality ...	13,306	12,570	736	...
Kolar District ...	3,992	3,720	272	...
Túmkúr ,, ...	24,249	19,551	4,698	...
Mysore ,, ...	2,344	1,737	607	...
,, Municipality ...	696	711	...	15
Hassan District ...	7,652	5,663	1,989	...
Kadur ,, ...	981	523	458	...
Shimoga ,, ...	1,609	1,198	411	...
Chitaldrug ,, ...	19,415	15,107	4,308	...
Total ...	88,757	73,838	14,934	15
		Deduct increase ...	15	
		Net decrease ...	14,919	

7. The number on civil and professional works amounts to 78,488 compared with 73,838 charitably fed. The figures for last week were 72,202 and 88,757 respectively and for the week before 62,506 and 103,750. There has been an increase upon professional works and a decrease upon civil works and in gratuitous feeding; the net decrease of persons relieved on works or charity was 8,633. Employment for the people is afforded in the fields, and the wages offered for agricultural labour are good. Prices continue to fall, and altogether prospects are very encouraging, and a steady decline in the numbers relieved may be reckoned upon.

8. The average cost of feeding per head is returned as follows :—

	Per head. Rs.	A.	P.
Bangalore District	0	9	6
,, Municipality	0	9	2
Kolar District	0	7	11
Túmkúr ,, ...	0	9	6
Mysore ,, ...	0	11	9
,, Municipality	0	6	0
Hassan District	0	12	1
Kadur ,, ...	0	10	1
Shimoga ,, ...	0	13	4
Chitaldrug ,, ...	0	8	0

or an average cost of 9 annas 4 pies per head compared with 9 annas 11 pies for last week.

BANGALORE; 27th October 1877.

"By Order,"

A. WINGATE,
Additional Secretary.

C. E. BERNARD,
Additional Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 8TH NOVEMBER 1877.

GENERAL REMARKS.—In Madras the north-east monsoon continues to give good rain all down the coast, except in Ganjam and Vizagapatam where the fall has been deficient; in the Ceded Districts there has been moderate and in parts of Bellary and Kurnool excessive rain, but the weather is now clearing and prospects are very good. Prices continue to fall, and the numbers on relief to diminish rapidly; 363,298 are now on works and 721,882 on gratuitous relief, being 54,072 and 222,957 less than last week respectively. In Mysore there has been good rain, followed by a beneficial break; the prospects of the crops are very good; the numbers on works are 83,441, and gratuitously relieved 61,147: the former is 4,953 more and the latter 12,691 less than last week. In Bombay the only rainfall has been in Kaládgi, Kanara and Ratnagiri (all less than an inch), and a shower in Satara; fine weather is now general in the Deccan, and appears to have begun in the Southern Mahratta Country; prospects (except in Sind) are very good. In the Central Provinces beneficial rain has fallen in Sambalpur; none is reported elsewhere except a shower in the Upper Godávari district: *kharif* prospects are good and sowings for the *rabi* vigorously progressing. In Berar there has been no rain; the *kharif* promises well, and *rabi* sowings are nearly complete. In Central India there has been no rain; the emigrants are returning to their homes from Goona, and though some are still coming into Neemuch from Rajputana, others are returning. In Rajputana opportune rain has fallen at Ajmere, Jeypore and Ulwur; *rabi* sowings are progressing. In Bengal slight rain has fallen in the Eastern districts, Orissa, and Chota Nagpore; the crops are generally good, but rain is wanted in many places. In Assam the crops promise well. In Burma there has been moderate rain, and the crops are flourishing. In the North-Western Provinces no rain has fallen; *rabi* sowings are progressing and prices steady. In the Punjab rain is reported only from Ráwalpindi; it is much wanted for the *rabi* sowings in Hissar, Umballa, Amritsar, Lahore, and Dera Ismail Khan.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Ganjam (Nov. 3rd)	·77	Rice 9·19, *raggi* 14·81, *cholum* 15·2, *cumboo* 16·8; imports, Chilka land rice, 130 tons; rain of 1st and 2nd secures low land paddy where-ever it fell; 30 persons fed daily on average at Berhampore.
Vizagapatam („ 5th)	·4	Rice 8·0, *cholum* 9·9, *raggi* 13·3, *cumboo* 15·1; camp 200 daily; private charity 5,060 daily; more rain wanted; aspect of weather uncertain; if more rain falls fully average crop over all taluks; at the worst, supposing no rain, 12-anna crop; prices falling; camp will close.
Godavery („ „)	3·17	Rice 9·5, *cholum* 14·19, *raggi* 15·40, *cumboo* 17·17; crops generally good though slightly suffering from blight; harvest of *chama*, maize, dry and *rasaugi* paddy, outturn $\frac{1}{2}$ to $\frac{3}{4}$; water over anicut 30 inches.
Kistna („ 1st)	1·68	Rice 7·50, *cholum* 11·44, *raggi* 10·83, *cumboo* 15·19; on works 2,684; camps and houses 195; village relief 7,681; crops are generally good; dry paddy, *giddajonna* and maize are in ear, harvest of the two latter commencing; *cholum* in 4, wet paddy in 2 taluks suffering from blight; at present nothing serious.
Nellore („ 3rd)	4·47	Rice 7·09, *cholum* 7·24, *raggi* 9·79, *cumboo* 9·98; on civil works 6,131; Department Public Works works not reported; canal 20,929; children 3,493; camps and houses 8,424; village relief 1,926; crops fair; agriculture active.
Cuddapah („ 2nd)	2·14	Rice 7·62, *cholum* 10·75, *raggi* 11·43, *cumboo* 14·50; on works 39,619; children 5,211; camps and houses 4,288; village relief 40,127; crops good; *cumboo*, *raggi* and paddy harvested in parts, outturn $\frac{2}{3}$.
Bellary („ 3rd)	2·4	Rice 7·73, *cholum* 11·22, *raggi* 13·16, *cumboo* 11·08; on works 46,595; children 6,301; camps and houses 15,337; village relief 123,194; dry crops have suffered considerably from excess of rain; wet crops generally fair; *cholum*, *raggi* and *cumboo* being harvested; future prospects very good; prices falling; weather now clear.
Kurnool („ „)	1·66 (average of district.)	Rice 6·75, *cholum* 8·64, *raggi* 9·56, *cumboo* 11·68; on works 82,520; children 10,051; camps 4,566; village relief 53,046; fever exceedingly prevalent and fatal; standing crops generally thriving well; early dry crops reported to continue to suffer from excessive rain and ravages of insects; agricultural operations progressing; figures for Sirwell and Ramalkota estimated, returns not being received.
North Arcot („ 2nd)	4·53	Rice 9·0, *cholum* 9·7, *raggi* 10·8, *cumboo* 11·2, wheat 5·6; on works 38,525; children 6,140; camps and houses 12,665; village relief 84,300; crops good; harvest of paddy, *raggi* and *cumboo*, outturn poor.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*concluded.*		
South Arcot (Nov. 3rd)	3·83 (average of district.)	Rice 8·77, *cholum* 10·08, *raggi* 11·78, *cumboo* 11·62; several returns of works and relief not received; on works, revenue department 1,004, professional 953; children 3; camps 4,537; villages 29,503; rain general and copious; rivers in continuous flood; crops promising but damaged by floods in parts; *raggi*, *cumboo* and *kar* paddy harvested in parts, outturn tolerable.
Tanjore („ „)	3·59	Rice 6·09, *cholum* 13·02, *raggi* 14·82, *cumboo* 16·24; on works none; children none; camps and houses 101; village relief 1,003; rivers full; wet crops thriving in Mannargudi and Citrapoondi, some suffer from excess of water; dry crops in good condition; harvest, outturn of *kuruvai*, *kadappu* and *kar* $\frac{1}{3}$ to $\frac{3}{4}$; *cumboo, cholum, raggi* and *gingelly* $\frac{1}{4}$ to $\frac{3}{4}$.
Trichinopoly („ „)	4·05 (average of district.)	Rice 6·80, *cholum nil*, *raggi* 10·81, *cumboo* 12·06; on works 9,598; children about 1,000; Public Works officers' returns incomplete; in camps 2,505; village relief 3,408; sowing in parts; *samba* transplanted; harvest of *kar*, *cumboo* and *raggi* continue, outturn about nine-anna crop.
Madura („ „)	Highest 7·8; average 4·64.	Rice 8·09, *cholum* 10·93, *cumboo* 11·24, *raggi* 10·88; on works 5,893; children 458; in camps and houses 14,404; village relief 32,766; rainfall general; good freshes in all the rivers; several tanks have breached.
Tinnevelly („ „)	3·0	Rice 10·12, *cholum* 11·55, *raggi* 10·35, *cumboo* 10·90; camps and houses 2,167; village relief 1,561; crops good.
Coimbatore („ „)	2·92	Rice 9·02, *cholum* 10·18, *raggi* 12·81, *cumboo* 10·56; on works 26,571; children 896; camps and houses 49,945; village relief 13,643; crops in good condition; harvest of paddy and *raggi* in parts, outturn of paddy $\frac{1}{2}$ to full, *raggi* $\frac{1}{8}$ to $\frac{1}{2}$.
Nilgiris („ „)	3·26	Rice 6·19, *cholum* 7·54, *raggi* 9·37, *cumboo* 8·97; relief works none; camps and houses 454; village relief 11; crops being damaged by excessive rain; harvest of *raggi*, *samay* and *korali*, outturn between $\frac{1}{2}$ and $\frac{1}{4}$.
Salem („ 5th)	4·08	Rice 8·34, *raggi* 10·18, *cumboo* 14·20, *cholum* 8·10; on works 69,260; camps 19,480; village relief 73,080; crops thriving; harvest of paddy and *cumboo*.
South Canara („ 3rd)	1·62	Rice 10·13, *raggi* 11·91; first rice crop harvesting nearly completed in most parts, outturn good.
Malabar („ „)	2·19	Rice 10·41, *raggi* 12; gratuitous relief 5; rain very favourable harvesting first crop nearly over; transplanting second crop continues; prospects very good.
Chingleput („ „)	4·0 (average of district.)	Rice 9·07, *raggi* 13·42, *cumboo* 13·20, *cholum* 10·80; on works 2,254 children 3,041; camps and houses 8,120; village relief 61,862; crops in fair condition; *cumboo*, *manakottai* and *kar* harvested in parts, outturn moderate; *raggi* good.
Madras („ 6th)	8·26	Rice, second sort, 8·03, *raggi* 11·30, *cholum* 9·8; imports tons, rice 4,183, other grains 1,200.
		General Remarks.—General prospects good; numbers on State relief continue to diminish rapidly; total number on works 363,298; total number gratuitously relieved 721,882; exports of grain by rail from Madras during the week ending the 3rd instant 6,347¼ tons.
Bombay— (Nov. 7th)		
Sind.

Betúl ...	...	Prospects favourable; prices stationary.
Bhandára ...	...	Early rice crops nearly reaped; *jowar* flourishing; *rabi* sowings progressing; prices easy.
Nágpur (Nov. 4th)	...	Prospects very favourable; health good; prices falling.
Wardha ...	...	Prospects excellent; cotton-picking commenced.
Nimár (Nov. 5th)	...	Weather fine, unusually hot.
Hoshangabad ...	...	Cool and pleasant; prospects good; prices easy; sowings continue.
Jubbulpore ...	...	Prospects good; prices easy; fever prevalent.
Saugor (Nov. 6th)	...	Cholera abating; prices stationary.
Seoni ...	...	*Kharif* threshing continues; *rabi* sowings progressing vigorously; prices stationary.
Mandla ...	...	Prospects favourable; *rabi* sowings progressing; fever continues.
Damoh ...	...	Prospects good; prices easy; weather seasonable.
		General Remarks.—*Kharif* prospects on the whole good; *rabi* sowings being vigorously pushed on.
British Burma— (Nov. 7th).		
Arrakan Division—	9·0 in Akyab ...	Public health good; late rains very beneficial; abundant crops expected in all parts of the division.
Pegu Division—		
Rangoon ...	·4	Crops of previous sowing reported to be in a flourishing condition; two-thirds of crops of subsequent planting in the Hmawbee sub-division said to have been destroyed by the second rise of the Hline river; public health good; very little change in the prices of food and grain; total rainfall 98·7 inches.
Thonkwa ...	Slight rainfall ...	Health good; slight cattle disease in Phyapoon township; crops good; reaping commenced in some places.
Bassein ...	·68	Health good; total rainfall 133·2 inches; crops promise well.
Henzada ...	1·15 during week ending 3rd instant, 2·90 in Myanoung and 2·60 in Mengyee during week ending 27th ultimo.	Total rainfall in Henzada 76·31, in Myanoung 48·30, in Mengyee 59·70 inches; public health good; crop prospects favourable; crops replanted progressing.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
British Burma— *concluded.*		
Prome ...	·48	Four deaths from cholera in Prome, 2 in Shwedoung, 5 in Mahathaman, 42 in Poungday sub-division during last fortnight; total rainfall 52·21 inches; crops flourishing.
Thayetmyo ...	1·12	Public health good; harvest prospects good; total rainfall 64·76 inches.
Tenasserim Division—	*Nil* in Amherst ...	Slight cholera in the Tounghoo and Mergui districts, also a few cases in Moulmein town, otherwise public health fair; prospects of late planted paddy in Amherst district unfavourable.
Shwegyeen ...	·59	Crops progressing.
Tounghoo ...	2·47	Crops doing well.
Tavoy ...	4·25 during fortnight ending 31st ultimo.	Health good; crops promising.
Mergui ...	1·63 during week ending 27th.	Area replanted in Tenasserim township doing well, but a small portion has been destroyed by insects; in two other townships 310 acres also destroyed by insects.
		General Remarks.—Condition of crops generally most flourishing; late rains have done much good; price of rice fallen to ordinary rate.
Assam—		
Gauháti (Nov. 7th)	...	Days clear and dry; mornings and evenings cold; fogs over river in morning; prospect of crops favourable.
Sylhet (" ")	·03	Weather close; prospect of crops good; reaping is commenced in places; cholera continues.
Mysore and Coorg—		
(Nov. 7th)	3·19 in Bangalore; 2·05 in Mysore; 1·44 in Coorg.	Crop prospects and health generally good; favourable break in weather; ordinary rice sells at Bangalore at 14 to 14½ lbs. and *raggi* 19 to 20 lbs. per rupee; for week ending 27th October, on civil works 31,167, on professional department works 52,274, and gratuitously relieved 61,147.
Hyderabad Assigned Districts—		
Amraoti (Nov. 7th)	*Nil*	*Kharif* in good condition; *rabi* sowings completed in most parts.
Central India—		
(Nov. 6th)		
Indore ...	...	Health and prospects good.
Rutlam ...		
Baghelkhand ...		
Neemuch ...	...	Thirteen hundred and eighty emigrants from Rajputana since Saturday, 240 returning to Rajputana.
Goona ...	...	Six hundred and eighty-three emigrants to Gwalior and 359 to Biáora since 3rd; cholera still hangs about.
Gwalior ...	...	No report.
Rajputana— ...		
Marwar (Nov. 4th)	...	Water in tanks has begun to fail; health good; *rabi* sowings in progress; weather close and warm, with clouds.
Harowtee (" 5th)	...	*Rabi* sowings well advanced; prospects good.
Jhallawar (" 1st)	...	Weather bright and mild; more rain for *rabi* sowings required in parts.
Ajmere (" 7th)	·7	Rain most opportune for *rabi* sowings; health good.
Jeypore (" 6th)	·22; showers on 5th and 6th, still raining.	Partial rain; sowings progressing.
Ulwur (" 7th)	·16	

On page 2742 of the Supplement to the *Gazette of India* of the 27th ultimo, in the rainfall column opposite Bassein in British Burma for "9·68" read "·68"; and opposite Prome for "total rainfall 98·04" read "48·04."

G. H. M. BATTEN,
Offg. Secy. to the Govt. of India.

Mr. C. J. Middleton, Assistant Engineer 2nd grade, Bengal Provincial Establishment.

Mr. J. H. Toogood, Assistant Engineer 2nd grade, Bengal Irrigation Establishment.

Lieutenant R. de Villamil, R.E., Assistant Engineer 1st grade, Punjab Provincial Establishment.

Mr. D. McMordie, Assistant Engineer 1st grade, Punjab Irrigation Establishment.

Mr. A. G. Reid, Assistant Engineer 1st grade, temporary rank, Punjab Irrigation Establishment.

Mr. C. H. G. Jenkinson, Assistant Engineer 1st grade, State Railways, Central System.

Sergeant C. Hilton, R.E., Overseer 1st grade, North-Western Provinces and Oudh, Irrigation Branch.

No. 477.—Mr. H. Unwin, Executive Engineer 2nd grade, and Captain E. C. Elliston, S.C., Executive Engineer 4th grade, Bengal Irrigation Branch, are temporarily transferred to Madras for employment on famine relief works.

No. 478.—The undermentioned Engineers and Upper Subordinate are retransferred from Bombay famine relief works to the Provinces and Branches of the Public Works Department to which they are permanently attached:—

To Bengal Provincial Establishment.

Mr. W. McCullagh, Sub-Engineer 1st grade.

To Bengal Irrigation Branch.

Mr. F. Taylor, Executive Engineer 4th grade.

Mr. G. St. A. Nixon, Assistant Engineer 2nd grade.

To North-Western Provinces and Oudh Provincial Establishment.

Mr. N. A. Graydon, Assistant Engineer 1st grade.

Captain H. A. Graves, R.A., Assistant Engineer 2nd grade.

To Military Works Branch.

Honorary Lieutenant A. Connell, Assistant Engineer 2nd grade.

To Western System of State Railways.

Mr. E. B. Medley, Assistant Engineer 1st grade.

No. 479.—Mr. W. A. Campbell, Accountant 2nd grade, is transferred from the Holkar and Neemuch State Railways to the Dhoond and Manmad State Railway.

No. 480.—Colonel C. W. Hutchinson, R.E., Inspector General of Military Works, is granted privilege leave for three months with effect from 3rd December 1877, or such subsequent date as he may avail himself of it.

Major-General Sir A. Taylor, K.C.B., R.E., Chief Engineer, Military Works Branch, is appointed to officiate as Inspector General during the absence of Colonel Hutchinson, or until further orders.

Colonel L. Russell, R.E., Superintending Engineer 1st grade, Military Works Branch, is appointed to officiate as Chief Engineer, *vice* Major-General Sir A. Taylor.

No. 481.—The following is republished for information and guidance with remark that in the case of a medical officer employed in the Public Works Department the sanction to his marching instead of journeying by dâk or railway should be given by the Superintending Engineer of the Circle, or other superior officer under whom he may be employed:—

Financial Department Notification No. 75 (Pay and Allowances) of 20th April 1877.

It has been brought to the notice of the Governor General in Council that great diversity exists in the rules regarding the travelling allowance of Civil Surgeons. In some cases these officers receive mileage only, in others they draw mileage for journeys and a daily allowance for halts, and under a third system they are permitted to receive, in addition to mileage, a daily allowance for the whole period of absence from headquarters, including the period for which mileage is drawn. It is sufficiently obvious that the travelling allowances of officers employed in similar capacities should be regulated, so far as local circumstances admit, on a uniform principle. His Excellency in Council is accordingly pleased to lay down the following rules for general adoption:—

I.—The rates of travelling allowance for Civil Surgeons are 8 annas a mile, subject to reduction under general rules for journeys by railway, and Rs. 5 a day, except in the Berars, for which a rate of Rs. 6-4-0 a day has been experimentally sanctioned for the current year.

II.—Subject to such restrictions, as the Local Government or Administration may see fit to impose, as to the duration and frequency of his journeys, a Civil Surgeon is entitled either to the daily allowance or to the mileage for the whole of each period of his absence from his headquarters on duty, unless the duty is one for which he receives no extra remuneration, in which case he is entitled to the daily allowance for halts and either to that allowance or to the mileage for journeys, provided that both allowances are not drawn for the same day, and that the allowance for journeys shall be payable only when the Civil Surgeon has the sanction of the district officer to his marching instead of going by dâk or railway.

The 2nd November 1877.

No. 482.—Deputy Commissary and Honorary Captain J. Mathews, Barrack Master 2nd class, Oudh, was granted leave on medical certificate in India with effect from 5th May to 27th September 1876, and his services replaced at the disposal of the Military Department from date of expiry of the leave.

No. 483.—The undermentioned Upper Subordinates are temporarily transferred from British Burmah to Madras for employment on famine relief works:—

Mr. P. Jones, Sub-Engineer 1st grade.

„ G. Burnell, „ 2nd grade.

„ T. C. Beardsmore, Sub-Engineer 3rd grade.

„ J. T. Hardy, temporary Sub-Engineer 2nd grade.

Sergeant J. H. Fitzgerald, Overseer 1st grade.

No. 484.—The period of service of Mr. J. F. Stokes, Executive Engineer 1st grade, having been determined under his agreement, he ceased to belong to the Public Works Establishment on 24th October.

No. 485.—In continuation of Public Works Department Notification No. 480, dated 1st November, Major W. B. Holmes, R.E., Military Works Branch, will officiate as a Superintending Engineer, *vice* Colonel L. Russell, R.E.

No. 486.—The Governor General in Council is pleased to make the following promotions in the Engineer Establishment attached to the Railway Branch of the Public Works Department with effect from the dates specified :—

No. 46. | CALCUTTA, SATURDAY, NOVEMBER 17, 1877. | Register No. 33.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

G. H. M. BATTEN,

Offg. Secy. to the Govt. of India.

The 29th Sept. 1877.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

FAMINE.

ORDER.

The following Despatch to Her Majesty's Secretary of State is published for general information :—

No. 36 (Famine), dated Governor General's Camp, Poona, the 22nd September 1877.

From—His Excellency the Viceroy and Governor-General,
To—Her Majesty's Secretary of State for India.

In paragraph 3 of Your Lordship's despatch No. 62, dated 9th August, is expressed approval of the orders issued by us, enjoining publicity in the rare cases where district officers find it necessary to purchase grain for the supply of any landlocked, foodless tract. And the same paragraph counsels vigilance in watching the operation of our orders restricting the purchase of grain.

The words of this paragraph were telegraphed to me by Your Lordship on the 10th August, and we submitted by telegraph the reply given in the margin. Since the despatch of that telegram, my Minute, dated the 12th August, has given (paragraph 18) a general statement of the principles which should guide the Government of India, when any question arises of importing grain on Government account. That paragraph gives expression to views, in which all my colleagues concur; it runs thus :—

Telegram dated 14th August 1877.

Your cypher message of tenth. We do not fully understand the object of it.

Our instructions about publication referred only to local purchases from trade. We decided at outset that private trade would import grain more efficiently than Government, and we have lately re-asserted publicly our determination not to interfere.

Do you intend to say that you think it probable that Government ought to make large importations of grain?

We can foresee no circumstances under which such Government interference with private trade would not be a ruinous mistake. Trade towards famine country from Bengal, Central and Northern India is most active, and we see no reason to doubt that the necessary supplies will be furnished. We are convinced that far more food from abroad or elsewhere will reach Madras if we leave private enterprise to itself, and we should paralyse it by Government competition. Free and abundant private trade cannot co-exist with Government importations. Even if we anticipated failure in source of supply, we should still believe that Government interference would only decrease the total amount of food available and aggravate the catastrophe.

If Her Majesty's Government should think differently, we request that we may receive distinct intimation of the fact. We cannot take upon ourselves any responsibility for a course which would in our opinion be fatal. Nor can we usefully give calculations. Local estimates say that from 4,000 to 5,000 tons of grain must be imported daily : grain actually ready for export on Great Indian Peninsula Railway reported to be 1,20,000 tons and stocks in Bengal, Central and Northern India believed to be large.

"18. When harvests fail in an Indian province, considerable old stocks of food are left in the hands of the landholding and mercantile classes: but these stocks are often held back from sale. Markets have, therefore, to be supplied with grain imported from a distance. I consider that, except under most peculiar and exceptional circumstances, the function of supplying the demand for imported grain can be best, and indeed, alone, discharged by private trade; and that private trade should be left to do its work in this respect with as little interference from Government as practicable. The Government and its officers should, however, give all possible information, and should give, where necessary, additional facilities, to private trade. Early and correct information as to prices and means of carriage should be published. The carrying power of railways and canals, leading into the famine tracts, should be reinforced; tolls and other restraints on free intercommunication should be removed; roads into the interior should be improved and kept in order; rates of railway or other carriage might be reduced; and, in cases of extreme necessity, temporary railways, or tramways, might be laid from main railway lines into populous tracts, whereto means of communication failed, or were insufficient. These will, indeed, be the most useful of all works, if we have to meet another year of famine. Grain required by Government for alms to the helpless poor, or for labourers on relief works, or for any tract where supplies were deficient, should be obtained through the trade, at or near the local markets, and should not be imported from a distance by Government itself. Experience has shown that Government operations in the grain market disorganise and paralyse private trade, to an extent out of all proportion to the operations themselves. Moreover, where the carrying power of a country by rail, canal, or cart, is limited, and is fully utilised, Government grain importations must necessarily displace a corresponding quantity of privately imported grain. My view, therefore, is that, under no circumstances, which are likely to occur, ought the Government itself to engage in the business of importing grain. Free and abundant private trade cannot co-exist with Government importation. Absolute non-interference with the operations of private commercial enterprize must be the foundation of our present famine policy. Trade towards the famine country from Bengal and Northern and Central India is at present active; and there is every reason to believe that the Indian sources of supply are still considerable. But even if these should fail, the interference of the Government would be a ruinous error. It could only have the effect of decreasing the total amount of food available, and thus aggravating the catastrophe. I am confident that more food, whether from abroad or elsewhere, will reach Madras, if we leave

private enterprize to itself, than if we paralyse it by Government competition. These remarks refer to the famine we are now dealing with. I do not, of course, intend to assert that famines cannot occur, in which Government interference for importation of food may not be absolutely necessary. Indeed, the Orissa Famine was one of those cases."

2. In addition to what has been urged in the telegram and extract quoted above, I would add a short further explanation of the principles which guide the Government of India, and of the position we take, when we decline, under present circumstances, to purchase and import grain for the supply of the famine districts.

3. If prices do not greatly rise after a failure of harvest, and if imports are inactive, then the natural conclusion would be that there must be considerable old stocks in the country. These are of course difficult, if not impossible, to trace. When prices in a province approach famine rates, then we presume that, if surplus food exists in other provinces, and if communication by water or railway be fairly good, private traders will carry that food to the famine districts more cheaply, more promptly, and more directly, than Government could possibly do. If there is one branch of internal trade which Indian traders fully understand, it is the grain trade; they know what grain is wanted, whence it can be bought most cheaply, and where the need is sorest. Among the many contracts between the system of Government importations adopted in 1874 and the private trade system of 1877, it may be mentioned that the Government importations in 1874 consisted, with some small exceptions, of rice, mostly of Burmah rice;—while private trade has in 1877 brought under contribution every province and every food staple in India;—wheat, barley, grain, two kinds of millet (jowar and bajra), and pulses have come from scores of railway stations in the Punjab, the North-Western Provinces and Behar, from the river Chenab on the north to the Soane on the south; rice, pulses and marwa millet (the ragi of Madras) have come from Bengal and Orissa; millets and pulses have come from Guzerat, Berar, the Central Provinces, and even from Rajputana. Burmah has sent a small quantity of rice; but Burmah rice generally rules dearer than the common varieties of Bengal rice; and so traders have drawn but little from that source of supply, so long as Bengal stocks were large.

4. Not only could private traders do the work of supplying grain to Southern India, better than Government could do it; but it was obvious that the trade, as a whole, could make much larger inportations than Government could effect by itself. If once the Government were to begin importing grain, the first rumour of any impending intrusion of Government action into the field of private enterprize would paralyse the confidence of the whole trade, would send up prices at the source of supply, would keep prices in the famine country below the natural trade level, and woud thus, indirectly as well as directly, check imports. The Government having once entered on such an undertaking, there would be no half-way stage at which we could arrest our ruinous course. The Government would soon find itself responsible for providing grain enough for every village, not merely in Madras and Mysore, but also in tracts of Northern India to which famine might spread. Any partial substitution of Government agency for private trade was impossible. We had to choose between either leaving private trade alone, or taking upon ourselves the whole of its natural work. If we had adopted the latter alternative, it would probably have cost the Government more to lay down one ton of grain, than it would have cost the trade to lay down two. We had before us the financial results of the Bengal famine of 1874, where the cost* of buying and transporting Government grain came to £ 6,474,000 out of a gross expenditure of £ 9,177,000 or to £ 4,259,000 out of a net cost of £ 6,402,000. The famine of 1877 has been severer, and has extended over a far larger area than the famine of 1874; if we had taken the grain supply into our own hands, the cost of famine relief in 1876—78, alarmingly great as it is, must have been indefinitely increased. If Government had undertaken to import grain for the supply of Southern India, we should, even if we had succeeded in our undertaking—which is doubtful—have made a stride, of which the magnitude can only be conjectured, on the road to national bankruptcy.

* NOTE—These figures are taken from the approximate statement of the Bengal famine charges, given in Part V of Sir Richard Temple's final Report, submitted at the close of the Bengal famine of 1874.

5. The financial argument indeed, in the present condition of the Indian treasury, carried its due weight in deciding us to adopt what, on other grounds, seemed to us the wiser alternative. Still, apart from financial considerations, we were convinced that the safety of the afflicted populations would be best secured by the adoption of the course we took. It must, I fear, be admitted that Government cannot avert all death from famine, when the drought is so severe and affects so large an area, as in the present season has been the case. And I am convinced that, under present circumstances, there would have been more misery, more death, and a less constant supply of food in the districts of Southern India, if Government had undertaken to import grain on a large scale, than have happened under the policy which the Government of India, after full consideration, and with Your Lordship's approval, have adopted.

6. These were some of the considerations which influenced our decision when the question of importing grain arose in the autumn of 1876. When the same question came before us in July 1877, such considerations gained renewed force from the experience of the preceding eight months. The proposal to import grain largely by Government agency had been put forward during the autumn of 1876, both at Bombay and Madras. The Governor, Sir Philip Wodehouse, fully and specifically discussed the question with his colleagues; and they decided not to buy grain, but to trust entirely to private trade for the supply of the country. This decision, cordially approved as it was by the Government of India, was at once made public. Grain was forthwith consigned to the Deccan by private traders in enormous quantities; insomuch that the Great Indian Peninsula Railway was blocked with grain early in November. By strenuous effort the block was gradually cleared; and the supply, by rail and seaboard, to the famine districts of Bombay has, since November, sufficed for the needs of the country. Prices have indeed been very dear; but, though some parts of the Bombay famine tract drew their supplies from Railway stations or seaports 130 miles off, still there has always been enough grain in the markets.

7. The Madras Government, about the same time as the Bombay Government considered the question, decided to buy 30,000 tons of grain as a beginning. This decision was not known to the Government of India, until the transaction was concluded and the bill had to be paid. The purchases were effected with just so much secrecy as served to alarm the trade; and in Calcutta, the chief source of the Madras rice supply, dealers were, until the middle of February, possessed with a fear that further large purchases by Government were imminent. Interference with the grain market was stopped by the Government of India; and whatever may have been the views of the Madras Government at the time, I believe the Governor of Madras is now and has for some time been of opinion that further Government purchases of grain were inexpedient. The Madras Government made their purchases in October; and, as no further action of the kind was taken, the stream of private trade set in during December, and has continued ever since. Private trade has sent by sea to Madras, or has consigned from marts in Northern India, more grain than the railways and other means of transport could carry into the interior. During the last two months (August and September), since the failure of the summer rains and the occurrence of a second famine, private trade has carried into the districts of Madras and Mysore a daily average of 4,000 to 5,000 tons of food. This great result must be largely due to the assurances, published by the Governments of India and Madras in June last, to the effect that Government would not interfere in the grain trade. These were the assurances to which we referred in our telegram quoted in the first paragraph of the present letter.

8. The grain bought by the Madras Government is being kept in reserve; and so its presence does not operate to keep prices low, and thereby to check importations. I am aware that the Members of the Madras Government, though they do not now advocate Government purchases, are strongly of opinion that their purchase of 30,000 tons, and their placing the greater part of that supply in depôts up the country, paved the way for private trade, and encouraged its steady flow. It is true that private trade increased after the Government purchases had been made; but trade did not acquire its full stream till August

1877; and it did not flow freely at all till December 1876; that is to say, some weeks after the Government transactions had been concluded; whereas the Bombay importations set in with full tide early in November. I do not say that the purchase of 30,000 tons permanently affected the flow of private trade, in the face of the enormous demands of the Madras and Mysore country; but I fear the transaction must (for the time) have checked private importations; it is certain that the Government grain occupied railway wagons to the exclusion of merchants' consignments; and I can see no practical or theoretical ground for the contention that the Government purchases galvanised private trade into active exertion.

9. Though the considerations stated in the foregoing paragraphs guided our unanimous decision on the occasions when the question of purchasing grain came before us during the present famine, yet we must not be understood to say that occasion never did, and never can, arise when Government purchases of grain might be necessary. The Orissa famine of 1866 may have been such a case. Orissa was a small province; it had then few transactions with other parts of India; its marts were not frequented by merchants from other provinces; there were practically no land communications between Orissa and other provinces, save for pilgrims; and communication by sea was, at that time, cut off during the most critical season of the year. The famine of 1866 in Orissa may have been a case in which Government might in some way have effected or promoted grain importations. In the famine of 1874 the Behar famine tract, with its population of 19 millions, was divided by the Ganges into nearly equal parts; one part, south of the Ganges, possessed two railways, metalled and bridged roads, and large trading populations; the other part, north of the Ganges, had no railways, not a single metalled and bridged road and comparatively few traders. Thus the Government was able to occupy North Behar with its agency and with its grain imported from the east; while the wants of South Behar were sufficiently met by private trade with supplies from the west. The circumstances and characteristics of the two tracts were so different that Government trade in North Behar did not interfere with private trade in South Behar; and furthermore, all the Government grain came by railway or river from the east, while the railway from the west was left exclusively for private traders. The famine tracts of Southern India, on the other hand, are not landlocked like Orissa; nor are their sea-ports closed for months together, as were the Orissa road-steads. There are several railway lines in the south of India, a number of sea-ports are available on the east and west coasts; Madras possesses a better system of metalled and bridged roads than any part of India; much of the Bombay and Mysore country is also well supplied with roads. There was thus every facility for the free action of private trade. Nor was there any section of the famine country, so separate and distinct from the rest, that Government agency could have imported grain thither, while private trade supplied the remainder of the country without let or hindrance.

10. I have laid before Your Lordship, thus at length, an expression of my views on the subject of this letter, because I think its importance is very great. If Your Lordship were able to concur generally in the views now expressed, the hands of the Government of India would be greatly strengthened, when hereafter the problem of supplying food to a famine-stricken province again arises.

11. In any case, the traders of Southern and Northern India will have learnt an important lesson of self-help. Private trade will be more prompt than heretofore to supply the wants of provinces where scarcity of food may prevail. I anticipate also that, after the brisk and lucrative trade of this year, traffic on the Madras guaranteed railways will never fall again to the low ebb of former years. And I hope that the opening of the Dhond and Munmar Railway will do much to promote free interchange of commodities between the north and the south of India, which now for the first time have traded on a large scale with each other.

By order of His Excy. the Govr. Genl.,

C. BERNARD,

Additional Secretary to the Government of India.

GOVERNMENT OF INDIA.

Dharwar ...	4,564	3,000	9,88,037	6,30,000	The weather has been fine since the 27th. The jowari has been damaged in some places by the previous heavy rain, but on the whole the crops are good. The sowing of rabi which was delayed is now in full progress. The jowari harvest has just begun in the south.	13,255	6,914	·69	16,21,060	12,45,742	Jowari ... 43	14†	16	26·39	13·81	26·45
Total ...	54,355	34,183	79,63,927	50,18,992		69,078	53,710	·67	1,52,43,069	1,01,32,512						
Emigrants from the affected districts employed in Ratnagiri and Kanara						* 1,539	*1,117									
Grand Total						70,617	54,827									

* These figures are for the weeks ending 13th and 20th October respectively. † Corrected [illegible] ‡ For details and [illegible]

The weather has, on the whole, become more favourable in the districts noticed last week as suffering from excessive rain. The chief exception is Belgaum, where no improvement has taken place. In Kaladgi also the weather is still unsettled.

2. Prices have fallen considerably in Khandesh, Nasik, Ahmednagar and Dharwar, and in Sholapur bajri, which the Collector reports is now the staple food of the people, is much cheaper. In the Poona Collectorate prices have risen. In the other three districts there is scarcely any change.

3. A decrease of 15,790 this week in the number of labourers upon relief works brings the total down to 54,827. The greatest reduction has been made in Dharwar where nearly half the labonrers of the preceding week have left the works. The apparent increase in the case of Nasik is due to an adjustment between that district and Admednagar of the number of relief labourers upon the Dhond and Manmad railway works. The numbers pertaining to the two districts are now counted separately.

4. Cholera continues to a slight extent in Nasik and Ahmednagar, and is becoming more prevalent in Satara.

5. Written reports have been received from the Collectors of Nasik, Poona, Sholapur and Satara for the week ending the 27th October, and from the other Collectors for the week before. The table, compiled from these reports, showing the rainfall and the prices of staple food-grains in each taluka is appended as usual. Rain has fallen in most of those talukas of Khandesh and Ahmednagar noticed last week as requiring more rain. Another fall of rain is wanted in the Nasik district. In the Collectorates to the south of Poona the complaint of excessive rain is general. The Collector of Belgaum—his report is for the week ending the 20th ultimo—states that serious injury is apprehended if the rain continues. The telegrams show that rain did continue at least till the 2nd instant. In Dharwar the rain, while injuring other crops, has served to restore the rice.

6. The following table gives the expenditure by Government, during the week ending 13th October, upon gratuitous relief, and in payments made to the young children of labourers employed upon Relief Works. The number of children has fallen during the week from 40,356 to 33,560. The number of persons being gratuitously relieved in the week ending 6th October was entered, in the last statement, as 87,951, but supplementary returns since received from the Collectors of Sholapur and Kaladgi show that the correct number is 89,322. The return from the Collector of Ahmednagar for the week ending 13th October is incomplete: the whole number may be taken approximately at 76,133. This gives a decrease during the week of 11,818:—

Districts.	Collector's Discretionary Grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116, of 26th December 1876, on account of children under 7 years of age whose parents are upon Relief Works.		
	Average daily number of persons relieved during the Week.	Expenditure during the week.	Total Expenditure up to date.	Average daily number of children, and of Women taking care of them.	Expenditure during the Week.	Total Expenditure up to date.

* Return incomplete.

7. In the following table are enumerated the works under Public Works Department Agency upon which the average daily number of persons employed has amounted to five hundred for the week ending 20th ultimo. The total number engaged on these large works constitutes 67·12 per cent. of the whole number of labourers upon relief works :—

Districts.	Works.	Number of labourers.	Total.	REMARKS.
Khandesh ...	Dhulia-Pimpalner Road ...	1,240	2,145	
	Bombay-Agra Road ...	905		
Nasik ... Ahmednagar ..	Dhond-Manmad Railway ...	2,550	2,550	Approximate number of relief labourers.
Poona ...	Nira Canal	7,898	12,044	
	Mutha Canal	1,817		
	Motoba Tank	1,716		
	Shirsophal Tank	613		
Sholapur ...	Ashti Tank	2,375	4,012	
	Pangaon Tank	1,637		
Satara ...	Mhaswad Tank	3,355	8,159	
	Pingli Tank	2,595		
	Nehr Tank	2,209		
Kaladgi ...	Sholapur-Hubli Road ...	521	521	
Belgaum ...	Gokak Canal	1,699	5,443	
	Belgaum-Panchgaon Road ...	1,345		
	Bagewadi-Saundatti Road ...	1,185		
	Athni-Kanamadi Road ...	681		
	Athni-Belanki Road ...	533		
Dharwar ...	Poona-Hurryhur Road ...	3,294	8,792	
	Karwar-Bellary Road ...	2,447		
	Hubli-Kaladgi Road ...	1,761		
	Ron-Nawalgund Road ...	1,290		
	GRAND TOTAL ...	...	43,666	

8. Tables A. and B. are brought up to the week ending 20th ultimo. The number of persons on works under Public Works Department Agency in the nine affected districts was at this date 51,107 and on works under Civil Agency 13,946. The percentage of persons upon works under Civil Agency has thus risen during the week from 18·8 to 21·4 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 1,01,32,512, which, with the expenditure of Rs. 1,29,533 upon works in Ratnagiri and Kanara, and Rs. 9,86,337 from the Collectors' Discretionary Allowances, gives a total of Rs. 1,12,48,382.

9. The condition of the affected Native States is shown in a table appended. The rain has been excessive in Kolhapur and Savanur. The number of labourers upon relief works continues to decrease, but very slowly.

10. During the week ending 27th October, 41 tons of food-grains were exported from Bombay to the Southern Maratha Ports, and 1,747 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusawal-Nasik lines, making a total of 1,788 tons for the week. This is less by 705 tons than the importations of the previous week.

The table below shows the quantities of grain sent by sea and rail from October 1876 till the 27th October 1877 to the Southern Maratha Ports and the Railway Stations in the distressed districts. It will be seen that the total amount delivered up to the 27th October was 427,789 tons :—

Food-grains sent to	In October, November and December 1876.	In January, February and March 1877.	In April, May and June 1877.	In July 1877.	In August 1877.	In September 1877.	In October (up to 27th).	Total.
	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.
Southern Maratha Ports	44,215	46,332	54,547	857	15,204	3,319	242	164,716
South-Eastern line, from Poona to Sholapur ...	67,195	41,708	45,798	20,484	21,506	16,256	8,359	221,306
North-Eastern line, from Bhusawal to Nasik ...	12,829	7,471	5,581	1,524	8,043	2,519	3,800	41,767
TOTAL ...	124,239	95,511	105,926	22,865	44,753	22,094	12,401	427,789

11. There have been decreases of 15,790 in the number of people on relief works, 6,796 in the number of young children, and 11,818 in the number of people on charitable relief.

12. There is considerable improvement in the general situation. The condition of the people is markedly better. The anxiety caused by the excessive rain is now almost entirely confined to the Belgaum Collectorate.

C. J. MERRIMAN, *Colonel, R.E.,*
Acting Secretary to Government.

G. H. M. BATTEN,
Offg. Secretary to the Govt. of India.

Continuation sheets of the Supplement published at Calcutta on this date.

PROVINCE OF MYSORE.

(*No.* 38.)

Special famine report for the week ending 27th October 1877.

Statement No. 38, *regarding famine relief operations in the Province of Mysore, for the week ending the 27th October* 1877.

GENERAL and heavy rain has fallen throughout the week causing anxiety for the tanks and some injury to the crops. The fall has been specially heavy in Chitaldrug where 7 inches 30 cents. were recorded, the total fall of the year being nearly as great as in 1874-75. Notwithstanding great risk of damage to the jowari crops which are reported to be rotting in the year, prospects have very markedly improved in that district, and an early termination of the distress is anticipated. The Famine Commissioner visited the Shimoga district, where he found only one relief camp with very few inmates, chiefly sick and infirm. Both here and over a considerable part of Chitaldrug, he states, the people are most desirous of remaining near their crops and cannot be persuaded to leave them for relief works, nor is it desirable they should, as even the poorest find some employment in weeding and cutting the heads of such grain as has ripened and is spoilings and eke out a livelihood with roots and greens. With a little fine weather it appeared to be the general opinion that the harvest would be unusually good. The area cultivated is larger than ordinary, and as yet no serious damage has occurred. But should the incessant and heavy rain continue, the consequences to the jowari crop may be serious. This description applies with more or less force to the other districts, the rain injuring the standing crops, delaying the harvest and interfering with sowing operations. The crops in Coorg are also suffering.

2. The imports of grain by rail have again decreased, amounting to 2,033 tons, or 917 tons less than last week. The imports were received from the following quarters:—

	Tons.
From Madras	1,794
" Beypore	105
" Negapatam and Trichinopoly	12
" Sholapur	31
" Other places	91
Total ...	2,033

From Bangalore 1,708 tons were exported, or 271 tons more than in the preceding week, to the following quarters:—

	Tons.
Túmkúr	380
Bellary	150
Mysore	847
Usur (Salem District)	143
Round Bangalore	188
Total ...	1,708

Prices are dearer in the direction of Mysore and thus attract the imports.

3. The improvement in prices continues, especially in ragi, of which increasing quantities come to market. The following statement gives the maximum and minimum prices in lbs. per rupee for each district:—

		Maximum in lbs. per rupee.		Minimum in lbs. per rupee.	
		2nd sort rice.	Ragi.	2nd sort rice.	Ragi.
Bangalore district	... ...	18	22	15	17
Kolar "	(for 8 taluks only) ...	18½	26	13	19
Túmkúr "	(for 5 taluks) ...	15	24	11	17
Mysore "	(for 9 taluks) ...	13	18	9	13
Hassan "	... ...	14	18	9	11
Kadur "	... ...	13	16	10	15
Shimoga "	... ...	14	20	9	13
Chitaldrug "	... ...	13	26	10	14

4. The number of laborers employed on civil relief works was 31,167, or a net increase of 892, due to 4,916 additional laborers drafted to works in the Túmkúr district. In all other districts, except Kadur, where there was a trifling increase of 77, the numbers diminished, the decrease being greatest in Chitaldrug. The transfer of labor to the Public Works Department continues, and it is hoped the laborers under civil officers in Bangalore will shortly be transferred to the Railway and in Kolar to the Yedaruru Tank. There is a difficulty in Túmkúr, where there are now 13,623 on civil works owing to a want of any large useful projects in that district. With a view to testing the practicability of moving labor at this season, the Chief

Engineer collected a party of about 450 in Bangalore for employment near Maddur, distant about 48 miles, and Lieutenant Peile, 2nd Q. O., B. N. I., the officer sent in charge, reports his arrival on the works without the loss of a single person he started with, but on the contrary with an addition of volunteers picked up by the way. The Deputy Commissioner of Túmkúr, where distress is still serious and therefore demand for relief great, has now been requested to endeavour to take some of his labor to more useful works. At the same time considerable progress has been made in concentrating labor under civil officers. At the end of August there were 29,295 laborers on 1,746 works, while the present returns shew only 293 of the petty works still in progress, the great bulk of the labor having been collected on 31 larger works recently selected and sanctioned by the Famine Commissioner.

5. Under the Public Works Department 52,274 laborers were employed, or an increase of 4,061 occurring chiefly in Bangalore and Tumkúr. The following is a list of works on which are employed 500 laborers and upwards:—

District.	Work.	Number employed.
Bangalore ...	State Railway	18,209
	Bangalore Water-supply	1,007
	Bangalore-Mysore Road	1,737
	Mallappa Chetti's Tank	1,700
	Bhadram Tank	526
	Dod Súne Tank	Not received.
Túmkúr ...	Túmkúr-Bellary Road	990
	Túmkúr-Shimoga Road	2,035
	Kunigal-Yediyur Road	606
	Nelamangala-Túmkúr Road	3,616
Mysore ...	Mysore Water-supply	3,006
Kadur ..	Shimoga-Arsikere Road	1,250
Chitaldrug ...	Timmenhalli Tank	1,597
	Total ..	36,279

6. The numbers gratuitously fed in relief camps amounted to 61,148, giving a net decrease of 12,690 as under:—

	Week ending— October 20th.	Week ending— October 27th.	Decrease.	Increase.
Bangalore district ...	13,058	12,024	1,034	...
„ Municipality ...	12,570	11,395	1,175	...
Kolar district ...	3,720	2,911	809	...
Túmkúr „ ...	19,551	14,336	5,215	...
Mysore „ ...	1,737	2,641	...	904
„ Municipality ...	711	*711	...	...
Hassan district ...	5,663	4,432	1,231	...
Kadur „ ...	523	542	...	19
Shimoga „ ...	1,198	1,048	150	...
Chitaldrug „ ...	15,107	11,108	3,999	...
Total ...	73,838	61,148	13,613	923
	Deduct increase ...		923	
	Net decrease ...		12,690	

The decrease in Kolar and Chitaldrug is due to the improved prospects and the demand for field labor, and in Túmkúr to the efforts made to transfer the inmates of relief camps to works, the decrease upon gratuitous relief being more than compensated by the increase on works. It is satisfactory to state that both public works and civil officers unite in considering that no sooner are people transferred to works than their condition begins to improve. Indeed the success which has attended the introduction of free admission to public works and the popularity of the works have exceeded all expectation. At no distant date, the population of the relief camps will be confined to the sick and the infirm.

7. The number on civil and professional works amounts to 83,441 compared with 61,148 charitably fed. The following table gives the numbers relieved during the last two months:—

Week ending		C. W.		P. W. D.		Total.		Charitable.		Grand Total.
1st September	...	29,295	+	24,206	=	53,501	+	2,27,067	=	2,80,568
8th „	...	28,754	+	24,847	=	53,601	+	2,21,176	=	2,74,777
15th „	...	28,803	+	24,942	=	53,745	+	2,08,683	=	2,62,428
22nd „	...	31,280	+	25,271	=	56,551	+	1,61,892	=	2,18,443
29th „	...	31,038	+	27,655	=	58,693	+	1,26,204	=	1,84,897

20th „	...	30,275	+	48,213	=	78,488	+	73,838	=	1,52,326
27th „	...	31,167	+	52,274	=	83,441	+	61,148	=	1,44,589

* Last week's figure; no entry being made in the column in this week's return.

It will be observed that the number of laborers under civil officers has not materially altered, the closing of petty works having been compensated by the increased numbers on the larger works recently opened. The increase upon public works has amounted to about 28,000, and the decrease in numbers gratuitously fed to 165,919, the net decrease upon relief since 1st September last being 135,979. This reduction is due to more accurate counting, the improvement in the season, the fall in prices, and the exaction of work in return for food, and the better discipline in the relief camps. To ensure that none in want are left uncared for in the towns and villages and to prevent the enforcement of the tests causing distress, the services of a large number of European officers have been secured and a rigorous system of village inspection undertaken. The town of Bangalore itself has been divided into beats, each house visited, and every one in real need and unable to work provided with a ticket for grain. The Inspectors also distribute tickets for admission to public works, and the resident population being thus provided for, wanderers and stragglers are removed by the police to enclosed camps. The street mortality has fallen to about half-a-dozen a day, and considering the very large number on the public works who find shelter in Bangalore and the feeble condition of some members of the special gangs, it is feared occasional deaths, in spite of the most careful treatment, will continue for some little time. The utmost care is being taken upon the public works, in the relief camps and in hospitals of the weak and emaciated with the best results; a little fair weather would at once ripen the crops and improve the public health, and is all that is at present wanting to make prospects most encouraging.

8. The average cost of feeding per head is returned as follows:—

		Per head.		
Bangalore district	... ...	0	9	0
Do. Municipality	... ...	0	9	9
Kolar district	... ...	0	8	3
Túmkúr ,,	... ...	0	9	8
Mysore ,,	... ...	0	7	0
Do. Municipality	... ...	0	6	1
Hassan district	... ...	0	11	8
Kadur ,,	... ...	0	14	6
Shimoga ,,	... ...	1	0	4
Chitaldrug ,,	... ...	0	8	8

Or an average cost of 9 annas 6 pies per head compared with 9 annas 4 pies for last week. The excess in Shimoga is due to the actual expenditure not being shewn.

By Order,

A. WINGATE,

Addl. Secretary.

BANGALORE;
3rd November 1877.

C. E. BERNARD,

Additional Secretary to the Govt. of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 15TH NOVEMBER 1877.

GENERAL REMARKS.—No report has this week been received from Madras. In Mysore the rainfall of the week has been trifling; the crops are in good condition; the number on relief works for the week ending the 3rd instant was 85,673, and on charity 51,328, being 2,232 more and 9,819 less than in the previous week. In Bombay no rain has fallen during the week, except a little on the Upper Sind Frontier. The condition and prospects of the crops are good everywhere except in Sind. In the Central Provinces also there has been no rain; the prospects of the *kharif* are good and the early rice is being harvested: the *rabi* sowings are being rapidly brought to a close. In Berar the condition of the crops is good. In Central India there has been no rain; emigrants from Rajputana still continue to pass through Neemuch: those from Gwalior passing through Goona are falling off, and many are returning. In Bengal slight but beneficial rain has fallen in the Dacca and Chittagong Divisions, and also in Pooree: elsewhere there has been none; the rice outturn will be poor in most parts of the Patna Division. Prospects are good in Assam. There has been a slight fall of rain in most districts of British Burma; the crops promise well. In the North-Western Provinces and Oudh no rain has fallen; the *rabi* sowings are nearly complete, and the seed sown is germinating well. In the Punjab slight rain has fallen at Ráwalpindi, Pesháwar, Dera Ismail Khan and Amritsar; it is generally wanted for the *rabi* sowings, especially in Umballa and Lahore.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay— (Nov. 14th)		
Sind.		
Kurrachee ...	*Nil*	No sign of cold weather yet.
Hyderabad ...	...	No change.
Upper Sind Frontier ...	·25 between 9th and 13th.	
Guzerat.

Burdwan ...	*Nil*	Fever prevalent.
Bankoora ...	*Nil*	
Beerbhoom ...	*Nil*	
Sonthal Pergunnahs ...	*Nil*	
Bhágalpur ...	*Nil*	
Monghyr ...	*Nil*	
Purneah ...	*Nil*	
Maldah ...	*Nil*	Much fever.
Durbhunga ...	*Nil*	
Mozufferpore ...	*Nil*	
Sarun ...	*Nil*	Health good.
Chumparun ...	*Nil*	
Patna ...	*Nil*	Health good.
Gya ...	*Nil*	
Shahabad ...	*Nil*	
Hazáribágh ...	*Nil*	
Lohardugga ...	*Nil*	Health good.
Manbhoom ...	*Nil*	
Singhbhoom ...	*Nil*	Healthy.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*continued.*		
Balasore ...	*Nil*	Health deteriorated.
Cuttack ...	*Nil*	Cholera and cattle disease still flying about.
Pooree ...	·22	Health good.
		General Remarks.—Late rice promises well on low lands, but must be short on high lands for want of rain; Dacca and Chittagong divisions much benefited by last week's rain; outturn of rice in most parts of the Patna division will be poor; Pooree backward for want of rain; rice prospects average in Chota Nagpore; *rabi* crops doing well every where, but rain wanted in places.
N.-W. P. and Oudh— (Nov. 14th)		
Benares (Nov. 13th)	...	No change.
Allahabad („ „)	...	
Jhánsi („ „)	...	
Agra („ „)	...	Rabi sowings nearly complete; prices steady; cholera reappeared.
Meerut („ 14th)	...	No change.
Bareilly („ „)	...	
Lucknow („ „)	...	
Sitapur („ „)	...	Sowings progressing; seed germinating very well.
Fyzabad („ „)	*Nil*	Rain wanted; *rabi* sowings still in progress.
Partabgarh ...	...	Prospects good.
		General Remarks.—No change in the weather; *rabi* seed germinating and prospects good.
Punjab— (Nov. 14th)		
Delhi ...	*Nil*	*Rabi* sowing progressing but more rain wanted; small-pox prevalent.
Hissar ...	*Nil*	Occasional clouds and warm for time of year; *rabi* prospects unfavourable owing to want of rain, and cattle suffering from want of fodder; small-pox rife in the Rohtak District.
Umballa ...	*Nil*	*Rabi* sowing stopped; health good.
Jullundur ...	*Nil*	Health and crops good.
Amritsar ...	...	Thunderstorm on night of 12th; *rabi* sowings are delayed; health good.
Lahore ...	*Nil*	Rain much wanted; health good.
Ráwalpindi ...	0·5	*Rabi* prospects and health good.
Mooltan ...	*Nil*	*Rabi* sowings in progress; health good.
Dera Ismail Khan ...	Slight rain ...	*Rabi* sowings in progress; health good.
Peshâwar ...	0·3	Health good.
		General Remarks.—Rain wanted generally for the *rabi* sowings.
Central Provinces— (Nov. 14th)		
Upper Godávari („ 9th)	...	Clear; *rabi* thriving; health good; prices very high.
Sambalpur ...	...	Clear; cool; rice harvest continues; health good; prices steady.
Bilâspur (Nov. 10th)	...	*Rabi* sowings progressing; fever prevalent; prices steady.
Raipur ...	...	Cool; clear; prospects of *kharif* favourable; *rabi* sowings continue; fever prevalent; prices stationary.
Chánda (Nov. 11th)	...	Prospects of *kharif* favourable; rice harvesting; *rabi* sowings continue; fever prevalent; prices falling.
Bálaghát („ 10th)	...	Clear; prospects of *kharif* very favourable; rice harvest; *rabi* sowings continue; fever prevalent; prices stationary.
Chhindwára („ 11th)	...	Clear; prospects favourable; few cases of cholera; fever continues; prices steady.
Betúl („ 12th)	...	Clear; prospects of *kharif* favourable; *rabi* sowings progressing; fever continues; prices falling.
Bhandára („ 13th)	...	Clear; *rabi* sowings progressing; rice harvesting; fever continues; prices stationary.
Nághpur („ 14th)	...	Clear; prospects of *kharif* favourable; *rabi* thriving; health good; prices slightly risen.
Wardha ...	...	*Kharif* prospects very good; *rabi* thriving.
Nimár ...	...	*Kharif* prospects good; cotton picking commenced; small-pox continues.
Hoshangabad ...	...	Cool; pleasant; *kharif* prospects good; *rabi* sowings continue; prices risen.
Narsinghpur ...	...	Prospects of *kharif* fair; *rabi* sowings nearly completed; health good; prices fallen.
Jubbulpore ...	...	Clear; cold; *kharif* harvesting; *rabi* sowings almost completed; health good.
Saugor ...	...	Cool; no dews; ground requires moisture; sowings completed; cholera almost disappeared.
Seoni ...	...	Clear; rice harvesting; *rabi* sowings continue.
Damoh ...	...	*Rabi* sowings completed; prices stationary.
Mandla ...	...	*Kharif* prospects favourable; *rabi* sowings progressing; health good; prices stationary.
		General Remarks.—*Kharif* prospects good; earlier rice harvesting; *rabi* sowings, where not completed, being vigorously pushed on; cholera almost disappeared in districts attacked.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
British Burma— (Nov. 14th)		
Arrakan Division—	*Nil*	Public health good; agricultural prospects very promising.
Pegu Division—		
Rangoon ...	0·5	Crops continue in a flourishing condition; no fresh change reported public health good; prices of food and grain remain nearly the same; total rainfall 99·2.
Bassein ...	1·3	Public health fair; slight cholera; total rainfall 124·5; crops promise well.
Henzada ...	·74 during week ending 10th instant; 1·60 in Myanoung during week ending 3rd instant; ·20 in Mengyee.	Total rainfall in Henzada 77·5, in Myanoung 49·90, in Mengyee 61·90; slight cattle disease in Tahpoon township; deaths from cholera in Tahpoon 36, in Tarchkehmaw 14, in Mengyee 3, otherwise health good; crop prospects favourable; crops replanted promise well.
Prome ...	0·77	One death from cholera in Prome, seven deaths in Poungday, otherwise public health good; crops flourishing; total rainfall 53·23.
Thayetmyo ...	*Nil*	Public health good; crops promise well.
Thonkwa ...	...	Report not received.
Tenasserim Division—	...	Public health fair.
Toungho ...	1·56	Cholera decreasing; crops doing well.
Amherst ...	1·10	Slight local showers have benefited the late planted paddy.
Shwegyeen ...	2·91	Corps progressing.
		General Remarks.—No change to report; crops promise well.
Assam—		
Gauháti (Nov. 14th)	*Nil*	Mornings and evenings cold; fog over river in morning; days clear and dry; prospects of all crops good.
Sylhet („ „)	*Nil*	Prospects of crops favourable; *kataria* crops being reaped; price of rice slightly lower; few cases of cholera in the interior.
Mysore and Coorg— (Nov. 14th)	*Nil* in Bangalore; ·21 in Mysore.	Prospects good; health fair; ordinary rice sells in Bangalore at 14½ to 15 lbs. and *raggi* 18½ to 19½ lbs. per rupee; for week ending 3rd, on civil works 33,335, on professional department works 52,338, and charitably relieved 51,328.
Hyderabad Assigned Districts— (Nov. 14th)		
Amráoti ...	...	*Kharif* crops favourable; *rabi* sowings completed.
Central India— (Nov. 14th)	*Nil*	November 13th. Emigrants from Rajputana passing Neemuch still, about 400 daily; numbers through Goona decreasing, many returning; prospects improving, though want of water felt in Malwa for irrigation.
Rajputana— ...	...	Report not received.

Received too late to be included in the General Remarks.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras— (Nov. 14th		
Ganjam (Nov. 10th)	*Nil.*	Rice 8·96, *raggi* 15·49, *cholum* 15 2, *cumboo* 14·92; crops withered in some places; 130 fed daily on average at Berhampore.
Vizagapatam („ 12th)	...	Rice 8, *raggi* 13·5, *cumboo* 15·1; private charity 5,060 daily; north-east monsoon failed, the burst lasted but one day; one quarter of the rice crop consequently lost, if no further rain fall, the loss of grain and sundry dry grains will be very serious; Parvatipore, Cobbili, Palconda and Bimlipatam will have full average rice crop; Salur more than average; other taluks from eight to twelve annas.
Godavery („ „)	·45	Rice 8 60, *cholum* 13·47, *raggi* 15·93, *cumboo* 17·40; crops generally good, though suffering from blight in some places; harvest of *rasavgi* paddy; *budama, jilama* and *chama*, outturn ½ to ¾; water over anicut 23 inches.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*concluded.*		
Kistna (Nov. 8th)	1·39	Rice 7·32, *cholum* 11·63, *raggi* 11·77, *cumboo* 13·76; on works 3,920; camps and houses 282; village relief 7,298; all crops are generally good; *cholum* and wet paddy suffering from blight in some taluks; harvest of *kerra, giddojonna* and maize commencing, outturn generally fair.
Nellore („ 10th)	1·12	Rice 6·89, *cholum* 8·34, *raggi* 9·54, *cumboo* 9·60; on civil works 5,525 reported, probably 6,000; Department Public Works 11,800; canal 22,145; children 3 163; camps and houses 7,460 reported, probably 9,700; village relief 1,766; crops fair; agriculture active.
Cuddapah („ 9th)	·17	Rice 7·59, *cholum* 10·51, *raggi* 11·16, *cumboo* 14·40; on works 27,015; children 4,456; camps 3,724; village relief 25,784; crops good; *cumboo* and paddy harvested in parts, outturn ⅜.
Bellary („ 10th)	5·5	Rice 7·56, *cholum* 11·07, *raggi* 12 88, cumboo 11·33; on works 36,030, children 5,202; camps and houses 14,054; village relief 97,539; dry crops have suffered considerably from excess of rain, wet crops generally fair; *cholum, raggi* and *cumboo* being harvested; future prospects very good; weather now clear.
Kurnool („ 10th)	·31 in Sirwell taluk	Rice 7·0, *cholum* 8·94, *raggi* 9·99, *cumboo* 11·88; on works 51,380; children 6,839; camps 3,902; village relief 49,196; standing crops generally thriving well; early dry crops suffered from excess of rain and ravages of insects; *cumboo* and other dry crops being harvested in some taluks.
North Arcot („ 9th)	2·22; 3·5 at Madarpauk on the 9th.	Rice 8·9, *cholum* 10·0, *raggi* 10·7, *cumboo* 10·0, wheat 5·7; on works 32,088; children 4,289; camps and houses 12,066; village relief 66,721; crops good; harvest of paddy, *raggi* and *cumboo,* outturn poor.
South Arcot („ 10th)	General; 2·60 average of district.	Rice 7·65, *cholum* 10·08, *raggi* 11·57, *cumboo* 11·76; on works Revenue Department 642; Professional 234; children 6; three returns of relief not received; camps 7,310; villages 37,891; high floods in all rivers; Pelandorai anicut breached; crops promising, but slightly damaged, especially *cholum*, by excessive rain; *kar* paddy harvested in Chillamberam, outturn tolerable.
Tanjore („ „)	4·98	Rice 6·55, *cholum* 12·95, *raggi* 14·64, *cumboo* 16·49; on works none; children none; camps and houses none; village relief none; rivers full; wet crops thriving but some suffer from excess water; dry crops in good condition; harvest, outturn *kuruvai, kadappu* and *kar* ½ to full, *cumboo, cholum* and *raggi* ¼ to ¾.
Trichinopoly („ 10th)	2·69 (average of district.)	Rice 7·30, *cholum nil*, *raggi* 10·81, *cumboo* 12·36; on works 7,633; children 920; in camps 1,828; village relief 4,073; sowing and harvest continue in parts, outturn about a nine anna crop; very heavy fresh down rivers at beginning of week, but now subsiding; crops damaged in some places from excessive rain; season improving; agricultural operations vigorous.
Madura („ „)	General; 3·21 average	Rice 8·42, *cholum* 12·55, *raggi* 11·94, *cumboo* 11·82; on works 2,536; no returns from Public Works Department; children 271; in camps and houses 14,016; village relief 22,720; freshes continue in all the rivers.
Tinnevelly („ „)	5·29	Rice 9·45, *cholum* 10·5, *raggi* 10·5, *cumboo* 10·35; camps and houses 1,143, village relief 1,447; crops good.
Coimbatore („ „)	2·54	Rice 8·81, *cholum* 12 25, *raggi* 13·33, *cumboo* 11·99; on works 27,487; children 1,318; camps and houses 39,998; village relief 13,143; crops in good condition; harvest of paddy and *raggi* in parts, outturn of paddy full; *raggi* full to ½.
Nilgiris („ „)	4·49	Rice 7·20, *cholum* 7·50, *raggi* 10·77, *cumboo* 8·97; relief works none; camps and houses 234; village relief 6; crops being damaged by excessive rain; harvest of *raggi* and *samay*, outturn ¼.
Salem („ 12th)	1·13	Rice 7·88, *raggi* 10·24, *cumboo* 15·17, *cholum* 9·65; on works 51,000; camps 15,570; village relief 58,800; crops thriving; harvest of paddy and *cumboo*.
South Canara („ 10th)	1·10 in two taluks only.	Rice 10·24, *raggi* 11·86; first rice crops harvesting almost completed, outturn favourable, second crops seedling in good condition.
Malabar („ „)	1·17	Rice 10·28, *raggi* 11·23; gratuitous relief 54; private charity 526; rain sufficient for existing cultivation; harvesting first crop over; transplanting second crop continues; prospects good.
Chingleput („ „)	4·0 average.	Rice 9·23, *raggi* 13·28, *cumboo* 13·20, *cholum* 10·86; on works 3,236; children 249; camps and houses 5,972; village relief 57,416; crops good; *kar* and *cumboo* harvested in parts, outturn moderate, *raggi* good.
Madras („ 13th)	5·77	Rice second sort 7·3, *raggi* 10·64, *cholum* 9·8; imports rice 2,331 tons, other grains 416.
		General Remarks.—General prospects less promising owing to loss of crops from excessive rain and attacks of insects; price of rice rising in several districts; numbers on State relief falling steadily; total number on works 290,895; total number gratuitously relieved 624,027; exports of grain by rail from Madras during the week ending the 10th instant 5,797½ tons.

SUPPLEMENT TO

The Gazette of India.

No. 47.} CALCUTTA, SATURDAY, NOVEMBER 24, 1877. {Register No. 33.

OFFICIAL PAPERS.

A Supplement to the Gazette of India will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.

Non-Subscribers to the Gazette may receive the Supplement separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.

No Official Orders or Notifications, the publication of which in the Gazette of India is required by Law, or which it has been customary to publish in the Calcutta Gazette, will be included in the Supplement. For such Orders and Notifications the body of the Gazette must be looked to.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

DESTRUCTION OF WILD ANIMALS AND POISONOUS SNAKES IN BRITISH INDIA.

Extract from the Proceedings of the Government of India in the Home Department, No. 2064 (Public),—under date Simla, the 16th November 1877.

Read again—

Home Department Resolution No. $\frac{13}{788-97}$, dated the 31st March 1877, reviewing the reports on the results of the measures adopted to exterminate wild animals and venomous snakes in British India in 1875.

Read also the following letters from the Local Governments and Administrations submitting returns for the year 1876:—

From Chief Commissioner of Central Provinces, No. 1305—63, dated 6th April 1877.
From Chief Commissioner of British Burma, No. 748—176, dated 7th April 1877.
From Government of Punjab, No. 1967, dated 2nd May 1877.
From Chief Commissioner of Assam, No. 1359, dated 16th May 1877.
From Foreign Department, No. 1446G., dated 31st May 1877.
From Government of Bombay, Nos. 1276 and 1937, dated 23rd April and 29th June 1877, respectively.
From Resident at Hyderabad, No. 26B., dated 26th July 1877.
From Government of Madras, No. 2813, dated 21st September 1877.
From Government of the North-Western Provinces and Oudh, No. 2092A., dated 27th September 1877.
From Government of Bengal, No. 2373T., dated 15th October 1877.

Resolution.—In the Resolution of March last Local Governments and Administrations were requested to review briefly the year's operations and to express their opinion on the result; but some Provinces have simply forwarded the returns submitted by district officers.

2. The annexed statement summarizes the year's operations except in Mysore and Coorg, from which Provinces no return has been received. The provincial returns, however, still show a want of care in their compilation, and some have had to be returned for revision. * * * * * * * * * * * *

3. The noticeable features in the returns are the following: Last year it was found that 21,000 persons and 48,000 head of cattle were destroyed during the year by wild animals and venomous snakes; that 22,357 wild animals and 270,185 venomous snakes had been killed; and that Rs. 1,20,015 had been expended in rewards. This year it appears that 19,273 persons and 54,830 head of cattle have so perished; that 212,371 snakes and 23,459 wild animals have been killed; and that Rs. 1,24,574 have been expended in rewards. In Madras, Bengal and in the North-Western Provinces and Oudh, the numbers of persons killed by wild animals and by snakes are considerably less in 1876 than in 1875; in the other Provinces the figures do not exhibit any great variations, except in the Central Provinces, where deaths rose from 617 in 1875 to 1,098 in 1876. The Chief Commissioner states that no new or special measures have been adopted in view to the extermination of wild animals and snakes, but there is no explanation of the greater mortality shewn in his returns. As regards the loss of cattle, the figures of the year seem unsatisfactory. While Madras and Bombay shew fewer cattle killed, Bengal, the North-Western Provinces and Oudh, the Punjab, the Central Provinces and British Burma shew materially larger numbers. It is also probable that even the figures now reported are only approximate to the truth, as the agency for reporting the mortality caused to men and cattle is still imperfect, though more perfect than it used to be. The unfavourable figures testify possibly to better reporting and not to really greater mortality. As regards rewards paid for the destruction of wild animals (including snakes), more was paid in Madras, Bombay, Bengal, the North-Western Provinces and Oudh, the Central Provinces and British Burma, and less in the Punjab and in Assam.

4. The Government of India trust that in future years the returns may be more accurate and may be reviewed by the Local Governments which submit them, and that the measures reported may be more effective.

ORDER.—Ordered, that this Resolution with the appended table be forwarded to Local Governments and Administrations for information, and be published in the Supplement to the *Gazette of India*.

(True Extract.)

ARTHUR HOWELL,

Offg. Secretary to the Govt. of India.

Statement showing the results of the measures adopted in British India with the view of exterminating wild animals and venomous snakes during the year 1876.

G. H. M. BATTEN,
Offg. Secretary to the Govt. of India.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

COLLECTION OF LAND REVENUE IN THE BOMBAY PRESIDENCY.

No. 6276, dated 19th October, 1877.

From—The Hon'ble E. W. RAVENSCROFT, C.S.I., *Chief Secy. to the Govt. of Bombay,*
To—The Additional Secretary to the Government of India, PUBLIC WORKS DEPARTMENT.

I am desired by His Excellency the Governor in Council to report, for the information of His Excellency the Viceroy and Governor General in Council, the following information regarding the realisation of the land revenue of this Presidency in the year 1876-77, exclusive of the Province of Sind, where there was no drought.

2. The land revenue to be collected amounted to Rs. 2,62,99,590. Out of this the sum of Rs. 2,33,40,250 was collected on the 31st August 1877. The amount of remissions granted up to the same date on account of failure of crops through drought amounted to Rs. 2,15,110. As regards the residue, the subject was carefully considered by His Excellency the Governor in Council, and it was finally determined that all the outstandings should be treated as recoverable balances and so entered in the accounts.

3. Many of these balances are owing by people who are tolerably well off, and these will be gradually recovered with care and judgment when the ripening crops are brought to market. In other cases the monsoon of 1878 will be awaited. Should that prove abundant, and should a plentiful harvest be the fortunate result, it is confidently anticipated that these remaining arrears may, for the most part, be collected in 1878-79.

4. As regards those remissions which have been granted, His Excellency the Viceroy in Council may be assured that the utmost care and vigilance were exercised before granting them, and the Governor in Council is convinced that the liberality of Government has been very seldom misplaced, considering the enormous number of claims which had to be investigated. At the same time he can unhesitatingly assert that the large revenue which, in an exceptionally distressing time, has been collected, has been realised without any harshness or undue pressure.

5. A further report will be made in due course showing how the outstanding balances are being recovered.

Dated 26th October, 1877.

Telegram from—The Hon'ble E. W. RAVENSCROFT, C.S.I., *Chief Secy. to Govt., Bombay,*
To—The Additional Secretary to the Govt. of India, PUBLIC WORKS DEPARTMENT.

Your telegram of to-day. Demand for the districts, which yielded Rs. 2,33,40,250 this year as per my letter of 19th October, was for 1874-75 Rs. 2,59,85,640; collections were Rs. 2,58,25,619; balance Rs. 1,60,021. For 1875-76 demand Rs. 2,60,32,735; collections Rs. 2,58,70,222; balance Rs. 1,62,513.

No. 57P., dated 31st October, 1877.

From—The Hon'ble E. W. RAVENSCROFT, C.S.I., *Chief Secy. to the Govt. of Bombay,*
To—The Additional Secretary to the Government of India, PUBLIC WORKS DEPARTMENT.

I am desired by His Excellency the Governor in Council to acknowledge the receipt of your letter No. 936 (Famine), dated the 12th October 1877, in which you say that the "Governor General in Council would be glad if the Bombay Government could favour him with statements showing approximately the effect of the famine on the Bombay land revenue of the season 1876-77, and also a forecast of the probable loss of land revenue due to the drought in the season 1877-78."

2. My letter No. 6276 of the 19th October 1877, which crossed your letter under acknowledgment, gave some of the information required by

you. In the second paragraph of that letter I showed that the land revenue to be collected in 1876-77 amounted to Rs. 2,62,99,590. In 1873-74 the land revenue to be collected from the same districts amounted to Rs. 2,58,35,262. In 1874-75 it amounted to Rs. 2,59,85,640. In 1875-76 it amounted to Rs. 2,60,32,735. From these figures it will be seen that, notwithstanding the drought, a steady increase of land revenue to be collected has taken place in this Presidency during the last three years. This, of course, is mainly due to the revised assessments.

3. I now come to the second question raised by you, *viz.*, the probable loss of land revenue due to the drought in the season of 1877-78. This subject gave His Excellency the Governor in Council much anxiety at one time. But this anxiety, I am desired to state, has been entirely dispelled by the late bountiful rains. He now sees no reason whatever why the whole of the land revenue of 1877-78 in the Deccan, Southern Mahratta Country, Conkan and Guzerat should not be punctually collected in the current year.

4. In the Province of Sind the accounts are not so good; but even there, though it may perhaps be necessary to postpone collecting a portion of the land revenue of 1877-78 until next year, His Excellency the Governor in Council does not contemplate the necessity of granting any remissions.

5. In conclusion, I am desired to attach a minute written by His Excellency the Governor on the subject.

COLLECTION OF THE LAND REVENUE IN THE DISTRICTS AFFECTED BY THE FAMINE OR SCARCITY OF 1876-1877.

Minute by His Excellency the GOVERNOR OF BOMBAY, *dated 30th October, 1877.*

The collection of the land revenue in those districts of the Bombay Presidency which have been affected by famine has received the most particular attention from the Local Government. As I had occasion to notice this matter with much stress while acting in the capacity of Famine Delegate before joining this Government, I beg further to record the considerations which suggest themselves from my present stand-point in the Government of Bombay.

The land revenue, endangered in the Bombay Presidency by the famine of 1876 and 1877, amounted to 262 lakhs of rupees or £2,620,000.

From the very first, that is, in January 1877 when Famine Delegate, I represented to the Government of Bombay the expediency of only suspending the collection of the land revenue in these districts, and of refraining from making any promises to the people of remission. It was understood that the Government was at that time disposed to allow remissions generally, although the exact amount of such remissions had not been settled. It was apprehended, however, by many at the time that, from 40 to 50 lakhs of revenue, £400,000 to £500,000 might have to be remitted. Afterwards the Government agreed to suspend only, and not to remit, nor promise to remit, save in a few exceptional cases. On joining the Government on the 1st of May, I found that very few remissions had been granted. A large sum (about 50 lakhs of rupees or £500,000) had, however, been justly held suspended for collection, pending the result of the seasons. Entirely concurring in that policy, I fully carried it out with the concurrence and support of my Hon'ble Colleagues. We got in all we fairly could, reducing the 50 lakhs suspended to 30, and then to 27 lakhs. We knew of course (June 1877) that the people could not then pay the £270,000 or £300,000 of land revenue held in suspension and regarded as the outstandings of 1876-77. But we hoped that they might be able to do so hereafter, if the summer rains of 1877 should prove propitious. There were indeed some few cases where collection of the suspended revenue was hopeless, and in these revision was granted. But the total thus remitted did not exceed £21,600 or Rs. 2,16,000.

But the summer rains began to come and then ceased coming. And up to end of August our hopes of collecting the outstanding £270,000 for 1876-77 became fainter and fainter. Indeed, fears arose that some of the revenue for the current year 1877-78 might have to be suspended in addition. However, the season took a turn for the better from the 31st of August and 1st Septem-

ber, and we perceived that the revenue for the current year 1877-78 would be safe. We then immediately instructed our Collectors to collect fully for 1877-78, to keep their eye on the £270,000 outstanding for 1876-77, and to collect that as soon as might be practicable after realisation of the land revenue of the current year 1877-78. These outstandings might be collected during this last-named year, or at all events during next year 1878-79, if the summer rains of 1878 shall be propitious.

Recently, the October rains have been so abundant (I say abundant rather than propitious, for in some parts they have been excessive) that we learn that the Collectors will after all be able to get in much of the outstandings (£270,000) during the current year 1877-78. This we have accordingly ordered, adding that whatever may remain is to be got in as soon as possible after the rains of 1878. If no more bad or unseasonable weather supervenes, and if nothing further goes wrong with the weather, it is not over-sanguine to say that, by next spring 1878, nothing out of the outstandings will remain to be collected, save a residue which will come in during the ensuing summer. In that case, the loss of land revenue during the famine of 1876 and 1877 in the Bombay Presidency will not exceed 3 lakhs of rupees or £30,000,—a loss which is comparatively insignificant, as it will be remembered that the revenue endangered by the failure of harvests amounted to 262 lakhs of rupees or £2,620,000. The loss therefore will, as we now hope, be the merest fraction of one per cent.

It is remarkable too that, owing to revision of settlements, the land revenue demand during these very years of scarcity has gone on slightly increasing. On the whole our present trust is that the land revenue of the Bombay Presidency will virtually not have suffered at all from the famine.

Till this happy result shall have been fully attained, the final verdict may be withheld; it *will*, however, be attained if under Providence we are spared any further calamity of season. In that case, it will reflect credit on the ryotwaree system and the Revenue Survey and Settlement of Bombay, and on the resolute, manly and industrious character of the Natives of the Deccan.

We are much indebted to the discrimination and steadiness evinced by our Collectors and Revenue Commissioners. We are also specially indebted to our Chief Secretary, the Hon'ble E. W. Ravenscroft, C. S. I., to whom the general supervision over the revenue pertains.

RICHARD TEMPLE.

No. 1003, dated Governor General's Camp, Maindroth, the 12th November, 1877.

From—C. BERNARD, ESQ., C.S.I., *Additional Secretary to the Govt. of India*, P. W. DEPT.,

To—The Chief Secretary to the Government of Bombay.

I am directed to acknowledge the receipt of your letter No. 57, dated the 31st October, furnishing a report and forwarding a Minute by His Excellency the Governor, on the subject of the land revenue collections in the Bombay Presidency during the years 1876-77 and 1877-78.

2. It appears that the land revenue demand for the famine year (1876-77) was Rs. 2,62,99,590, as against an average demand of Rs. 2,59,51,212 for the three previous years; that out of this demand Rs. 2,15,110 had been remitted, Rs. 27,44,230 had been suspended, and Rs. 2,33,40,250 had been collected, up to the end of September 1877. The Bombay Government expect that, with the bountiful harvests now in the ground, the ryots of the Bombay Presidency (Sinde only being excepted) will be able to pay in full the land revenue of 1877-78, and to pay in part the suspended arrears of land revenue for the year 1876-77.

3. His Excellency the Viceroy and Governor General in Council directs me to state that these results, achieved, as explained in your previous letter, without harshness or undue pressure upon the people, are most creditable both to the revenue system and to the Revenue Officers of the Bombay Presidency. The Government of India further recognises that this success is due no less to Sir Richard Temple's strenuous advocacy than to the Bombay Government's ready acceptance of the principle, that in times of drought the Government may suspend, but ought not to remit, such portion of the land revenue as cannot at the time be collected without undue pressure on the people.

Emigrants from the affected districts employed in Ratnagiri and Kanara						*1,117	*974									
Grand Total						54,827	42,349									

* These figures are for the weeks ending 20th and 27th October respectively.

† For details and dates, see table appended.

The weather has now become fine everywhere but in the Kaládgi district. The crops are improving in Belgaum, and the harvest has begun in Dharwar.

2. Prices have fallen considerably in the Southern Mahratta districts, where they have always been highest: and there is, on the whole, a slight improvement in the other districts also.

3. A decrease of 12,478 this week in the number of labourers upon relief works brings the total down to 42,349. Orders have been issued for the closing of all relief works at the end of the current month.

4. Cholera is growing less and less in Násik and Ahmednagar. It continues in Satara, and there have been a few cases also in Poona.

5. Written reports have been received from the Collectors of Násik, Ahmednagar, Poona, Sholápur, and Satara for the week ending the 3rd instant, and from the other Collectors for the week before. The table, compiled from these reports, showing the rainfall and the prices of food-grains in each taluka, is appended as usual. The kharif harvest is now in full progress in Khandesh, Násik, Ahmednagar, and Poona. It has begun also in Sholápur and in two talukas of Kaládgi, and the early jowari and early rice have both begun to be reaped in Dharwar. The worst accounts received are those from Belgaum and Kaládgi, where the injury done by the excessive rain has been very serious. In some parts of Kaládgi the damaged crops have been cut down to the roots in the hope of new stalks shooting up. The wet weather has had the further effect of inducing a bad type of fever in the Kaládgi district, which causes considerable mortality.

6. The following table gives the expenditure by Government, during the week ending 20th October, upon gratuitous relief, and in payments made to the young children of labourers employed upon relief works. The number of children has fallen during the week from 33,560 to 25,783. The number of persons being gratuitously relieved in the week ending 13th October was taken, in the last statement, as approximately 76,133. The number for the week ending the 20th instant may be taken approximately as 63,885. This gives a decrease of 12,248 :—

Districts.	Collector's Discretionary Grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116, of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.

* Returns incomplete.

* These figures are for the weeks ending 20th and 27th October respectively.

7. In the following table are enumerated the works under Public Works Department agency, upon which the average daily number of persons employed has amounted to five hundred for the week ending 27th ultimo. The total number engaged on these large works constitutes 68·13 per cent. of the whole number of labourers upon relief works.

Districts.	Works.	Number of labourers.	Total.	REMARKS.
Khandesh ...	Dhulia-Pimpalner Road ...	882	1,595

	GRAND TOTAL ...	...	34,016	

8. Tables A and B are brought up to the week ending 27th ultimo. The number of persons on works under Public Works Department agency in the nine affected districts was at this date 39,822, and on works under Civil agency 10,109. The percentage of persons upon works under Civil agency has thus fallen during the week from 21·4 to 20·3 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 1,01,79,369, which, with the expenditure of Rs. 1,34,122 upon works in Ratnagiri and Kanara, and Rs. 10,15,159 from the Collectors' Discretionary Allowances, gives a total of Rs. 1,13,28,650.

9. The table showing the condition of the affected native states is appended as usual. There are still complaints of excessive rain. The number of labourers upon relief works continues slowly to decrease. Prices are slightly lower.

10. During the week ending 3rd November, 283 tons of food-grains were exported from Bombay to the Southern Mahratta ports, and 1,198 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholápur and Bhusawal-Násik lines, making a total of 1,481 tons for the week. This is less by 307 tons than the importations of the

previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 3rd November 1877, to the Southern Mahratta Ports and the Railway stations in the distressed districts. It will be seen that the total amount delivered up to the 3rd November was 429,270 tons:—

Food-grains sent to	In October, November, and December 1876.	In January, February, and March 1877.	In April, May, and June 1877.	In July 1877.	In August 1877.	In September 1877.	In October 1877.	Total.
	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.
Southern Mahratta ports	44,215	46,332	54,547	857	15,204	3,319	525	164,999

North-Eastern line, from Bhusawal to Násik ...	12,829	7,471	5,581	1,524	8,043	2,519	4,637	42,604
TOTAL ...	124,239	95,511	105,926	22,865	44,753	22,094	13,882	429,270

11. There have been decreases during the week of 12,478 in the number of labourers on relief works, 7,777 in that of young children, and 12,248 in that of people on charitable relief.

12. The general situation continues to improve rapidly. The condition of the people is becoming more satisfactory. The prospects of the seasons are most favourable on the whole. In Kaládgi only does the unsettled weather now cause any real anxiety. There is a marked fall in the prices of food-grains. People are leaving the relief works and returning to their ordinary avocations. Instructions have been issued for closing all relief works at the end of the current month, and for gradually closing the relief camps and relief-houses, retaining only the large relief centres. Orders have been issued for the gradual reduction of temporary famine establishments as relief operations cease.

C. J. MERRIMAN, *Colonel, R. E.,*
Acting Secretary to Government.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

WEEKLY CONDITION REPORT OF THE DISTRESSED DISTRICTS OF THE MYSORE PROVINCE.

PROVINCE OF MYSORE.

(No. 39).

Special famine report for the week ending 3rd November 1877.

Satement No. 39, regarding Famine Relief Operations in the Province of Mysore, for the Week ending the 3rd November 1877.

Heavy rain again fell during the week in every District except Chitaldrug, where the break in the weather, which has since become general, had brightened prospects. The constant wet was proving most unfavourable to the dry crops, in some places seriously retarding the harvest. The jawar was rotting in the ear, and has suffered considerably, and the ragi was in much danger. Paddy, on the other hand, remarkably improved, and the tanks being everywhere full, an excellent Vaisak crop may be expected, while the cessation of the rain has come in time to prevent the threatened damage becoming serious. The Famine Commissioner visited the affected part of the Kadur District, and reports that had it not been for the injury done by the rain to the standing crops, the famine there would have almost ended by now, except in the Banavar Taluk, which was most affected in the earlier part of the year. The crops were fine and abundant, and a large area cultivated; but it is feared almost all the jawar is lost, and the other crops, except those sown lately, materially injured, though fine weather would still repair much of the harm done. A few people are to be met with wandering in a purposeless way, and some seek the Malnad in hopes of employment there, but there are no signs as yet of any considerable exodus in that direction.

2. The imports of grain by rail amounted to 3,980 tons, shewing an increase of 1,947 tons over the imports of last week. The grain was received from the following quarters:—

	Tons.
From Madras ...	3,636
„ Beypore, Palghat and Coimbatore ...	77
„ Negapatam and Trichinopoly ...	72
„ Sholapore ...	11
„ Other places ...	184
Total ...	3,980

From Bangalore 1,504 tons were exported, or 204 tons less than last week. The exports were to the following quarters:—

	Tons.
Túmkúr ...	372
Bellary ...	64
Mysore ...	734
Usur (Salem District) ...	183
Round Bangalore ...	146
Total ...	1,504

3. Prices were unfavorably affected by the discouraging reports of the crops, and rose in every District, except Mysore and Shimoga, where prospects are very good. The following statement gives the maximum and minimum prices in lbs. per rupee for each District :—

		Maximum in lbs. per Rupee. 2nd sort rice.	Maximum in lbs. per Rupee. Ragi.	Minimum in lbs. per Rupee. 2nd sort rice.	Minimum in lbs. per Rupee. Ragi.
Bangalore District	...	17	21	12½	16
Kolar „ (for 8 taluks)	...	18	24	12	17
Túmkúr „ (for 5 taluks)	...	13	22	10½	16
Mysore „ (for 10 taluks)	...	13	18	9	14
Hassan „ (for 8 taluks)	...	11½	16	9	12
Kadur „ ...	...	12	16	9	12
Shimoga „ ...	...	14	24	9½	13
Chitaldrug „ ...	...	12	22	8	16

4. The number of laborers employed on civil relief works was 33,335, or a net increase of 2,168, occurring in Bangalore and Túmkúr Districts.

5. Under the Public Works Department 43,870 laborers were employed on famine relief works and paid at the Famine Code rates. Hitherto the returns have shewn all the Public Works' labor of the Province, but it has been thought better to exclude all except relief labor. Were the returns prepared in the same manner as for last week, the number of laborers employed was 52,338, or nearly the same as for the previous week. The wet weather and the approaching harvest have affected the labor returns, and as applications for relief are falling off, the pressure upon works will probably diminish.

The following is a list of works on which are employed 500 laborers and upwards :—

District.	Work.		No. employed.
Bangalore ...	State Railway	... ...	20,398
	Bangalore Water-Supply	... ...	1,141

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 20TH NOVEMBER 1877.

GENERAL REMARKS.—*Madras:* In some districts the dry crops have suffered from excessive rain, and from blight and insects. In Kistna, Bellary, and Kurnool however the weather had cleared and no rain fell during the week. In Vizagapatam and Ganjam more rain appears to be required. Prospects generally, except in these two districts, are good. The number on relief works has somewhat increased, having risen to 300,558, being 9,663 more than last week; but the numbers gratuitously relieved were reduced to 513,670, being 110,357 less than last week. Prices are rising generally. The harvesting of dry crops and of early paddy has been completed in various districts, with on the whole not unfavourable results. In *Mysore* there has been very little rain: crops are thriving, and rice and *raggi* are being harvested. The numbers on the works have fallen to 81,162, being 4,511 less than in the previous week. The numbers on charitable relief were 42,331, being 8,997 less than last week. In *Bombay* no rain has fallen anywhere, except in Kurrachee and Shikárpur, where there have been slight showers. Rain is wanted for the *rabi* crops in Khandesh, Násik, and Ahmadnagar, where the prospects of these crops are not satisfactory. The harvesting of the *kharif* and the sowing of the rabi crops are in general progress. In the *Central Provinces* the *kharif* is being harvested, with favourable results, and the *rabi* sowings are nearly completed. In *Berar* prospects continue good. In *Central India* no rain has fallen, and water is getting scarce in the tanks and wells. The stream of emigration from Rajputana continues, but the numbers are diminishing. No rain has fallen anywhere in *Bengal* during the week: it is wanted in Behar and Chota Nagpore for the *rabi*, and in Pooree, in unirrigated lands, rice is suffering: in the tract between the Chilka lake and the sea the crop has been almost entirely lost, and relief is being given to the people. In Chumparun and Gya also prospects are generally bad. Elsewhere prospects are generally favourable, but the upland crops will suffer for want of rain. In *Assam* and *Burma* the crops are doing well everywhere, and prospects are favourable. No rain has fallen in the *North-Western Provinces* and *Oudh*, where it is wanted to bring on the young *rabi* crops, sowings of which have been completed. In the *Punjab* a little rain has fallen in Umritsar, Rawalpindi, Dera Ismail Khan, and Peshawar, but more is wanted generally for the *rabi*.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Ganjam	...	No report received.
Vizagapatam (Nov. 19th)		Rice 8·17, *cholum* 10·2, *raggi* 12·7, *cumboo* 15·5; private charity 5,060 daily; more rain required.
Godavery („ „)	*Nil*	Rice 8·35, *cholum* 12·49, *raggi* 16·65, *cumboo* 18·0; crop generally good, though partly suffering from blight; harvest of *rasangi* paddy, *budama, jilama*, and *chama* outturn ¼ to ¾; water over anicut 17 inches.
Kistna („ 15th)	*Nil*	Rice 7·0, *cholum* 12·18, *raggi* 11·78, *cumboo* 13·93; on works 4,158, camps and houses 222, Vinukonda numbers wanting, village relief 3,594, Vinukonda and Guntur figures not received; crops generally good; *cholum* and wet paddy blighted in parts; maize, black paddy, and *korra* harvested in parts, outturn from ¼ to full.
Nellore („ 17th)	1·95	Rice 6·81, *cholum* 7·97, *raggi* 9·45, *cumboo* 9·46; on civil works 5,321 reported, probably 11,112; Department Public Works 13,917; canal 22,428; children 3,339, camps and houses 6,219 reported, probably 8,000; village relief 856; crops fair; agriculture active.
Cuddapah („ 16th)	·59	Rice 7·65, *cholum* 10·34, *raggi* 11·74, *cumboo* 14·85; on works 23,282, children 3,577, camps 3,021, village relief 12,069; *cumboo* and paddy harvested in parts, outturn ¾; *cholum* in some places suffering from the effects of locusts.
Bellary („ 17th)	*Nil*	Rice 6·66, *cholum* 10·89, *raggi* 12·59, *cumboo* 11·59; on works 23,822, children 3,093, camps and houses 10,473, village relief 84,219; dry crops have suffered considerably from excess of rain; wet crops generally fair, *cholum, raggi*, and *cumboo* being harvested; future prospects very good; weather now clear.
Kurnool („ „)	*Nil*	Rice 6·77, *cholum* 8·49, *raggi* 9·59, *cumboo* 11·34; on works 51,875, children 5,303, camps 2,799, village relief 14,874; fever exceedingly prevalent; standing crops generally thriving well; early dry crops suffered from excessive rain and ravages of insects; *cumboo* and other dry crops being harvested in some taluks; professional agency figures for Nandial and Sirwell estimated, returns not being received from the range officer for two weeks; returns from other ranges also generally defective.
North Arcot („ 16th)	1·47	Rice 8·8, *cholum* 9·7, *raggi* 10·4, *cumboo* 11·2, wheat 5·6; on works 33,949, children 4,491, camps and houses 11,675, village relief 55,134; crops good; harvest of paddy and *raggi*, outturn poor.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*continued.*		
South Arcot (Nov. 17th)	Rain general; average of district 1·88.	Rice 7·75, *cholum* 8·40, *raggi* 11·31, *cumboo* 11·86; on works, Revenue Department 383, professional 914, children none; 3 returns of relief not received; camps 7,025, villages 37,025; crops promising; *kar* paddy harvested in parts, outturn tolerable.
Tanjore („ „)	4·5	Rice 6·47, *cholum* 14·08, *raggi* 15·54, *cumboo* 14·54; on works none, camps and houses none, village relief none; rivers $\frac{3}{4}$ full; wet crops thriving, some suffer from excess of water; dry, in good condition; harvest of wet crop, *kar* and *kadappu*; dry, *cumboo*, *cholum* and *raggi*, outturn of *kar* and *kadappu* $\frac{1}{2}$ to full; of *cumboo*, *cholum*, and *raggi* $\frac{1}{2}$ to $\frac{3}{4}$.
Trichinopoly („ „)	1·20 (average of district).	Rice 7·61, *cholum nil*, *raggi* 10·97, *cumboo* 13·94; on works 9,890, children 1,162, in camps 1,690, village relief 4,758; sowing of dry grains still continues; *samba* paddy transplanted; standing crops excellent, but dry crops suffer in some places from excessive rain and blight; *raggi*, *cumboo*, and early paddy harvested in some parts, outturn from a 6 to 12-anna crop.
Madura („	Rain general, average of district 1·14.	Rice 7·92, *cholum* 10·47, *raggi* 11·23, *cumboo* 11·82; on works 1,568, children 483, in camps 11,080, village relief 31,072; freshes continue in the rivers.
Tinnevelly („ „)	2·61	Rice 9·60, *cholum* 11·40, *raggi* 13·95, *cumboo* 11·25, camps and houses 474, village relief 1,275; crops good.
Coimbatore („ 17th)	1·32	Rice 8·94, *cholum* 11·29, *raggi* 13·35, *cumboo* 11·24; on works 29,824, children 568, camps and houses 9,621, village relief 9,828; crops good, harvest of paddy, *cumboo*, and *cholum* in parts; outturn, paddy full to $\frac{1}{2}$, *cumboo* $\frac{1}{2}$, *cholum* $\frac{1}{4}$.
Nilgiris („ „)	1·56	Rice 6·92, *cholum* 8·56, *raggi* 10·27, *cumboo* 8·97; relief works none, camps and houses 346, village relief 11; harvest of *samay* and *raggi*.
Salem („ 19th)	·75	Rice 7·56, *raggi* 8·94, *cumboo* 13·05, *cholum* 8·60; on works 65,470, camps 14,148, village relief 32,030; crops thriving; harvest of paddy and *cumboo*, outturn of former full, latter $\frac{3}{4}$.
South Canara („ 17th)	·44 in Udipu.	Rice 10·33, *raggi* 11·80; second rice crop cultivation progressing favourably.
Malabar („ „)	1·26	Rice 9·84, *raggi* 11·05; gratuitous relief 25; rain sufficient for existing cultivation; transplanting second crop completed; prospects good.
Chingleput („ „)	4·25 (average of district.)	Rice 8·95, *raggi* 13·15, *cumboo* 13·20, *cholum* 10·86; on works 1,443, children 153, camps and houses 4·882, village relief 58,436; crops good, except in Ponneri where injury has been done to some exten, by excess of rain; *kar*, *samba*, and *manakattai* harvested in parts outturn moderate; *raggi* good.
Madras („ 20th)	10·22	Rice, second sort, 7·3, *raggi* 9·97, *cholum* 9·8; imports, rice 964 tons, other grains 590. *General Remarks.*—General prospects good, except in Vizagapatam and probably in Ganjam; prices rising generally; total number on works 300,558, total number gratuitously relieved 513,670; exports of grain by rail from Madras during the week ending the 17th November, 7,903$\frac{3}{4}$ tons. ERRATA.—On page 2487 of the Supplement to the *Gazette of India* of the 15th September last, opposite Godavery, for "crops in Delta withering," read "thriving."
Bombay—		
Sind. (*Nov. 21st*)		
Kurrachee ...	A little rain in places in Malir and Hab Tapas on 8th	Cattle disease in places; fever commencing; weather very hot.
Shikarpur ...	Slight showers	Weather cloudy; *kharif* harvest and *rabi* sowings progressing.
Hyderabad ...	...	*Kharif* reaping finished; *rabi* sowings progressing; fever general, but of mild type.
Upper Sind Frontier ...	...	Weather cloudy, threatening rain.
Guzerat.		
Ahmedabad ...	...	Cholera cases 44, deaths 21.
Pánch Mahàls ... } Kaira ... }	...	No change.
Broach ...	...	Crops good; cotton yield expected to be less; fodder scanty.
Surat ...	*Nil*	Crops good; cholera prevailing.
Khandesh and Násik.		
Khandesh ...	...	*Kharif* crops almost harvested; *rabi* prospects rather unsatisfactory; both heat and want of moisture stunt the growth of rising crops; ague prevalent; prices rising.
Násik ...	*Nil*	Should no rain fall soon, it is feared much of *rabi* will fail.
Konkan.		
Tanna ...	...	Reaping of crops almost finished; fever prevalent; cholera in Umbergaon abated.
Colába (Nov. 19th) ...	...	Weather good; mornings cold; harvesting of rice crops vigorously progressing throughout collectorate.
Ratnágiri („ 13th) ...	*Nil*	Late crops nearly cut; five deaths from cholera in one taluka.
Deccan.		
Poona ...	...	Fever in four talukas; *jowari* crops damaged a little by slight blight in Indapur, Sirur, Bhimthari, and Purandhar.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*continued.*		
Ahmednagar ...	*Nil*	Another fall of rain generally required for *rabi;* cholera deaths 6.
Satara ...	*Nil*	Crops good; cholera deaths 2.
Southern Mahratta Country.		
Kaládgi ...	...	*Kharif, jowari* being harvested; *rabi, jowari,* and cotton crops well; grain and wheat sowing progressing; prospects good.
Belgaum ...	...	*Kharif* still being reaped and *rabi* being sown.
Dharwar ...	...	Early crops being harvested; *rabi* sowing in progress, nearly finished in west and south; fever bad in black soil talukas; dysentery also prevalent.
Kanara ...	...	Weather fair; rice harvest continues above Ghat; crops good; cholera deaths 15.
Kattywar and Gaekwar's Territory.		
Rájkot ...	...	*Rabi* crops healthy; fever prevailing in some talukas.
Wadhwán ...	*Nil*	Cotton and other crops well; health good.
Baroda ...	...	Reaping of *kharif* crops finished; sowing of *rabi* continues; cholera cases 58; deaths 29.
		General Remarks.—No material change in Sind. *Kharif* harvesting and *rabi* sowing general throughout the presidency, but one more rainfall required for *rabi* crops in Khandesh, Násik, and Ahmednagar. Cholera to some extent in Ahmedabad, Baroda, Surat, Ratnágiri, Satara, and Kanara.
Bengal—(Nov. 20th)		
Chittagong ...	*Nil*	Weather close and hot on the 13th, 14th, and 15th; heavy clouds about, as if storm were brewing; state and prospects of the crops are very good.
Noakholly	*Nil*	Weather seasonable; the *amun* crop is progressing favourably; cultivation of the cold weather crops is going on; public health is good.
Chittagong Hill Tracts...	*Nil*	Weather seasonable; paddy transplanted by the plough cultivators is ripening; lands are being ploughed for mustard, tobacco, and other cold weather crops.
Hill Tipperah ...	*Nil*	Weather dry and cool; some *amun* crops have been already cut; others are nearly ripe; prices have fallen owing to the cutting of new crops.
Backergunge ...	*Nil*	The continued drought has undoubtedly damaged the *amun* crop, particularly on the high lands, but the general outturn will be 13 or 14 annas, provided there be no storm or wind when the ears are ripening; prices still continue high; fever in a sporadic form exists in many places; the health of the cattle is everywhere good.
Furreedpore ...	*Nil*	Weather fair, but not so cold as usual at this time; no change in the prospects of the crops; rain is required for the preparation of the ground for the cold weather crops; winter rice is being cut; a half crop may be gathered.
Dacca ...	*Nil*	Weather rather warm for the season; prospects are favourable; rice harvest is going on rapidly.
Mymensingh ...	*Nil*	Weather warm for the season of year; state and prospects of the crops are satisfactory.
Tipperah ...	*Nil*	Weather fine and cool; prospects of the winter rice are very good.
24-Pergunnahs ...	*Nil* Previous week *nil.*	Weather seasonable and fair; prospects of the crops are good; cholera is abating; ordinary fever prevails at Barripore.
Jessore ...	*Nil*	Weather bright and clear; mornings and nights are cold; prospects are favourable, but a little more rain would have done a great deal of good to the *amun* crop; as it is, the *amun* on the higher lands will suffer much from the early cessation of the rain; the cold weather crops in the ground are doing well; fever of a severe type is prevalent throughout the district, and sporadic cases of cholera are heard of.
Nuddea ...	*Nil*	Weather seasonable; no rain; *amun* rice and winter crops are said to be promising well in all directions; rain would however be advantageous; cholera is still prevalent in Chooadangah.
Moorshedabad ...	*Nil*	Weather somewhat too hot to be seasonable; harvest prospects of *amun* rice continue generally favourable; state of spring crops is reported to be good; cholera has appeared in four station circles, and there is much illness in Berhampore.
Pubna ...	*Nil*	Weather fine and seasonable; state and prospects of the crops are good, but a little more rain is wanted for the *amun* crop; fever is prevalent in the town; report from Serajgunge not received.
Rajshahye ...	*Nil*	The cutting of *dhan* has commenced; the outturn of the crop is expected to be good; the condition of the *rabi* crops is good; fever is still prevalent in the district, and some cases of cholera have been reported.
Bogra ...	*Nil*	Weather clear and moderately cold, with heavy dew at night; *amun* and other standing crops look promising, and will, it is hoped, turn out well; gram, mustard, and *kalai* are being sown; no change in the health of the district since the last report; cholera of a bad type is still going on in parts of the district.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*continued.*		
Dinagepore ...	*Nil*	Weather seasonable; north-east wind prevailing; rice is ripening fast, also the pulses; fields have been prepared for mustard; prospects are good.
Rungpore ...	*Nil*	Weather seasonable; state and prospects of the crops continue to be excellent; land is being ploughed for the *rabi;* cholera at Bhabániganj shows no signs of extending itself; cases of mild ague are rather common.
Cooch Behar ...	*Nil*	Weather fair and cool; prospects of the crops are not bad; public health is good.
Jalpáiguri ...	*Nil*	Weather seasonable; nights are cool; prospects of the winter rice are good; transplantation of the tobacco plants has commenced; in some places lands are being prepared for mustard and wheat, and in some the sowing of the former is finished; within Jalpáiguri station *kulti kalai* is already reaped; public health is bad; fever prevalent in the town of Jalpáiguri.
Darjeeling ...	*Nil*	Bright weather during the early part of the week; towards the end it has been hazy and threatening rain; *haimunti* rice is in ear, and promises a very fair outturn. The minor crops of *kalai*, buck-wheat and the millets are all progressing favourably.
Midnapore ...	*Nil*	Weather seasonable though a little warm; prospects of the crops are moderate; fever is extensively prevalent, though not very fatal.
Howrah ...	*Nil*	Weather seasonable, with wind from the north; no improvement in the high-land crops; the rice in the low lands is good.
Hooghly ...	*Nil*	Weather seasonable; late rice on the high lands is suffering from want of rain; sowings of *rabi* crops are going on; indigo, potato, and *kalai* have germinated in places; fever is prevalent.
Burdwan ...	*Nil*	No rain; no change in the prospects of the crops since last week fever is still very prevalent.
Bankoora ...	*Nil*	Weather clear and cool; no change to report in the prospects of the crops; the cutting of the *nuan* crops is in progress.
Beerbhoom ...	*Nil*	Weather fine; rather warm for the time of year; no change to report in the state and prospects of the crops.
Sonthal Pergunnahs ...	*Nil*	Weather warm; the rice crop is good everywhere; the high-land rice in Deoghur is better than was expected; rain will be wanted for the *rabi.*
Bhágalpur ...	*Nil*	Weather cool in the morning and evening; clear sky; little wind; state and prospects of the crops are excellent; *kartika* rice is being cut in places.
Monghyr ...	*Nil*	Weather still hot, with heavy dews at night; prospects are the same as before; an 8-anna crop on the whole is expected.
Purneah ...	*Nil*	Weather fair; a fair outturn of the rice crop is expected; the *rabi* prospects are also good; fever is very prevalent.
Maldah ...	*Nil*	Weather fair; rather hot for the time of year; state and prospects of the crops continue to be very fair on the whole; the high-land rice in Khárba and Gajole is suffering somewhat, as was anticipated, from want of rain; fever is very prevalent; a few sporadic cases of cholera reported.
Durbhunga ...	*Nil*	Weather seasonable; the *rabi* is germinating well; the rice crop on high lands appears to fall under the average; tobacco is growing well.
Mozufferpore ...	*Nil*	Weather cool and clear; in the *Sadar* sub-division there is no change to report in the prospects of the rice crop; the young *rabi* crops are in fair condition; in the Seetamurhee sub-division the prospects of the rice crop are getting worse day by day, and there is much want of moisture for the *rabi* crops; prospects of the crops in Tárgánuia pergunnah, outpost Belsund, are fair; in the Hajeepore sub-division the prospects of *dhan* and *rabi* crops are good; rain is wanted for the *rabi.*
Sarun ...	*Nil*	Weather bright and clear; no signs of rain; east wind prevailing; prospects of the *rabi* crops continue favourable, but rain is much wanted to promote their growth; *aghani* rice that has been saved is fast ripening; sugarcane is being cut and put into the mills; indigo fields are being prepared for next year; poppy is being sown; prices are stationary; public health is good.
Chumparun ...	*Nil*	Weather seasonable, but rather warmer than usual; state and prospects of the crops are generally bad; much rice has been cut for fodder; trustworthy information has now been had from over a large tract in the south; the rice crop is an almost complete failure here; the *bhadoi* was at best 6 annas, and the *kodo*, &c., reaped a little later, hardly better; about half the *rabi* lands have been sown, and the seed that has been sown has come up badly, except in some few low-irrigated places; unless moderate rain falls soon, the seedlings cannot last, nor can anything be done with the lands now fallow; opium prospects in this tract are much worse than in 1873-74; the seed is not thought likely to germinate over more than quarter of the cultivation.
Patna ...	*Nil*	Weather unusually hot for this time of year; a little rain would now do good; but the prospects of the crops continue fair.
Gya ...	*Nil*	Weather clear, and latterly in the day time unusually hot for the time of year; maximum thermometer in the shade 89·8°; prospects of *kharif* and *rabi* are unchanged; *rabi* sowings are nearly

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*continued.*		completed; *kartika dhan* is being reaped and threshed; the outturn in Nowáda is estimated at 10 annas.
Shahabad ...	*Nil*	Weather rather unseasonable, being hot during day; no rain throughout the district; in Bhuboosh the rice crop saved by irrigation is being reaped; *rabi* sowings are progressing favourably; sugarcane is improving; in Buxar the *rabi* is being sown and is germinating; the cultivators are taking canal water wherever available; in Sasseram the *rabi* sown has germinated, but is suffering from want of rain, except in places where canal water is available; in the head-quarters sub-division the canal water has saved the rice crop; *rabi* sowings are being pushed on; public health is good.
Hazáribágh ...	*Nil*	Weather seasonable, settled, and fine; the wet crops are all being rapidly harvested; an average 10-anna crop is expected; sugarcane promises well; *rabi* sowings are stopped for want of rain.
Lohardugga ...	*Nil*	Weather seasonable and rapidly getting cold; no change to report; harvest operations are in full swing; a fair general outturn of rice is expected over most of the district; more rain would do *rabi* crops good, but so far prospects are on the whole moderately favourable in the *Sadar* sub-division; from Palamow prospects of *rabi* crops are reported as uncertain.
Manbhoom ...	*Nil*	Weather very cool and pleasant; no signs of rain; *dhan* is being harvested and is reported a good average 10-anna crop; rain is much needed for the *rabi* crops, which are not promising.
Singbhoom ...	*Nil*	Weather seasonable; the reaping of the *haimanti* paddy has now begun, and the anticipated yield for the entire district is reported to be 8 annas; the cold weather crops, as gram, wheat, pulses, and mustard, are doing well; tusser culture is reported successful; the district is healthy.
Balasore ...	*Nil*	Weather clear and cold; not more than a 10-anna crop is expected in most of the pergunnahs in the south of the district; elsewhere the crops are fair.
Cuttack ...	*Nil*	Weather fine; rather warm for the time of year; in Jajpore and Kendrapara sub-divisions rain is wanted; *laghu* crop is being cut, and the outturn is expected to be 14 annas; *rabi* crops are progressing fairly well; general health is good; cholera is still reported from one *chukla* and Kendrapara town.
Pooree ...	*Nil*	Weather seasonable; in Khoordah rain is wanted for the high lands; the people of Khoordah are irrigating wherever they can; the *laghu* crop that survived the drought is being harvested. The *sarad* rice is in ear; where irrigation is not possible in other parts of the district, the rice plants on the higher lands are suffering; in general the *rabi*, sugarcane, and other miscellaneous crops are thriving; in the tracts situated between the Chilka and the sea, the condition of the people is worse than before; nearly the entire rice crop will be lost for want of rain, and the outturn of *mandia* will, for the same reason, be but scanty; relief is being given mainly from funds contributed by private individuals; public health is good.
		General Remarks.—No rain during the week. Reports from Bengal Proper are generally favourable, but highland crops will be somewhat damaged for want of closing showers. In Behar and Chota-Nagpore rain is wanted for the *rabi* crops. In Chumparun and Gya prospects are generally bad. There was no rain in Pooree, and where irrigation is not possible, rice plants are suffering. November rice is being cut; general outturn is expected to be average.
N. W. P. and Oudh—		
Benares (Nov. 20th) } Allahabad (" ") }	...	No change.
Jhánsi (" 21st)...	...	Weather cloudy; prices stationary.
Agra (" 20th)...	...	No change; weather hot; cholera disappearing.
Bareilly (" 21st)...	...	No change.
Lucknow (" ")...	...	No change; rain wanted.
Sitapur (" ")...	...	Rain needed; no fall in prices.
Fyzabad (" ")...	*Nil*	Seed sown has germinated and fields are being irrigated; rain wanted.
Partabgarh(" 19th)...	...	Prospects good, but rain wanted.
Meerut (" 21st)...	...	Cloudy at times; no other change.
		General Remarks.—No change; sowings for the *rabi* completed; weather hot, and rain is now wanted to assist the young crops.
Punjab—(Nov. 20th)		
Delhi ...	*Nil*	Rain much wanted for *rabi* sowings now in progress; small-pox rife in city.
Hissar ...	*Nil*	Weather cloudy; rain wanted for *rabi* crop; cattle suffering from drought; numbers of labourers leaving for employment on canal works at Rupar; health generally good.
Umballa ...	*Nil*	*Rabi* prospects bad; health good.
Jullundur ...	*Nil*	Unusually hot; *rabi* sowings promising; health good.
Amritsar ...	1·0	*Rabi* prospects fair; health good.
Lahore	Slight sprinkling of rain.	More rain required for *rabi* sowings; health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Punjab—*continued.*		
Ráwalpindi ...	1·0	Agricultural prospects good; health good.
Mooltan ...	*Nil*	*Rabi* sowings in progress; health good.
Dera Ismail Khan ...	·4	More rain wanted for the *rabi* crops; health good.
Pesháwar ...	1·0	No change to report.
		General Remarks.—A moderate rainfall has improved agricultural prospects in a few districts, but more rain is wanted and may be looked for, as it has become generally cloudy.
Central Provinces—		
UpperGodávari(Nov.17th)	...	Clear; cool; *rabi* promising; cholera continues; prices falling.
Sambalpur ...	...	Clear; rice harvest progressing; health good; prices steady.
Biláspur ...	...	Clear; *kharif* satisfactory; *rabi* sowings continue; fever prevalent; prices of rice risen.
Raipur ...	...	*Kharif* favourable; rice cutting; *rabi* sowings continue; prices stationary.
Bálaghát ...	...	Cool; cloudy; *kharif* harvesting; prospects favourable; fever continues; prices steady.
Chhindwára ...	...	Clear; prospects favourable; cholera disappearing; fever prevalent; prices steady.
Chánda (Nov. 18th) ...	...	Cool; *rabi* sowings nearly completed; rice harvest continues; fever prevalent; prices slightly fallen.
Betúl („ 19th) ...	...	Prospects of *kharif* favourable; fever continues; prices stationary.
Bhandára („ 20th) ...	...	*Kharif* prospects favourable; rice harvest continues.
Nágpur („ 21st) ...	...	Clear; *kharif* prospects good; cotton-picking continues; rice harvesting; *rabi* doing well; health good; prices stationary.
Wardha ...	...	*Kharif* prospects excellent; cotton-picking continues.
Nimár ...	...	Prospects of crops good; *rabi* sowings nearly completed; small-pox continues; cattle disease prevalent; prices steady.
Hoshangabad ...	...	Cool; pleasant; prospects good; prices stationary.
Narsinghpur ...	...	Prospects fair; *rabi* sowings completed; health good; prices slightly risen.
Jubbulpore ...	...	Clear; cool; *rabi* sowings nearly completed; *kharif* crops harvesting; health good.
Saugor ...	...	Prospects of crops the same as last week; health good.
Seoni ...	...	*Rabi* sowings nearly completed; health good; prices stationary.
Mandla ...	...	Clear; cool; prospects of *kharif* favourable; *rabi* sowings progressing; health good; prices stationary.
		General Remarks.—A clear and cool week; prospects of *kharif* good; *rabi* sowings nearly completed and where unfinished being vigorously pushed on.
British Burma— (Nov. 21st.)		
Arrakan Division ...	*Nil*	Public health good; crops doing well everywhere.
Pegu Division.		
Rangoon ...	3·44	Public health good; state of crops most favourable, notwithstanding damage by floods; an outturn of grain at least equal to last year may be expected; total rainfall 102·64 inches.
Thonkwa ...	*Nil*	Health and crops good; crops replanted are anticipated to be failures.
Bassein ...	*Nil*	Health fair; slight cholera; total rainfall 124·5 inches; crops flourishing.
Henzada ...	·27 in Henzada during week ending 17th; 2·10 in Myanoung and 1·60 in Mengyee during week ending 10th.	Total rainfall in Henzada 77·32, in Myanoung 52·1, in Mengyee 63·50 inches; 7 deaths from cholera in Mengyee township, 14 in Tahpoon, otherwise health good; crop prospects favourable; re-plantings promising.
Prome ...	*Nil*	Seven deaths from cholera in Poungday division, otherwise public health good; crops promise well.
Thayetmyo ...	*Nil*	Public health good; crops promise better than last year; rains ceased, total rainfall 65·54 inches.
Tenasserim Division.		
Amherst ...	1·50	No change in prospects of crops.
Shwegyeen ...	·07	Crops progressing; health good.
Tounghoo ...	*Nil*	Cholera disappeared; fever prevalent; crops favourable.
		General Remarks.—Crops everywhere very promising.
Assam—		
Gauháti (Nov. 21st)	*Nil*	Weather settled, clear and cool, mornings foggy; prospects of crops continue favourable; public health good.
Sylhet („ „)	*Nil*	Good outturn of crops expected; *kataria* paddy nearly reaped; *aran* crops being reaped; price of rice same as last week.
Mysore and Coorg—	·28 in Bangalore; ·30 in Kolar; *nil* in other districts.	Weather fair; crops thriving; paddy and *raggi* being harvested; health generally good; ordinary rice sells in Bangalore at 13½ to 14 lbs. and *raggi* 17¾ to 19 lbs. per rupee; for week ending 10th on Civil works 34,209, on Professional Department works 46,953, and charitably relieved 42,331.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Hyderabad Assigned Districts—		
Amraoti (Nov. 21st)	...	*Kharif* harvesting commenced; *rabi* crops fair.
Central India— (Nov. 20th)		
Gwalior	...	*General Remarks.*—Weather hot and dry; scarcity of water in wells and tanks; cholera between Rutlam and Neemuch; emigrants still coming from Rajputana, but fewer.
Indore	...	
Neemuch	...	
Rutlam	...	
Sutna	...	
Rajputana—		
Harowtee (Nov. 19th)	...	Health and prospects good; wheat above ground in many places.
Jhallawar („ 15th)	...	Weather warm, tanks drying up.
Ajmere („ 21st)	...	Weather exceptionally hot for time of year.
Jeypore	...	*Rabi* operations progressing favourably; weather seasonable; health good.
Bhurtpore	...	No change; occasionally cloudy; health good.
Ulwur („ 20th)	...	No change; prices steady.
Nepal („ 13th)	*Nil*	Agricultural prospects fair.

SIMLA,
The 1st November 1877.

E. R. DOUGLAS,
Offg. Dy. Dir. Genl. of the Post Office of India

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

WEEKLY CONDITION REPORT OF THE DISTRESSED DISTRICTS OF THE MYSORE PROVINCE.

PROVINCE OF MYSORE.

(No. 40).

Special famine report for the week ending 10th November 1877.

Statement No. 40, regarding famine relief operations in the Province of Mysore for the week ending the 10th November 1877.

The rainfall of the week was very trifling, and this opportune break in the weather proved most beneficial. The standing crops are reported to be looking remarkably well; harvesting has been general, and sowings for the Vaisak crop recommenced. The aspect of things is accordingly much brighter, and the change has caused such an improvement in the general appearance and condition of the country, that the Famine Commissioner anticipates that, except in Túmkúr and parts of the Bangalore and Chitaldrug Districts, the services of the Special Relief Officers may be dispensed with after the end of December. Before leaving, the Special Officers will make a list of necessitous persons in their taluks, and will carefully ascertain the present population of a selected portion of their charge where an average amount of distress has prevailed.

2. The imports of grain by rail amounted to 3,649 tons, or 331 tons less than last week. The imports were received from the following quarters:—

		Tons.
From Madras	... ...	3,401
" Beypore, Palghat, and Coimbatore	... ...	86
" Tanjore, Negapatam, and Trichinopoly	... ...	120
" Other places	... ...	42
	TOTAL ...	3,649

From Bangalore 1,476 tons were exported, or 28 tons less than in the previous week. The exports were to the following quarters:—

		Tons.
Túmkúr	... ...	372
Bellary	... ...	152
Mysore	... ...	610
Usur (Salem District)	... ...	205
Roud Bangalore	... ...	137
	TOTAL ...	1,476

3. Prices have been steadier during the week, with a tendency downwards. In Chitaldrug and Shimoga the effect of the new grain brought to market has been more marked than appears from the average prices returned. The following statement gives the maximum and minimum prices in lbs. per rupee for each district:—

	Maximum in lbs. per Rupee. 2nd sort rice.	Maximum in lbs. per Rupee. Ragi.	Minimum in lbs. per Rupee. 2nd sort rice.	Minimum in lbs. per Rupee. Ragi.
	18	22	12½	17
Bangalore District	19	24	13	20
Kolar " (for 8 taluks) ...	15	26	11	14
Túmkúr " (for 6 taluks) ...	13	18	8	14
Mysore " (for 10 taluks) ...	13	16½	8	13
Hassan " (for 8 taluks) ...	12	16	9	12
Kadur "	14	24	9½	10
Shimoga	[illegible]	[illegible]	8	16

4. The number of labourers employed on civil relief works was 34,209, or a net increase of 874, occurring chiefly in the young children. In Kolar, Mysore, and Hassan there was a decrease on civil works, but this was compensated by the increase in other districts, and especially in Bangalore and Chitaldrug. Of the total number 34,209, there were 26,992 employed in the Bangalore and Túmkúr Districts. Kolar and Chitaldrug divided 5,207 about equally between them, thus leaving some 2,000 to the four other districts.

5. Under the Public Works Department 46,953 labourers were employed on strictly famine relief works. The returns, as last week, are prepared so as to exclude all, except relief labour. They show an increase of 3,083 over the numbers of the preceding week, chiefly in the Bangalore and Túmkúr Districts. Adding labourers employed on ordinary public works unconnected with the present distress, the total for comparison with previous statements would be 55,953. The following is a list of works on which are employed 500 labourers and upwards:—

District.	Work.	No. employed.
Bangalore ...	State Railway	21,582
	Bangalore Water-supply	2,158
	Bangalore-Mysore Road	650
	Mallappa Chetti's Tank	1,899
	Bhadram Tank	1,320
	Bangalore-Bellary Road *viâ* Devanhalli	510
Túmkúr ...	Nelamangala-Túmkúr Road	3,265
	Túmkúr-Shimoga Road	3,833
	Kunigal-Yediyur Road	744
	Túmkúr-Bellary Road	635
Mysore ...	Mysore Water-supply	3,824
	Maddur Ane Channel works	754
Kadur ...	Devanurkeresante Channel	730
Chitaldrug ...	Timmenhalli Tank	1,902
	Chitaldrug-Hdrihar Road	528
	TOTAL ...	44,334

It will be observed that nearly all the relief labour has been concentrated upon large useful works, and that something like half of the whole is employed upon the State Railway to Mysore.

6. The numbers gratuitously fed in relief camps amounted to 42,331, or a decrease of 8,997 as under:—

	Week ending— November 3rd.	November 10th.	Decrease.	Increase.
Bangalore District ...	12,318	10,638	1,680	...
Do. Municipality ...	9,849	8,629	1,220	...
Kolar District ...	2,447	2,380	67	...
Túmkúr " ...	9,482	6,970	2,512	...
Mysore " ...	1,735	1,740	...	5
Do. Municipality ...	711	706	5	...
Hassan District ...	3,543	2,576	967	...
Kadur " ...	549	531	18	...
Shimoga " ...	995	856	139	...
Chitaldrug " ...	9,699	7,305	2,394	...
Total	51,328	42,331	9,002	5
		Deduct Increase ...	5	
		Net Decrease ...	8,997	

7. The number on civil and professional works amounted to 81,162, compared with 42,331 charitably fed. The following table gives the numbers relieved since the last week in August:—

Week ending—	C. W.		P. W. D.		Total.		Charitable.		Grand Total.
1st September ...	29,295	+	24,206	=	53,501	+	227,067	=	280,568
8th " ...	28,754	+	24,847	=	53,601	+	221,176	=	274,777
15th " ...	28,803	+	24,942	=	53,745	+	208,683	=	262,428
22nd " ...	31,280	+	25,271	=	56,551	+	161,892	=	218,443
29th " ...	31,038	+	27,655	=	58,693	+	126,204	=	184,897
6th October ...	27,009	+	35,497	=	62,506	+	103,750	=	166,256
13th " ...	32,461	+	39,741	=	72,202	+	88,757	=	160,959
20th " ...	30,275	+	48,213	=	78,488	+	73,838	=	152,326
27th " ...	31,167	+	52,274	=	83,441	+	61,148	=	144,589
*3rd November ...	33,335	+	43,870	=	77,205	+	51,328	=	128,533
*10th " ...	34,209	+	46,953	=	81,162	+	42,331	=	123,493

* *N.B.*—About 9,000 labourers are deducted from the Public Works total as not being relief labour.

8. The average cost of feeding per head is returned as follows:—

	Cost per head. A.	P.
Bangalore District	8	6
" Municipality	10	4
Kolar District	7	10
Túmkúr "	13	3
Mysore "	8	10
" Municipality	5	6
Hassan District	12	10
Kadur "	11	11
Shimoga "	7	0
Chitaldrug "	11	5

or an average cost of 10 annas 4 pies per head, compared with 9 annas 11 pies for the preceding week.

BANGALORE,
17th November 1877.

By order,
A. WINGATE,

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

WEEKLY CONDITION REPORT OF THE DISTRESSED DISTRICTS OF THE MYSORE PROVINCE.

PROVINCE OF MYSORE.

(No. 41).

Special Famine Report for the Week ending 17th November 1877.

Statement No. 41, regarding Famine Relief Operations in the Province of Mysore, for the Week ending the 17th November 1877.

The Province during the past week has escaped a great danger. Had the same abnormally heavy rainfall that Madras experienced been extended to Mysore, it would have done irreparable damage to the crops and tanks. But the storm seems to have expended itself on the eastern coast, and though the sky for some days was overcast with clouds, the showers that fell were only slight and partial, and there is every appearance now of fine settled weather. The standing crops are very good, and only in the western districts where distress is lightest, has the heavy rain, at the close of October, caused any considerable damage. Reaping, especially of early or "Kartika" paddy and ragi, actively continues, and there begins to be a demand for field labor for this purpose. There is still a month left, in which the late or "Baisakh" paddy and Bengal gram can be sown, and in many quarters the land is being prepared for these crops, the cultivation being beneficially stimulated by the grant of takavi from Government. But in the parts which have suffered most in Túmkúr and the east of Chitaldrug, the amount of land under cultivation is not equal to the average. The public health is fair, but fever prevails as usual at this season. The improvement in the condition of the people is already great, and their spirits are raised by the sight of a good crop coming to maturity; even those who have no connection with the land are leaving the Relief Camps and Works in the hope of getting a livelihood by reaping and gleaning—a hope which will not always be fulfilled. Fears are expressed that the relief afforded by the harvest will be only temporary, and that in the worst affected districts, unless prices materially fall, distress will not immediately cease. At present the people are averse from leaving their homes to seek relief in the Government Camps or on Works at a distance from their villages, and the Famine Commissioner, having regard to the circumstances of the season, has discouraged the use of pressure to induce them to do so. The fall of prices has necessitated the introduction of a minimum instead of a sliding scale of wages on Relief Works, it being an object to retain the people employed till they have sufficiently recovered strength to be safely relegated to their usual occupations. Speaking generally, the prospects are good; the famine is in hand; the present arrangements for dealing with it are sufficient and complete: and the efforts of all officers are rather directed to the working up of those arrangements to the highest degree of efficiency, than to extending or opening them in any new direction.

2. The imports of grain by rail amounted to 2,704 tons, or 945 tons less than last week. The imports were received from the following quarters:—

	Tons.
From Madras	2,333
" Beypore, Palghat and Coimbatore	66
" Tanjore, Negapatam and Trichinopoly	250
" Other places	55
Total ...	2,704

From Bangalore 1,663 tons, or 187 tons more than in the previous week were exported to the following quarters as shewn by the octroi returns:—

	Tons.
Túmkúr	454
Bellary	235
Mysore	666
Usur (Salem District)	155
Round Bangalore	153
Total ...	1,663

3. Prices fluctuate. Rice shews a tendency to increase in price, whilst ragi has only materially fallen in the western districts. The following statement gives the maximum and minimum prices in lbs. per rupee for each district:—

	Maximum in lbs. per Rupee. 2nd sort rice.	Maximum in lbs. per Rupee. Ragi.	Minimum in lbs. per Rupee. 2nd sort rice.	Minimum in lbs. per Rupee. Ragi.
Bangalore District	16	20	12½	16¼
Kolar " (for 9 taluks) ...	16	26	12	17
Tumkur " (for 7 taluks) ...	16	26	11½	14
Mysore " (for 10 taluks) ...	13	18	9	13½
Hassan " (for 8 taluks) ...	13	17	9	12½
Kadur " (for 4 taluks) ...	11	20	9	14
Shimoga "	14	36	9	20
Chitaldrug " (for 7 taluks) ...	13	32	9	26

4. The number of laborers employed on Civil Relief Works was 29,940, or a net decrease of 4,269, occurring chiefly in the Bangalore District, and in great measure due to transfer of men from Civil Relief Works to Works under supervision of the Department Public Works.

5. Under the Public Works Department 50,080 laborers were employed on strictly Famine Relief Works, or an increase of 3,127 over the number returned last week. The increase was due, as just stated, to a number of laborers taken over in the Bangalore District from Civil Works. The returns were prepared so as to exclude ordinary Public Works labor. Adding such labor, the total number of persons employed by the Department Public Works was for purposes of comparison with previous returns about 59,080. The following is a list of works on which are employed 500 laborers and upwards :—

District.	Work.	No. employed.
Bangalore	State Railway	22,352
	Bangalore Water-Supply	3,213
	Dodballapur-Yelahanka Road	2,214
	Mallappa Chitti's Tank	1,819
	Bhadram Tank	1,468
Túmkúr	Nelamangala-Túmkúr Road	3,135
	Túmkúr-Shimoga Road	4,071
	Kunigal-Yediyur Road	516
	Túmkúr-Bellary Road	1,293
Mysore	Mysore Water Supply	3,560
	Maddur Ane Channel works	715
Hassan	Mandigiri Channel	511
Kadur	Devanurkeresante Channel	681
Chitaldrug	Timmenhalli Tank	1,834
	Total	47,382

Thus of 50,080 laborers employed by the Department Public Works, 47,382 are concentrated on large and useful works.

6. The numbers fed gratuitously in Relief Camps amounted to 31,370, or a decrease of 10,961 as under :—

	Week Ending November 10th.	Week Ending November 17th.	Decrease.
Bangalore District	10,638	9,109	1,529
Do. Municipality	8,629	4,215	4,414
Kolor District	2,380	1,837	543
Túmkúr "	6,970	5,496	1,474
Mysore "	1,740	1,644	96
Do. Municipality	706	700	6
Hassan District	2,576	2,108	468
Kadur "	531	510	21
Shimoga "	856	369	487
Chitaldrug "	7,305	5,382	1,923
Total	42,331	31,370	10,161

The decrease in the Bangalore Town Camps is partly due to transfers to works, and partly to the fact that residents in the town who were hitherto fed at the Relief Camps are now relieved by the graindole which is issued consequent on the house-to-house visitation. Accurate returns of the numbers thus relieved have not yet been received.

7. The number on civil and professional works amounted to 80,020, compared with 31,370 on charitable relief. The following table gives the numbers relieved since the last week in August :—

Week ending	C. W.		P. W. D.		Total.		Charitable.		Grand Total.
1st September	29,295	+	24,206	=	53,501	+	227,067	=	280,568
8th "	28,754	+	24,847	=	53,601	+	221,176	=	274,777
15th "	28,803	+	24,942	=	53,745	+	208,683	=	262,428
22nd "	31,280	+	25,271	=	56,551	+	161,892	=	218,443
29th "	31,038	+	27,655	=	58,693	+	126,204	=	184,897
6th October	27,009	+	35,497	=	62,506	+	103,750	=	166,256
13th "	32,461	+	39,741	=	72,202	+	88,757	=	160,959
20th "	30,275	+	48,213	=	78,488	+	73,838	=	152,326
27th "	31,167	+	52,274	=	83,441	+	61,148	=	144,589
*3rd November	33,335	+	43,870	=	77,205	+	51,328	=	128,533
*10th "	34,209	+	46,953	=	81,162	+	42,331	=	123,493
*17th "	29,940	+	50,080	=	80,020	+	31,370	=	111,390

8. The average cost of feeding per head is returned as follows :—

	Cost per Head.		
Bangalore District	1	0	5
Do. Municipality	1	0	9
Kolar District	0	8	5
Túmkúr "	0	13	11
Mysore "	0	10	1
Do. Municipality	0	7	0
Hassan District	0	13	7
Kadur "	0	14	1
Shimoga "	0	12	6
Chitaldrug "	0	12	7

or an average cost per head of 14 annas, compared with 9 annas 11 pies for the preceding week. The excess cost in Bangalore District is due to inclusion of some expenditure not shewn before occurring in a previous week, and in Bangalore Municipality, to issue of rations for special reasons.

BANGALORE,
24th November 1877.

By Order,
A. WINGATE,
Additional Secretary.

* *N.B.*—About 9,000 laborers are deducted from the Public Works' total as not being relief labor.

Grand Total						42,349	32,584									

* These figures are for the weeks ending 27th October and 3rd November respectively.

† For details and dates, see table appended.

The weather has now become fine everywhere, and prospects are thereby very much improved in most of the districts. More rain is still desired in Násik and Ahmednagar for the rabi crops, but the fine weather has been favourable for the kharif harvest.

2. Prices have not materially varied from the rates quoted last week in the case of the five districts most to the north, but they have again fallen considerably in the Southern Mahratta districts. Prices are now much more nearly equal throughout the distressed area than they have been heretofore.

3. The number of labourers upon relief works has fallen during the week from 42,349 to 32,584.

4. The deaths from cholera during the week have numbered only thirty in the nine distressed districts.

5. Written reports have been received from the Collectors of Násik, Ahmednagar, Poona, Sholapur and Satara for the week ending the 10th instant, and from the other Collectors for the week before. The table, compiled from these reports, showing the rainfall and the prices of food grains in each taluka, is appended as usual. The kharif crops are now being harvested almost everywhere. They have not turned out so well as was expected in Sholapur, and have been a good deal damaged also in Satara and Kaládgi. The harvest had not begun in Belgaum at the date of the report. The sowing of rabi proceeds rapidly, and is approaching completion in some districts. Fever is prevalent in Kaládgi and parts of Dharwar.

6. The following table gives the expenditure by Government, during the week ending 27th October, upon gratuitous relief, and in payments made to the young children of labourers employed upon relief works. The number of children has fallen during the week from 25,783 to 18,976. The number of persons being gratuitously relieved in the week ending 20th October was taken, in the last statement, as approximately 63,885. The number for the week ending the 27th instant may be taken approximately as 51,879. This gives a decrease of 12,006 :—

Districts.	Collector's Discretionary Grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116, of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.		
	Average daily number of persons relieved during the Week.	Expenditure during the Week.	Total Expenditure up to date.	Average daily number of children, and of women taking care of them.	Expenditure during the Week.	Total Expenditure up to date.

* Returns incomplete.

7. In the following table are enumerated the works under Public Works Department Agency upon which the average daily number of persons employed has amounted to five hundred for the week ending 3rd instant. The total number engaged on these large works constitutes 66 per cent. of the whole number of labourers upon relief works :—

Districts.	Works.	Number of labourers.	Total.	Remarks.
Khandesh ...	Bombay-Agra Road ...	675	675	
Násik .. / Ahmednagar ..	Dhond-Manmad Railway ...	2,042	2,380	Approximate number of relief labourers.
Poona ...	Nira Canal ...	5,611	9,088	
	Motoba Tank ...	1,712		
	Mutha Canal ...	1,226		
	Shirsophal Tank ...	539		
Sholapur ...	Ashti Tank ...	2,624	4,991	
	Pangaon Tank ...	1,671		
	Barsi-Pandharpur Road ...	696

Belgaum ...	Gokak Canal	1,334	3,476	
	Belgaum-Panchgaon Road ...	1,593		
	Bagewadi-Saundatti Road ...	549		
Dharwar ...	Karwar-Bellary Road ...	1,100	2,120	
	Poona-Hurryhur Road ...	1,020		
	Grand Total ...	...	26,337	

8. Tables A and B are brought up to the week ending 3rd instant. The number of persons on works under Public Works Department Agency in the nine affected districts was at this date 32,756 and on works under Civil Agency 7,437. The percentage of persons upon works under Civil Agency has thus fallen during the week from 20·3 to 18·5 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 1,02,92,808, which with the expenditure of Rs. 1,35,230 upon works in Ratnagiri and Kanara, and Rs. 10,38,196 from the Collectors' decretionary allowances, gives a total of Rs. 1,14,66,234.

9. The table showing the condition of the affected Native States is appended as usual. The excessive rain has now stopped. The number of labourers upon relief works has, however, slightly risen.

10. During the week ending 10th November, 252 tons of food-grains were exported from Bombay to the Southern Mahratta Ports, and 761 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusawal-Násik lines, making a total of 1,013 tons for the week. This is less by 468 tons than the importations of the previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 10th November 1877 to the Southern Mahratta Ports and the Railway Stations in the distressed districts. It will be seen that the total amount delivered up to the 10th November was 430,283 tons :—

Food-grains sent to	In October, November, and December 1876.	In January, February, and March 1877.	In April, May, and June 1877.	In July and August 1877.	In September 1877.	In October 1877.	In November up to 10th.	Total.
	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.
Southern Mahratta Ports	44,215	46,332	54,547	16,061	3,319	525	252	165,251
South-Eastern line, from Poona to Sholapur ...	67,195	41,708	45,798	41,990	16,256	8,720	299	221,966
North-Eastern line, from Bhusawal to Násik ...	12,829	7,471	5,581	9,567	2,519	4,637	462	43,066
TOTAL ...	124,239	95,511	105,926	67,618	22,094	13,882	1,013	430,283

11. There have been decreases during the week of 9,765 in the number of labourers on relief works, 6,807 in that of young children, and 12,006 in that of people on gratuitous relief.

12. The general situation still continues to improve. The condition of the people is becoming more and more satisfactory. Prices of food-grains are falling considerably in the Southern Mahratta Districts. People are leaving the relief works and relief houses of their own accord. The weather has now become fair in Kaladgi, but, owing to the late excessive rain, there is unfortunately a good deal of sickness in that district.

C. J. MERRIMAN, *Colonel, R. E.,*
Acting Secretary to Government.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

SCARCITY IN THE DECCAN AND SOUTHERN MARATHA COUNTRY.

Dharwar ...	Poona-Hurryhur Road ...	874	874	
	GRAND TOTAL ...	...	19,129	

8. Tables A. and B. are brought up to the week ending 10th instant. The number of persons on works under Public Works Department Agency in the nine affected districts was at this date 23,210, and on works under Civil Agency 5,147. The percentage of persons upon works under Civil Agency has thus fallen during the week from 18·5 to 18·1 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 1,03,17,165, which with the expenditure of Rs. 1,35,642 upon works in Ratnagiri and Kanara, and Rs. 10,53,651 from the Collectors' Discretionary Allowances, gives a total of Rs. 1,15,06,458.

9. The table showing the condition of the affected Native States is appended as usual. The reduction of the number of people employed upon relief works proceeds very slowly indeed. Prices are very fluctuating.

10. During the week ending 17th November, 164 tons of food-grains were exported from Bombay to the Southern Maratha Ports, and 706 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusâwal-Nasik lines, making a total of 870 tons for the week. This is less by 143 tons than the importations of the previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 17th November 1877 to the Southern Maratha Ports and the Railway

7. In the following table are enumerated the works under Public Works Department Agency upon which the average daily number of persons employed has amounted to five hundred for the week ending 10th instant. The total number engaged on these large works constitutes 67·45 per cent. of the whole number of labourers upon relief works.

Districts.	Works.	Number of labourers.	Total.	Remarks.
Khandesh ...	....	......	......	
Nasik, Ahmednagar.	Dhond-Manmad Railway ...	4,432	4,432	Approximate number of relief labourers.

	Belgaum-Panchgaon Road ...	1,131		
Dharwar ...	Poona-Hurryhur Road ...	874	874	
	GRAND TOTAL ...	...	19,129	

8. Tables A. and B. are brought up to the week ending 10th instant. The number of persons on works under Public Works Department Agency in the nine affected districts was at this date 23,210, and on works under Civil Agency 5,147. The percentage of persons upon works under Civil Agency has thus fallen during the week from 18·5 to 18·1 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 1,03,17,165, which with the expenditure of Rs. 1,35,642 upon works in Ratnagiri and Kanara, and Rs. 10,53,651 from the Collectors' Discretionary Allowances, gives a total of Rs. 1,15,06,458.

9. The table showing the condition of the affected Native States is appended as usual. The reduction of the number of people employed upon relief works proceeds very slowly indeed. Prices are very fluctuating.

10. During the week ending 17th November, 164 tons of food-grains were exported from Bombay to the Southern Maratha Ports, and 706 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusâwal-Nasik lines, making a total of 870 tons for the week. This is less by 143 tons than the importations of the previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 17th November 1877 to the Southern Maratha Ports and the Railway

No important change in the condition of the crops has been reported in the week's telegrams. More rain is desired in Khandesh, Nasik, Ahmednagar and Sholapur. The jowari in Poona has been slightly damaged by blight.

2. Prices continue to approach more nearly to a level throughout the nine districts. They have slightly risen during the week in Khandesh, Ahmednagar and Poona. In Belgáum bajri, which was quoted at 35 pounds for a rupee in the last statement, has fallen back to 28, but this rate is cheaper than that of previous weeks. In Satara, Kaladgi and Dharwar there is steady improvement.

3. The number of labourers upon relief works has fallen during the week from 32,584 to 20,313. Thus, more than a third of the whole number of labourers have been discharged during the week ending with the 17th instant, and two weeks (from that date) remain for the discharge of the rest.

4. Only 26 deaths from cholera have occurred during the week in the nine districts.

5. Written reports have been received from the Collectors of Nasik, Ahmednagar, Sholapur and Satara for the week ending the 17th instant, and from the Collectors of Khandesh, Belgaum and Dharwar for the previous week. No written reports have been received from the Collectors of Poona and Kaladgi. The kharif harvest is progressing generally, and the sowing of late crops still continues.

6. The following table gives the expenditure by Government, during the week ending 3rd November, upon gratuitous relief, and in payments made to the young children of labourers employed upon Relief Works. The number of children has fallen during the week from 18,976 to 11,966. The number of persons being gratuitously relieved in the week ending 27th October was taken, in the last statement, as approximately 51,879. The number for the week ending the 3rd November may be taken approximately as 29,549. This gives a decrease of 22,330 :—

Districts.	Collector's Discretionary Grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116, of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.

7. In the following table are enumerated the works under Public Works Department Agency upon which the average daily number of persons employed has amounted to five hundred for the week ending 10th instant. The total number engaged on these large works constitutes 67·45 per cent. of the whole number of labourers upon relief works.

Districts.	Works.	Number of labourers.	Total.	Remarks.
Khandesh ...	....	......	......	
Nasik, Ahmednagar.	Dhond-Manmad Railway ...	4,432	4,432	Approximate number of relief labourers.
Poona ...	Nira Canal ...	4,086	6,503	
	Motoba Tank ...	1,238		
	Mutha Canal ...	645		
	Shirsophal Tank ...	534		
Sholapur ...	Asti Tank ...	2,485	4,154	
	Pangaon Tank ...	1,091		
	Barsi-Pandharpur Road ...	578		
Satara ...	Mhaswad Tank ...	1,143	1,143	
Kaladgi ...	....	......	......	
Belgaum ...	Gokak Canal ...	892	2,023	
	Belgaum-Panchgaon Road ...	1,131		
Dharwar ...	Poona-Hurryhur Road ...	874	874	
	GRAND TOTAL ...	...	19,129	

8. Tables A. and B. are brought up to the week ending 10th instant. The number of persons on works under Public Works Department Agency in the nine affected districts was at this date 23,210, and on works under Civil Agency 5,147. The percentage of persons upon works under Civil Agency has thus fallen during the week from 18·5 to 18·1 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 1,03,17,165, which with the expenditure of Rs. 1,35,642 upon works in Ratnagiri and Kanara, and Rs. 10,53,651 from the Collectors' Discretionary Allowances, gives a total of Rs. 1,15,06,458.

9. The table showing the condition of the affected Native States is appended as usual. The reduction of the number of people employed upon relief works proceeds very slowly indeed. Prices are very fluctuating.

10. During the week ending 17th November, 164 tons of food-grains were exported from Bombay to the Southern Maratha Ports, and 706 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusâwal-Nasik lines, making a total of 870 tons for the week. This is less by 143 tons than the importations of the previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 17th November 1877 to the Southern Maratha Ports and the Railway

Stations in the distressed districts. It will be seen that the total amount delivered up to the 17th November was 431,153 tons:—

Food-grains sent to	In October, November and December 1876.	In January, February and March 1877.	In April, May and June 1877.	In July and Aug. 1877.	In September 1877.	In October 1877.	In Nov. up to 17th.	Total.
	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	ons.
Southern Maratha Ports	44,215	46,332	54,547	16,061	3,319	525	416	165,415
South-Eastern line, from Poona to Sholapur ...	67,195	41,708	45,798	41,990	16,256	8,720	699	222,366
North-Eastern line, from Bhusawal to Nasik ...	12,829	7,471	5,581	9,567	2,519	4,637	768	43,372
TOTAL ...	124,239	95,511	105,926	67,618	22,094	13,882	1,883	431,153

11. There have been decreases during the week of 12,271 in the number of labourers on relief works, 7,010 in that of young children, and 22,330 in that of people on gratuitous relief.

12. On the whole, there is improvement in the general situation.

C. J. MERRIMAN, *Colonel, R.E.,*
Acting Secretary to Government.

GOVERNMENT OF INDIA.

DEPT. OF REVENUE, AGRICULTURE, AND COMMERCE;
STATISTICAL BRANCH,
The 23rd November 1877.

G. H. M. BATTEN,
Officiating Secretary to the Government of India.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*continued.*		
Tanjore (Nov. 24th)	0·65	Rice 6·61, *cholum* 13·34, *raggi* 14·25, *cumboo* 14·48; wet crops thriving, some suffer from excess water, dry in good condition; harvest, outturn *kar, kadappu,* and *kuruvai* ½ to full, *cumboo, cholum,* and *raggi* ⅓ to full.
Trichinopoly („ „)	0·37	Rice 8·25, *cholum nil, raggi* 10·97, *cumboo* 14·46, on works 10,558; children 1,507; in camps 964; village relief 4,921; sowing and harvest continue in parts, outturn about a 9-anna crop; wet cultivation under tanks vigorous; dry crops benefited by present cessation of rain; public works returns received from Museri only, previous figures therefore repeated elsewhere.
Madura („ „)	0·20	Rice 7·69, *cholum* 9·52, *raggi* 11·81, *cumboo* 11·39; on works 10,179; children 582; in camps 10,766; village relief 24,621; freshes continue in the rivers; black *cholum* harvested in some parts on a small scale.
Tinnevelly („ „)	0·81	Rice 9·0, *cholum* 12·30, *raggi* 16·05, *cumboo* 11·55; camps and houses 478; village relief 1,251; wet crops good, dry crops in some places damaged by excessive rain.
Coimbatore („ „)	0·10	Rice 8·85, *cholum* 10·48, *raggi* 12·80, *cumboo* 15·01; on works 18,152; children 68; camps and houses 22,655; village relief 8,374; crops good; harvest of paddy and *cumboo* in parts, outturn full to ⅛; Department Public Works accounts from 4 taluks not come.
Nilgiris („ „)	0·67	Rice 7·13, *cholum* 8·26, *raggi* 10·15, *cumboo* 8·97; camps and houses 121; village relief 12; harvest of *samay, raggi,* and *korali;* outturn about ¼.
Salem („ 26th)	0·10	Rice 7·38, *raggi* 9·64, *cumboo* 12·80, *cholum* 8·63; on works 58,550; camps 12,350; village relief 25,630; crops thriving; harvest of paddy and *cumboo,* outturn of former full, latter ⅞.
South Canara („ 24th)	0·39	Rice 10·72, *raggi* 13·62; second rice crop plants in good condition.
Malabar („ „)	0·94	Rice 10·19, *raggi* 12·96; gratuitous relief 54; rain sufficient for existing cultivation; second crop in good condition; prospects good.
Chingleput („ „)	A few showers in 2 taluks.	Rice 8·76, *raggi* 12·47, *cumboo* 11·38, *cholum* 12·63; on works 2,001; children 246; camps and houses 5,109; village relief 48,275; crops generally in good condition; *kar, samba, raggi,* and *cumboo* harvested in parts of 4 taluks; no harvest during the week in Saidapet and Trivellore; outturn of *raggi* full, other grains from ½ to ¾.
Madras („ 27th)	*Nil*	Rice 7·3, *raggi* 10·64, *cholum* 9·8. *General Remarks.*—General prospects continue good; prices fluctuating with continued upward tendency in several districts; total number on works 252,123; total number gratuitously relieved 411,715; exports of grain by rail from Madras during the week ending the 24th November, 8,008¼ tons.
Bombay—(Nov. 28th).		
Sind. (*Nov. 28th*).		
Kurrachee ...	*Nil*	Freshet down Gaj on 9th; all tanks filled; cotton being picked; worm appeared in late *kharif;* much fever; cold weather set in.
Shikarpur ...	...	No signs of rain; public health fair.
Hyderabad ...	·32	Rain with hail in Allahyar taluka on 18th.
Upper Sind Frontier ...	...	Weather continues cloudy; *rabi* sowings progressing; prospects poor no fresh cases of small-pox.
Guzerat (*Nov. 28th*).		
Ahmedabad ...	...	*Rabi* crops good; cholera in Dholka and Go go, in city cases 46 deaths 30.
Pánch Mahále ...	...	Extensive failure of *rabi* apprehended.
Kaira ...	...	Prospects becoming gloomy again; *kharif* crops withering owing to heat; *rabi* crops not in good condition.
Surat ...	...	Cholera prevailing; crops good, though few suffered from insects in Olpad.
Broach ...	...	Prospects becoming gloomy again; *kharif* crops withering owing to heat; *rabi* crops not in good condition; cholera in Broach and Ahmod, cases 11, deaths 6.
Khandesh and Násik (*Nov. 28th*).		
Khandesh ...	...	No change in weather and crops; cholera has disappeared; ague prevalent.
Násik ...	*Nil*	*Rabi* prospects somewhat worse, especially in Yeola, where crops are withering.
Konkan (*Nov. 28th*).		
Colába (Nov. 26th)...	...	Weather at Alibág good; mornings cold; harvesting of rice crops vigorously progressing throughout collectorate.
Ratnagiri („ 20th)...	*Nil*	Cutting of late crops nearly finished.
Deccan (*Nov. 28th*).		
Poona ...	...	Rain wanted in all talukas.
Ahmednagar ...	*Nil*	One fall of rain urgently required; crops suffering generally; cholera deaths 6.
Sholapur	...	No change.
Satara	...	No change.
Southern Mahratta Country.		
Kaládgi ...	...	*Kharif* harvest and *rabi* sowing continues; *rabi* already sown doing well.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*continued.*		
Belgaum ...	...	No change.
Dharwar ...	·02	*Kharif* being harvested; *rabi* sowing nearly finished; fever general.
Kanara ...	...	Weather fair; cholera deaths 6.
Kattywar and Gaekwar's Territory.		
Rájkot ...	...	*Rabi* prospects good; weather cold; health generally good; fever in some talukas.
Wadhwán ...	*Nil*	Cotton and other crops thriving; health good.
Baroda ...	...	Thirty-two cases of cholera, 14 fatal.
		General Remarks.—No change in Sind; the crops in parts of Guzerat and North Deccan require rain; cholera somewhat extensively prevalent in Guzerat.
Bengal—		
Chittagong ...	*Nil*	Weather fine and seasonable; state and prospects of the crops are very good.
Noakholly	*Nil*	Weather warm for the season; reaping of early *amun* has begun on the churs and high lands; prospects are fair; much land was left uncultivated in Hátia; public health is not so good as when last reported; fever and cholera cases occur.
Chittagong Hill Tracts...	*Nil*	Weather cool and foggy in the morning up to 8 A.M.; the plough cultivators' paddy crop is now being harvested, a very poor outturn is anticipated in places where the crop was damaged by the floods in September last; mustard is being sown here and there; the gathering of cotton still continues; the *ex-officio* Assistant Commissioner of Cox's Bazar reports that crops are healthy and promise a good outturn.
Hill Tipperah ...	*Nil*	Weather still warm in the daytime; the cutting of *amun* crops continues; the outturn promises to be excellent.
Backergunge ...	*Nil*	Weather seasonable; in consequence of continued drought the crops on the high lands have to a certain extent been injured, but the general outturn is expected to be fair; the new rice is coming into market in small quantities; cholera and fever have made their appearance in the police stations of Nulchitti, Backergunge, Gournadi, Mendigunge, Shoroopkati, and Mottearia, and a few deaths are reported therefrom.
Furreedpore ...	*Nil*	Weather clear and cooler than during the previous week; prospects of the crops continue the same as before; the early kinds of *amun* are being cut; moderate rain is required for the preparation of lands for the spring crops; fever is prevalent, especially at head-quarters and Goalundo; there have been numerous cases of cholera at Furreedpore, but not in an epidemic form, it seems to be now disappearing.
Dacca ...	*Nil*	Weather very warm for the season, but not unfavourable for crops; state and prospects of the crops are favourable; cholera and fever are bad in Manickgunge sub-division, and cholera in part of *sadar.*
Mymensingh ...	*Nil*	Weather settled, but warm for the time of year; prospects of the crops are excellent, but prices continue extraordinarily high.
Tipperah ...	*Nil*	Weather fine, but rather warm for the time of year; prospects of all crops are good.
24-Pergunnahs ...	*Nil*	Weather rather warm for the time of year; state and prospects of the crops are satisfactory; the winter harvest has begun; fever is prevalent in Busseerhat sub-division, and sporadic cases of cholera are reported from all parts of the district.
Jessore ...	*Nil*	Weather seasonable; crops on the whole promise well; the outturn on the high lands will probably be rather short owing to insufficient rain; fever is very prevalent throughout the district; cholera is increasing.
Nuddea ...	*Nil*	Weather warm in the day, but heavy dews at night; the *amun* crop is said to be satisfactory in all the sub-divisions except Kooshtea, where the outturn is poor; the winter crops promise well; fever is bad in Kooshtea and Bongong, and cholera is prevalent in many parts of the district.
Moorshedabad ...	*Nil*	Temperature unseasonably warm; prospects of crops continue to be as good as reported last week; harvesting of *amun* is in fair progress; prices of rice are almost steady; cholera and fever are still prevalent in Berhampore, Jungypore and Lálbág sub-divisions; in Rampore Haut public health is good.
Pubna ...	*Nil*	Weather fine, cool, and seasonable; reaping of *amun* has commenced, and consequently no more rain is now required; state and prospects of winter crops appear to be good; fever is still prevalent in the town, and cholera has appeared in many places in the *mofussil.*
Rajshahye ...	*Nil*	Weather clear; days rather hot, but nights cold with heavy dew; in places where the winter rice crop has ripened, it is being cut; *rabi* crops are flourishing, but a little rain would improve them; there have been several cases of cholera in different parts of the district, and fever is still prevalent.
Bogra ...	*Nil*	Weather dry and clear, and warm for the time of year; reaping of *amun* has begun, and there is every probability of a bumper harvest; minor crops are looking well; cholera is on the increase, chiefly in the western part of the district; 859 deaths have occurred

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*continued.*		
Dinagepore ...	Return not received.	Rather unseasonably warm, as if bad weather was coming; state and prospects of the crops are very good; reaping of rice crop has commenced; ten deaths from cholera reported, principally in the south, during the week.
Rungpore ...	*Nil*	Weather dry, with a westerly wind in the afternoons; state and prospects of all kinds of crops continue to be most satisfactory; mustard is being sown, and nearly all the tobacco has now been transplanted; fever of the intermittent type is more prevalent than during last week; cholera has broken out in Gobindaganj, but is diminishing in Bhabániganj.
Cooch Behar ...	*Nil*	Weather fair and moderately cool; prospects of the crops are not bad; *amun* rice is in ear and promises an average outturn; fever is prevalent in the *Sadar* and Mekhaliganj sub-divisions, but the health of the district is generally good.
Jalpáiguri ...	*Nil*	Weather somewhat too hot to be seasonable; prospects of the winter rice are good; transplantation of tobacco in some places is nearly complete, and in others has just commenced; mustard and potato sowings are over; land is being prepared for barley and wheat; sugarcane promises well; public health is not yet good; fever is still prevalent in the town of Jalpáiguri.
Darjeeling ...	*Nil*	Alternate sunshine and hazy weather, with signs of rain; heavy dew at night; the early *haimanti* rice is being reaped in some places; all the crops promise a very fair outturn.
Midnapore ...	*Nil*	Weather rather warm, otherwise seasonable; state and prospects of the crops are fair.
Howrah ...	*Nil*	Weather too hot to be seasonable; rice harvest is commencing on the high lands; taking high lands and low lands together, the crop is quite up to the average in the south of the district; the northern part of the *sadar* sub-division is worst off, but even there the low land crop is good.
Hooghly ...	*Nil*	Weather seasonable; harvesting of late rice has commenced; sugarcane is being cut; *rabi* sowings are going on; vegetables are doing well; fever is very prevalent.
Burdwan ...	*Nil*	Reaping of *amun* and sowing of *rabi* are going on; no change in the prospects on the whole since last report.
Bankoora ...	*Nil*	Weather clear and cool; *amun* is fast ripening; no change in the prospects of the winter crop.
Beerbhoom ...	*Nil*	Weather rather warm for this time of the year; no change to report in the state and prospects of the crops.
Sonthal Pergunnahs ...	*Nil*	Weather warm and occasionally cloudy; *dhan* continues good; rain is wanted for the *rabi.*
Bhágalpur ...	*Nil*	Weather cloudy and hot; state and prospects of the crops are the same as last week; cholera and fever are very prevalent.
Monghyr ...	*Nil*	Weather still very hot; prospects of the crops are unchanged.
Purneah ...	*Nil*	Weather fine; nights getting cold; prospects of crops continue fair; *aghani dhan* is being cut; fever is very general, and cholera is reported from two or three places.
Maldah ...	*Nil*	Weather fair and rather warm; harvest of *amun* (coarse kind) has commenced; in some parts a bumper crop is reported, but generally a good average of 12 or 13 annas; the *haimanti* is nearly ripe and promises well; fever is still very prevalent, and sporadic cases of cholera have been reported during the week.
Durbhunga ...	*Nil*	Weather unusually warm for this time of the year; the *rabi* has germinated well; the low-lying *dhan* lands promise well, but the high-land *dhan* has suffered, and the outturn will not, it is feared, be satisfactory.
Mozufferpore ...	*Nil*	Weather warm and unseasonable; there is no change to report in the prospects of the crops.
Sarun ...	*Nil*	Weather bright and clear, east and west wind; no change in the prospects of the crops since last report; *rahur* and cotton are good; sugarcane is being cut and put into the mills; paddy that has been saved is fast ripening; in some places it is being cut; *rabi* has germinated well, rain is much wanted to accelerate a healthy growth; poppy is being put in the ground; indigo fields are being prepared for the next year's crop.
Chumparun ...	*Nil*	Weather warmer than usual at this time of year, otherwise seasonable; state and prospects of the crops appear to be somewhat worse than reported last week; prices are however easier, owing probably to imports from Nepal, which had been temporarily stopped by the local authorities, and from Mozufferpore.
Patna ...	Return not received.	Weather unusually hot for the time of year; state and prospects of the crops are good, but if this abnormal heat continues, rain will be wanted for the *rabi.*
Gya ...	*Nil*	Weather warm in the middle of the day, and sky occasionally clouded over; maximum thermometer in the shade 89·6°; prospects of the crops are unchanged; some rain is hoped for and would do much good.
Shahabad ...	*Nil*	Weather cloudy and hot; in Buxar *rabi* crops have been sown and have germinated; in Bhuboonh rice is being harvested; other *aghani* crops are in bad condition for want of rain; *rabi* sowings are about to close, and the young plants are drying in many places

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*continued.*		for want of rain; no report received from Sasseram; in the head quarters sub-division *rabi* crops are still being sown, and in places where germinated are doing well from being irrigated from canal water; health of the district is good.
Hazáribágh ...	*Nil*	No change to report in the state and prospects of the crops.
Lohardugga ...	*Nil*	Weather seasonable and cold; the harvest operations are actively proceeding, and the outturn so far over most part of the district is good; *rabi* crops promise well at present.
Manbhoom ...	*Nil*	Weather pleasant; no signs of rain; state and prospects of the crops are much the same as reported last week; rain is much needed for the *rabi* crops.
Singbhoom ...	*Nil*	Weather seasonable; nothing to report about the rice crop; the cold-weather crops are doing well; the district is reported healthy.
Balasore ...	*Nil*	Weather cold; no rain in any part of the district, so that the cold-weather crops will be retarded; the *dhan* crop is doing fairly well, and there is no special change to report since last week; a good deal of sickness prevails in the north of the district.
Cuttack ...	*Nil*	Weather fine and hot; the crops are doing well; no change from last week.
Pooree ...	*Nil*	Weather seasonable; in Khoordah it is reported *sarad* crops are being irrigated in several places; in other parts of the district, where irrigation is not possible, the crops on the high lands are suffering; *laghu* crop, which survived the drought, is being harvested; *sarad* rice in some places is coming to ear and in others is in ear; *rabi*, sugarcane, and other miscellaneous crops are thriving; the state of the crops in the tracts situated between the Chilka and the sea is worse than in any other part of the district; relief is being given to the people of those parts from funds contributed by private individuals; cholera has made its appearance in the city.
		General Remarks.—The weather is unseasonably warm in many parts of the province, and fever and cholera are prevalent; there is no important change to report in the state and prospects of the crops this week; owing to the want of closing rains the crops on the high lands have suffered, but the general outturn is expected to be a fair average, except in Gya, Chumparun, and Pooree; the harvesting of November rice is progressing, and winter rice is coming to ear; the cold weather and other miscellaneous crops are flourishing, but rain is wanted badly in Behar and parts of Chota Nagpore; the pressure in the Chilka tracts is increasing, but relief is being given.
N. W. P. and Oudh—		
Benares (Nov. 27th)...	...	No change.
Allahabad (" ")...	...	Rain wanted for unirrigated *rabi*.
Jhánsi (" 28th)...	...	Great heat; young wheat drying up; rain much wanted.
Agra (" 27th)...	A shower of rain.	Clouds about; prospects unchanged.
Bareilly (" 28th)...	Slight shower in parts of district on the 26th.	Weather now clear.
Meerut (" 28th)...	·1 at Sirdhana; very slight drizzle over the whole district on the 25th.	
Lucknow (" ")...	Slight drizzle in Mohanlalganj and Malihabad on the 26th.	
Sitapur (" ")...	.2 at Misrikh; only a few drops at Sadrpur.	
Fyzabad (" ")...	*Nil*	Rain wanted.
Partabgarh (" 26th)...	...	Prospects good.
		General Remarks.—Slight showers are reported in some districts, otherwise no change; rain is generally wanted.
Punjab—(Nov. 27th).		
Delhi ...	Slight rain	Weather cloudy; *rabi* sowings in progress; small-pox prevalent.
Hissar ...	·8	Weather cloudy; more rain required for the *rabi* sowings; cattle still suffering greatly; health generally good, but small-pox prevailing in Rohtak.
Umballa ...	·7	More rain wanted for the *rabi* sowings; health good.
Jullundur ...	1·4	Health and agricultural prospects good.
Amritsar ...	1·4	*Rabi* prospects fair; health good.
Lahore ...	1·2	Agricultural prospects much improved; health good.
Ráwalpindi ...	3·0	Agricultural prospects good; health generally good, but small-pox prevailing in some localities.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Punjab—*continued.*		
Mooltan ...	Drizzling rain	*Rabi* sowings still in progress, and water has entered the inundation canals; health good.
Dera Ismail Khan ...	1·3	*Rabi* sowings in progress; health good.
Peshâwar ...	5·7. (This is the rainfall reported in the telegram for the week, but does not agree with the daily telegrams, which give a rainfall of 8·0.)	
		General Remarks.—The rainfall has been general over the province, and agricultural prospects have improved in all save in southern districts, where more rain is still needed.
Central Provinces—		
Sambalpur (Nov. 23rd)	...	Early rice harvest nearly finished; health good; prices steady.
Upper Godávari (" 24th)	...	Clear; rice where saved being gathered; *jowar* and *rabi* crops doing well; cholera continues; prices high.
Bilâspur ...	...	Cloudy; *rabi* doing well; fever continues; prices rising.
Raipur ...	...	Rice harvesting; *rabi* doing well; fever continues; prices unchanged.
Bálaghát ...	...	Cool; prospects favourable; fever continues; prices stationary.
Chhindwára ...	...	Clear; prospects favourable; fever continues; prices steady.
Chánda (Nov. 25th) ...	...	*Kharif* harvesting; *rabi* sowings completed; fever continues; prices slightly fallen.
Betúl (" 26th) ...	...	Prospects favourable; fever prevalent; prices stationary.
Bhandára (" 27th) ...	...	Clear; *kharif* harvesting; *rabi* doing well; fever continues; prices stationary.
Nágpur (" 28th) ...	...	*Rabi* sowings completed; *kharif* harvesting; cotton-picking continues; health good; prices stationary.
Wardha ...	...	*Kharif* gathering; cotton-picking continues; *rabi* doing well.
Nimár ...	...	Days close and oppressive; prospects of *rabi* good; small-pox continues.
Hoshangabad ...	...	Warm; *kharif* harvesting; *rabi* promising; prices stationary.
Narsinghpur ...	...	*Rabi* doing well; health good; prices slightly risen.
Jubbulpore ...	...	Cloudy and warm; *kharif* threshing and winnowing progressing; *rabi* sowings completed; health good.
Saugor ...	...	*Rabi* doing well, but rain required; health good.
Seoni ...	...	Reaping and threshing of *kharif* continue; prices stationary.
Mandla ...	...	*Rabi* sowings continue; prospects favourable.
Damoh ...	...	*Rabi* doing well; *kharif* harvest continues.
		General Remarks.—*Rabi* sowings completed everywhere, except at Mandla, and the young plants doing well; rice harvest continues; *jowar* and other *kharif* corps gathering; prospects favourable; fever prevalent in many districts in the province; weather close and warm.
British Burma— **(Nov. 28th.)**		
Arrakan Division ...	*Nil*	Public health good; early paddy crops being reaped, remainder continue to promise well.
Pegu Division.		
Rangoon ...	*Nil*	Public health good; reports regarding crops continue favourable; some of those re-planted after second floods have been damaged by blight; total rainfall 102·64 inches.
Thonkwa ...	*Nil*	Health and crops good.
Bassein ...	*Nil*	Health good; crops flourishing.
Henzada ...	*Nil* ·40 in Myanoung during week ending 17th.	Total rainfall in Henzada 77·32, in Myanoung 63·90 inches; 5 deaths from cholera in Tahpoon township, 7 in Mengyee, otherwise public health good; crops prospects favourable; re-plantings promising.
Prome ...	*Nil*	Cholera in Poungday division, 17 deaths, 4 in Padoung, otherwise healthy; reaping begun; a good harvest expected generally.
Thayetmyo ...	*Nil*	Public health good; harvest prospects favourable; total rainfall 65·54 inches.
Tenasserim Division.		
Amherst ...	·90	Public health fair.
Shwegyeen ...	*Nil*	Public health good; crops progressing.
Tounghoo ...	*Nil*	Thirteen deaths from cholera; crops progressing.
		General Remarks.—Rains apparently ceased; every promise of a good harvest.
Assam—		
Gauháti (Nov. 28th)	*Nil*	Weather settled; clear and cool; mornings raw and foggy; prospects of crops continue favourable; public health good.
Sylhet (" ")	...	A thunder-storm with rain this morning; reaping of rice crop continues, outturn fair; prices gradually falling; some sickness still prevails.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Mysore and Coorg— (Nov. 28th)	1·2 in Chikmagalur, *nil* elsewhere.	Weather fine; prospects good; health indifferent; fever prevalent; ordinary rice sells in Bangalore at 15¼ to 15¾ lbs., and *raggi* 20 to 21 lbs. per rupee; for week ending 17th on civil works 29,940, on professional department works 50,080, and charitably relieved 31,370.
Hyderabad Assigned Districts—		
Amráoti (Nov. 28th)	...	*Kharif* harvesting continues; *rabi* crops fair.
Central India— (Nov. 28th)	...	Weather continues hot; water everywhere scarce; Rajputana emigrants passing through Neemuch, about 200 daily; cholera on railway works and in several towns in Malwa.
Rajputana—		
Abu (Nov. 27th)	·20	
Marwar („ 24th)	·20	A week's water supply in tanks; fever prevails to some extent; *rabi* sowings still progressing; cloudy; prices falling slowly.
Harowtee („ 26th)	...	Weather cool; prospects good.
Jhallawar („ 22nd)	...	Small-pox in the city; weather unsettled.
Ajmere („ 28th)	Rain general, accompanied with hail on 24th; average ·30.	Slight damage to cotton crops; ungerminated seeds lately sown destroyed; prospects otherwise improved; weather cooler.
Jeypore („ 27th)	·18	*Rabi* operations progressing favourably; weather seasonable; health fair.
Bhurtpore („ 28th)	·05	Cloudy; wind easterly.
Ulwur („ 27th)	·14	Sowings almost completed.
Nepal (Nov. 20th)	*Nil*	Agricultural prospects fair; fields being prepared for wheat, &c.; the autumn harvest is believed not to have exceeded 8 annas.

ERRATUM.—On page 2768 of the Supplement to the *Gazette of India* of the 3rd November 1877, opposite Henzada, for "52·10 in Mengyee," read "57·10."

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

WEEKLY CONDITION REPORT OF THE DISTRESSED DISTRICTS OF THE MYSORE PROVINCE.

PROVINCE OF MYSORE.

(No. 42).

Special Famine Report for the Week ending 24th November 1877.

Statement No. 42, regarding Famine Relief Operations in the Province of Mysore for the Week ending the 24th November 1877.

Excepting a few insignificant showers, there has been no rain in the past week. The settled weather is rapidly ripening the crops and in another fortnight or three weeks the whole of the early harvest will have been got in. The liberal grant of takavi for sowing paddy and gram has been even more useful and more eagerly sought after than was anticipated, and a considerable extent of land is likely to be thus brought under cultivation. The prospects of the later or Vaisak harvest are consequently extremely good. Prices still maintain a high level, but the more free use of local stores and the incoming new grain enable the people to live and to employ field labour, and the signs of severe distress are quickly passing away. The reports from the districts describe the existing population as generally able to maintain themselves, and to be in no need of further relief, but a careful house-to-house inspection in villages has brought to light individual cases which a little timely help will save. The Special Relief Officers are also busy distributing the funds placed at their disposal by the General Relief Committee, and are thus enabled to rescue large numbers of small proprietors and artizans from sinking to the class of day-labourers.

2. The imports of grain by rail amounted to 4,051 tons, or 1,347 tons more than in the preceding week. The imports were received from the following quarters :—

	Tons.
From Madras	3,214
„ Beypore, Palghat, and Coimbatore	316
„ Tanjore, Negapatam, and Trichinopoly	347
„ other places	174
TOTAL ...	4,051

From Bangalore 1,549 tons, or 114 tons less than last week, were exported to the following quarters as shewn by the octroi returns :—

	Tons.
Túmkúr	447
Bellary	205
Mysore	672
Usur (Salem District)	90
Round Bangalore	135
TOTAL ...	1,549

3. Prices continue unsteady, and in places have slightly risen, especially in Túmkúr. In Hassan, importation of rice from the western coast has had a beneficial effect on the markets of that district. The following statement gives the maximum and minimum prices in lbs. per rupee for each district :—

	Maximum in lbs. per Rupee.		Minimum in lbs. per Rupee.	
	2nd sort rice.	Ragi.	2nd sort rice.	Ragi.
Bangalore District (for 8 taluks) ...	16	21	12	16
Kolar „ „ ...	16	$22\frac{1}{2}$	12	16
Túmkúr „	14	22	12	17
Mysore „ (for 9 taluks) ...	14	36	10	$12\frac{1}{2}$
Hassan „ (for 8 taluks) ...	14	16	$9\frac{1}{2}$	12
Kadur „ (for 5 taluks) ...	$13\frac{1}{2}$	27	9	14
Shimoga „	15	30	10	18
Chitaldrug „	$14\frac{1}{4}$	32	10	15

4. The number of labourers on civil relief works was 24,896, or a net decrease of 5,044, occurring chiefly in the Túmkúr District, and due to people returning to their homes to take part in reaping operations.

5. Under the Public Works Department 48,191 labourers were employed on strictly famine relief works, or a decrease of 1,889 compared with the number returned last week, due to a falling off on the railway works. The returns are prepared so as to exclude ordinary Public Works labour. Adding such labour, the total number of persons employed by the Department Public Works was, for purposes of comparison with previous returns, about 57,191. The following is a list of works on which are employed 500 labourers and upwards :—

District.	Work.	No. employed.
Bangalore ...	State Railway	20,396
	Bangalore Water-supply	3,720
	Bangalore-Bellary (*viâ* Devanhalli Road)	1,276
	Mallappa Chetti's Tank	1,819
	Bhadram Tank	1,758
Túmkúr ...	Nelamangala-Túmkúr Road	2,913
	Túmkúr-Shimoga Road	2,846
	Kunigal-Yediyur Road	822
	Túmkúr-Bellary Road	2,608
	Túmkúr-Kunigal Road	626
Mysore ...	Mysore Water-works	3,314
	Maddur Ane Channel works	763
Hassan ...	Mandigiri Channel	590
Kadur ...	Devanurkeresante Channel	719
Chitaldrug ...	Timmenhalli Tank	1,723

It will be observed that nearly the whole of the relief labour is concentrated on a few large works. As the minimum scale of labour alluded to in the last report is liberal, the Chief Engineer has decided to exact a full task from all able-bodied persons on the Public Works, the Civil Officers first passing the gangs as fit for the task. Civil Officers have been strictly cautioned to watch that no pressure is allowed on weakly labourers and to guard against such being driven off the works.

6. The numbers fed gratuitously in relief camps amounted to 21,458, or a decrease of 9,912 as under :—

	Past week.	Present week.	Increase.	Decrease.
Bangalore District ...	9,109	5,521	...	3,588
Do. Municipality ...	4,215	3,277	...	938
Kolar District ...	1,837	1,129	...	708
Túmkúr " ...	5,496	3,454	...	2,042
Mysore " ...	1,644	1,456	...	188
Do. Municipality ...	700	710	10	...
Hassan District ...	2,108	1,735	...	373
Kadur " ...	510	562	52	...
Shimoga " ...	369	319	...	50
Chitaldrug " ...	5,382	3,295	...	2,087
Total......	31,370	21,458	62	9,974
		Deduct Increase	...	62
		Net Decrease	...	9,912

About the end of August last some 227,000 persons were being fed in upwards of 200 open kitchens, or an average of 1,135 persons in each kitchen. The present returns shew 21,458 fed in 86 enclosed camps, or an average of 249 paupers in each camp. The gradual closure of outlying camps goes on week by week, the more able-bodied being drafted to works and the feeble and sick removed to more central places where supervision and medical attendance can be secured. The rest houses on the Mysore roads leading to the Coffee Districts have been reduced to three.

7. The number on civil and professional works amounted to 73,087 compared with 21,458 on charitable relief. The following table gives the numbers relieved since the last week in August :—

Week ending—	C. W.		P. W. D.		Total.		Charitable.		Grand Total.
1st September ...	29,295	+	24,206	=	53,501	+	227,067	=	280,568
8th " ...	28,754	+	24,847	=	53,601	+	221,176	=	274,777
15th " ...	28,803	+	24,942	=	53,745	+	208,683	=	262,428
22nd " ...	31,280	+	25,271	=	56,551	+	161,892	=	218,443
29th " ...	31,038	+	27,655	=	58,693	+	126,204	=	184,897
6th October ...	27,009	+	35,497	=	62,506	+	103,750	=	166,256
13th " ...	32,461	+	39,741	=	72,202	+	88,757	=	160,959
20th " ...	30,275	+	48,213	=	78,488	+	73,838	=	152,326
27th " ...	31,167	+	52,274	=	83,441	+	61,148	=	144,589
*3rd November ...	33,335	+	43,870	=	77,205	+	51,328	=	128,533
*10th " ...	34,209	+	46,953	=	81,162	+	42,331	=	123,493
*17th " ...	29,940	+	50,080	=	80,020	+	31,370	=	111,390
*24th " ...	24,896	+	48,191	=	73,087	+	21,458	=	94,545

8. The average cost of feeding per head is returned as follows :—

	Cost per head, Rs.	A.	P.
Bangalore District	0	12	5
Do. Municipality	1	3	2
Kolar District	0	15	10
Túmkúr "	1	6	10
Mysore "	0	11	1
Do. Municipality	0	6	0
Hassan District	0	15	3
Kadur "	1	0	3
Shimoga "	0	13	10
Chitaldrug "	1	0	5

or an average cost per head of one rupee, compared with 14 annas for the preceding week. The reduction of numbers affects the average cost per head as the establishments have not always been proportionately reduced sufficiently promptly.

By Order,
A. WINGATE,
Additional Secretary.

BANGALORE,
1st December 1877.

* *N. B.*—About 9,000 labourers are deducted from the Public Works total as not being relief labour.

GRAND TOTAL						20,313	14,007									

* These figures are for the week ending 10th November. † For the week ending the 17th November. ‡ For details and dates, see table appended.

The most important item in the week's telegraphic news is the fall of rain in parts of Ahmednagar, Poona, and Satara. Full particulars have not been received, but no doubt the effect on the spring crops must be very beneficial.

2. The prices of food grains continue to fall in Satara and the Kanarese Districts. They are now cheapest in Belgaum and Dharwar, the two districts in which, together with Kaladgi, they have usually been dearest. There is slight improvement, too, in Khandesh and Ahmednagar. In Nasik and Sholapur, on the other hand, the rates are slightly higher. In Poona, jowari is cheaper and bajri dearer than last week.

3. Of the twenty thousand labourers upon relief works in the week ending the 17th November, only six thousand were discharged in the succeeding week, which leaves fourteen thousand to be disposed of during the last five days of the month. The majority of these are in the Nasik, Sholapur, and Poona Collectorates; and in the last two they are chiefly employed upon large irrigation works, on which many will be able to remain as ordinary labourers after the end of November.

4. Only 18 deaths from cholera have occurred during the week in the nine districts.

5. Written reports have been received from the Collectors of Nasik, Ahmednagar, Poona, Sholapur, and Satara, for the week ending the 24th November, and from the other Collectors for the preceding week. The great want of rain, since partially relieved, is dwelt upon by the Collectors of Nasik, Ahmednagar, and Poona. The autumn harvest is reported to be plentiful in Satara. In Kaladgi and Dharwar the demand for agricultural labour is greater than the supply. Fever is prevalent in Ahmednagar, Dharwar, and especially in Kaladgi.

6. The following table gives the expenditure by Government, during the week ending 10th November, upon gratuitous relief, and in payments made to the young children of labourers employed upon relief works. The number of children has fallen during the week from 11,966 to 6,480. The number of persons being gratuitously relieved can still not be stated accurately, as complete returns have not been received from the Collectors of Satara and Kaladgi. It may be taken approximately as 20,138. This gives a decrease of 9,411 :—

Districts.	Collector's Discretionary Grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116, of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.		
	Average daily number of persons relieved during the Week.	Expenditure during the Week.	Total Expenditure up to date.	Average daily number of children, and of women taking care of them.	Expenditure during the Week.	Total Expenditure up to date.

TOTAL ...	16,300	10,758	10,66,775	6,480	816	3,74,103

* Returns incomplete.

7. In the following table are enumerated the works under Public Works Department Agency upon which the average daily number of persons employed has amounted to five

hundred for the week ending 17th instant. The total number engaged on these large works constitutes 65·79 per cent. of the whole number of labourers upon relief works :—

DISTRICTS.	Works.	Number of labourers.	Total.	REMARKS.
Khandesh ...	......	...	...	
Násik ... } Ahmednagar }	Dhond-Manmad Railway ...	3,881	3,881	Approximate number of relief labourers.
Poona ... {	Nira Canal ...	1,524	3,423	
	Motoba Tank ...	1,353		
	Mutha Canal ...	546		
Sholapur ... {	Ashti Tank ...	2,348	3,126	
	Pangaon Tank ...	778		
Satara ...	Mhaswad Tank ...	818	818	
Kaládgi ...	......	...	...	
Belgaum ...	Gokak Canal ...	563	563	
Dharwar ...	......	...	...	
	GRAND TOTAL ...	...	11,811	

8. Tables A and B are brought up to the week ending 17th instant. The number of persons on works under Public Works Department Agency in the nine affected districts was at this date 15,642, and on works under Civil Agency 2,310. The percentage of persons upon works under Civil Agency has thus fallen during the week from 18·1 to 12·8 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 1,03,40,814, which, with the expenditure of Rs. 1,36,226 upon works in Ratnagiri and Kanara, and Rs. 10,66,775 from the Collectors' discretionary allowances, gives a total of Rs. 1,15,43,815.

9. The table showing the condition of the affected Native States is appended as usual. The number of labourers on relief works is being reduced. Prices are generally falling.

10. During the week ending 24th November, 183 tons of food-grains were exported from Bombay to the Southern Maratha ports, and 1,007 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusawal-Násik lines, making a total of 1,190 tons for the week. This is more by 320 tons than the importations of the previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 24th November 1877 to the Southern Maratha ports and the railway stations in the distressed districts. It will be seen that the total amount delivered up to the 24th November was 432,343 tons—

FOOD GRAINS SENT TO	In October, November, and December 1876.	In January, February, and March 1877.	In April, May, and June 1877.	In July and August 1877.	In September 1877.	In October 1877.	In November up to 24th.	TOTAL.
	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.
Southern Maratha ports	44,215	46,332	54,547	16,061	3,319	525	599	165,598
South-Eastern line, from Poona to Sholapur ...	67,195	41,708	45,798	41,990	16,256	8,720	1,369	223,036
North-Eastern line, from Bhusawal to Násik ...	12,829	7,471	5,581	9,567	2,519	4,637	1,105	43,709
TOTAL ...	124,239	95,511	105,926	67,618	22,094	13,882	3,023	432,343

11. There have been decreases during the week of 6,306 in the number of labourers on relief works, 5,486 in that of young children, and 9,411 in that of people on gratuitous relief.

12. The general situation continues to improve steadily, and relief operations of all kinds are rapidly being brought to a conclusion.

C. J. MERRIMAN, *Colonel, R. E.,*
Acting Secretary to Government.

PUBLIC WORKS DEPARTMENT.

[RAILWAY.]

ERRATUM.

In foot-note *d* to the statement of Traffic Expenses, No. IX, published in page 2780 of the Supplement to the *Gazette of India* of 10th November 1877, "Rs. 9,991" should be substituted for "Rs. 991."

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

IRRIGATION OPERATIONS OF THE NORTH-WESTERN PROVINCES FOR THE RABI SEASON AND THE YEAR 1876-77.

Nos. 884—889A., dated the 24th July 1877.

RESOLUTION—By His Honor the Lieutenant-Governor, North-Western Provinces and Oudh.

READ the following papers :—

Resolution by His Honor the Lieutenant-Governor on irrigation operations for the kharif season 1876-77, Nos. 303-308A of 21st February 1877.
Statements A9, B9, C9, for rabi, 1876-77.
Ditto ditto for year 1876-77.

OBSERVATIONS.—The following table shows the areas irrigated during kharif and rabi since 1868-69 :—

	Area.		
	Kharif.	Rabi.	Total.
	Acres.	Acres.	Acres.
1868-69	487,485	957,413	1,444,898
1869-70	501,625	588,048	1,089,673
1870-71	396,399	654,409	1,050,868
1871-72	333,120	519,374	852,494
1872-73	353,621	586,965	940,586
1873-74	401,622	647,712	1,049,334
1874-75	389,707	752,745	1,142,452
1875-76	429,784	758,403	1,188,187
1876-77	463,530	776,353	1,239,883

2. The increase over the area of last year is—

Kharif	33,746	
Rabi	17,950	51,696

3. The kharif area has been already reviewed in the Resolution for that season, and no further remarks are necessary. (Nos. 303—308A of 21st February 1877.)

4. The following compares the rabi areas on the several canals for the two last years :—

	1875-76.	1876-77.	Difference.	
			More.	Less.
	Acres.	Acres.	Acres.	Acres.
Ganges Canal	571,842	592,951	21,109	...
Eastern Jumna Canal	108,552	104,397	...	4,155
Dun	6,156	6,869	713	...
Rohilkhand	46,739	37,483	...	9,256
Agra, 1st division	7,466	10,225	2,759	...
„ 2nd „	14,113	22,006	7,893	...
Bijnor	1,876	1,711	...	165
Bundelkhand	1,659	711	...	948
TOTAL	758,403	776,353	32,474	14,52

The increase on the Ganges Canal was due to wheat, which rose by 56,216 acres, while there was a decrease of 25,907, and 11,037 acres, respectively, in barley and other grains.

On the Agra Canal the increase was distributed as follows :—

Wheat	3,347
Other grains	4,879
Pulses	3,131

and there was a decrease of 901 acres in barley.

On the Rohilkhand Canals the decrease was as follows :—

Barley	3,388
Other grains	3,356
Pulses	2,622

and there was an increase of 711 acres in wheat.

5. The decrease in Rohilkhand is to be attributed to the rain which fell in October, January, and February in the Tarai and Bareilly districts.

6. The following table compares the areas of the principal rabi crops for six years :—

Year.	Wheat.	Barley.	Other grains.	Pulses.	Opium, &c.
	Acres.	Acres.	Acres.	Acres.	Acres.
1871-72	365,950	99,650	19,988	28,264	5,449
1872-73	363,529	160,023	13,560	38,422	7,994
1873-74	402,755	185,581	8,219	28,008	8,440
1874-75	445,970	204,896	26,139	48,629	10,189
1875-76	471,498	191,812	31,973	35,719	12,986
1876-77	532,221	160,361	24,821	26,584	12,530

This table shows that the general increase is entirely due to wheat.

This crop has steadily increased by 168,692 acres, since 1872-73, at the following rate :—

1873-74	39,226
1874-75	43,215
1875-76	25,528
1876-77	60,723

Barley, pulses, and inferior grains have decreased since 1874-75.

7. Considering the quantity of rain which fell throughout the North-Western Provinces in October, and the unusually heavy winter rains of January, February and March, the results may be considered favorable, and prove that irrigation is now, to a great extent, independent of the seasons on the principal canals, and that it is steadily increasing on the Agra Canal.

The present returns show that it is only on the Rohilkhand Canals where the irrigation has seriously diminished owing to the rainfall.

ORDER.—Ordered, that the above Resolution be submitted to the Government of India for information.

Also to the Governments of Bengal and Punjab; to the Government, North-Western Provinces, in the General Department, and in the Provincial Branch of the Public Works Department, and to the Board of Revenue; also that it be published in the *Government Gazette.*

By order, &c.,

CLINTON C. ANDERSON,

Offg. Secretary to Government, N. W. P.,

Irrigation Branch.

ORDERED, that copies of the Resolution be forwarded to Superintending and Executive Engineers, with the remark that all the divisional returns were received in due time, with the exception of those of the 1st Division, Agra and Dun Canals, which had to be returned; Annual, instead of Rabi, returns having been forwarded by the Executive Engineers.

G. H. D. WALKER,

Asst. Secy. to Govt., N.-W. P., I. B.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 4TH DECEMBER 1877.

GENERAL REMARKS.—In Madras general rain has fallen from Madras southwards along the Coromandel Coast, and in several inland districts; general prospects continue good, except in Ganjam and Vizagapatam, where drought prevails. The total number on works is 237,797, 14,326 less than last week, and on charity 365,589, 46,126 less than last week. In Mysore there has been no rain; harvesting is in progress, and prices continue to fall; the number on works in the week ending the 24th ultimo was 73,087, and on charity 21,458, 6,933 and 9,912 less than in the previous week. In Bombay a sudden rise (followed by a speedy fall) of the river is reported from Sind, but this has not resulted in any material change in prospects; beneficial showers have fallen in Satara and parts of Poona; rain is wanted in Guzerat, Khandesh, and the North Deccan. In the Central Provinces rain is reported from the hill districts of Chhindwára, Seoni, and Bálaghát, and slight showers from the Nerbudda Valley; the *kharif* harvest continues, and the *rabi* is generally thriving. In Berar a little rain has fallen, and prospects are good. In Central India there has been no rain, and it is much wanted. In Rajputana also no rain has fallen, but prospects appear to be generally fair. In Bengal the only rain reported is light showers in a few of the Eastern Districts; there is no change the prospects of the crops; the harvest of the late rice is yielding an outturn generally above the average; rain is much wanted for the *rabi* in Gya, Shahabad, and Chumparun, and would be beneficial in many other districts: the condition of the south of Pooree is becoming worse. A little rain is reported from Upper Assam; prospects are good. In Burma prospects are very favourable. In the North-Western Provinces and Oudh a slight shower is reported from Jhánsi: elsewhere no rain has fallen; the prospects of the *rabi* are so far good, but rain is generally required. In the Punjab rain has fallen only at Hissar; agricultural prospects are fair everywhere except in a few of the Southern Districts.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Ganjam (Dec. 1st)	*Nil*	Rice 9·21, *raggi* 15·33, *cholum* 15·2, *cumboo* 15·92; average number fed at Berhampore and Itchapore 47; unirrigated paddy generally withered, irrigated fair; light paddy crop being cut; imports, Chilka land rice, 127 tons.
Vizagapatam („ 3rd)	...	Rice 8·1, *cholum* 9·4, *raggi* 13·4, *cumboo* 14·6; imports continue; heat very unseasonable; country drying up.
Godavery („ „)	1·0	Rice 8·52, *cholum* 12·43, *raggi* 16·17, *cumboo* 17·0; crops generally good, though slightly suffering from blight; harvest of *rasangi*, paddy, *budama*, *jilama*, *chama*, and *arugu*, outturn ½ to ¾; water over anicut 11 inches.
Kistna (Nov. 29th)	*Nil*	Rice 6·91, *cholum* 10·97, *raggi* 11·33, *cumboo* 12·23; on works 3,137; relief camps and houses closed; in poor-house in Bander 96; sick in relief hospitals 71; village relief 4,413; *cholum* and paddy in the ear still suffer from blight in some taluks; *varugu* damaged by locusts in Bapatla and Narsarowpet taluks require rain; later crops generally good; maize harvested in Repalli and Nuzvid, outturn ¾; black paddy harvested in Bander, Guntoor, and Repalli, outturn ½ to full.
Nellore (Dec. 1st)	0·61	Rice 6·97, *cholum* 8·26, *raggi* 9·41, *cumboo* 9·06; on civil works 1,571 reported, probably 7,800; on Department Public Works 13,025; on canal 22,318; children 281; camps and houses 5,323 reported, probably 6,800; village relief 1,033; crops fair, but suffering in parts from insects and blight.
Cuddapah (Nov. 30th)	0·08	Rice 7·75, *cholum* 11·50, *raggi* 11·51, *cumboo* 14·14; on works 14,314; children 1,464; camps 2,174; village relief 4,627; *cumboo* and paddy harvested in parts, outturn ⅞; *cholum* in some places suffering from the effects of locusts.
Bellary (Dec. 1st)	*Nil*	Rice 7·34, *cholum* 10·67, *raggi* 12·13, *cumboo* 11·7; on works 15,295; children 1,490; camps and houses 7,237; village relief 42,840; *cholum*, *raggi*, *cumboo*, and paddy being harvested; future prospects very good.
Kurnool („ „)	1·0 in Markapur.	Rice 7·32, *cholum* 9·83, *raggi* 10·13, *cumboo* 11·13; on works 22,792; children 1,995; in camps 1770; village relief 40,395; fever prevails exceedingly; standing crops generally thriving well.
North Arcot (Nov. 30th)	0·52	Rice 8·4, *cholum* 9·1, *raggi* 9·7, *cumboo* 10·3, wheat 5·9; on works 26,151; children 5,589; camps and houses 12,089; village relief 27,421; crops good; harvest of paddy and *raggi*, outturn poor.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*continued.*		
South Arcot (Dec. 1st)	General rain, average of district 2·67.	Rice 8·17, *cholum* 10·92, *raggi* 11·16, *cumboo* 11·66; on works, Revenue Department 1,515, professional 169, but returns imperfect; children none; camps 7,371; villages 35,376, return of village relief from one deputy tahsildar's range not received; crops good; *kar* paddy harvested in parts, outturn tolerable.
Tanjore („ 1st)	6·05	Rice 7·12, *cholum* 13·19, *raggi* 13·87, *cumboo* 13·72; on works none; children none; camps and houses none; village relief none; rivers about ½; harvest, outturn of *kadappu* and *kuruvai* ½ to ¾, *raggi* and *cholum* ½ to ¾.
Trichinopoly („ „)	Average of district 1·17.	Rice 7·73, *cholum nil*, *raggi* 10·97, *cumboo* 13·18; on works 11,372; children 1,750; in camps 823; village relief 5,302; sowing and transplanting continue; standing crops good but for blight here and there; *kar* paddy, *cumboo*, and *raggi* harvested in parts, outturn ranges from a 6 to 12-anna crop.
Madura („ „)	General rain, heavy in some parts, average 1·48.	Rice 8·44, *cholum* 22·61, *raggi* 14·36, *cumboo* 12·12; on works 6,574; children 885; in camps 7,933; village relief 25,471; freshes continue in the rivers; *cholum* and *samay* harvested in Periacolam and Dindigul to little extent.
Tinnevelly („ „)	5·22	Rice 9·15, *cholum* 13·50, *raggi* 18·60, *cumboo* 13·20; camps and houses 782; village relief 1,232; crops generally good, though wet diseased and dry damaged in some places by excessive rain; harvest of *samay* and *kadakanni* in parts, outturn good.
Coimbatore („ „)	0·24	Rice 9·17, *cholum* 10·85, *raggi* 13·48, *cumboo* 17·74; on works 28,331; children 566; camps and houses 13,972; village relief 5,751; crops good; harvest of paddy, *raggi*, *cholum*, and *cumboo* in parts, outturn ½ to full, *cumboo* ½ to ¾.
Nilgiris („ „)	2·63	Rice 7·48, *cholum* 8·42, *raggi* 10·40, *cumboo* 9·78; relief works none; camps and houses 97; village relief 12; harvest of *samay* and *korali*, outturn about ¼; crops much damaged by excessive rain.
Salem („ 3rd)	·72	Rice 7·53, *raggi* 9·49, *cumboo* 12·64, *cholum* 8·77; on works 53,330; camps 13,500; village relief 20,000; crops thriving; harvest of paddy and *cumboo*, outturn of former full, latter ¾.
South Canara („ 1st)	·02 in one taluka.	Rice 11·34, *raggi* 13·90; second rice crops in good condition.
Malabar („ „)	·74	Rice 10·28, *raggi* 15·17; gratuitous relief 87; rainfall sufficient and favourable for existing cultivation; second crop in good condition; prospects good.
Chingleput („ „)	Average 1·0	Rice 8·47, *raggi* 11·75, *cumboo* 11·88, *cholum* 9·95; on works 3,819; children 532; camps 2,965; village relief 50,622; crops in fair condition; *kar*, *samba*, *raggi*, and *cumboo* harvested in parts, outturn from ¾ to full, *raggi* full.
Madras („ 4th)	4·05	Rice 7·3, *raggi* 10·64, *cholum* 9·8. *General Remarks.*—General prospects continue fair, except in Ganjam and Vizagapatam; total number on works 237,797; total number gratuitously relieved 365,589; exports of grain by rail from Madras during the week ending the 1st December, 6,226 tons.
Bombay—(Dec. 5th).		
Sind. (Dec. 5th).		
Kurrachee ...	Slight rain in Kurrachee, Dádu, and Kotri.	River on 30th 8 feet against 5 feet on same date last year; fever prevalent in some talukas.
Shikarpur ...	...	River going down, 7 feet 5 inches on 5th against 3 feet 2 inches last year; late rise has flooded much *rabi* crops in *kacha* lands and beds of *dhandhs*, damaging wheat and pulse; no signs of rain.
Hyderabad ...	...	River rose from Saturday, but is now falling; fever in 11 talukas; *rabi* sowings progressing; cattle disease in two talukas.
Upper Sind Frontier ...	...	Weather cloudy and cold; river rose and fell suddenly, filling all canals; prospects unchanged; health indifferent.
Guzerat (Dec. 5th).		
Ahmedabad ...	...	Cholera in city, cases 27, deaths 9.
Surat ...	...	Crops generally good; 8 deaths from cholera at Surat.
Broach ...	...	One death from cholera.
Khandesh and Násik (Dec. 5th).		
Khandesh ...	...	Sky cloudy, hopes of rain; crops as before; ague continues in western talukas.
Konkan (Dec. 5th).		
Colába (Dec. 3rd)	...	Weather good at Alibág; morning cold; rice crops harvested; sowing of *rabi* crop commenced.
Ratnagiri (Nov. 27th)	*Nil*	Late crops all cut; *holvi* crops being cut.
Deccan (Dec. 5th).		
Poona ...	·10 in Sirur on 28th Nov. ·12 in Purandhar.	More rain still wanted in all talukas; 1 death from cholera in Khed.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*continued.*		
Ahmednagar ...	...	*Rabi* crops improving where rain fell; more rain required in northern talukas, where crops are suffering for its want; 3 deaths from cholera.
Satara	1·02 in Karád, 2·25 in Wálwa, 1·90 in Khandála and from ·07 to ·90 in remaining talukas.	Rainfall in 6 talukas most beneficial to *rabi* crops.
Southern Mahratta Country. (Dec. 5th.)		
Kaládgi ...	...	Wheat and gram suffering from insects in Hungund; *rabi* crops good in other talukas; rain wanted generally; *kharif* harvest continues; *rabi* sowing nearly completed.
Belgaum ...	...	Reaping of *kharif* continues; *rabi* crops well.
Dharwar ...	...	Crops and public health as before.
Kanara ...	...	Weather fair; cholera deaths 3.
Kattywar and Gaekwar's Territory. (Dec. 5th.)		
Rájkot ...	...	*Rabi* crops healthy; weather cold and cloudy; fever prevalent.
Baroda ...	...	Thirty cholera cases in city, 8 fatal.
		General Remarks.—No change in Sind; rain required and expected in Khandesh; beneficial showers in parts of Poona and Satara; more rain wanted in North Deccan and parts of Guzerat.
Bengal—(Dec. 4th).		
Chittagong	*Nil*	Days are still warm; nights are cool; in the south the early *amun* has been reaped; prices there are very low; the crops elsewhere are very good.
Noakholly	*Nil*	Weather unusually warm; the early *amun* crops are being reaped; prospects are fair; sporadic cases of cholera occur in Rámganj and Lakhmipur.
Chittagong Hill Tracts...	*Nil*	Weather seasonable; the gathering of paddy crop of the plough cultivators still continues; mustard is growing well; cotton is sold in small quantities in the local markets.
Hill Tipperah ...	0·22 Slight rainfall on the night of the 27th November.	Weather rather warm for the time of year; state and prospects of the crops are satisfactory.
Backergunge ...	*Nil*	The reaping of *amun* has begun; owing to the drought, the crops to a certain extent have been damaged on high lands in the sub-division of Dukhin Shabazpore; the sky appears now and then cloudy, and great apprehension is felt that grubs would be generated and damage done to the standing crops, but fortunately the clouds disappear; the markets are well supplied, and the price of rice has gone down; cholera and fever still continue in the police stations of Nalchiti, Backergunge, Gournadi, Mendiganj, Sharupkati, Perozepore, and Mátberia, but very few cases of death are reported from those places.
Furreedpore ...	*Nil*	Weather rather hot in the day; mornings cool; state of the crops is fair; *amun* is being reaped.
Dacca ...	0·08	Weather close and hot; the rain was only local; state and prospects of the crops are satisfactory.
Mymensingh ...	0·10	Weather fine; state and prospects of the crops are excellent.
Tipperah ...	*Nil*	Weather cloudy and sultry; very warm for the time of year; prospects of all the crops are good.
24-Pergunnahs ...	*Nil*	Weather fair, but unseasonably warm; state and prospects of the crops are good; sporadic cases of cholera and fever are numerous.
Jessore ...	*Nil*	Weather unseasonably warm; *amun* is being reaped; the yield in Bagirhat and Jhenidah will not be more than 10 annas; winter crops are doing well, but some rain is looked for; fever and cholera are prevalent.
Nuddea ...	*Nil*	Weather still hot; the outturn of *amun* rice in Kooshtea is poor; the cold-weather crops promise well; cholera is prevalent in many parts of the district.
Moorshedabad ...	*Nil*	Weather abnormally hot during the early part of the week, but cooler since 30th November; the *amun* harvest has commenced, with the prospect of an outturn generally above the average; the spring crops so far promise well; cholera is prevalent in several thanas of the district and is apparently spreading; there is much fever in Berhampore.
Pubna ...	*Nil*	Weather clear and seasonable; reaping of *amun* paddy is nearly completed; state and prospects of *haimanti* crops are favourable; fever is still going on as before; cholera has appeared both in the town and mofussil.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*continued.*		
Rajshahye ...	*Nil*	Days are warm for this season of the year; heavy dew at night; a little rain is wanted for *rabi* crops; reaping of *ropa* and *bora dhan* continues; fever is still prevalént, and some cases of cholera have been reported during the week.
Bogra ...	*Nil*	Weather clear and rather warm for the time of year; prevailing wind is from north to west; the *amun* crop, which is now being reaped, is a capital one; the *rabi* crops are looking well; new rice is selling in the interior from 30 to 35 seers for the rupee; cholera of a bad type is still prevalent, chiefly in the eastern part of the district; there have been 1,043 fatal cases since its appearance in this district.
Dinagepore ...	Return not received.	Weather somewhat warm, with wind from the west; rice crop is very good; reaping of barley has commenced; there have been 13 deaths from cholera against 10 deaths reported last week, principally in the southern thanas; one case at Alwakhuwa fair.
Rungpore ...	...	The weather has become much cooler; a south-westerly wind blows all day and makes the evening cool; the state and prospects of the crops continue to be satisfactory; the harvest of the *amuñ* crop has commenced, and a good outturn is expected; fever of the ordinary intermittent type is common; cholera of an epidemic character prevails in three of the four thanas of the Gaibanda sub-division.
Cooch Behar ...	*Nil*	Weather fair and bright; the cold weather is gradually setting in; the prospects of the crops are good; *amun* rice is being reaped, and an average 10-anna crop is expected; the cold weather crops in the ground are getting on well; transplantation of the tobacco plants has commenced; fever is still prevalent in some parts of the district, especially in the Makhaliganj sub-division; public health is otherwise good for the season.
Jalpáiguri ...	*Nil*	Weather pleasantly cool; harvesting of *haimanti* rice is going on throughout the district; transplantation of tobacco plants is progressing well; public health is not yet good; fever is still prevalent in the town of Jalpáiguri.
Darjeeling ...	*Nil*	Frosty mornings, with bright weather during the early part of the day, hazy towards evening, threatening rain; the crops throughout the district are progressing favourably; the early *haimanti* rice is being reaped in some places.
Midnapore ...	*Nil*	Weather warm, but cooler since 30th November; state and prospects of the crops are fair; fever is still very prevalent, though it is apparently a little better.
Howrah ...	*Nil*	Weather much too hot for the season early in the week, cooler at the end; the harvest is progressing on the high lands; no change in the prospects; a great deal of fever about, especially in the north of the district.
Hooghly ...	*Nil*	Weather unusually warm for the season; harvest of late rice is going on; *rabi* seedlings are doing well; fever is very prevalent; cholera has appeared in a sporadic form.
Burdwan ...	*Nil*	Winter rice crop is being reaped; *rabi* sowings are nearly completed; fever is prevalent.
Bankoora ...	*Nil*	Weather clear and bright, but warmer than is usual in this season; all the crops, especially the winter rice, which is not yet reaped, look extremely well.
Beerbhoom ...	*Nil*	Weather dry and warm for the time of year; the cold weather crops are doing well; rain would, however, be of service to them, but it would be very detrimental to the rice now being everywhere reaped.
Sonthal Pergunnahs ...	*Nil*	Weather dry and getting colder, with a few clouds about; rice is excellent in the low lands of Deoghur, in the Godda *daman* and in Doomka; it is not so good in the Godda zemindaries; 13 annas all round seem the proper estimate; rain is wanted every where for *rabi* crops; health is good.
Bhágalpur ...	*Nil*	Weather cold, with westerly wind and clear sky; *aghani* harvest has commenced; prospects are favourable; cholera and fever are on the decrease.
Monghyr ...	*Nil*	Weather still very hot; if there be Christmas rains, an 8-anna crop may be expected; if not, the chances will be much worse.
Purneah ...	*Nil*	West wind during the day; the weather is getting colder at night; the *aghani* crop will be about 12 annas; in some parts of the north of the district it is very good; it is now being cut; mustard is coming generally into flower; its prospects are good; transplanting and weeding of tobacco are well forward; general health is very bad; fever of a bad type is prevalent, and cholera is reported from a few villages.
Maldah ...	*Nil*	Weather unseasonably hot till the 30th November; state and prospects of the crops are satisfactory; the health of the district is very bad; fever prevails; cholera is increasing, 21 deaths have been reported during the week, but from so many and such widely scattered villages that aid cannot easily be afforded.
Durbhunga ...	*Nil*	Weather seasonably cold; the rice harvest is commencing, but nothing definite can be said as to the extent of deficiency which is apprehended in the upland rice; the *rabi* crops look well; public health is good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*continued.*		
Mozufferpore ...	*Nil*	Weather cold, with west wind; there is no change in the prospects of the rice crop; the *rabi* crops are doing well, except in Seetamurhee sub-division, where prospects are unfavourable.
Sarun ...	*Nil*	Whether fair and rather warm at the beginning of the week; there has been, however, a marked change since 30th November; prospects of the crops continue fair; rain during the month will do much good; prices are stationary; public health is good.
Chumparun ...	*Nil*	The latter part of the week has been much colder; no material change is to be reported in the prospects of the crops; rain is urgently required for the *rabi*. especially in the south and south-east portions of the *sadar* division; no rain fell throughout November, and the fall up to date has been only half the average; there will be a very large falling-off in poppy sowings in consequence of want of moisture in the southern part of the district.
Patna ...	*Nil*	Weather hot during the early part of the week; cold during the latter part; state and prospects of the crops are favourable, but a little rain would do good.
Gya ...	*Nil*	Weather latterly cool and clear; the signs of coming rain have disappeared; maximum thermometer in the shade 90·8°; the unusual heat of November, with consequent absence of dews at night, has not been favourable for the *rabi;* the *kharif* harvest has commenced, and in places the cutting of *koorthi;* the Nowáda and Jehanabad officers estimate the outturn of the former at 12 and 4 annas respectively; it is believed that the average of the district will not be over 8 annas; the average in Jehanabad will probably not be quite so low as 4 annas.
Shahabad ...	*Nil*	Weather cool; rain is urgently necessary for the *rabi,* except where the Sone and artificial irrigation is available.
Hazáribágh ...	*Nil*	Weather seasonable; *rabi* sowings have been completed; rain would be beneficial.
Lohardugga ...	*Nil*	Weather unusually warm for the time of year; rain seems impending; there is nothing further to report regarding the rice crops; harvest operations are still proceeding; rain is required for the *rabi* crops.
Maubhoom ...	*Nil*	Very uncertain weather; one day it is cloudy and another day it is bright and hot; the cold weather can hardly be said to have set in; another peculiarity is, that even on a cloudless night no dew falls; nothing to report from the *sadar* sub-division in addition to what was said last week; but from Govindpur the sub-divisional officer reports the outtern of *dhan* to be not more than eight annas, and as regards the *rabi,* he says the prospects are not favourable; rain would be a great boon just now.
Singbhoom ...	*Nil*	Weather seasonable; the cold weather crops are doing well; the district is healthy.
Balasore ...	*Nil*	Weather warm for the season; no special change to report; the harvest has commenced; a little cattle disease is reported from the district, and a few cases of cholera, and in the north, of fever.
Cuttack ...	*Nil*	Weather fine and warm for the time of year; early *sarad* is being reaped and coming to market; late *sarad* is ripening; *rabi* is in good condition and is flowering; cholera is prevalent in Kendrapára sub-division and some other places.
Pooree ...	*Nil*	Weather fair, warm for the season; the state of the crops in the Khoordah sub-division is nearly the same as reported last week; in many parts of the sub-division the *sarad* crop is suffering for want of rain, but other winter crops are doing well; rice is selling cheaper, owing to the sale of Government paddy throughout the sub-division; in other parts of the district the *sarad* rice is in ear; the *laghu* has been harvested and reaped in some places; miscellaneous crops, *viz.,* mustard, *urhur,* &c., are promising well; *dalua* rice is being sown, and in some places the plants are being transplanted; the state of the crops on the Chilka tracts is worse than before.
		General Remarks.—There has been no rain in the province during the week, except a few light showers in Dacca, Mymensingh, and the Tipperah Hills; the weather is becoming colder; fever and cholera are still prevalent; no important change is reported in the general prospects of the crops; the harvesting of late rice is progressing, with the prospect of an outturn generally above the average; the cold weather crops and all crops of minor importance are well reported of, but rain is badly wanted in Gya, Shahabad, and Chumparun; it would also do good in many other districts; the state of the crops in the Chilka tracts of Pooree has become much worse.
N. W. P. and Oudh—		
Benares (Dec. 4th)...	...	Rain wanted.
Allahabad („ „)...	...	Rain wanted.
Jhánsi („ 5th)...	A slight shower in Pargana Garotha on the 26th Nov.	

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
N. W. P. and Oudh— *continued.*		
Agra (Dec. 4th)	...	No change; *rabi* sowings nearly completed.
Meerut („ 5th)	...	Rain wanted; prospects unchanged.
Kumaun („ 3rd)	...	Weather fine and seasonable.
Bareilly („ 5th)	...	No change.
Lucknow („ „)	...	No change.
Sitapur („ „)	...	Clouds about; rain much needed.
Fyzabad („ „)	...	Rain much wanted; weather cloudy; *rabi* crops progressing favourably.
Partabgarh („ 4th)...	...	Prospects good.
		General Remarks.—Rabi prospects so far good, but rain is wanted; prices are steady.
Punjab—(Dec. 4th).		
Delhi ...	*Nil*	Rain wanted for *rabi* sowings; small-pox prevalent.
Hissar ...	·1	The rainfall has done good to land already cultivated, but more is wanted for the unirrigated lands; cattle continue to suffer, owing to scarcity of fodder; health generally good, but small-pox in some villages of Hissar district.
Umballa ...	*Nil*	Rain much wanted for *rabi* sowing; health good.
Jullundur ...	*Nil*	Crops and health good.
Amritsar ...	*Nil*	*Rabi* prospects fair; health good.
Lahore ...	*Nil*	State of crops and health good.
Ráwalpindi ...	*Nil*	Agricultural prospects good; small-pox in few villages.
Mooltan ...	*Nil*	*Rabi* sowings nearly finished; health good.
Dera Ismail Khan ...	*Nil*	Health good; *rabi* sowing in progress.
Peshávar ...	*Nil*	Prices of *bajra* and gram have fallen.
		General Remarks.—Agricultural prospects fair in all save a few of the southern districts.
Central Provinces—(Dec. 5th).		
Sambalpur ...	...	Cloudy and warm; rice harvest continues; health good; prices steady.
Upper Godávari (Dec. 1st)	...	Cloudy and close; *rabi* promising; health good; prices continue high.
Biláspur ...	...	Clear; *kharif* harvest continues; *rabi* good; fever prevalent; prices rising.
Raipur ...	...	*Kharif* harvest continues; *rabi* promising; fever prevalent; prices stationary.
Bálághát ...	1·20	Cloudy and cool; prospects favourable; fever continues; cattle disease at Behir; prices unchanged.
Chhindwára ...	1·74	Cloudy; prospects favourable; fever prevalent; prices steady.
Chánda ...	...	Rice threshing; *rabi* slightly damaged by insects; fever prevalent; prices stationary.
Betúl (Dec. 3rd)	·37	Prospects favourable; fever continues; prices stationary.
Bhandára („ 4th)	·50	Rice cutting and winnowing continue; *rabi* promising; fever continues; prices stationary.
Nágpur („ 5th)	·75	Cloudy and close; *kharif* harvesting; *rabi* thriving; fever continues; prices stationary.
Wardha ...	...	*Kharif* harvesting; cotton-picking continues; prospects good.
Nimár ...	·07	Cloudy; *rabi* good; prices stationary.
Hoshangabad	Slight rain on the 3rd.	*Kharif* harvesting continues; *rabi* promises well.
Narsinghpur ...	·34	*Rabi* doing well; health good; prices slightly risen.
Jubbulpore ...	...	Cloudy and cool; *kharif* threshing and winnowing progressing; *rabi* good; fever prevalent.
Saugor ...	Rained towards Gourjhamar Kareli.	Cloudy.
Seoni ...	2·18	Cloudy; rain accompanied by high wind knocked down cotton plants.
Mandla ...	...	Cloudy and cool; *rabi* thriving; *kharif* harvest continues; fever prevalent; prices stationary.
Damoh ...	...	Prospects good; prices stationary.
		General Remarks.—There has been good rain in the hill districts of Chhindwára, Seoni, and Bálághát, slight at Nágpur, Bhandára, Betúl, Nimár, Hoshangabad, and Narsinghpur; *kharif* harvest continues; *rabi* thriving.
British Burma—(Dec. 5th.)		
Arrakan Division ...	*Nil*	Public health good; crops promise abundantly everywhere.
Pegu Division.		
Rangoon ...	*Nil*	Reports of crops continue very favourable; crops replanted in Hlaing township are promising; prices falling owing to reaping for home consumption having commenced; market likely to open high; public health good, a few deaths from fever; total rainfall 102·64 inches.
Thonkwa ...	*Nil*	Health and crops good; reaping commenced.
Bassein ...	*Nil*	Health good; harvest prospects good.
Henzada ...	...	Three deaths from cholera in Mengyee, 66 in Tsanyuay, 5 in Tahpoon, and 12 in Menhla; crops excellent; reaping commenced.
Prome ...	*Nil*	Two cases of cholera in Prome, 9 in Padoung, 4 in Poungday, and 1 in Shwedoung.
Thayetmyo ...	*Nil*	Public health and crops good; reaping going on.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
British Burmah—*contd.*		
Tenasserim Division.		
Amherst ...	·50	Public health fair; no change in agricultural prospects.
Shwegyeen ...	...	Crops progressing; cholera at Mong.
Toungboo ...	*Nil*	Crops progressing; cholera continues in district.
Assam—		
Gauháti (Dec. 5th)	·3	Early part of week clear and settled, last two days stormy with rain, clouds, and showers; *sali dhan* being reaped.
Sylhet („ 5th)	*Nil*	Soil and *aman* crops being reaped; price of rice same as last week; sickness still prevails.
Mysore and Coorg—(Dec. 5th)	*Nil*	Weather fair; harvesting continues; fever prevalent in parts; ordinary rice sells in Bangalore at $15\frac{3}{4}$ to $16\frac{1}{4}$ lbs., and *raggi* $22\frac{1}{2}$ to $23\frac{1}{2}$ lbs. per rupee; for week ending November 24th, on civil works 24,896, on professional department works 48,191, and charitably relieved 21,458.
Hyderabad Assigned Districts—(Dec. 5th)	·10	*Kharif* harvesting continues; *rabi* crops good; public health good.
Central India—Dec. (5th)		
Indore ...	*Nil*	Weather cooler and cloudy; rain much required; cholera decreasing.
Gwalior ...		
Neemuch ...		
Sutna ...		
Rajputana—(Dec. 5th)		
Sirohi (Nov. 25th)	...	Water-supply in wells and health good; *rabi* sowings progressing.
Marwar („ 30th)	...	Water only obtainable from wells; health good; *rabi* sowings still progressing; cloudy and windy.
Jhallawar („ 29th)	...	Some cases cholera among immigrants; weather bright.
Ajmere (Dec. 5th)	...	Prospects continue favourable; prices slightly fallen.
Jeypore („ 4th)	...	Agricultural prospects and prices unchanged; health good.

ERRATUM.—On page 2833 of the Supplement to the *Gazette of India* of the 17th November, in the rainfall column, opposite Henzada, for "·20 in Mengyee" read "2·20."
On page 2834 of the same *Gazette*, opposite Bellary, for "5·5" read "·5."

TOTAL … … … … … … … … … …						14,007	11,859									

* These figures are for the weeks ending 17th and 24th November respectively.

† For details and dates see Table appended.

In the Satara district there has been a general and very beneficial fall of rain, and in a few places in some other districts there have been showers which have been useful so far as they extended.

2. The fall of prices in Satara and the Kanarese Districts has received a check. In Ahmednagar and Poona there is improvement.

3. The average daily number of labourers upon relief works for the period of five days ending with the 30th November was 11,859. This is only slightly less than the average of the previous week, the reason being that in Sholápur and Ratnagiri the numbers have increased. As, on the whole, the numbers were diminishing, and as also the Kaládgi returns extend only to the 24th November, the number of persons to be discharged on the 30th was presumably something less than 11,000. The only districts in which the number is at all considerable are Sholápur, Poona, Násik and Ratnagiri. Of the 5,000 at Sholápur more than half are engaged upon the Ashti tank, where work will still be available for them as ordinary labourers. Almost all of the Poona labourers, too, are on Irrigation works, which will be continued as ordinary works. The 1,750 at Násik are all employed on the railway, and they, too, will probably be able to remain on the work as ordinary labourers. Indeed there is no certainty that many of the large number shown as relief labourers on the railway in the Násik District for the last few weeks should not rather have been deemed ordinary labourers. There remain for consideration about 2,000 persons employed on roads in Sholápur, and 1,300 persons employed in Ratnagiri. Explanation of the sudden increase in these two items has not yet been received. On the other hand, no objection to closing all relief works on the 30th November has been put forward by any officer.

4. Only 12 deaths from cholera have occurred during the week in the nine districts.

5. The usual written reports have not been received from the Collectors of Ahmednagar or Kaládgi this week. In the other districts the reaping of the autumn and the sowing of the spring crops are both drawing to a close. The spring crops in the ground require rain everywhere, and in some places are withering for want of it.

6. The following table gives the expenditure by Government, during the week ending 17th November, upon gratuitous relief, and in payments made to the young children of labourers employed upon relief works. The number of children has fallen during the week from 6,480 to 4,407. The number of persons being gratuitously relieved can still not be stated accurately, as complete returns have not been received from the Collectors of Satara and Kaládgi. It may be taken approximately as 19,656. This gives a decrease of 482 :—

Districts.	Collector's Discretionary Grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116, of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.		
	Average daily number of persons relieved during the week.	Expenditure during the week.	Total Expenditure up to date.	Average daily number of children, and of women taking care of them.	Expenditure during the week.	Total Expenditure up to date.

* Returns incomplete.

7. In the following table are enumerated the works under Public Works Department Agency, upon which the average daily number of persons employed has amounted to five hundred for the week ending 24th ultimo. The total number engaged on these large works constitutes 58·69 per cent. of the whole number of labourers upon relief works:—

Districts.	Works.	Number of labourers.	Total.	Remarks.
Khandesh ...	....	......	......	
Nasik, Ahmednagar	Dhond-Manmad Railway ...	4,183	4,183	Approximate number of relief labourers.
Poona ...	Matoba Tank ...	1,314	1,314	
Sholapur ...	Ashti Tank ...	2,119	2,119	
Satara ...	....	......	......	
Kaladgi ...	....	......	......	
Belgaum ...	....	......	......	
Dharwar ...	....	......	......	
	GRAND TOTAL ...	...	7,616	

8. Tables A and B are brought up to the week ending 24th ultimo. The number of persons on works under Public Works Department Agency in the nine affected districts was at this date 11,886, and on works under Civil Agency 1,090. The percentage of persons upon works under Civil Agency has thus fallen during the week from 12·8 to 8·4 per cent. of the whole number employed. The total expenditure upon works in the nine affected districts has amounted to Rs. 1,03,55,140, which, with the expenditure of Rs. 1,39,213 upon works in Ratnagiri and Kanara, and Rs. 10,80,554 from the Collectors' Discretionary Allowances, gives a total of Rs. 1,15,74,907.

9. The table showing the condition of the affected Native States is appended as usual. The reduction of the number of persons on relief works in Kolhapur continues, but is still high, considering the prices that prevail and the not unfavourable state of the season.

10. During the week ending 1st December, 539 tons of food-grains were exported from Bombay to the Southern Maratha Ports, and 1,118 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Bhusawal-Nasik lines, making a total of 1,657 tons for the week. This is more by 467 tons than the importations of the previous week. The table below shows the quantities of grain sent by sea and rail from October 1876 till the 1st December 1877 to the Southern Maratha Ports and the Railway Stations in the distressed districts. It will be seen that the total amount delivered up to the 1st December was 434,000 tons:—

Food-grains sent to	In October, November and December 1876.	In January, February and March 1877.	In April, May and June 1877.	In July and Aug. 1877.	In September 1877.	In October 1877.	In Nov. 1877.	Total.

North-Eastern line, from Bhusawal to Nasik ...	12,829	7,471	5,581	9,567	2,519	4,637	1,725	44,329
TOTAL ...	124,239	95,511	105,926	67,618	22,094	13,882	4,730	434,000

11. There have been decreases during the week of 2,148 in the number of labourers on relief works, 2,073 in that of young children, and 482 in that of people on gratuitous relief.

12. With a view of ascertaining how far the numbers of the rural population may have been affected by the famine, which has now happily terminated, orders have been issued for a census to be taken on the night of the 19th January 1878 in selected talukas in different

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 11TH DECEMBER 1877.

GENERAL REMARKS.—In Madras excessive rain is reported to have done some damage in parts of South Arcot, Tanjore, Trichinopoly, Madura, Coimbatore, and Tinnevelley; prospects are, however, generally good, except in Ganjam and Vizagapatam. The total number on works is now 208,507, 29,280 less than last week, and on gratuitous relief 317,001, 48,588 less than last week. Only light showers have fallen in Mysore; sowing and harvesting continue, and the standing crops are in good condition; the number on works on the 1st instant was 66,277, and on charitable relief 19,480, 6,810 and 1,978 less than in the previous week. In Bombay heavy showers are reported from Khandesh and Násik, and lighter falls from Ahmednagar, Poona and Sholapur; rain is wanted in Guzerat and Kaládgi. In Sind the river continues high; its sudden rise did some damage to the crops in the low-lying lands. In the Central Provinces there has been general rain, except in the Eastern Districts; it was heavy in the Sátpura and Narbudda Valleys: the *rabi* has much benefited, but the *kharif* has in parts been somewhat damaged; general prospects are however very favourable. In Berar 4 inches of rain are reported from Amráoti; the *kharif* and the *rabi* have both slightly suffered in consequence. In Central India general, and in many places heavy, rain is reported from Malwa; it has everywhere been beneficial, and prospects have greatly improved. In Rajputana reports have been received only from Ajmere and Marwar; in the former rain has fallen. In Bengal slight but beneficial rain has fallen in several districts of Behar, Chota Nagpore and the Bhágalpur and Rajshahi divisions: the harvest of the late rice progresses, with an outturn above the average, except in parts of the Patna division; the state of the crops in the south of Pooree continues to grow worse, and relief works have been set on foot. In Assam prospects are good. In Burma there has been no rain; the crops generally promise well. In the North-Western Provinces and Oudh heavy rain fell throughout the provinces between the 8th and 10th; its effect on the *rabi* crops and on pasturage will be most beneficial. In the Punjab also there was a general fall, extending to the Southern Districts, where it was much needed; prospects are now very favourable.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Ganjam (Dec. 8th)	*Nil*	Rice 9·3, *raggi* 15·42, *cholum* 15·2, *cumboo* 14·92; cholera continues spreading; average number fed at Berhampore and Itchapore 62 light paddy being cut; imports of Chilka land rice 86 tons.
Vizagapatam („ 10th)	...	Rice 8·3, *cholum* 10·6, *raggi* 14·0, *cumboo* 14·9; cholera increasing; imports continue; in some parts crops withering from want of water.
Godavery („ „)	*Nil*	Rice 8·62, *cholum* 12·10, *raggi* 16·39, *cumboo* 16·0; crops good, though slightly suffering from blight; harvest of paddy commenced, that of *jilama, budama,* and *aruga* in progress, outturn ½ to ¾; water over anicut 8 inches.
Kistna („ 6th)	*Nil*	Rice 7·14, *cholum* 11·66, *raggi* 10·67, *cumboo* 12·15; on works 2,947; Banderpore house 97; sick in relief hospitals 69; village relief 3,049; crops generally good; *varugu* damaged by locusts requires rain in upland taluks; *giddajonna* generally failed; wet paddy still suffers from blight in some places; these two and black paddy are in the ear.
Nellore („ 8th)	0·20	Rice 7·18, *cholum* 8·47, *raggi* 9·79, *cumboo* 9·35; on civil works 1,056; Department Public Works, works 12,869; canal 22,607; children 2,446; camps 6,748; village relief 1,130; crops fair but suffering in parts from insects and blight.
Cuddapah („ 7th)	0·06	Rice 7·69, *cholum* 10·85, *raggi* 11·51, *cumboo* 14·20; on works 10,200; children 958; camps 2,214; village relief 3,782; *cumboo*, paddy, and *raggi* harvested in parts, outturn ¾; *cholum* in some places suffering from the effects of locusts.
Bellary („ 8th)	*Nil*	Rice 7·65, *cholum* 11·23, *raggi* 12·10, *cumboo* 11·22; on works 14,804; children 663; camps and houses 4,946; village relief 31,087; *cholum, raggi, cumboo,* and paddy being harvested, outturn not good; sowing of white *cholum* and second crop paddy is in progress; standing crops of pulses, oil-seeds, *korra,* and cotton are in fair condition; future prospects very good.
Kurnool („ „)	0·1 in Nandial.	Rice 7·58, *cholum* 9·93, *raggi* 12·14, *cumboo* 11·52; on works 19,974; children 1,354; in camps 716; village relief 39,461.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*continued.*		
North Arcot (Dec. 7th)	·65	Rice 8·5, *cholum* 9·3, *raggi* 9·7, *cumboo* 10·6, wheat 6·2; on works 37,107; children 7,770; camps and houses 11,224; village relief 21,236; crops good; harvest of paddy and *raggi*, outturn poor.
South Arcot (" 8th)	General rain on south coast; average of district 4·92.	Rice 7·99, *cholum* 9 24, *raggi* 11·02, *cumboo* 11·50; on works, Revenue Department 1,280; professional 177; children none; camps 6,438; villages 35,826; dry crops, especially *cholum*, slightly damaged in parts by excessive rain; paddy good; *cholum* and *kar* paddy harvested in parts, outturn tolerable.
Tanjore (" ")	7·02	Rice 7·04, *cholum* 11·96, *raggi* 12·64, *cumboo* 12·81; rivers $\frac{1}{3}$ to full; crops not thriving, some suffer from excess of water; dry generally in good condition, some suffer from excess rain; harvest outturn, *kar* and *kuruvai* $\frac{1}{2}$ to $\frac{3}{4}$, *raggi* $\frac{1}{2}$ to $\frac{3}{4}$.
Trichinopoly (" ")	3·40 average of district.	Rice 7·44, *cholum* 22·40, valuable in Musiri only, *raggi* 11·30, *cumboo* 13·76; on works 13,277; *children* 2,012; in camps 730; village relief 5,082; sowing and transplanting paddy continues; standing crops good; *kar*, *cholum*, and *cumboo* are being harvested, outturn generally 1-anna crop; damage reported by locusts in Perambulur.
Madura (" 8th)	Average 4·84	Rice 8·34, *cholum* 14·04, *raggi* 13·17, *cumboo* 13·96; on works 3,952; children 1,415; in camps 4,109; village relief 14,683; heavy freshes in the rivers; tank breaches in several places, standing crops thereby injured; *samay* harvested in some parts.
Tinnevelly (" ")	6·5	Rice 9·15, *cholum* 13·95, *raggi* 21·75, *cumboo* 15·30; camps and houses 197; village relief 851; crops generally good, though wet diseased and dry seriously damaged in some places by excessive rain; harvest of wet crops in Tuticorin; *samay* and *kadakanni* in parts, outturn fair.
Coimbatore (" ")	1·37	Rice 8·97, *cholum* 10·82, *raggi* 13·72, *cumboo* 17·29; on works 14,159; children 617; camps and houses 11,804; village relief 5,001; crops good; damage from excessive rain and insects reported from some places; harvest of paddy, *cholum*, *raggi*, *cumboo*, and *samay* in parts; outturn of paddy $\frac{1}{2}$ to full, other crops $\frac{1}{4}$ to full.
Nilgiris (" ")	2·34	Rice 7·68, *cholum* 8·63, *raggi* 10·69, *cumboo* 8·16; camps and houses 80; village relief 10; harvest of paddy and *raggi* in Wynaad.
Salem (" 10th)	·97	Rice 7·94, *raggi* 9·51, *cumboo* 12·43, *cholum* 8·85; on works 43,088; camps 8.740; village relief 18,210; crops thriving; harvest of paddy and *raggi*, prospects very favourable.
South Canara(" 8th)	*Nil*	Rice 11·64, *raggi* 14·04; second rice crop thriving.
Malabar (" ")	·53	Rice 10·27, *raggi* 15·5; gratuitous relief 12; rain unnecessary for cultivation at present; second crop, *gingelly* and gram in good condition; prospects good.
Chingleput (" ")	Average rain about 0·75.	Rice 8·75, *raggi* 11·23, *cumboo* 10·56, *cholum* 9·15; on works 4,275; children 371; camps 3,650; village relief 49,478; crops in good condition; *kar*, *samba*, *raggi*, and *cumboo* harvested in parts, outturn from $\frac{1}{4}$ to $\frac{3}{4}$, *raggi* full.
Madras (" 11th)	1·75	Rice 7·3, *raggi* 10·64, *cholum* 9·8.
		General Remarks.—General prospects good; excessive rain in some southern districts threatens to affect prospects somewhat injuriously; total number on works 2(0)8,517; t tal number gratuitously relieved 317,001; export of grain by rail from Madras during the week ending the 8th instant not yet reported.
Bombay—(Dec. 12th).		
Sind (Dec. 12th).		
Kurrachee ...	...	Strong westerly breeze; thermometer at 70°; river at Kotri on 6th 1 inch less 11 feet, $6\frac{1}{2}$ feet more than on same date last year; small-pox in Mirpur Batoro taluka; fever and cattle disease prevalent, some deaths from latter.
Shikárpur ...	...	River falling.
Hyderabad ...	...	Weather cold.
Upper Sind Frontier ...	·01 on 8th.	Weather cloudy and cold; prospects unchanged; much damage done to *rabi* in low-lying lands along river by its rise; health indifferent.
Guzerat (Dec. 12th).		
Ahmedabad ...	...	Weather cold; cholera decreasing, cases 9, deaths 3.
Surat ...	...	Cold weather commenced; 6 deaths from cholera at Surat.
Broach ...	...	Public health good; crops as before.
Khandesh and Násik (Dec. 12th).		
Khandesh ...	Rain throughout Collectorate, except in Sháháda taluka; maximum 3·44 in Nizámpur, minimum ·05 in Sirpur.	Hailstones damaged crops of wheat, tobacco, and gram in Dhulia and Páchora; ague and cattle disease prevalent.
Násik ...	1·16 in Malegaon, ·60 in Chandor, and slight in 4 other talukas.	Crops in talukas in which rain fell have benefited, but withering in others; public health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*continued.*		
Konkan (Dec. 12th).		
Colába (Dec. 10th)	...	Weather good; mornings cold; sowing of *rabi* crops commenced.
Deccan (Dec. 12th).		
Poona ...	·11 in Khed on 7th; ·15 in Ambegaon on 6th.	Cholera in Poona, 10 cases, 9 deaths.
Ahmednagar ...	From ·01 to ·24 in 4 talukas.	Crops suffering where no rain fell; 1 death from cholera.
Sholapur ...	·02	Total rainfall 34·91; *rabi* sowing nearly completed.
Satara	...	Crops good; 6 deaths from cholera in Satara taluka.
Southern Mahratta Country (Dec. 12th).		
Belgaum ...	·17 on 11th	Weather cloudy; no change in crops.
Dharwar ...	...	Weather cloudy; crops and health as before.
Kanara ...	...	Weather fair; 4 deaths from cholera.
Kaládgi ...	...	*Rabi* crops in Indi withering; rain generally wanted.
Kattywar and Gaekwar's Territory (Dec. 12th).		
Rajkot ...	...	*Rabi* crops healthy; weather cold; fever prevalent; cholera at Songarh.
Wadhwan ...	...	Weather cold; cholera at Bap dra, 5 cases, all fatal; crops good.
Baroda ...	·30	Twenty-one cases of cholera in city, 9 fatal; early *rabi* crops healthy; weather cold.
		General Remarks.—There have been heavy showers in Khandesh and Násik, and lighter in Ahmednagar, Poona, and Sholapur; rain is wanted in Kaládgi and parts of Guzerat; no other change.
Bengal—(Dec. 11th.)		
Chittagong ...	*Nil*	Weather seasonable; the reaping of *amun* crop continues; the cold weather crops are progressing favourably.
Noakholly	*Nil*	Weather seasonable; the *amun* crop is being reaped; prospects are fair; public health is good.
Chittagong Hill Tracts...	*Nil*	Weather seasonable; very cold from the 2nd instant. The gathering of paddy crop of the plough cultivators still continues; mustard is growing well; cotton is sold in small quantities in the local markets; tobacco plants are being transplanted.
Hill Tipperah ...	*Nil*	Weather seasonable; the reaping of the late rice crop continues; the cold weather crops are doing well.
Backergunge ...	*Nil*	A 13 or 14-anna crop will be saved all over the district; in other respects the condition of the district is fair.
Furreedpore ...	*Nil*	Weather seasonable; state and prospects of the crops are fair; *amun* is being cut.
Dacca ...	0·05	Weather seasonable; it has been cooler during the week, cloudy since 7th instant and a little rain has fallen; state and prospects of the crops are favourable. There is much fever in Manickgunge sub-division, but cholera has abated.
Mymensingh ...	*Nil*	Weather fine; state and prospects of the crops are good.
Tipperah ...	0·08 in Brahmunberiah; elsewhere no rain.	Weather rather warm till the 1st December, when it became cool; about 4 annas of *amun dhan* and most of the sugarcane have been reaped; export of *dhan* is beginning to Noakholly and Náráyanganj; the outturn of all the crops is fair.
24-Pergunnahs ...	0·05	Weather cold and seasonable for the last few days, warm before; state and prospects of the crops are satisfactory; cholera and fever are prevalent in many parts of the district.
Jessore ...	*Nil*	Weather has become cooler; *amun* rice is being harvested; winter crops are doing fairly well, except in the north of the district; they would, however, receive much benefit from some showers.
Nuddea ...	*Nil*	Weather warm till 6th or 7th instant, when it has become quite chilly even at midday, and very cloudy; prospects of the cold weather crops are very fair; fever and cholera are giving much trouble in parts of the district.
Moorshedabad ...	*Nil*	Weather seasonable; cloudy since 7th instant; harvest is still going on with the prospect of an outturn somewhat above the average the *rabi* crops promise well, but would be improved by rain cholera still prevails in several localities, but is not increasing.
Pubna ...	*Nil*	Weather cool and cloudy in the morning; the harvesting of *amun dhan* is going on, but the outturn will not be satisfactory; state and prospects of the *rabi* crops are favourable; public health is bad; fever is still prevalent in the *sadar* station and cholera in the mofussil.
Rajshahye ...	0·12 Slight rain at the *sadar* station on the morning of the 8th.	Weather cool, and there have been occasional gatherings of clouds; the cutting of *amun* rice is progressing; prospects of the *rabi* crops continue good; fever and cholera are still prevalent in many parts of the district.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*continued.*		
Bogra ...	0·02	Weather dry and rather warm during the early part of the week, but cloudy and threatening rain since 7th instant; the reaping of *amun* rice is still going on, and there is a very good outturn; new rice in small quantities is coming to market, and is selling at 32 seers for the rupee; the *rabi* crops are getting on well, and the yield will probably be good; fever and cholera are still prevalent in the district, though the latter is on the decrease.
Dinagepore ...	Return not received.	Weather cool, dry, and seasonable; harvest has commenced in all directions; rice is still selling at 16 seers per rupee in the northern thanas; eleven deaths from cholera have been reported during the week.
Rungpore ...	·02	Weather has become cold and is slightly cloudy since 7th instant; the state and prospects of the crops continue to be good and satisfactory; the outturn from the *amun* rice crop will be above the average; cholera is still prevalent in the Gaibánda sub-division; an unusual mortality from fever is reported from Daroáni.
Cooch Behar ...	*Nil*	Weather fair and cooler than during the previous week; state and prospects of the crops are much the same as reported last week; reaping of *amun* rice is going on, and the winter crops promise well; transplantation of tobacco in some places is nearly complete, and mustard and potato-sowings are over; fever is still very prevalent in the Mekhaliganj sub-division; public health, however, is in general good.
Jalpáiguri ...	·13	Weather seasonable; winter rice is being harvested; mustard, wheat, and tobacco look promising; sugarcane is also flourishing; health of the town of Jalpáiguri has not yet improved; fever is prevalent in some portions of the Baxa sub-division.
Darjeeling ...	0·6	Chilly, misty weather; the *haimanti* rice is being reaped; a very fair outturn is expected; the young crops of wheat and barley are progressing favourably; the crop of buck wheat has just been gathered in.
Midnapore ...	0·02 A little rain has fallen along the coast.	State and prospects of the crops are fair, as before reported.
Howrah ...	*Nil*	Weather seasonable, much colder and cloudy for two days; harvest is progressing; *amun* is good in low lands; it is short on high lands in the north.
Hooghly ...	*Nil*	Weather rather warm for the season, cloudy since 7th instant; late rice is being reaped; *rabi* crops are doing well; no change for the better in the state of public health.
Burdwan ...	*Nil*	*Amun* crop is being reaped; *rabi* crops are doing well; fever is prevalent; cases of cholera are reported in the Culna sub-division.
Bankoora ...	Slight rain on the 8th.	Weather cloudy and cool; no change to report in the state and prospects of the crops; all the crops look extremely well.
Beerbhoom ...	0·09 Drizzling rain on the morning of the 8th instant.	Weather cool and cloudy; the cold weather crops are doing well; late rice is being reaped.
Sonthal Pergunnahs ...	0·11	The latter part of the week was cloudy; no change in the prospects of the crops since last report.
Bhágalpur ...	Few drops not measurable.	Weather cold, with westerly wind; the *aghani* harvest is progressing favourably; estimated outturn is above the average, but prices are still higher than usual, owing to the large purchases made by up-country dealers; prospect of *rabi* continues favourable, but this crop will be improved by rain; public health is good.
Monghyr ...	0·02	Weather colder than before and threatening to rain; prospects are the same as before; if rain does fall, the *rabi* will get a fresh start.
Purneah ...	0·18	Weather cold and cloudy; rain is wanted for the *rabi* crops; fever is very prevalent, and cholera has appeared in the eastern villages of the district and in the south.
Maldah ...	0·03	Weather fair and cold till 7th instant, then cloudy; the *dhan* harvest is going on everywhere; the outturn varies from 12 annas to a full crop; *kalai* and other cold weather crops are thriving; health of the district is very bad; cholera is coming to a focus at Gomastarpore and Shibganj, where medical aid is being sent.
Durbhunga ...	1·30	Weather cold and cloudy; the *dhan* harvest is progressing; the *rabi* crops are suffering from want of sufficient moisture in the Tajpore sub-division.
Mozufferpore ...	*Nil*	Weather cold and clear in the early part of the week; cloudy towards the close; the reaping of the rice crop has commenced, and the outturn promises to be fair in Mozufferpore and Hajeepore sub-divisions, but is likely to be very short in Seetamurhee sub-division: the *rabi* crops throughout the district are still doing fairly, but are in much want of rain; the poppy crop is backward; tobacco is coming on well; large importations of grain are being made into Seetamurhee and Mozufferpore sub-divisions for Nepal and Durbhunga.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*continued.*		
Sarun ...	*Nil*	Weather chilly rather than cold, with overcast sky; rain seems to be impending and will be most welcome; prospects of the *rabi* crops continue fair; rain is, however, required to carry the crops through *aghani dhan* that has been saved is being reaped; it is believed that the average outturn throughout the district will not exceed 2 annas; owing to the want of rain the opium fields are being re-sown, and the Opium Agent has ordered the advance of money for *kutcha* wells for irrigation; prices have slightly fallen; public health is good.
Chumparun ...	0·17	Weather seasonable; slight rain; no material change to report in the state and prospects of the crops; rain is wanted for the *rabi* crops; the harvesting of the *aghani* is proceeding; no estimate can yet be given of the probable outturn; indigo prospects are so far gloomy.
Patna ...	*Nil*	Weather cool and clear during the early part of the week; cool and cloudy during the latter part; state and prospects of the crops are good; rain is necessary for the *rabi* crops; health is good.
Gya ...	*Nil*	Weather seasonably cool and cloudy, indication of rain, but none reported to have fallen; wind easterly and westerly; maximum thermometer in the shade 81·8°; ploughing and sowing of *rabi* fields still continue in some places; the *rabi* plants are generally promising, but rain is required; in Nowáda sub-division 12 annas outturn is estimated for the *dhan* harvest.
Shahabad ...	0·20	Weather cloudy with slight rain; rain is wanted wherever canal or well irrigation is not available; the *kharif* is being harvested; where canal water was taken in time the crops are magnificent, and in proportion as water was taken late crops are poor; beyond the irrigable area, and where water was not taken, the field has been given for pasture.
Hazáribágh ...	*Nil*	Weather colder than last week; every appearance of rain; state and prospects of the crops are fair, but rain is wanted.
Lohardugga ...	A little rain fell at Ranchi on the night of the 7th instant, and there is a prospect of more; light rain fell on the 3rd in the south-east part of the district.	Weather seasonable; in the Palamow sub-division rain was expected and wished for on the 4th; the main rice harvest is nearly over; the crop is not much below the average in head-quarters division; in Palamow it is an 8-anna one; *sarguja, rahur,* and other minor crops now in the ground are average crops.
Manbhoom ...	About 0·50; About half an inch fell at, and round about, the sadar station on the morning of the 8th; it was raining on the 8th at the time of report.	Weather very much colder than it has been this year, the thermometer falling to 52° at night; no change to report in the prospects of the crops, but the Deputy Commissioner thinks that the rain of the 8th will do a great deal of good to the *rabi,* as it was being wanted throughout the district.
Singhbhoom ...	0·05	Weather seasonable; there has been slight rain in some parts of the district which benefited the cold weather crops, which are doing well; the district is healthy.
Balasore ...	*Nil*	Weather fair; the harvest is progressing satisfactorily; the outturn will be nearly an average one on the whole; a severe outbreak of apparently epidemic fever, which seems to resemble the well known Burdwan fever, has broken out along the banks of the Subarnrekha; there is also a little sporadic cholera and cattle disease.
Cuttack ...	Very slight rain in some parts of the district on the 3rd and 4th instant.	Weather fine and warm; somewhat colder and cloudy at the close of the week; the cutting of late *sarad* has commenced in some places; the *rabi* is in pod and promises well; cholera is still about, otherwise the public health is good.
Pooree ...	*Nil*	Weather fair; warm for the season; *laghu* crop is being harvested; *sarad* crop is ripening in some places, and in others is in ear; both these crops suffered much for want of rain; miscellaneous crops, such as *moong, urhur,* mustard, *kulthi,* sugarcane, &c., are doing well; prices are stationary; *dalua* rice plants are shooting forth in some places, and in others are being transplanted; The state of crops in the tracts between the sea and the Chilka Lake is worse than before; charitable relief is being given to those people who are unfit for work, while the rest have been employed in relief works

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*concluded.*		in connection with the District Road Fund; cholera is reported from the interior as well as from the sub-division of Khoordah. *General Remarks.*—Slight but beneficial rain has fallen in several districts during the week. The weather has now become seasonably cool throughout the province; but cholera and fever are still prevalent. The harvesting of late rice is progressing, and the general outturn is expected to be above the average, except in parts of the Patna division, where it is very short. The rain of the week, though scanty, will, it is hoped, do some good to the cold weather crops in Behar and Chota Nagpore. The state of the crops in the Chilka Tracts of Pooree is worse than before. Relief works have been set on foot, while charitable relief is being given to those who are unfit for work.
N. W. P. and Oudh—		
Benares (Dec. 11th)...	·1 on 10th	
Allahabad („ „)...	·3 on the evening of the 11th.	Prospects good.
Jhánsi („ 12th)...	·9 on 7th, 8th, and 9th.	*Rabi* prospects good.
Agra („ 11th)...	·2 to 1·7 throughout the district on 8th and 9th.	*Rabi* prospects considerably improved.
Meerut („ 10th)...	·3 on the 9th, ·27 on 10th.	Cloudy.
Bareilly („ 12th)...	·16 to ·23 throughout the district on 8th and 9th.	Weather now fine.
Lucknow („ „)	Good rain all over the district on 9th and 10th; average 1·25.	Prospects good.
Sitapur („ „)	·1 on 9th, 2·5 on 10th.	*Rabi* prospects good.
Partabgarh („ 10th)	...	Prospects good. *General Remarks.*—Heavy rain fell throughout the North-West Provinces and Oudh between the 8th and 10th instant; the effect on the *rabi* crops and on the pasturage of the country will be most beneficial; prospects are much improved, but as yet there is no material fall in prices.
Punjab—(Dec. 11th).		
Delhi ...	2·2	Small-pox prevalent.
Hissar ...	1·0	This rain, if general, will do immense good; cattle still dying for want of fodder; health generally good, but small-pox in Hissar and Rohtak districts.
Umballa ...	2·3	*Rabi* sowings re-commenced; health good.
Jullundur ...	4·9	Health and crops good.
Amritsar ...	2·4	Health good; *rabi* prospects fair.
Lahore ...	1·0	Health and agricultural prospects good.
Ráwalpindi ...	3·0	*Rabi* prospects good; small-pox in few villages.
Mooltan ...	·6	*Rabi* prospects favourable; health good.
Dera Ismail Khan ...	·4	Health good; crops progressing.
Pesháwar ...	1·6	*General Remarks.*—The rainfall during the past week has been general, extending to the southern districts of the Punjab, where it was so much needed, and where agricultural prospects have consequently improved.
Central Provinces—(Dec. 12th).		
Upper Godávari (Dec. 8th)	...	*Rabi* favourable; prices steady.
Sambalpur ...	...	Cloudy; rice harvest nearly completed; health good; prices stationary.
Biláspur ...	...	Cloudy; crops doing well, but continued cloudy weather causing apprehension; fever continues; prices steady.
Raipur ...	...	Cloudy and cool; *kharif* harvest continues; fever prevalent; prices stationary.
Bálaghát ...	·14	Continued cloudy weather and untimely rain have slightly injured the *kharif* and *rabi* crops; fever continues; prices stationary.
Chhindwára ...	1·20	*Jowar* and *urud* slightly damaged; fever continues; prices steady.
Chánda (Dec. 9th)	·16	Cloudy; *jowar* cutting and cotton-picking continue; prospects of *rabi* improved by recent rain; fever prevalent; prices stationary.
Betúl („ 10th)	Drizzling ...	Cloudy; *jowar* cutting; fever continues; prices risen.
Bhandára („ 11th)	·16	Cloudy and chilly; rice cutting and winnowing continue; fever prevalent; prices stationary.
Nágpur („ 12th)	·87	Continued cloudy weather with rain has damaged slightly cotton, *jowar*, and *mung*; *rabi* promising.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Central Provinces— *continued.*		
Wardha ...	Drizzling ...	Prospects good; small-pox continues.
Nimár ...	Slight rain	*Rabi* has benefited; small-pox and cattle disease continue; prices stationary.
Hoshangabad ...	2·40	Cotton slightly damaged; *rabi* promising.
Narsinghpur ...	2·0	Prospects fair; health good; prices stationary.
Jubbulpore ...	·57	Rain beneficial to *rabi* prospects; health good; prices stationary.
Saugor ...	1·60	Rain beneficial; prospects good; prices declining.
Seoni ...	2·75	*Kharif* and *rabi* on low fields somewhat injured; break required.
Damoh ...	·87	*Rabi* much benefited; prices stationary.
Mandla ...	·33	*Rabi* much improved; fever continues; prices stationary.
		General Remarks.—Rain general, except in the three Eastern districts; heavy in Sátpura and Nerbudda valley districts; *rabi* has much benefited, but some damage to *kharif* is reported from Chhindwára, Seoni, Bálaghát, Hoshangabad, and Nágpur; prospects on the whole very favourable.
British Burma— **(Dec. 12th.)**		
Arrakan Division ...	*Nil*	Public health good; crops continue to promise well everywhere.
Pegu Division.		
Rangoon ...	*Nil*	Public health good; crops excellent; prices though fallen, rule high everywhere, average from Rs. 85 to Rs. 90 per hundred baskets; cattle disease in Pegu township.
Thonkwa ...	*Nil*	Health generally good; crops good.
Bassein ...	...	Health good; harvest prospects good.
Henzada ...	...	Cholera in Tahpoon, deaths 32; otherwise public health good reaping progressing; crops excellent.
Prome ...	*Nil*	Cholera in Poungday, 10 deaths, Padoung one, otherwise healthy; harvest progressing.
Thayetmyo ...	*Nil*	Public health good; crops good; reaping going on.
Tenasserim Division ...	...	Rain ceased generally; crops progressing.
Amherst ...	...	Health fair; early crops reaped.
Shwegyeen ...	...	Health good.
Tounghoo ...	...	Three deaths from cholera.
Assam—		
Gauháti (Dec. 12th)	·15	Weather unsettled and variable; mornings raw and foggy; *sali dhan* being reaped; public health good.
Sylhet („ „)	·02	Reaping of *amun* and *sali* crops continues; cholera still prevalent; price of rice steady.
Mysore and Coorg— **(Dec 12th)**	·06 in Bangalore; ·14 in Coorg; ·18 in Mysore; light showers elsewhere.	Standing crops generally in good condition; *ballar* and *tuvar* slightly injured by blight; sowing and harvesting continue; fever and dysentery prevail; ordinary rice sells in Bangalore at 15¾ to 16¼ lbs., and *raggi* 21 to 22 lbs. per rupee; for week ending 1st December—on Civil works 21,307; on Professional Department works 44,970; and charitably relieved 19,480.
Hyderabad Assigned Districts.		
Amraoti (Dec. 12th)	4·0	*Kharif* and *rabi* slightly injured by hailstones; *kharif* reaping, continued; *rabi* good.
Central India— **(Dec. 12th.)**		
Indore ...	·75	
Gwalior ...	2·50	
Rutlam ...	·81	
Neemuch ...	·15	
Sutna ...	·10	*General Remarks.*—Rain general in Malwa, in some places heavy everywhere beneficial; weather cold; health good; prospects greatly improved.
Rajputana—		
Ajmere (Dec. 12th)	·2 on 8th instant in Ajmere and Ghegal.	Heavy hail in Chauwta and Nathuthala seriously damaged crops; prospects of *rabi* favourable; fever prevalent to some extent.
Marwar („ „)	*Nil*	Cloudy; *rabi* sowings over; crops looking well.

ERRATUM.—On page 2863 of the Supplement to the *Gazette of India* of the 24th ultimo, opposite Bellary, for "village relief 84,219," read "84,319."

ORDNANCE DEPARTMENT.

Notice.

SEALED TENDERS will be received by the Commissary of Ordnance in charge of the Mooltan Magazine up to Monday, 21st February, 1870, for supply under contract of Petty Stores, &c., to the Mooltan Depôt from the 1st day of April, 1870, to 31st March, 1871.

List of Stores more or less Tenders for the supply of which are invited, and the form of contract-deed which, in the event of a Tender being accepted, must be signed and sealed by the contractor, will be shown to applicants at the Magazine Office daily (Sundays and Holidays excepted) between the hours of 10 A. M. and 4 P. M.

Tenders to be in duplicate, and in English, and to specify in words, as well as in figures, the rate at which each description of stores will be delivered.

The approval and rejection of Tenders rests with the Inspector General of Ordnance, who reserves to himself the right of rejecting any Tender without explanation, or any items in a Tender for which the rates are clearly exorbitant.

The lowest Tender will not of necessity be accepted.

On a Tender being accepted, the contractor must be prepared to affix a stamp of the value of one rupee to the contract-deed.

Tenders are to be accompanied by a deposit of Rs. (100) one hundred only, which deposit will be returned on execution of the contract deed on rejection of the Tender.

Tenders will be opened at the Magazine Office at 12 o'clock noon on Monday, 21st February, 1870.

Parties tendering are invited to attend.

G. LAMB,
Commissary of Ordnance.

Mooltan, Magazine Office:
The 29th January, 1870.

LAWRENCE MILITARY ASYLUM.

Sunawur, near Kussowlie.

SEALED TENDERS for the supply, by contract, for three years (commencing 1st April, 1870), of the under-mentioned articles, at Sunawur, will be received by the Principal of the Lawrence Asylum up to and on the 1st March, 1870.

Lemonade, Soda-water, Beer, Port Wine, and other Hospital necessaries.

Stationery—School Slates, Pencils, &c.

Firewood, Charcoal, Lime, Kalo Wood, Iron, Copper, Tar.

Telegraph.

ADMINISTRATION REPORT OF THE INDO-EUROPEAN TELEGRAPH DEPARTMENT FOR THE YEAR 1876-77.

Nos. 385—92 T., dated Simla, 31st October 1877.

Read—

Letter from Director-in-Chief, Indo-European Telegraph Department, No. 1205, dated 10th August 1877, submitting the above report, and enclosure.

OBSERVATIONS.—It is reported that, owing to the defective arrangements of the Persian Postal Department, great difficulty is experienced in submitting the report by the date fixed (1st August), the Governor General in Council is therefore pleased to rule that the date of submission be changed from 1st of August to 1st October.

Capital and Revenue.

2. The figures given in the report are only approximate ones, the accounts not having yet been finally booked.

3. The Capital Account has been increased by the addition of £657-11-4, and stood at the end of the year at £1,154,493-7-6.

4. The Revenue Account exhibits a loss of £6,140-9-2, by which sum the expenditure exceeded the receipts. In the previous year there was a profit of £10,466, so that the results of the year under review may be said to be worse by £16,606-9-2 than in 1875-76; the profit of that year was, however, due to exceptional causes, and a falling off in 1876-77 was anticipated; this point will be more fully alluded to under the head of "Traffic."

Lines.

5. The length of lines remain very much the same as in the last report; there being only a slight increase in total length of 3 miles due to alterations effected in the course of repairs on the Mekran Coast section.

Maintenance and Repairs.

6. In the Persian section—Teheran to Bushire—778 new iron poles have been substituted for the old wooden standards, and the wires are now borne entirely upon iron supports.

7. The line is reported to be at present in excellent condition, and the pole shooting by which so many standards have been damaged in previous years has, the Governor General in Council is pleased to observe, decreased in a most satisfactory manner, partly owing to improved conservancy arrangements, and partly from the disappearance of some of the worst offenders.

8. In the Persian Gulf section several faults have been cut out of the cables of the sub-marine line at different times during the year, and breakages repaired.

On the land line of this section, 6,000 old and defective insulators have been replaced by a corresponding number of new ones, and a considerable quantity of corroded wire has been replaced by new material.

9. The main cables of the sub-marine line are reported to be in good condition, except the shore ends, which have slightly deteriorated, though not sufficient to cause any impediment to signalling operations.

Interruptions.

10. Appendix 6 shows the various interruptions on the land line of the Persian Gulf section, and the manner in which they were caused, and Appendix 5 exhibits the interruptions on the sub-marine line of the same section. The former were interrupted in the aggregate for 14 days 9 hours and 13 minutes, and the latter for 30 days 1 hour; but none of these interruptions occasioned cessation of traffic, one or other of the lines being always available for use.

11. The interruptions which occurred on the Persion section are exhibited in Appendix 7, and were in the aggregate as follows:—

	Days.	Hours.	Minutes.
1. Wire	19	23	13
2. Ditto	3	15	30
3. Ditto	0	20	0

The aggregate cessation of traffic was therefore something less than 1 day, and was caused by violent storms.

12. Paragraph 21 of the report shows that some of the interruptions on the Mekran Coast land line were occasioned by wilful cutting of the wires. The matter is being enquired into by the local political authorities.

13. Though the interruptions to traffic aggregated only 20 *hours* on the Government lines as above noted, yet they amounted to as much as 20 *days* on the Indo-European Company's lines, and were caused by violent storms and snow-falls.

14. An alternative wire has lately been erected by the Company between Ekaterinodar, Stavropol, and Tiflis, which will, it is believed, do much to diminish the number of such interruptions on the Company's lines in future.

15. The returns of interruptions show considerable improvement over those for last year, and Appendices 5 and 6 give all the requisite information for the Mekran Coast and sub-marine lines, but Appendix 7 for the Persian line is not so complete, and does not show the causes of interruptions. The Governor General in Council requests that this information may be supplied in next year's report.

16. Appendix 8 comparing the interruptions for the last three years shows the progressive improvement that has taken place on the Government lines. The Company's system has not been so fortunate, and suffered about four times as much as in 1874-75, though less than in 1875-76. The interruptions occurred chiefly in the neighbourhood of the Caucasus, and were occasioned by heavy falls of snow and storms.

17. The Turkish route is reported to have been interrupted in the aggregate for 30 days and 7 hours.

Tariff and Traffic.

18. Statement J shows that the percentage of messages transmitted through the Persian Gulf section without error is much larger than it was in the previous year; this is very satisfactory. Similar information should have been given for the Persian section, and it is requested that this omission be supplied in future reports.

19. The average speed of transmission of messages through the Persian Gulf section, Statement H, contrasts very favorably with the previous year. Similar information should be given in future regarding the Persian section.

20. Statement G shows that the average speed of transmission of messages between the United Kingdom and Calcutta has improved by 49 minutes *viâ* the Indo-European route and by 8 minutes *viâ* the Red Sea route as compared with last year, which is satisfactory.

21. The tariff to Europe remained the same throughout 1876-77 as in the previous year, *viz.*, Rs. 2-8 per word.

22. The income of 1875-76 was abnormally high owing to the prolonged break of the Red Sea cable during that year, so that the revenue for 1876-77 has been compared by the Director-in-Chief with the more normal year of 1874-75.

23. The revenue for the year 1874-75 amounted to £66,192, while that for 1876-77 is shown to have been £65,035. This decrease is attributed partly to the increase in interruptions on the Indo-European Company's lines, partly to the withdrawal from Persia of a Packing Agency at Bushire, which, however, has recently been re-opened at Teheran, and partly to the Eastern Extension Company's cable which worked well all through 1874-75, having been disabled for no less than seven months during 1876-77, which accident considerably reduced the Far-East traffic. On the other hand, however, the "Special *Times* messages" and the diversion of some of the Far-East traffic to the Indo-European route have brought increased revenue, and on the whole the operations of the year may be considered fair.

24. The introduction of the word "Tariff," which came into force on the 1st January 1876, appears to have been much appreciated by the public, as shewn by the following comparison:—

	1874-75.	1875-76.
	No.	No.
Messages transmitted by the Persian Gulf cables ...	36,931	45,205
Words contained therein	968,800	883,913
	Rs.	Rs.
Revenue derived therefrom	5,89,035	5,83,185

The above figures show that, while the number of messages has increased considerably, the number of words has been much reduced. The revenue on the other hand has remained nearly stationary, so that financially it may be considered that the word tariff has not been unsuccessful, and it is anticipated that the change will eventually lead to an increase of income.

25. As mentioned in paragraph 2, the accounts for 1876-77 had not been finally closed at the date of submitting the report under review, the figures given therein are necessarily approximate only. For the same reason the figures now quoted for 1875-76 do not always agree with those published in the report for that year, and where differences occur, it is in consequence of the adoption of corrected figures.

26. In reviewing the report for 1875-76, the Government of India drew the attention of the Director-in-Chief to several points, of which the following are the most important: (1) that the traffic tables did not distinguish between official and private messages; (2) the notable absence of any tables and details to show the working, &c., of the *Persian* section; (3) the completion of Table K (J of present report) by giving the percentages of the year as well as of the month.

It is probable that the information required has not been given because of the late date on which orders issued on the last report, but his Excellency in Council trusts that it may be given in the report for the current year.

Establishments.

27. The Governor General in Council notes with satisfaction that the general conduct of the employés is reported to have been good.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Director-in-Chief, Indo-European Telegraph Department, for information and guidance.

Also, that copies of the Report and Resolution be forwarded to the Director General of Telegraphs, the Government of Bombay, in the Public Works Department, and the Financial, Marine, and Revenue, Agriculture and Commerce Departments for information.

Ordered also, that copy of the Report and Resolution be forwarded to the Foreign Department for information, with special reference to paragraphs 10, 11, and 21 of the Report, also Appendix 6.

Ordered further, that a copy of the Report and Resolution be forwarded to the Secretary of State for information, and to the Home Department for publication in the Supplement to the *Gazette of India.*

W. A. CROMMELIN, *Major-General, R. E.,*
Secy. to the Govt. of India.

No. 1205, dated 10th August 1877.

From—Major J. U. Bateman-Champain, R. E., Director-in-Chief, Indo-European Government Telegraph Department,

To—Secretary to the Government of India, P. W. Dept.

On the 9th July I had the honor to forward you a telegraphic message to prepare you for considerable delay in the submission of this my Annual Administration Report of the Indo-European Telegraph Department. When affairs are in their normal condition, it is barely possible for the statement to reach you by the 1st August. The couriers between the south of Persia and Teheran travel but once a month to and fro; and no oftener between Teheran and London. The dates of the despatch of these couriers are by no means regular, so that the Director at Teheran may be kept waiting for several weeks after the close of the official year before he can commence the preparation of his report, and again before he can send it to me. At the present time the war between Turkey and Russia has rendered the postal arrangements between Persia and London more than ever precarious, the ordinary route by Erzeroum has been temporarily abandoned, and the report of the Persian Section, dated Teheran, 2nd June, reached my Office only on the 30th July.

2. In former years I have found it a matter of extreme difficulty to even approximate to the date on which the report is required by you, and I venture to observe that, under such circumstances, it is scarcely possible to avoid small inaccuracies of detail and occasional omissions. If the Government of India would consent to the time for the preparation of my annual report being extended, so that the 1st October instead of the 1st August were the date by which it should be due, I should be considerably relieved.

3. In the following paper it will be seen that my remarks are not grouped precisely as in former years, but I may indicate the subjects treated of under the following headings:—

1.—Capital and Revenue.

2.—Lines.

3.—Maintenance and Repairs.

4.—Interruptions.

5.—Traffic.

6.—Inspections, Buildings and Stores.

7.—Establishments.

CAPITAL AND REVENUE.

	£	s.	d.
4. At the commencement of 1876-77 the Capital stood at ...	1,153,835	16	2
During the year an addition was made of	657	11	4
At the close of the year it stood therefore at	1,154,493	7	6

5. The details of the addition are shown in the Departmental Capital and Revenue Accounts attached prepared by Mr. Brasher.—*Vide* Appendices Nos. 1, 2, 3 and 4.

6. The Revenue Account may be summarised as follows:—

	£	s.	d.		£	s.	d.
Earnings ...	65,035	10	0	Expenditure ...	71,868	6	5
Miscellaneous receipts ...	692	7	3				
Excess of expenditure over receipts ...	6,140	9	2				
	71,868	6	5		71,868	6	5

7. It will at once be evident that the anticipations recorded by me in para. 31 of my last year's report have been fully realized. The comparatively high earnings of 1875-76 have,

when I shall endeavour to explain the causes which have tended to diminish our receipts somewhat below the figure we might (notwithstanding the repair of the rival Red Sea lines) have hoped to reach. The total expenditure is slightly below that of the previous year, but above that of 1874-75. The figures being as follows:—

1874-75.	1875-76.	1876-77.
£ s. d.	£ s. d.	£ s. d.
67,205 13 7	73,079 13 3	71,868 0 0

LINES.

8. The object of the Indo-European system is, from the nature of the undertaking, limited, and it may be said to be achieved; so that, unlike the case of the telegraphs of a State which are subject to annual extensions or changes according to the requirements of commerce or national policy, the observations to be entered under this head are necessarily unimportant, and must differ but little from what appeared in last year's report. Wherever the lengths of the sections noted below are not precisely as before, the difference is owing to repairs and alterations effected during the year, and they will be separately referred to under the heading "Maintenance."

9. At the end of 1876-77 the lines worked by the Department were as follows:—

In Persia.	*Line.*	*Wire.*
Teheran to Bushire	792 miles.	1,584 miles.

There is a third wire attached to our posts and put up by us, but as it is according to treaty devoted entirely to Persian local work, I have not considered it as an intrinsic portion of the Indo-European system, although in case of accident it would lend us valuable aid.

In the Persian Gulf.

Gutta-percha core.	Sub-marine cable.
	Miles.
Fao to Bushire	156
Bushire to Henjam	369
Henjam to Jashk	143
Jashk to Gwadur	272
Gwadur to Manora	271
Manora to Kurrachee, 3 cables of 6 miles each ...	18
	1,229
India-rubber core (Hooper's) Bushire to Jashk ...	503
Total cable	1,732

Mekran Coast land line.	*Line miles.*	*Wire miles.*
Jashk to Kurrachee	718	1,436

Altogether a total (excluding the third Persian local wire of 792 miles) of—

1,732 nautical miles of cable.

1,510 miles of land line containing 3,020 miles of wire.

MAINTENANCE AND REPAIRS.

Persia—Teheran-Bushire.

10. During the year under report the substitution of iron for wooden supports was brought to a completion; the old wooden posts which still existed in the neighbourhood of Kohrood, Ispahan and Sivand having been entirely removed. In the first division 576 and in the second 202 new iron standards were erected, and it may confidently be stated that this line is now in excellent condition. Cases of wilful damage which in former years caused us excessive trouble and anxiety were in 1876-77 comparatively trifling and few. Major Smith refers to this satisfactory improvement as follows:—

"Wilful damage to the line has, I am happy to say, considerably decreased. In fact throughout the greater portion of the line it may be said to have altogether ceased. This improvement I attribute chiefly to the greater number of control stations, to the system of placing each Inspector in the middle of his section, and to the better discipline of the maintenance branch generally. Fortunately also some of the greatest culprits in the way of pole shooting in the Kazeeroon-Bushire section have been got rid of. The Kedkhoda of Kemarej was killed about two years ago by his own followers, and last autumn the Governor of Borasjoon, another old offender, was disgraced and arrested for arrears of Revenue."

11. Clear as seem to me our claims on the Persian Government for the re-imbursement of expenses incurred by us in repairing injuries wilfully caused from time to time, these claims are repudiated by the Shah's Ministers. The correspondence on the subject during the past year has been very voluminous and has all been laid before the Government of India. I have more than once, when called upon, submitted my opinion on the matter, and need only say that I can discover neither justice nor reason in the *quasi* arguments adduced by the Persians. Our claims are, I believe, valid and unanswerable if there be any meaning at all in Article XII of our Treaty which, to my mind, appears thoroughly intelligible. The question is one for diplomatic arrangement and need not be further enlarged on here. But I should remark that by my instructions Major Smith has always taken special care not to enter amongst our claims any case where the least doubt could reasonably be entertained as to the injury having been wilfully caused.

Persian Gulf.

12. In the Persian Gulf several breakages occurred in the main cables and were promptly mended; several old faults were cut out before they had sufficiently 'developed' to affect the working, and the harbour cables between Manora and Kurrachee were extensively repaired. The breakages occurred in the gutta-percha cable only. They were four in number. The principal one took place on the Gwadur-Jashk cable near the latter named station on the 7th January 1877, and was mended on the 13th: it was caused by corrosion and decay of the outside iron wire guards. The second in importance took place on the Gwadur-Manora cable near Manora on 5th July 1876 and was temporarily repaired on the 8th *idem*. The locality of the fault, which was caused by chafing on the rocks, being too near shore for the *Amberwitch* to approach and effect permanent repairs during the monsoon. The remaining breaks of the cable which lasted 20 hours and 3 hours, respectively, were apparently due to wilful damage. The cable in the former instance having been hooked up and cut with an axe or some similar instrument at a distance of about 400 yards from Manora: and in the latter case it seems that a thief broke open the Manora cable house with the object of purloining the brass connections. Every effort was made to discover the offender or offenders, but as yet without success. A detailed list of the breakages will be found in Appendix 5.

13. After the break of the gutta-percha cable near Jashk, treated of in the previous paragraph, Lieutenant Stiffe cut out a fault from the same section near Henjam on the 20th January, and another in the Jashk-Bushire cable which had been 'developing' for several months. Three other small faults of the same description were removed from this section in the previous April and May, one of which had been indicated since 1870.

14. The Kurrachee Harbour cables having shown signs of failure, chiefly in consequence of the deterioration of the portions buried in dry ground, were thoroughly overhauled; and about one-third of the total length of each was renewed. In this work the steam launch *Rose* rendered very great assistance.

15. The main cables are now, in the opinion of Lieutenant Stiffe, quite free from faults, but the shore ends near the Gulf stations have deteriorated, though not to the extent of interfering in any way with the signalling. A complete list of the repairing operations undertaken will be found in paragraph 59.

16. On the Mekran Coast land line 6,000 new insulators were substituted for old defective ones. Many miles of corroded wire and several iron standards were replaced, and a diversion, which added 3 miles to the length of the line, was effected at the Hubb River crossing in order to obtain the advantage of a narrower span from bank to bank. Further reference to this diversion will be made in the section of this report allotted to 'interruptions.'

INTERRUPTIONS.

Persia—Teheran-Bushire Line.

17. Although, as I observed above, the third or local Persian wire cannot fairly be held to constitute a part of the Indo-European system, it cannot be disregarded when the question of interuptions has to be considered. Under Article VI of the Persian Treaty now in force, the loan of the third wire can, under certain restrictions, be claimed by us for international working in case our two wires should be disabled. Moreover, we undertake in return for a stipulated annual payment to keep it in order for the Persians.

18. Appendix 7 gives the interruptions on the three wires, Teheran-Bushire line, for 1876-77. In order to supply the exact information required by the Government of India so as to notify not only interruptions to traffic but interruptions to each separate conductor, I must count cases of contact between two wires, which practically left two distinct means of communication available, as interruptions of one wire: and contact between all three wires will be counted as interruptions to two wires. It will then be seen that during the year one wire of the three was interrupted for 479 hours 13 minutes, two wires were interrupted 87 hours 30 minutes, and all three (involving a total cessation of communication) for 20 hours during the year. The longest period during which communication was entirely suspended

plete breaks were caused by violent gales. On the whole, I think that the interruption report for the Persian lines for 1876-77 speaks well, considering the physical conditions which prevail, for the solidity of the line and the efficiency of its maintenance.

Persian Gulf Interruptions.

19. The particulars will be found in Appendices 5 and 6.

		Days.	Hours.
These interruptions amounted on the cables to	...	30	1
On the Mekran Coast Line to	...	14	9·36
Total	...	44	10·36

The interruptions to the cables were caused by the breakages and the repairing operations mentioned under the classification "Maintenance."

20. The principal break of 7 days' duration on the Mekran Coast Line occurred at the large span, more than a third of a mile in length, of the Hubb River crossing. This accident might have been put right at once, but as the restoration of communication by the land line was not urgently required, the opportunity was taken for carrying out a plan, previously approved, of diverting the line for a distance of 3 miles to a more favourable spot for crossing where a span of 430 yards in length was found sufficient. By this diversion the risk of future breaks on the Hubb River will be much diminished.

21. Other interruptions on the land line, lasting in the aggregate 3¼ days, were caused wilfully by the Rind Chief 'Dad Mahomed' cutting the wire and damaging the supports. His followers also made a prisoner for a few hours of the Native Artificer and seized his camel and rifle. The disturbance arose from the fact of some domestic slaves of the tribe having been declared free by the Muscat authorities on their being landed at Gwadur. The department was by no means concerned with this matter which is being dealt with by the Political Agent who compensated the Native Artificer for his losses.

22. Owing to the existence of a double chain of communication in the Persian Gulf, none of the above-mentioned interruptions caused a stoppage of the traffic, scarcely even any appreciable delay; one line being always in good order when the other was broken.

23. But although the lines under my charge were fortunate from the fact of the total interruptions in Persia and the Persian Gulf not having arrested traffic for more than 20 hours during the entire year, the wires of the Indo-European Telegraph Company, on which we mainly depend, were less successful: the breakages* on those lines having stopped our business for upwards of 20 days. The aggregate interruption of traffic between England and Kurrachee *viâ* Teheran amounted therefore to 21 days. This although not quite so long as in 1875-76 (which was an exceptionally bad year in this respect) was yet very serious, and as will be seen under the head of Traffic had a bad effect upon our earnings for the year.

* Appendix 8.

24. The interruptions on the Company's line occurred on the Gitomir-Tiflis Section, and were caused for the most part by violent falls of snow and storms. The suspension of an alternate wire now in operation between Ekaterinodar Stavropol and Tiflis will doubtless in the future diminish the frequency and duration of these unfortunate interruptions; but as it will not form an alternative loop to the whole of the section most exposed to storms, I am afraid we can hardly hope to pass a winter wholly without breakages on the Russian route. I have, however, some confidence that they will not again amount in the aggregate to so much as here reported.

TRAFFIC.

25. The speed between England and India *viâ* Teheran was well maintained during the year. The rate at which the traffic was transmitted averaging only 1 hour and 35 minutes per message between the United Kingdom on one side and Calcutta on the other. This is the highest speed that has yet been reached, and, if I am rightly informed, it exceeds by 8 minutes the pace attained on the Suez route; the average for which through 12 months was 1-43 per message.

26. The tariffs and regulations of the St. Petersburg Convention remained in force during 1876-77, and the charge between India and Europe by the Teheran and Suez routes was consequently Rs. 2-8 per word, or the same as in 1875-76.

27. In the latter named year our earnings (it will be remembered) were abnormally high, owing to our having transmitted the whole of the traffic between Europe and India during the interruption of the competitive line in the Red Sea. The income of 1875-76 cannot, therefore, serve as a basis of comparsion with that of the past year which amounted to £65,035. A comparison may, however, be made with 1874-75, when the receipts from ordinary traffic were the largest realised in any single year since the establishment of the Red Sea line. The traffic earnings in 1874-75 were £66,192, that is to say, £1,157 in excess of the earnings of the year under report.

28. The falling off is attributable partly to loss of traffic occasioned by interruptions and partly to the withdrawal from Persia of a somewhat irregular but busy packing agency, which formerly gave us a considerable number of messages. As shown in the Appendix to the section headed Interruptions, the line *viâ* Teheran was broken down for 8 days only in 1874-75 as against 21 days in 1876-77. The loss in earnings during the extra 13 days of interruption last year may be estimated at not less than £2,500, in addition to this the Madras-Penang cable which worked well during the whole of 1874-75, was wholly disabled for seven months of 1876-77. The department had therefore to sustain a serious loss of Far-East messages in addition to the diminution of its traffic with India owing solely to the interruptions of its feeders for which we are in no sense responsible.

29. The agency removed from Persia in 1876-77 gave us in 1874-75 messages to the value of about £3,000. The agency belonged to a firm which included packing amongst the several branches of its business, and it was established in Persia when it was possible to make a profit by addressing messages to Bushire, and re-transmitting them from that point to India or England. An alteration in the International rates effected at St. Petersburg removed this source of profit, and the agency was in consequence withdrawn in the early part of 1876.

30. As a partial set off, there were two items of revenue last year which did not exist in 1874-75. One was the special Sunday messages of the *Times* and the other the traffic from India to the Far-East directed *viâ* the Persian Gulf whilst the Penang cable was broken.

31. There can, I think, be no doubt that, had the through lines been as free from interruptions in 1876-77 as they were in 1874-75, and had the re-transmission of messages in the way just described continued, the earnings of the Department would have exceeded those of 1874-75 by several thousand pounds I may add that the firm referred to in para. 29 has again found it advantageous to re-establish its telegraphic agency; but in this case at Teheran instead of Bushire. The arrangement of the tariffs under the St. Petersburg Convention still allowing some profit to be made by the re-direction of messages to and from the East, this Office was re-opened in March 1877, and a glance at Appendix 3 will show that I by no means overestimated the effect of this business on our earnings. It will be observed that the figures representing our Persian proportion only of receipts which, from April 1876 to February 1877, during the non-existence of the intermediate agency, range from 194 to 835 francs per mensem, spring suddenly up on its re-establishment to no less than 4,500.

32. The messages transmitted by Turkey gave us about the same in 1876-77 as in 1874-75. Their total value computed from Fao to destination eastward being in both cases about £4,500. The comparatively inferior speed and accuracy attained on this line prevent the public from favouring it to any great extent.

33. The Indo-European Company has been forced by recent events to pay very special attention to the part of its line, the failure of which has had so depressing an effect on our last year's receipts. While I write I am expecting to hear of the completion of a wire traversing a new and safer line between Kertch and Tiflis less exposed than the one so often interrupted to the disastrous action of gales and snow storms; and of stronger construction than the Soukhoum Kaleh Telegraph which it is to supersede.

34. Taking into consideration the facts as above stated, and also the great and unusual depression of trade during 1876-77, I think that, although the financial results give some ground for disappointment, especially after the high figures of 1875-76, there seems no reason whatever for despondency as regards the future, and the circumstances show that blame for the falling off is not deserved by this Department.

35. The Government Indo-European system must always, from causes which I have repeatedly enumerated, be an expensive telegraph to maintain and work. But I believe its existence has become not only valuable but indispensable to the State, and it must be the steady object of the Department to maintain its efficiency at as low a cost as possible. I have endeavoured to reduce expenditure and effect economies wherever practicable, and I shall not in the future relax my efforts.

36. The word tariff was apparently of great service to the public, the percentage of messages under 10 words in length averaging as much as 35 per cent. of the whole number. These short messages would, under the old system, have nearly all been sent through the medium of packers. In 1874-75 when the lowest charge was for 10 words, the Persian Gulf cables transmitted 36,931 messages, containing a total of 968,800 words, producing a revenue of Rs. 5,89,035. In the year just past the cables transmitted 45,205 messages, containing 883,913 words, producing a revenue of Rs. 5,83,185. Attached are tabulated statements prepared by Mr. Herbage, Traffic Manager at Kurrachee, which will enable further comparisons to be made between last year's traffic and that of the preceding three years.

37. In the Revenue Account will be found an item of £260 entered as profit arising from the mean rate system *viâ* Turkey, in explanation of which I beg to state that the mean rates collected in Europe and in India for the despatch of messages by the Turkish line were in excess of the exact rates due to the different Administrations by the above named sum.

INSPECTIONS.

38. On the 1st April 1876 I was, in company with Major Smith, the Director of the Persian Section, at a distance of one day's march from Bushire, journeying slowly to Teheran on a tour of Inspection. I had just visited India and completed a round of visits to the Gulf stations as noted in para. 38, &c., of my last year's report. A full and detailed account of my journey was prepared by me on my return to England, and submitted to the Under Secretary of State in letter No. 247 of the 14th July 1876. The following extract from my letter may not be out of place here as describing the state of Southern Persia during the early part of the past official year. I must, however, remark that since that time Yahya Khan has been removed from the Governorship of Fars and replaced by H. R. H. Ferhad Mirza, whose energetic measures (some of them marked by excessive severity) have put a stop to much of the brigandage and disorder which were rife at the time of which I wrote. The Musheer Ul Mulk, a man of about 80, has since my visit been bastinadoed by order of the Shah, mulcted of an enormous sum of money, and has, I hear, left the country on a pilgrimage to Mecca :—

"Major Smith and I left Bushire for Teheran on the 31st March. Mr. Walker, the Superintendent of the Southern Division of the Persian Telegraph, accompanying us as far as Shiraz. The land line in this Division is admirably laid out, and although the country it traverses is exceedingly mountainous and difficult, I believe that interruptions to the communication would henceforth be unknown were it not for the lawless state of the tribes and villagers in this part of Persia. From Bushire up to the very walls of Shiraz the country is absolutely unsafe for ordinary travellers, and the same may be said of the road onwards to within 40 or 50 miles of Ispahan. When I first marched through this part of the world, 14 years ago, no day passed without my meeting one or two caravans, and at that time signs of a generally prosperous condition of affairs were not wanting. The change for the worse has been steady and most lamentable, and the famine of 1871 has fatally assisted the ruin of these provinces. Between Bushire and Ispahan, on this occasion, we met, I think, only one caravan, and that was pillaged on the hills near Moorghab. Villages formerly thriving and surrounded by cultivation are now completely deserted, and I might safely say that no single day passed without our either hearing of or seeing evidence of the existence of organised bands of robbers in every direction. Only between Bushire and Kazeroom does our line itself suffer direct injury. Every man and boy carries a gun, and our iron-poles seem to offer irresistible temptation as marks. The Governor of the large village of Borazjoon is about the worst offender, and a very determined attack, for which I am convinced he was responsible, was made on the telegraph shortly after we passed by. The higher Persian authorities are apparently afraid of this man, who, whenever out of favour, betakes himself to the neighbouring mountains and heads a band of robbers. On our third march out of Bushire we breakfasted at a village which had been attacked on the previous day by some Kashgais under one Jaffa Kuli Bey, one of the villagers being killed, five wounded, and all the sheep and cattle carried of. Near Shiraz an attempt was made on our own caravan, but, as a general rule, the robbers prefer to let Europeans alone, partly because they carry few things which are of value to Persians, and partly because some steps are in such cases taken to recover the stolen property, and to punish the offenders; whereas, when Persian subjects are the victims, nothing seems to be done.

"Although the general state of the south of Persia is so deplorable, it was evident that the people are, by no means, ill-disposed to the telegraph staff. On two occasions mules belonging to my party were taken by robbers, but released directly, it was understood that they belonged to Englishmen. On a recent occasion a troop of Arabs attacked some men travelling with Mr. Harrison, one of my Inspectors, and shot a Persian soldier dead, but they never offered to molest Mr. Harrison himself. I was received everywhere with the greatest possible civility and attention. I was visited by the Governors of the places through which I passed; by the Sheikh Ul Islam of Kazeroom; an imposing Cavalry escort met me near Shiraz, and nothing could have been more civil and cordial than my reception by the Governor of Fars. The Musheer Ul Mulk, who is without exception the richest and most influential person in the south of Persia, paid me the compliment of calling on me which was only remarkable, because a few years ago he was much opposed to us, and was believed to have no good feelings towards Europeans in general.

"It is evident that so long as the roads remain in the hands of these lawless tribes who pass backwards and forwards along our line of telegraph twice a year, a wilful interruption may occur at any moment. Major Smith has, therefore, been obliged to ask leave to construct for the shelter of our inspectors and line-guards some 3 or 4 minor stations which would be unnecessary in other countries. All have been completed and are occupied, except one at Sivand, 60 miles north of Shiraz. Permission was received from the Shah's Government just before I landed in Persia for us to build a small office at this place, and the Governor of Shiraz deputed a man to assist us in selecting a site and arranging matters with the head of the village. Major Smith and I settled this on our journey, and left one of the Non-Commissioned Officers of Royal Engineers at Sivand to superintend the work.

"From Sivand to Dehbeed the road is occupied by Arab tribes, and is impassable except by strong well-armed bodies of men. These Arabs have an understanding with Mahomed Nebbee Khan, the Governor of Moorghab, whose tyranny and oppression are by all accounts fast depopulating what used to be a fair and prosperous part of the country. One large village called Madr-i-Suleiman was being abandoned as we passed, and the inhabitants were making for the hills—men, women and children—with their flocks to escape from the tender mercies of Mahomed Nebbee Khan. At this man's village we found a large caravan of pilgrims who were afraid with good reason to pursue their journey, as the Governor refused to give an escort over the hills unless they subscribed a considerable sum of money. They joined our party and got through for nothing, but a considerable number of armed Arabs came out to meet us and, after seeing that we were prepared, made no attempt to molest us. Some of our stragglers were stripped however later in the day."

39. On the 3rd May 1876, Major Smith and I reached Teheran, where I remained until the 13th, arranging certain questions connected with International accounts and sundry minor matters of detail. I then proceeded by the Caspian Sea and Russia to London, where I arrived on the 3rd June. I stated in my account of this journey that 'my inspection of the Persian line was eminently gratifying, and there is no doubt that the telegraph between Bushire and Teheran would stand comparison with any line in the world.

* * * *

The system of inspection in force has been well considered and is effective, and the state of the offices is satisfactory.'

40. During March 1877, Major Smith has again been over his line as far as Shiraz, and he reports that he has reason to be well pleased with the order maintained at the several stations and with the condition of the wires. He alludes also, with satisfaction, to the good feeling which exists between our officials and the Persian local authorities, as well as the inhabitants of the country in general.

Persian Gulf.

41. In August 1876, Mr. Ffinch, the Deputy Director, proceeded by mail steamer from Kurrachee to Fao to investigate the matter of necessary repairs to the buildings at that station. Thence he went to Bushire to arrange about the new office outside the town, and, on his return, he inspected the Jashk Station. In October Mr. Ffinch visited Gwadur in the telegraph Steamer *Amberwitch,* and between December 1876 and February 1877 he made a complete tour of the Gulf stations.

42. Thanks to the cordial assistance of Colonel Prideaux, the Bushire building question was satisfactorily settled during Mr. Ffinch's stay at that station. The Persian Government having at last agreed to the establishment of a station outside the walls, on condition that the accommodation should be limited to the office and house requirements of the telegraph staff, and that the buildings should be the property of Persian subjects, an agreement was, after some trouble, entered into with two Persian merchants, who undertook to erect the necessary houses at the present sanctioned rent of Rs. 275 per mensem in return for a guarantee that they shall be leased by the Department for 10 years. The site selected is about 5 miles from the town close to the best water obtainable.

43. The state of the buildings at the different stations visited by Mr. Ffinch was, at the close of the year, as follows:—

At Fao, property of Turkish Government, good. The buildings of wood having been thoroughly repaired at departmental expense.

At Bushire, Office and houses rented. Unsatisfactory—*Vide* para. 42.

At Henjam, wooden-house reported to be very hot in summer and cold in winter. If this station be retained, a stone building will probably become necessary.

At Jashk, stone buildings, fair order, except the latrines which require re-building.

At Charbar, stone buildings, fair order, except on the side facing the sea, where the material employed suffers somewhat from the weather.

At Gwadur, stone buildings, repairs needed, which were being executed at the close of the year.

At Ormara, fair order.

At Kurrachee, stone building, good order throughout.

STORES.

Persian—Teheran-Bushire.

44. The cost of stores supplied from England amounted, with freight, to £2,918-14-2, they consisted chiefly of iron standards to complete the replacement of the old wooden-posts. This work being now finished, the cost of stores for Persia will, for some years hence, be very much reduced.

Persian Gulf.

45. The cost of stores purchased in England amounted, with freight, to £3,909-5-6. The cost of those obtained in India was £2,041-11-9. The chief items of the English stores consisted of 1,000 iron standards for the Mekran Coast land line to replace an equal number erected near the sea which had become too corroded to be longer depended upon, and of 6,000 insulators, with brackets, to improve the insulation of the line. No more standards will probably be required for some time to come, but a further supply of insulators will be necessary.

46. The value of stores issued from the Persian Gulf stock amounted to £7,765-0-10 as passed by the Examiner.

ESTABLISHMENTS.

47. The sanctioned strength of the establishments was unaltered during the year on record.

48. Major Smith thus speaks of the conduct of the staff under his orders in Persia:

"I am much indebted to the Superintendents and Assistant Superintendents for the zealous and careful manner in which they have continued to perform their duties. The general behaviour of the Inspectors and Signallers has also been very satisfactory. There was a good deal of sickness during the greater part of the year, but never to such an extent as to interfere with the current work of the Department."

49. The establishment of the offices in Persia was located as follows:—

STATIONS.	Superintendents.	Assistant Superintendents.	Clerks.
Teheran	1	1	6
Ispahan	...	1	3
Shiraz	1	1	4
MINOR STATIONS.			
Koom			
Kashan			
Soh			
Koomeyshah			
Abadeh			
Dehbeed...	...	...	11
Sivand			
Dasht Arjin			
Kazeroon			
Konar Takhteh			
Borazjoon			
	2	3	24

50. These minor offices, as explained in previous reports, are merely intermediate testing stations. They are very numerous, but owing to the insecure condition of the countrys, I am satisfied that not one can be safely dispensed with. The small building now occupied at Sivand was erected during the past year on a site granted by the Governor of Fars, and selected by myself.

51. During the year 1876-77, the changes in the Persian staff were as follows:—

Captain W. H. Pierson, who was on furlough, resigned his post as Superintendent, and re-joined the Public Works Department in India. The circumstances which led to our losing the services of this excellent and zealous officer have already been fully reported to Government.

One Inspector, Mr. W. Harrison, resigned.

One military signaller having seriously suffered in health was allowed to re-join his corps at Chatham, and 3 civil signallers resigned their employment.

I have asked that Mr. Douglas Walker, who has for some time officiated in the Persian Division, should be allowed to fill Captain Pierson's appointment. The other vacancies were filled up from this country, excepting that of the Inspector for which an able and experienced ex-Sergeant of Royal Engineers was available on the spot.

52. In the Persian Gulf Division the distribution of the Office Establishment was as follows :—

STATIONS.	Superintendents.	Assistant Superintendents.	Clerks.
Kurrachee	1	...	6
Ormara	...	...	2
Gwadur	...	1	5
Charbar	...	...	2
Jashk	1	...	12
Henjam	...	1	2
Bushire	1	...	14
Fao	1	...	3
Spare for leave, sick, &c. ...	...	...	12
Total ...	4	2	58

53. As regards changes during the year, Mr. Ffinch makes this observation :—

"In my last year's report I mentioned that 14 clerks had left the service in 1874-75, but that only 1 clerk had left during the year then under review. I expressed a hope that this showed a healthier state of things, and that in consequence of the clerks gaining in experience the errors made would be less numerous, and the speed greater, I have however been disappointed, for during the last year no fewer than 10 clerks resigned, 1 was dismissed, and 1 deserted, one other clerk was transferred to charge of a section of the land line on the lamented death of Mr. Monement."

	Resigned.	Dismissed, &c.
1st Grade	... 1	...
2nd ,,	... 1	1
3rd ,,	... 4	...
4th ,,	... 4	1
Total	... 10	2

54. During the same period 17 new clerks were engaged, 6 to fill the new appointments sanctioned by the Government of India at the end of the last year, and 11 to replace those clerks who resigned or were dismissed.

Engaged in England	10
,, in India	7
Total ...	17

55. Besides the above changes, this Division lost the services of Mr. Inspector E. F. Monement, who was accidentally drowned at Kurrachee on the 20th July 1876. The sad end of this excellent and energetic officer was universally deplored.

The gutta-percha jointer was dismissed for insubordination, and Mr. Rowley, our extra Cable Foreman, who had been only temporarily engaged, was allowed to return to England.

56. Mr. Ffinch has expressed himself as not altogether satisfied with the signalling efficiency of the young clerks engaged in this country. The system in force was established by my predecessors and appeared to be the best in many respects for the peculiar conditions of the Department. There is, however, much force in what Mr. Ffinch has urged, and I have determined to somewhat modify the existing plan. In case of vacancies I have authorised Mr. Ffinch to engage a few efficient well conducted men (if they can be spared) from the Indian Department. Working on land lines in India however differs in many points from

working cables in the Persian Gulf, and it may be advisable to engage in this country, when opportunity offers, a proportion of clerks who have had employment under some of the Cable Companies. The whole question is still under consideration and is the subject of discussion by Mr. Ffinch and myself.

57. Before ending this report I should point out that whenever I have spoken of last year's receipts, earnings, or expenditure, the figures employed are necessarily only approximate, the accounts for 1876-77 not having yet been finally adjusted and closed. But where-ever the figures refer to the business of previous years, they have been extracted from the blue books and may be accepted as accurate. Consequently these last mentioned figures will not invariably agree precisely with the approximations of former annual reports prepared like the present one before the closing of the yearly accounts.

58. I will now add a few particulars on certain subjects which do not conveniently belong to either of the main headings already enlarged on.

59. On the 7th January 1877 I addressed a letter to the Government of India, pointing out the advisability of steps being taken before very long to replace the cable Steamer *Amberwitch*, the reasons urged by me were accepted as sufficient, and I need not repeat them here. During the past year this useful vessel, under the command of Lieutenant Stiffe, was employed on various important duties, the nature of which can be gathered from the following tabular statement :—

Date.		On what duty.
From	To	
1876.	1876.	
April 1 ...	April 20 ...	With Director-in-Chief and at Bushire.
„ 21 ...	May 14 ...	Repairing India-rubber cable, and returning to Kurrachee.
May 15 ...	July 7 ...	In Kurrachee Harbour.
July 8 ...	July 8 ...	Repairing Manora-Gwadur cable.
„ 9 ...	September 25	In Kurrachee Harbour.
September 26...	October 31 ...	Annual repairs at Bombay.
November 1 ...	November 26...	In Kurrachee Harbour.
„ 27 ...	December 5 ...	Proceeding along Mekran Coast, distributing stores and visiting stations and portions of land line.
December 6 ...	December 17...	In Kurrachee Harbour.
	1877.	
December 18 ...	February 9 ...	With Deputy Director on annual tour of inspection and repairing cables.
1877.		
February 10 ...	March 20 ...	In Kurrachee Harbour.
March 21 ...	„ 30 ...	Employed on special duty. Re-surveying Indus River banks.

60. It will be observed that the last operation on the above list had nothing to do with the Department, but was one of several services of general utility which the *Amberwitch* has performed in her time under the thoroughly efficient command of Lieutenant Stiffe, who is a trained and accomplished surveyor.

61. The cable in stock in the Manora tanks on the 31st March 1877 was as follows:—

	Knots.
Gutta-percha	90·3
India-rubber (Hooper)	32
Total ...	122·3

62. During the year 10·5 knots of gutta-percha cable were expended, 6·4 in repairs, while 4·1 were stripped of the corroded wire guards, and remain in hand as core only. Of India-rubber cable 1·6 knots were used up in repairing the faults.

63. At the beginning of the year I was enabled to submit a highly satisfactory statement of the true condition and 'behaviour' of the Hooper's core, and the tests up to date corroborate what I then reported.

64. The gradual failure and decay of the serving and guards of these sub-marine cables, while the valuable dilectric and conductor remain perfect, have led to the accumulation of a considerable quantity of core which should be utilised hereafter. With this view I applied during the past year for permission to purchase, for the use of the Manora Establishment, a cable serving apparatus which should in a year or so be supplemented by the addition of a wire covering machine.

65. The sanitary condition of our Gwadur Station has for some years past been a source of great anxiety and doubt. We had reason to hope that the steps taken would have improved matters, but the health of the place is still, I regret to say, far from satisfactory. Were it not for political objections to Gwadur being abandoned, I should propose the total removal of my staff, which has already been reduced to a very low figure. Mr. Ffinch thus describes his visit to the place in the autumn of 1876—

"I inspected Gwadur in September, December and February. I regret to say that my anticipations relating to this station becoming again healthy have not been realized. Fever of the usual type made its appearance again in October 1876, and became so bad that at one time I feared it would be necessary to close the Office; many natives, including the Office Bheestie, died, and most of the Clerks sent there had to be removed. I have now only the Clerk-in-charge and one Signaller there, and by working direct on the cable between Kurrachee and Jashk with artificial leakage introduced at Gwadur, and also by working through Gwadur direct with Ormara and Charbar in translation on the land line, I am able to reduce the work at Gwadur to a minimum. This arrangement necessitates an extra Clerk at Ormara and Charbar stations, which are obtained from the saving effected in the Gwadur Establishment.

"The station at Gwadur is supplied with drinking water from a condenser which can distil 23 gallons in 8 hours. It is not used daily. The wood for burning in it costs Rs. 18 per mensem; coal was tried, but was found more expensive.

"The buildings at Gwadur were much in need of repairs which were being carried out at the end of the year by the Public Works Department. As the ordinary lime cement flooring breaks up at once, Portland cement is being used. This will keep the floors drier and will perhaps cause the buildings to be healthier."

66. The state of the Libraries and Recreation Fund, organized with Government approval and aid, is flourishing. A separate report on this subject has very recently been laid before the Government.

67. In conclusion, I have the honor once again to express my hearty recognition of the good service rendered by the officers and staff of the Department generally, and I would specially record my appreciation of the work done by Major Smith in Persia, by Mr. B. T. Ffinch, and Lieutenant Stiffe in the Persian Gulf, and by Mr. Brasher in the Head-quarters Office.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

WEEKLY CONDITION REPORT OF THE DISTRESSED DISTRICTS OF THE MYSORE PROVINCE.

PROVINCE OF MYSORE.

(No. 43).

Special Famine Report for the Week ending 1st December 1877.

Statement No. 43, regarding Famine Relief Operations in the Province of Mysore for the Week ending the 1st December 1877.

There was no rain during the week, but the weather was occasionally cloudy, and this seems to have unfavorably affected the crops in the eastern part of the Province. Ragi will not now be a full crop, and ballar, which promised exceedingly well, has in parts been attacked by blight. A large area has this year been sown with kulthi, or gram, instead of with ragi, for which the rain did not fall seasonably, and from this crop a good return is expected: but in Hassan more rain is required, and, unless another shower falls, a serious loss in the gram crop is there feared. On the whole, however, the circumstances of the season have so improved prospects that the Famine Commissioner has been able to exclude a considerable part of the Province from the operation of relief rules, and even where it is necessary still to afford relief, he is, by selecting certain works as Relief Works, and leaving ordinary and necessary works to be disposed of on general administrative grounds, gradually narrowing the action of the Famine Department. Thus, during the week, further relief in the District of Kolar has been declared unnecessary, and except in respect to a small Public Work and three Relief Camps, which will be kept up for some little time longer, the connection of the Famine Department with that District has ceased. Preparations for taking a Test Census on the night of the full moon on the 19th of January have been made. One Hobli, neither the most nor the least affected, in each of the distressed Taluks, will be selected for the Test, and in order to render the information more complete, each Special Relief Officer has been directed to visit as soon as possible each village in the selected Hobli, and take a Preliminary Census from inquiry made from house to house.

2. The imports of grain by rail amounted to 2,805 tons, or 1,246 tons less than in the preceding week. The imports were received from the following quarters :—

	Tons.
From Madras	2,036
„ Beypore, Palghat and Coimbatore	187
„ Tanjore and Negapatam	393
„ Other places	189
Total ...	2,805

From Bangalore 1,210 tons, or 339 tons less than last week, were exported to the following quarters, as shown by the octroi returns :—

	Tons.
Túmkúr	366
Bellary	77
Mysore	577
Usur (Salem District)	107
Round Bangalore	83
Total ...	1,549

3. The price of rice has fallen slightly, but ragi has been a little dearer, especially in Chitaldrug, Shimoga and Kadur, where it had been cheapest. The following statement gives the maximum and minimum prices in lbs. per rupee for each District :—

	Maximum in lbs. per Rupee. 2nd sort rice.	Maximum in lbs. per Rupee. Ragi.	Minimum in lbs. per Rupee. 2nd sort rice.	Minimum in lbs. per Rupee. Ragi.
Bangalore District (for 7 taluks) ...	16	22	13	16
Kolar „ „ ...	16	22½	13	15
Túmkúr „ (for 5 taluks) ...	14	22	12½	16
Mysore „ (for 9 taluks) ...	15	20	10¼	12
Hassan „	14¾	18	11	10¼
Kadur „ (for 5 taluks) ...	15½	24	11	14
Shimoga „	16	36	11	18
Chitaldrug „ (for 7 taluks) ...	13¼	30	11	12

4. The number of laborers on Civil Relief Works was 21,307, or 3,589 less than for last week, due chiefly to 1,940 persons, employed on ordinary petty works in the Kolar District, being excluded from the returns in accordance with the decision arrived at by the Famine Commissioner already alluded to.

5. Under the Public Works Department 44,970 laborers were employed on strictly Famine Relief Works, or a decrease of 3,221, occurring in the Túmkúr District, where the demand for field labor is reported to be increasing. The returns, as usual, have been prepared so as to exclude ordinary Public Works. Measures have been taken to enforce a more stringent task on the Railway, where the gangs have now been employed some time and are well able to do a full day's work. The Civil Officers will take care that the arrangements for

the weaker gangs are maintained in their integrity. The following is a list of works on which are employed 500 laborers and upwards:—

District.	Work.	No. employed.
Bangalore	State Railway	20,700
	Bangalore Water-supply	2,995
	Bangalore-Bellary (*viâ* Devanhalli Road)	1,638
	Mallappa Chetti's Tank	1,819
	Bhadram Tank	2,036
Túmkúr	Nelamangala-Túmkúr Road	1,757
	Túmkúr-Shimoga Road	2,182
	Túmkúr-Bellary Road	2,295
Mysore	Mysore Water-works	3,370
	Maddur Ane Channel works	657
Hassan	Mandigiri Channel	549
Kadur	Devanurkeresante Channel	757
Chitaldrug	Timmenhalli Tank	1,542
	Total	42,297

6. The number fed gratuitously in Relief Camps amounted to 19,480, or a decrease of 1,978 as under:—

	Week ending 24th November.	Week ending 1st December.	Increase.	Decrease.
Bangalore District	5,521	4,443	...	1,078
Do. Municipality	3,277	3,239	...	38
Kolar District	1,129	858	...	271
Túmkúr „	3,454	3,386	...	68
Mysore „	1,456	954	...	502
Do. Municipality	710	1,085	375*	...
Hassan District	1,735	1,601	...	134
Kadur „	562	541	...	21
Shimoga „	319	213	...	106
Chitaldrug „	3,295	3,160	...	135
Total	21,458	19,480	375	2,353
			Deduct Increase	375
			Net Decrease	1,978

Detailed instructions have been given respecting the cooking and issuing of the ordinary Government ration of one pound of grain per diem to the healthy inmates of Relief Camps. Under the orders of the Famine Commissioner, a series of experiments was undertaken, and the results have been carefully compared and circulated by him for guidance, and it has been made part of the duty of all Superintendents of Camps and of all Inspecting Officers to personally see the ration is of full weight. For the sick and the emaciated a more liberal diet has been prescribed in greater detail, and with these precautions the Famine Commissioner is of opinion the one pound diet is amply sufficient.

7. The number on civil and professional works amounted to 66,277 compared with 19,480 on gratuitous relief. The following table gives the numbers relieved since the last week in August:—

Week ending—	C. W.		P. W. D.		Total.		Charitable.		Grand Total.
1st September	29,295	+	24,206	=	53,501	+	227,067	=	280,568
8th „	28,754	+	24,847	=	53,601	+	221,176	=	274,777

27th „	31,167	+	52,274	=	83,441	+	61,148	=	144,589
†3rd November	33,335	+	43,870	=	77,205	+	51,328	=	128,533
†10th „	34,209	+	46,953	=	81,162	+	42,331	=	123,493
†17th „	29,940	+	50,080	=	80,020	+	31,370	=	111,390
†24th „	24,896	+	48,191	=	73,087	+	21,458	=	94,545
† 1st December	21,307	+	44,970	=	66,277	+	19,480	=	85,757

8. The average cost of feeding per head is returned as follows:—

	Cost per head. Rs.	A.	P.
Bangalore District	0	15	0
Do. Municipality	1	3	1
Kolar District	0	13	8
Túmkúr „	1	10	4
Mysore „	1	3	2
Do. Municipality	0	11	0
Hassan District	0	15	5
Kadur „	0	12	0
Shimoga „	1	4	6
Chitaldrug „	0	14	10

or an average cost per head of one rupee, one anna, and seven pies compared with one rupee for the preceding week. The serious attention of all officers has been called to the increasing cost of gratuitous relief in proportion to the numbers fed and to the necessity of immediately reducing the establishments at Relief Camps. A scale has also been laid down fixing the establishments which may be entertained according to the number of paupers in Camp.

* Owing to the inclusion of the Silledar Lines Camp at Mysore for the first time.

† Exclusive of about 9,000 laborers employed on the Ordinary Public Works.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

FAMINE COMMISSIONERS' ORDERS REGARDING RATION TO RELIEF LABORERS AND SPECIAL TREATMENT AND DIET OF THE DISTRESSED.

No. 1545, dated Bangalore, 5th December 1877.

From—A. WINGATE, ESQ., *Addl. Secy. to the Chief Commissioner of Mysore, Famine Dept.*
To—The Additional Secretary to the Govt. of India, PUBLIC WORKS DEPT.

I am directed to submit herewith, for the information of His Excellency the Viceroy and Governor General in Council, a copy of Circular No. 31, dated 28th ultimo, containing the Famine Commissioner's orders (1) on the Ordinary Government Ration of one lb. per diem; (2) on Special Treatment and Special Diet; and (3) on Hospital Diet.

2. The Famine Commissioner has satisfied himself, by personal inspection of nearly every Relief Camp in the Province, and by careful weighing and testing of the food served out—

(1) that the 1 lb. ration is sufficient to maintain in good condition those who are not much reduced by famine, and that in many cases they improve upon it;

(2) that wherever the inmates of a Camp who have been in residence for some time are found to be specially emaciated, it has been proved that they have not been receiving the full ration, but have been defrauded of it through some peculation or stupidity;

(3) that in the case of paupers who have been very much reduced by innutrition, an increased scale of diet called "special treatment" is necessary, and that with this assistance they often improve with surprising rapidity.

Circular No. 31, dated Bangalore, 28th November 1877.

MEMO.

The accompanying orders by the Famine Commissioner—

(1) On the Ordinary Government Ration of one pound per diem,
(2) On Special Treatment and Special Diet,
(3) On Hospital Diet,

are issued with the sanction of the Chief Commissioner and circulated for the information and guidance of all Deputy Commissioners and Famine Relief Officers.

"By Order,"
A. WINGATE,
Addl. Secretary.

ON THE ORDINARY GOVERNMENT RATION OF ONE POUND PER DIEM.

I have now before me the notes of the results of several hundred experiments made in boiling rice and ragi, both by myself and by the Relief and District officers to whom Circular No. 616, dated 17th October, was sent. There is a good deal of discrepancy in some of the returns, but the conclusion pointed to by the experiments as a whole is pretty clear.

Weight of rice before boiling.

One seer* of rice weighs from 88 to 90 rupees. Cleaned rice weighs heavier than uncleaned. "Hassi" or Mysore rice weighs slightly more than kusbal or kutbal, *i. e.*, "boiled" Madras rice.

* *N. B.*—The word "seer" is used throughout, unless otherwise stated, as a measure of capacity.

Weight of rice after boiling.

The result varies a little according to the kind of rice, but more according to the quantity of water. The best proportion seems to be when the water is double the quantity of the rice: thus 10 seers, or say 22 lbs. of rice, should be boiled in 20 seers of water. Treated in this way the differences are still great: but in the vast proportion of cases, 1 lb. of rice has been found to weigh from 120 to 130 rupees when boiled. The majority of my own experiments point to Rs. 130 as the proper result.

Capacity of rice when boiled.

I have not pursued this experiment, because the packing power of boiled rice is almost unlimited. With a little pressure any measure that can be constructed might be made to hold double, or half, of what it was intended to hold.

Weight of ragi when raw and unground.

One seer of ragi weighs about Rs. 80.

Weight of ragi flour when ground.

When the seer measure is filled slowly and carefully, as is the practice with traders, one seer of flour weighs Rs. 65 or Rs. 66.

Weight of ragi when cooked.

The discrepancies here are not so great as in the case of rice. Almost all the experiments

varying a little with the wetness and dryness of the pudding. It loses about 2 per cent. in weight as it cools. My own experiments point with very little variation to a weight of about Rs. 106 as the proper weight of 1 lb.

The result of these experiments leads me to issue the following instructions.

All food, both rice and ragi, should be given out in balls; the system of giving the rice loose in pannikins, which exists in some Relief Camps, should be abandoned, as such measures are untrustworthy.

I believe that, as a rule, the rice ball, which forms one of two daily meals for an adult, should weigh about Rs. 65 and the ragi ball about Rs. 53: and I am satisfied that, if in any case they weigh less than Rs. 60 or Rs. 50 respectively, the paupers are not getting their full ration. But the kind of rice, the shape of the pots, the time of boiling, and above all the quantity of water, influence the result; and though I would not lay down any uniform figure for the weight of the balls throughout the Province, I believe that the Special Relief Officer and Superintendent of each Relief Camp might establish the exact figure for that Camp by experiment, and adhere to it with close accuracy, by always cooking the same kind of rice in the same proportion to water.

The standard weight of each ball thus fixed should be written on a placard and hung up in the kitchen, and the Superintendent should weigh some of the balls every day, and all inspecting officers should weigh some balls on each visit, and see if they come up to the standard.

I append a recipé for condiments which may be used with such variations as the different prices prevailing at different places require. The condiments for 100 adults, at 3 pies per head, should cost Re. 1-9-0; and this recipé is calculated to cost so much at prices now prevailing in Bangalore. The dál should be ground to flour before boiling; the people prefer it whole, but it is wholesome when ground, and when whole it falls to the bottom and the cooks steal it.

Care should be taken that the pot in which the condiments are cooked should, if of copper, be tinned every 15 days.

Recipé for Condiments for 100 adults (value Re. 1-9-0) for both meals.

N. B.—C denotes a seer of capacity or a seer measure.
W denotes a seer of weight, or 24 tolas.

The condiments should be cooked in the morning and heated up for the afternoon meal.

ON SPECIAL TREATMENT AND SPECIAL DIET.

I find that it is advisable that more detailed instructions should be given regarding Special Treatment than the Code contains.

It may be advisable to repeat here that the classes requiring Special Treatment consist of (1) emaciated young adults of either sex, and working children (above 7 years old), (2) nursing mothers, (3) all children under 7 years old. The old are generally not fit subjects for Special Treatment.

The Treatment should be as follows:—

I. On Public Works Department Relief Works—

Laborers belonging to the classes specified above as (1) and (2) should be separately ganged by the Civil, or in his default by the P. W. D., Relief Officer, and should receive daily wages on the A scale with light work, as well as a ragi chupatti or scone containing 4 oz. of flour in the middle of the day.

Children below 7 years old will, under a Circular of the Chief Engineer's, which is re-published with this order, receive 2 oz. of conjee in the morning, 2 oz. of conjee at noon and 3 pie per diem on pay day. In the case of infants at the breast the nourishment should be given to the mother; if she is unable to nourish the infant, it should be fed on whatever it will take.

II. On Civil Relief Works—

Special gangs should receive either wages at the A scale, or a ragi chupatti as above described at the discretion of the Relief Officer in charge of the Taluk, who will be guided by the circumstances of the case. Children under 7 will receive the same food and money as on P. W. D. Relief Works, unless the scattered nature of the work and the absence of any superior officer makes this impossible, in which case they will get the usual 4 pies a day.

III. In Relief Camps—

All children under 7 will receive 2 oz. of rice conjee in the morning, 2 oz. at noon, and in the evening a half ragi ball with condiments. The conjee will be made by boiling in water, with a little salt, rice broken small in the mill, at the rate of 2 oz. of raw rice to each child. By 'half a ragi ball' is meant a ball containing ¼ lb. of ragi flour. In the case of infants at the breast the same rule will apply as was prescribed under the head of P. W. D. Relief Works.

Adults in the special gang will receive food according to the scale attached, which has been drawn up by Dr. Henderson: children under 12 and above 7 will receive half the quantity prescribed for adults. It will be observed that the quantity of food is considerably larger than the Government ration, but that the condiments are made with very little chillies for fear of irritating the digestive organs, which, in these cases, are generally out of order.

No rules as to diet will be of any avail unless constant watchfulness is exercised against fraud and mistakes on the part of the underlings. The Superintendent of every Camp, as well as the Special Relief Officer, must habitually assure himself by weighment and inspection that the quality of the food is good, and that the proper quantity is cooked, and well cooked, duty served out, and eaten.

Diet for Adults under special treatment.

	Ounces.	Drachms.		Remarks.
Morning meal, 7 A. M.			The ragi should be sifted, after grinding, in a fine sieve.	
Ragi	10	0		Meat to be given every other day: the meat should be cut into lumps of 4 oz. each and dropped into the "sáru" or condiments when at the boiling point, and boiled for ¼ of an hour. In serving the condiments see that each person gets one lump of meat.
Mutton (cooked in the condiments) ...	4	0		
Condiments as below				
Midday meal at noon.				
Conjee of Rice or Ambli of Ragi ...	2	0		
Salt	0	1		
Evening meal, 5 P. M.				
Ragi	10	0		An equal quantity of rice may be substituted at this meal if there is much diarrhœa among the paupers.
Condiments as below				

N. B.—If found more convenient, *e. g.*, if there are no able-bodied paupers in the Camp who have to be fed early and set to work, the conjee may be given in the early morning, the 1st meal at 10 or 11 A. M., and the 2nd at 5 P. M.

Recipé for Condiments for 100 Adults (total cost Re. 1-12-0).

	Weight.	Price.			Market Rate.
	Tolas.	Rs.	A.	P.	
Ghee	32	0	6	8	At 5 annas per seer of 24 tolas.
Salt	190	0	3	2	At 10 seers per Re. (1 seer weighs 2 lbs. 6oz).
Dál	375	0	9	9	At 7 seers per Re. (1 " 2 lbs. 3oz).
Chillies	36	0	2	5	At 10 seers per Re. (1 " 24 tolas).
Coriander powder	9½	0	0	6	At 6 seers per Re. (1 " 24 ").
Seeragum	1	0	0	3	At 5 annas per seer of 24 tolas.
Pepper	2½	0	0	6	At 5 annas " "
Saffron	1	0	0	1	At 1½ " "
Mustard	4	0	0	2	At 3 annas per seer of 76 tolas.
Garlic	1	0	0	2	At 5 seers per Re. (1 seer = 24 tolas).
Onions	10	0	0	7	At 10 seers per Re. (1 seer = ").
Tamarinds	96	0	1	5	At 46 seers per Re. (1 seer = ").
Vegetables	...	0	2	4	This would buy 8 lbs, at the Bangalore rate of 45 lbs. per rupee.
TOTAL ...	...	1	12	0	

N. B.—The condiments for the whole day should be cooked in the morning and warmed up again for the afternoon meal.

C. A. ELLIOTT,

DIET IN FAMINE HOSPITALS.

(Subsidiary Rules.)

The accompanying diet scales have been drawn up for feeding the sick in Famine Hospitals.

It is not quite possible to lay down exact rules for dieting these sick people, or, if laid down, to follow them implicitly under all circumstances, but it is suggested that the following classification might be made :—

1. Those too ill to eat solid food and who must be fed on liquids: for them the diet marked "Milk" should be used, with such "Extras" or "Comforts" as may be required.
2. Those who are suffering from severe bowel complaint of long standing, with or without dropsy, for them the diet marked "Spoon" should be used, the meat being made into soup and not eaten solid—with Extras or Comforts if required.
3. Those who are recovering from bowel complaints and those who are suffering from debility, fever, rheumatism, abscess, ulcer, &c., for them the diet marked "Ordinary" should be used.
4. Those who are convalescent, and those suffering from any complaint unconnected with bowel complaint, or disease of digestive organs: for them the diet marked "Full" (or Ordinary) should be used.
5. The general rule should be to give the highest scale which can be safely and beneficially eaten.

J. HENDERSON.

The 28th November 1877.

J. H.

No. 1052, dated Calcutta, 14th December 1877.

From—S. C. BAYLEY, ESQ., *Additional Secretary to the Government of India,*

To—The Chief Commissioner of Mysore.

Your Additional Secretary's letter No. 1545 of 5th instant has been laid before His Excellency the Governor General in Council, and in reply I am directed to express the acknowledgments of the Government of India for the useful series of experiments instituted by Mr. Elliott, and for the careful instructions, regarding the treatment and dieting of the several classes of labourers, which Mr. Elliott has issued on the basis of those experiments.

His Excellency in Council observes that Mr. Elliott's experience has convinced him of the sufficiency of the 1 lb. ration to maintain in good health ordinary relief labourers, whose condition had not previously sunk so low as to require special treatment; and that where the ration has proved insufficient, it has been owing to a portion of it being withheld either through the dishonesty or the mismanagement of the camp officials. This conviction, I am to say, is quite in accordance with the view all along held by the Government of India, and with the sustained experience of the Famine Officers of the Bombay Presidency.

The whole correspondence, I am to add, will be published in the Supplement to the *Gazette of India.*

Emigrants from the affected districts employed in Ratnagiri						1,326								
GRAND TOTAL						11,691								

Light rain falling here and there has somewhat improved the spring crops in those places. And heavier rain is reported to-day from Belgaum.

2. There has been a slight or greater fall in prices everywhere, except in Nasik and Kaladgi.

3. The table showing the rainfall and the prices of staple food grains in each taluka is now completed up to the 1st December, and is published for the last time.

4. The table showing the expenditure by Government upon gratuitous relief, and the young children of labourers employed upon Relief Works, is brought up to the week ending the 24th November. But the Kaladgi return is incomplete, so that the number of persons being gratuitously relieved cannot be stated accurately. It may be taken approximately as 11,461. This gives a decrease of 8,195. The young children are less by 2,125 than in the previous week:—

Districts.	Collector's Discretionary Grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116 of 26th December 1876, on account of children under 7 years of age whose parents are upon Relief Works.		
	Average daily number of persons relieved during the Week.	Expenditure during the Week.	Total Expenditure up to date.	Average daily number of children, and of women taking care of them.	Expenditure during the Week.	Total Expenditure up to date.
	No.	Rs.	Rs.	No.	Rs.	Rs.

TOTAL ...	10,941	11,601	10,99,580	2,282	251	3,74,896

* Return incomplete.

5. Tables A. and B. are brought up to the week ending 30th November, the date on which all relief works were closed. The number of persons on works under Public Works Department Agency in the nine affected districts was at this date 9,570, and on works under Civil Agency 795. The only works, besides the Dhond-Manmad Railway, on which any large number of persons were employed were the Ashti and Matoba Tanks, on which 2,741 and 1,242 labourers were engaged respectively.

6. The table showing the condition of the Native States is now discontinued, as relief works have been closed everywhere but in Kolhapur and the Southern Maratha Country States. The numbers there have been reduced to 2,377, and prices continue to rise.

7. There is continued improvement in the general situation, but one more good fall of rain throughout the affected districts would greatly enhance the prospects of the season.

8. The last Weekly Statement will be issued on the 22nd December, 1877.

C. J. MERRIMAN, *Colonel, R. E.,*
Acting Secretary to Government.

G. H. M. BATTEN,
Offg. Secretary to the Govt. of India.

GOVERNMENT OF INDIA.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House on Wednesday, the 12th December 1877.

PRESENT:

His Excellency the Viceroy and Governor General of India, G.M.S.I., *presiding*.
His Honour the Lieutenant-Governor of Bengal, C.S.I.
The Hon'ble Sir E. C. Bayley, K.C.S.I.
The Hon'ble Sir A. J. Arbuthnot, K.C.S.I.
Colonel The Hon'ble Sir Andrew Clarke, R.E., K.C.M.G., C.B.
The Hon'ble Sir J. Strachey, K.C.S.I.
Lieutenant-General the Hon'ble Sir E. B. Johnson, K.C.B.
The Hon'ble Whitley Stokes, C.S.I.
The Hon'ble F. R. Cockerell.
The Hon'ble B. W. Colvin.
The Hon'ble Mahárájá Jotíndrá Mohan Tagore.
The Hon'ble T. C. Hope, C.S.I.
The Hon'ble Mumtáz-ud-Daola Nawáb Sir Muhammad Faiz Ali Khán Bahádur, K.C.S.I.
The Hon'ble G. H. P. Evans.

NEW MEMBERS.

The Hon'ble MUMTÁZ-UD-DAOLA NAWÁB SIR MUHAMMAD FAIZ ALI KHÁN BAHÁDUR took his seat as an Additional Member.

The Hon'ble G. H. P. EVANS took his seat as an Additional Member.

OPIUM ACT, 1876, AMENDMENT BILL.

The Hon'ble MR. HOPE moved for leave to introduce a Bill to amend the Opium Act, 1876. He said that this Bill owed its origin mainly to two circumstances. The first of these he would explain in some detail. In the Opium Act of 1876, it was provided that the Act should come into force on the same date throughout all India, and consequently it was necessary to have all the rules, which were to be subsequently promulgated by the Local Governments, ready beforehand, so that, on the Act coming into force, they might be issued at once. In that Act it was also provided that it should come into force on the 1st day of April 1877. But when the 1st of April 1877 arrived, even the drafts of the rules had not, in the large majority of cases, been received from the several Local Governments for the approval of the Governor General in Council. Consequently, there was no alternative except to postpone the date of the Act coming into force, and Sir John Strachey in March last accordingly introduced and obtained the sanction of the Council to a Bill providing that the Act should come into force on such day as the Governor General in Council might hereafter declare. It was at that time hoped that there would be no difficulty in getting all these draft rules together in a few months, and the further difficulty that some of the Local Governments might have their rules quite ready, and others might not, was not foreseen. Now, after the lapse of about nine months, the position was this, that certain Local Governments, and those very large and important Governments, had sent in draft rules which had been approved and were ready to be issued. But in other cases, the rules which had been received had been returned for revision, and certain Local Governments again had not even up to the present time sent in any draft at all; unless, therefore, the Government was prepared to wait indefinitely for the advantages which the Act would ensure, fresh legis-

introduce would therefore alter the Opium Act, 1876, by providing that it should extend to such local areas, and on such day, in the case of each, as the Governor General in Council might, by notification in the *Gazette of India*, from time to time direct.

The second circumstance which had given rise to the motion this day was that a clerical error had unfortunately crept into the Act of 1876, extending only to one word, but that word so important that it would prevent the operation of the Act throughout Lower Bengal and other provinces in which the system of Government monopoly of the cultivation of opium was in force. The error to which he referred consisted in the use in section 22 of the word "Act," instead of the word "section." The section provided that "nothing in this Act" should apply to districts where Act XIII of 1857 was in force. The effect of that was that, as section 2 of that Act, which prohibited the cultivation and manufacture of opium except for Government, was repealed in the schedule, no legislative authority remained at all on the subject in question. By substitution, however, as was originally intended, of the word "section" for the word "Act," all such difficulty would be removed, and merely the particular section, which related to procedure in case of illegal cultivation of opium, would not be applicable where Act XIII of 1857 was in force.

As an amending Act was about to be introduced for the two purposes which he had explained, it was thought desirable to take advantage of the opportunity to make corrections in one or two other minor cases, and to insert one or two small provisions, although legislation would not have been considered necessary on these points if it had not otherwise been desirable. One of these would be found in the third and fourth sections of the Bill, and consisted in inserting the words "free or," after the word "India," in the fourth and fifth sections of the Act. Those sections provided that the Governor General in Council might authorize the import or export of opium into or from any specified part of British India, on payment of such duty or on such other terms as he might think fit. But some one raised the doubt whether the use of the words "or on such other terms" left it open to the Governor General in Council to authorize the import or export of opium under no conditions at all, without duty or any other restriction. On the whole, MR. HOPE was inclined to think that the words did cover such an arrangement as that. But it was thought better to take this opportunity of inserting the words "free or" after the word "India," which would entirely cover the difficulty.

Again, sections 5 and 7 of the Bill contained provisions which were necessary to the complete operation of the system of farming the duty leviable on the sale of opium which was contemplated by the Act.

Finally, in order to reduce the Statute-book as much as possible, the Bill provided for the total repeal of Act VI of 1877.

These remarks would, he thought, enable the Council fully to appreciate the scope of the Bill which he solicited leave to introduce.

The Motion was put and agreed to.

INDIAN ARMS BILL.

The Hon'ble SIR E. BAYLEY moved for leave to introduce a Bill to consolidate and amend the law relating to Arms, Ammunition and Military Stores. He hoped the Council would forgive him if he trespassed a little on their patience in introducing this Bill, for it related to a subject which was in itself of very great importance; it was one also of very wide general interest and of very considerable complexity. He therefore proposed to enter on the present occasion somewhat into detail regarding the circumstances which had rendered fresh legislation necessary at the present moment, the course which the Government of India had hitherto adopted in regard to those circumstances, and the particular provisions which it now proposed, to meet the necessities of the case. It would perhaps be remembered that when the present Arms Act was under consideration in this Council—he meant Act XXXI of 1860—there was much and prolonged discussion. The Bill was very fully considered in all its details in several meetings of the Council. It was very considerably modified during the progress of these discussions. The general result of these

modifications and of the passing of certain executive subsidiary orders, which were issued while the Bill was under discussion and had been maintained to the present day, was to make the Act work smoothly in its most important aspects. But very shortly after the Act was passed, it was found (as was often the case when a Bill was much altered during its progress in Council) that there were several minor defects both of form and substance in the Act—in the definition, for instance, of "military stores," as to the mode of licensing the transport of arms, and in the definition of "transportation," "exportation," and "importation"—which made it rather difficult to carry out the provisions of the law in a wholly satisfactory manner. The Government of India were however very unwilling to amend, almost immediately after it took effect, an enactment which had been settled after so much discussion, and they preferred to deal as far as was practicable with all these matters by executive action only. Accordingly from time to time a great number of varying orders were passed, with the history of which he need not trouble the Council. There were a good many restrictions, for instance, with regard to saltpetre, for it was found that the provisions of the Act threatened to destroy the trade in that commodity. It was found possible in this instance to issue various executive directions by which the mischief was prevented, but in many points the doubts and difficulties raised by the defects of the present Act had remained up to the present time certainly not fully remedied; the inconvenience indeed in this respect was so great, that in 1870 a draft Bill was placed before the Council and introduced by Mr. (now Sir William) Robinson with the sole object of consolidating the law and amending these defects. When it was attempted to proceed with that measure, it was found that after all it raised questions of policy of some importance, and on more mature consideration it was thought expedient to make further inquiries, and to await the result of longer experience of the working of the existing law before proposing any final measure. It was partly on this account and partly from pressure of more important matters, that legislation on this subject had been hitherto from time to time deferred. But the subject had now become in some respects of such urgency that it was considered wise to bring it without delay before the Council, with a view to a more general and complete amendment of the law.

The two leading points which raised questions of policy were, first, the importation of arms, especially cheap fire-arms, and of ammunition, and, secondly, the necessity for restricting and regulating the transfer and transport of arms so as to prevent their reaching the wild tribes without our frontier, and the dangerous classes within our frontier, who ought not to be allowed to possess them. There was good reason to believe that, under the existing law, the import-trade in cheap arms and ammunition had grown up to an unwholesome extent, and that far larger quantities were exported than were required merely for legitimate purposes. It was known to the Government of India that cheap arms were in fact bought and sold to an extent quite incompatible with the maintenance of peace and good government. With the permission of the Council, he would read some papers which would illustrate this subject. One was from the Government of Bengal, dated so far back as July 1870. In that letter it was written that—

"His Excellency the Governor General in Council is aware that the subject of the importation of fire-arms and ammunition has lately engaged the serious attention of the Government of India and of this Government, and by the Foreign Department's notification No. 742, dated 28th May 1869, a set of rules was sanctioned for Lower Bengal, which it was hoped would have brought the importation and transportation of arms under a more effectual check than had up to that time been exercised. In practice, however, it is found that the only importers of arms from beyond sea are the regular dealers in Calcutta, to whom, as the law and orders of Government now stand, it is impossible to refuse passes for their consignments, however numerous, so long as no military rifles are among them. This being so, the attention of the Police ought naturally to be mainly directed to checking the transport of arms from Calcutta into the interior. The Commissioner of Police, however, reports that the Police have been unable to exercise any efficient or useful supervision over the transport and sale of arms. The outlets from Calcutta by land and water are so numerous that detection of illicit transport on the way is impossible with existing establishments, and without a most vexatious amount of interference with general trade. Inspection of the dealers' books has never been regularly carried out, and it is represented that not only would it necessitate the appointment of a special

inspection would be of no real value whenever it became the dealer's interest to conceal his transactions. The number of passes for arms which the Commissioner of Police has granted since the passing of the rules in May 1869 is shown in table A. If this be compared with the extent of the importation as shown below, an idea will be formed of the amount of illicit transport of arms into the interior. It is impossible to believe that the greater part of the arms imported is retained in Calcutta.

"2. Coupled with the fact that the existing rules provide no adequate check upon the trade, there is the further significant circumstance that the number engaged in the trade, and the amount of their transactions, are largely increasing. In 1868 there were in Calcutta only twenty-eight persons licensed to deal in arms, and five dealers in sulphur; in 1869 there were sixty-nine dealers in arms and eighteen in sulphur. From a report by the Collector of Customs, it appears that the import of fire-arms is yearly increasing. The numbers of arms cannot be given, but the value of the consignments on private accounts is shewn on the margin.

	Value. Rs.
1867-68	1,63,726
1868-69	2,20,309
1869-70, eleven months ...	2,09,785

"3. The Lieutenant-Governor's attention has been particularly drawn to the operations of one firm. Since March their agents here have imported the arms and ammunition shewn in the annexed statement; and there is now lying before Government an application for permission to pass a further invoice of—

Guns, single	...	765
" double	...	270
Rifles, single	...	30
" double	...	25
Gunpowder	lbs.	35,000
Caps	...	61,250
Shot	tons	50
Pistols	...	200

350 single guns,
250 double "
40 single rifles,
20 double "
200 pairs of pistols,
500 tons of lump-sulphur (nominally for making sulphuric acid).

"4. The Lieutenant-Governor views with some anxiety this great extension of the trade in cheap arms, which at present Government is powerless to prevent or control. There can be little doubt that most of these weapons find their way to the frontier, and are there disposed of to the Hill tribes. This has been demonstrated by the large seizures occasionally made in frontier-districts like Chittagong and Kachár, and by the reports which reach Government from time to time of the common use of fire-arms by tribes to which they were not long since unknown. Apart, moreover, from the smuggling of arms in bulk, there can be no doubt that many guns are conveyed from Calcutta singly by residents in frontier-districts on the occasion of any visit to the capital and sold at a considerable profit to the hillmen. On this point I am to draw attention to the accompanying copy of a letter, No. 336, dated 18th February last, from the Commissioner of Chittagong."

To this letter were appended several papers giving the opinion of local officers, of which he would read the following extract from a letter of the Commissioner of Chittagong:—

"The Lieutenant-Governor is, I think, aware from the replies made to the enquiries of Government and from other reports and applications, that considerable efforts are being made in this Division to carry out the wishes of the Governor General in Council as to preventing arms and ammunition from reaching the Eastern frontier-tribes.

"These efforts have been sufficiently successful * * * to be very creditable to the Police; but the results have for some time been convincing me that the provisions of the law in force in this Division are insufficient to enable us to put a stop to small and frequent sales *
* * * * * * * * *

"A few months ago the then Magistrate of Chittagong, Mr. Irwin, made the following observation in reporting on a particular case:—

"As regards arms, the law, as it now stands, seems to me all but useless. Guns can be bought after application to the Magistrate, who can scarcely refuse a license, and then passed from hand to hand till they reach the frontier."

"Without agreeing with Mr. Irwin as to the difficulty of refusing licenses, I agree with him that the law does not go nearly far enough, and that as it stands, guns can be passed from hand to hand without much difficulty. Section 26 of the Arms Act only provides for the disarming of persons who are found with arms, &c., in their possession without a license, and there is no other penalty * * * * * * * *
Considering the value of arms to the Lúsháis and Shindús, it will be readily conceived that the slight risk of being now and then disarmed is compensated for many times over by successful sales at high prices."

And another Commissioner of Chittagong, writing at the time of the Lúshái expedition, quotes one of his subordinates as saying:—

"Nearly all the guns with which the Lúshái-Kúkís are armed have been obtained in the first instance from Calcutta."

Again, in 1872, a Resolution of the Bombay Government notes the large trade in cheap arms which had suddenly sprung up. In 1871 the importation was double that of 1869, nearly 5,000 fire-arms having been sent up-country openly from Bombay in 1871, the enormous bulk of which consisted of military weapons, and a fair proportion of these were breech-loading arms of precision.

Many of these arms went to Karáchi, and as early as 1865 it was reported as follows by an officer writing from Rájkot:—

"While our Native troops are armed with the smooth bore muskets only, a large trade in Enfield pattern long range rifles has of late sprung up in the sadr bázár, and I believe in the province generally. During the months I was in charge of the sadr bázár two such consignments arrived * * * of which the following is a description:

"A rather rough trade-made long Enfield with brass-mountings, * * * * * * * * * * very fairly bored, the rifling being uniform instead of progressive as in the Government arm. The different parts are well and strongly made up, and it is altogether a very serviceable arm. The price asked is Rs. 40."

"A large number of this description of arms has lately been imported from Bombay, and I observed that Messrs. '——' and Company were advertising the expected advent of 1,000 long Enfields.

"The rifles which reach the district are obtained principally through the small Memon merchants of Bombay."

A similar complaint was about the same time made by Colonel Keatinge, then in Káthíawáḍ, who forwarded a letter from one of the Chiefs under his Political Agency, explaining that it was necessary that his troops should be armed with arms of precision to enable them to cope with lawless robber bands already similarly armed.

In 1872, also, the Agent to the Governor General in Rájputána complained of the way in which arms and ammunition were sold by travelling merchants from Bombay:—

"The arms are good weapons and are sold at low rates, a double-barrelled fowling-piece being procurable for from Rs. 25 to Rs. 30,"

and he goes on to speak of a sale of nine double-barrelled guns to a gang of refugee Meenas (a notoriously robber-tribe), and adds

"This is only one instance of the way in which these weapons are being purchased by Meenas, Bowreeas, Mogheas, and other predatory tribes," * * * * *

and

"unless some measures to restrict their sale are speedily taken, their possession by the predatory bands will extend. Wherever they have been introduced in any numbers, the predatory bands are becoming too powerful for any Police, and unless checked, I apprehend a time will soon arrive when Government will be obliged to hunt down and disarm these tribes by British troops."

Later on, the Political Agent in Márwár reported, in describing the proceedings of certain outlaws:—

"The Bullana Meenas were armed with percussion-guns, which, being now so easily procured from Bombay, are in the hands of all the bad characters of the country;"

and in another place he speaks

'of arms of precision being commonly found in the hands of brigands and of outlaws.'"

In 1872 the Bengal Government again complained that the evil was increasing, and that licenses for nearly 5,000 weapons had been granted at prices the maximum of which was rupees 15 for double-barrelled, and rupees 9 for single-barrelled,* weapons, and the annual value of the imports of arms and ammunition was said to be about two lákhs of rupees.

* Some were said to cost only 8 shillings.

The Lieutenant-Governor of Bengal attempted, and temporarily with beneficial results, to check this flood of cheap arms by refusing, as he was empowered to do under the existing law, permission to import weapons under a certain minimum value; but it was obvious that, under the present system of a duty levied *ad valorem*, the Lieutenant-Governor's measures could be evaded, either by raising the invoice-prices above the real value at the cost of a slightly enhanced duty, or by importing arms in parts—a process which had

But the trade in ammunition had under the present law in no way been checked, and was enormous. It was known that in four years—from 1871 to 1874—one hundred millions of percussion-caps had been exported into Calcutta, of which not more than fourteen millions were legally re-exported. Again a very large quantity of gunpowder and a large quantity of cartridges were similarly imported; and he was informed that an application was recently made by a single Firm to import 7 lákhs of caps and 14,000 pounds of gunpowder monthly, an amount which could not represent any legitimate demand. In fact it was known that considerable numbers of arms and much ammunition had been, and continued to be, illegally exported, and seizures had been made, in the Panjáb for example and *en route* to the Eastern frontier and to Upper Burma, which left no doubt that a considerable illicit traffic was being carried on in such articles, with tribes more or less hostile beyond our territories.

Indeed we knew that the frontier-tribes on our Panjáb border were supplied in considerable numbers with excellent arms of precision, some of which, not being of patterns ever used in the British Army, could only have been supplied by private importation.

He had given these instances, not as exhausting the subject, for, as a matter of fact, there was a mass of further correspondence all to the same general effect, but as perhaps sufficient to illustrate the necessity for further legislative action in this direction.

It was indeed the frequent and urgent representations made on this head which had decided the Government of India, after consulting the various Local Governments and Administrations, to introduce two new provisions into the law.

The first of these was the levy of a duty—not of an *ad valorem* duty as at present, on arms imported, but a fixed duty—which would operate to check the importation of cheap arms, while it would interfere but little more than the existing duty did with arms of medium value, and still less with those of a more expensive character.

It was understood, for example, that a very good Martini-Henry rifle could be imported into this country at a maximum cost of rupees 35, and other arms at a still lower price. In some cases, as had been seen, a gun could be imported on an invoice-price of eight shillings.

The existing duty was an *ad valorem* duty of ten per cent. (Act XVI, 1875, Schedule A, Art. 2—Arms, Ammunition and Military Stores.) It was proposed to substitute for this a fixed duty of rupees 50 for each gun, and of rupees 20 for each pistol, a proportionate duty being fixed on all parts of such weapons in order to prevent attempts such as had actually been made to introduce the different parts of fire-arms piecemeal.

He only stopped to notice an argument to which some reference would be found in the papers to be placed before the Council, namely, that, by checking the importation of cheap arms, the manufacture of such arms in India would be stimulated to an undue and dangerous extent.

The truth was however that unless by machinery, the importation and use of which would not be permitted, it would be impossible to manufacture such arms, at least in any numbers, at a cheap rate. The skill which would enable an artizan, by hand-labour, to imitate even the guns imported for a few shillings, would usually command in other work a remuneration so high as to detach him from the manufacture of cheap fire-arms; moreover, the manufacture of arms within India could be controlled far more easily than their importation.

As regards ammunition, &c., the existing law would be preserved intact. Local Governments would be instructed to refuse licenses for the importation of excessive quantities, and its sale and storage would be placed under more stringent restrictions, which would render difficult its disposal for improper purposes after importation.

The law would also be altered so as to permit a stricter regulation of the transport of weapons and ammunition in India, and would impose heavy penalties on illicit transport, especially when any attempt at concealment was made.

There would be also found in the Bill another measure for remedying the evils above described, the necessity for which had been admitted by the Govern-

ment of India not without much hesitation and only after the almost unanimous expression of opinion by Local Governments and Administrations and of their executive officers as to its necessity. The existing law, it would be perhaps remembered, practically divided the country into disarmed and undisarmed districts or provinces, and while certain somewhat stringent regulations applied to the former, no restrictions at all, except as to the importation of arms and manufacture of arms, applied to the latter.

It had been shown however that it was practically impossible to prevent or control the transmission of arms to the disarmed districts, or to the frontiers of India, unless some regulation was adopted as to the possession and transfer of arms in the non-disarmed districts. If an agent could buy and collect arms and ammunition without any notice to the Police, or other let or hindrance, in a non-disarmed district, there was no other difficulty to be overcome in transmitting them to places beyond but the regulations against illegal transport, the risk of evading which was comparatively small; indeed, as a matter of fact, several concealed consignments had been seized, and yet it had, he believed, not been found possible in any single case practically to reach either the real sender or consignee. Even, therefore, though it was intended to make the rules as to transport more strict and the penalties for their evasion somewhat heavier, it would still be impossible to maintain any effective control over the traffic in arms with disarmed or frontier-districts, unless the possession of arms elsewhere was more or less under control.

He might say that this opinion had been expressed, not merely by the Governments of disarmed provinces, but also by two at least of the Governments of two great non-disarmed provinces—Madras and Lower Bengal.

It accordingly was intended to extend to *all* districts, without exception, the provision for making the possession of arms without a license illegal, and to make the sale of arms to persons not holding such a license a criminal offence.

It would also be provided that licensed dealers in arms should keep regular books, and that private persons selling arms should register the transfer at the nearest police-office.

These provisions would, however, be tempered by the maintenance of all the executive exemptions already in force under the existing law, and by making prosecutions for possessing arms legal only under the order of the Magistrate of the district; moreover, searches for arms would not be made except in the presence of specially selected officers, and only on occasions when there was good reason to believe that an offence was being committed.

With these restrictions, and with judicious rules for the grant of licenses, which the Bill would give the Government of India power to make, it was to be hoped that the provisions of the Bill would not be found more stringent than necessary, or in practice in any degree harsh or oppressive.

It would not in all cases, for example, probably be necessary to make the licenses renewable annually, or the levy of a fee for a license usually more than sufficient to recoup the cost and trouble of preparing the license.

Having thus explained the policy of the Bill, he would only add that the proposals now put forward, however stringent they appeared, had not been made without a full conviction on the part of the Government of India that they were necessary to the preservation of peace and good order. And it was to be remembered that such legislation, indeed more stringent legislation, was not without precedent even in Europe. Without going further than the British Statute-book, the Irish Acts of 1856 and 1870, &c., provided that persons knowingly having arms in possession were liable to imprisonment with or without hard labour for two years; that persons found carrying arms could be arrested by any private individual; that licenses could be revoked by proclamation, and the owners compelled to deposit their arms and ammunition in such places as might be mentioned in it; that dealers could not sell to persons not duly licensed. Indeed so stringent were the provisions of those Acts, that a person desirous of carrying a revolver for his own protection must obtain a special license.

Of course the Government of India did not expect (nor probably did any one else) that the measures proposed would be absolutely effective to prevent altogether the illegal importation, sale and transport of arms and ammunition;

In conclusion he would only say, that if he obtained the leave of the Council to bring in the Bill which had been prepared, he would then take the opportunity of explaining the clauses which had been drawn to give effect to the policy he had described, and would explain the other new provisions chiefly designed to clear up doubts which had arisen from the wording of the existing law.

Lieutenant-General the Hon'ble SIR E. JOHNSON said that after the very exhaustive speech of the mover it was perhaps unnecessary for him to say anything. But he felt especially glad, as a military man, that the Government had decided to deal with this most important subject. When he said that he spoke as a military man, he meant that he spoke in the interests of our own soldiers. Since the time referred to in one of the papers from which Sir E. Bayley had quoted, he was happy to say that our soldiers have been placed in a much better position than that in which they were then; for a great portion of the army has received arms of precision. But there are still troops, especially local corps and military police who are without such arms. These men might be brought into conflict with robbers, dacoits, and ill-doers of every description,—who are in possession of arms of a superior description to those with which our own troops were armed. It placed soldiers in a very false position to be liable to be brought against men armed with arms of precision very superior to those which they themselves possessed; and therefore he thought it essentially important that the question should be dealt with by a legislative measure of the kind now proposed.

But not only as regards the importation of arms, but equally important was the prevention of the manufacture of fire-arms and ammunition in this country. The hon'ble mover and the members of this Council were no doubt perfectly aware, that recently the Government had had before them as a fact that an admirable cap-manufactory existed in a city near one of our military stations. The caps turned out in that manufactory were almost equal to those which the Government supplied to their troops; and it was also well known that the Native artisan was so excellent a manipulator, and, like the Chinese, copied so well, that the arms and warlike implements he turned out were not to be distinguished from those of our own troops. And therefore when the Council was dealing with the illegal importation of arms, they were equally bound to deal with the manufacture of such arms in this country.

SIR E. JOHNSON had had the privilege of looking over this Bill and he confessed that he did not see any loophole by which the provisions and intentions of the Act could be avoided.

The Motion was put and agreed to.

STAMPS BILL.

The Hon'ble MR. COCKERELL moved that the Bill to consolidate and amend the law relating to Stamps and Court-fees be referred to a Select Committee. He said that the Bill which was introduced at Simla in view to its early publication, had now been before the public for nearly two months.

Every expression of opinion in regard to the proposed amendments of the law contained in the Bill which its publication had elicited, was being carefully observed and noted. No official communication or representation by any public body addressed to the Council, in regard to its provisions, had yet been received, and the criticisms which had from time to time appeared in the public Press, both European and Native, were directed rather to the details than the principle of the measure; they would doubtless receive the careful consideration of the Select Committee before which the Bill would come if the present motion was carried; but they were not such as to call for special notice here.

When introducing the Bill, he (MR. COCKERELL) had endeavoured to explain as fully as possible the considerations which had led to the alterations of the present law for which it provided, and he did not think that he could now profitably occupy the time of the Council by adding anything to what he then said, unless any hon'ble member in speaking to the present motion should make such criticisms or comments on the provisions of the Bill as might indicate that further explanation was needed.

The Hon'ble SIR JOHN STRACHEY said:—"MY LORD,—I think it right, as the Member of the Executive Government more especially responsible for the administration of the Stamp-revenue, to say a few words on the

present motion, although my hon'ble friend Mr. Cockerell has on a former occasion treated the subject so ably and so completely that little remains for me to add. The Bill which is now I hope about to be referred for the consideration of a Select Committee of this Council is the outcome of long and careful consideration. The law which it is now proposed to embody in a single Act is at present contained in two principal Statutes, in several amending and otherwise subsidiary Acts, and in many notifications which have the force of law.

"The object of the measure now under consideration was originally consolidation only I find that it was initiated in the Legislative Department in August 1875, in the pursuit of that useful policy of codification which is so identified with our hon'ble and learned colleague now responsible for that Department. It was represented to the Government of India, that the law relating to Stamps and Court-fees was, at that time, scattered through thirteen Acts and Regulations, forty-six notifications, and numerous Rules having the force of law; that there had been nearly fifty important decisions upon doubtful points of the law by the several High Courts; and that it was known that not a few important provisions of the law were still the subject of doubts and uncertainties. All this in regard to a law which ought of all laws to be accessible and clear, as well in the interests of persons affected by its provisions, as of the revenues, which, it was known, suffered seriously from the habitual application by the Courts of the rule that Acts imposing duties should be construed with the utmost strictness, and so as to give the public the benefit of any reasonable doubt.

"Upon this representation from the Legislative Department, the Government of Lord Northbrook (Sir William Muir being Financial Member) admitted the validity of the reasons for taking up the subject, and, on the 21st December 1875, the Hon'ble Mr. Inglis obtained leave to introduce a Bill into this Council for the purpose.

"Meanwhile, a Committee had been appointed to report upon the use of adhesive labels, which had been introduced in 1871, and concerning which there was much difference of opinion. The report of that Committee is still under consideration, and the Bill now before the Council has been so framed as to enable the Government of India at any time to make any change that may appear to be expedient in the machinery by which stamp-duties are levied.

"Sundry other questions had also been referred to the Local Governments and subordinate officers, both in the Financial and Home Departments. These questions and the replies received to them have already been explained to the Council in sufficient detail by my hon'ble friend Mr. Cockerell. I wish only to make it clear that, in its inception, the present measure was altogether one of consolidation and administration, and that if, happily, results beneficial to the revenue should be produced, such results were not the object with which the measure was undertaken, and they are too uncertain to form a part of the arrangements which, in consequence of the obligations devolving on the State for the relief of famine, must soon be made in order to place the finances in a condition of safety.

"Nor under any circumstances can the increase of revenue be sufficiently large to be a matter of any great financial importance.

"Still the Stamp-revenue is a valuable item in the national balance-sheet, and the Government of India is bound, in the general interest, to take care that the duties imposed by the legislature are not evaded, but are effectually recovered, and from time to time to propose to the legislature the removal of any inequalities or omissions in this class of taxation which may come to its knowledge. The Stamp-revenue of 1876-77 was gross 284 lákhs of rupees, nett 274 lákhs, having steadily risen to these amounts from the comparatively moderate figures of gross 118 and nett 112 lákhs in 1860-61. Stamps now contribute about 5½ per cent. of the gross Revenues of India. The Stamp-revenues of Great Britain amount to about £11,000,000 of a Grand Total of £77,000,000, or one-seventh (14 per cent.) of the whole.

of the existing duties more difficult and by the removal of some existing defects.

"The evidence collected appears conclusive that the Courts of Justice do not at present enforce the just claims of the Revenues. Almost the only practical penalties for evasion of the Stamp-laws are the disabilities and other unpleasant consequences which ensue in case insufficiently stamped instruments come before the Courts of Justice; but the Courts are not always disposed to perform the business of protecting the financial interests of the State, and from our financial point of view (though from other points of view I do not blame them), they are too ready to accept excuses for disobedience to the Stamp-laws. A principal object of the present Bill is to remedy this serious evil. We are bound to apply a remedy as soon as we become aware of evils of this kind; and I consider that if the legislation which we are now undertaking is not successful (as I hope it will be) in checking these evils, then we must continue amending and amending the law till we succeed in securing absolutely the whole dues of the State. I need not take up the time of the Council by describing in detail the provisions of the present Bill for this end.

"The Stamp-law of British India is in most respects modelled upon that of the United Kingdom, and we now propose to re-adjust our stamp-duties in some particulars in which they have hitherto been, relatively, lower than in Great Britain. Thus we think it equitable henceforth to levy, as is done at home, the same percentage of duty upon transactions of larger amount as is levied upon smaller transactions, and to impose upon bills of exchange the same proportionate burden as is borne by these instruments in Great Britain.

"In Great Britain the duty chargeable on an instrument purporting to convey property for £500 is 50 shillings (£2-10), whilst that required in respect of a bill of exchange for like amount is 5 shillings, *i. e.*, the duty on a conveyance-instrument is equal to ten times that on a bill of exchange.

"In India, under the present law, the duty on an instrument of conveyance of property for rupees 5,000 consideration is rupees 50, whilst that on a bill of exchange for a like amount is rupees 3, *i. e.*, the duty on a conveyance is more than sixteen times that on a bill of exchange.

"This duty on conveyances has been in force for many years, and is nothing new. All that is proposed is to raise the duty on bills to the English level or proportion of one-tenth of the duty on conveyances.

"Again, we propose to raise the minimum duty upon bonds and the like from two annas to four annas. This increase will not, we believe, injure any one; but, inasmuch as it will affect a large mass of documents, we hope that it will produce an appreciable addition to our revenues.

"Lastly, we propose to make receipts for more than rupees 10 subject to the one-anna duty, instead of receipts for more than rupees 20 as at present, and to endeavour to enforce this duty more completely than heretofore.

"There seems to be an impression that we intend also to increase the taxation by Court-fees: but this is not the case. For convenience sake, we have united the two laws in one enactment, but without in any way amalgamating or confusing them: the only change proposed in the Court-fees division of the law is the reduction of the fees on suits in the Courts of Small Causes in the Presidency-towns from $12\frac{1}{2}$ per cent. to 10 per cent., and the increase of the fees in the same Courts in the interior from $7\frac{1}{2}$ per cent. to 10 per cent. It is possible that this change may yield some increase of revenue; but our object is rather the furtherance of the policy for the general assimilation of procedure in all the Courts at which we have, for some time, been aiming.

"For the sake of my own consistency, having often in past times protested against the imposition of taxes on the administration of justice, I must express my great regret that we do not at present see our way to the reduction of the existing fees. I hope that better times may come.

"A small increase is also proposed on Letters of Administration and Probates from two to two and a half per cent. But the two per cent. duty on these documents has been from the first regarded as tentative only: the addition of half per cent. seems to us to be fair and moderate.

"In concluding these remarks, I wish to acknowledge the great care and ability and labour bestowed by our hon'ble colleague Mr. Cockerell on the elaboration of this measure. The Acts of 1869 and 1870 were the work of our hon'ble colleague, and they have on the whole worked remarkably well. Under their operation, the revenue has risen by about one-fifth, namely, from 227 lákhs to 274 lákhs of rupees. It is in my opinion not at all surprising that these Acts should now, after seven years' experience, require amendment. It is fortunate that we have again had the benefit of my hon'ble friend's services in a matter in which his experience is pre-eminent; but it must be understood that while he has thus kindly relieved me from a laborious duty, the measure is none the less a measure for which the Government of India is entirely responsible."

The Motion was put and agreed to.

CIVIL PROCEDURE CODE AMENDMENT BILL.

The Hon'ble MR. STOKES asked leave to postpone the motion for leave to introduce a Bill to amend the first schedule to the Code of Civil Procedure.

Leave was granted.

SUNDRY BILLS.

The Hon'ble MR. STOKES moved that the Hon'ble Mr. Evans be added to the Select Committees on the following Bills:—

To define and amend the law relating to the Transfer of Property.

To define and amend the law relating to Promissory Notes, Bills of Exchange and Cheques.

The Motion was put and agreed to.

The following Select Committee was named:—

On the Bill to consolidate and amend the law relating to Stamps and Court-fees—The Hon'ble Sir J. Strachey, the Hon'ble Messrs. Stokes and Colvin, the Hon'ble Mahárájá Jotíndrá Mohan Tagore, the Hon'ble Mr. Hope, the Hon'ble Nawáb Faiz Ali Khán, the Hon'ble Mr. Evans and the Mover.

The Council adjourned to Wednesday, the 19th December 1877.

PUBLIC WORKS DEPARTMENT.

WEEKLY CONDITION REPORT OF THE DISTRESSED DISTRICTS OF THE MYSORE PROVINCE.

PROVINCE OF MYSORE.

(No. 44).

Special Famine Report for the Week ending 8th December 1877.

Statement No. 44, regarding Famine Relief Operations in the Province of Mysore for the Week ending the 8th December 1877.

There was slight drizzling rain during a part of the week, but Mysore and Shimoga appear to have been the only districts where anything like a shower fell. Rain is still needed in Mysore and Hassan for the gram crop, and complaints of insects and blight, particularly to tuvar and ballar, continue to be made. Reaping of the early-sown crops is being completed, and prices slowly but steadily decline. Movements of grain are generally less, though the Deputy Commissioner of Hassan reports that much new grain is being imported from Mangalore into his district. The closure of small out-lying Relief Camps and Way-side Rest Houses is carried out under due precautions, whilst in the larger Camps every effort is being made to fit the inmates to return to their ordinary employments or for labor on the Relief Works. Civil Agency Relief Works, now that the Public Works Department are prepared to employ all the labor available, are being put a stop to, and the people on them either transferred to the control of the professional officers, or after a careful enquiry, individual by individual, allowed to return to their villages. In a short time, gratuitous relief, or measures curtailing the amount of labor to be exacted in return for the wages offered, will have become unnecessary, and as the laborers improve in physique and the villages wake into activity and demand population, the presence of the Civil Officer on the Public Woks may be dispensed with.

2. The imports of grain by rail amounted to 580 tons only, or 2,225 tons less than in the preceding week. The imports were from the following quarters :—

	Tons.
From Madras	369
„ Beypore	9
„ Tanjore and Negapatam	139
„ other places	63
TOTAL ...	580

From Bangalore 1,025 tons, or 524 tons less than last week, were exported to the following quarters, as shewn by the octroi returns :—

	Tons.
Túmkúr	256
Bellary	78
Mysore	523
Usur (Salem District)	82
Round Bangalore	86
TOTAL ...	1,025

3. Prices have very generally fallen and are also becoming more equal in all the districts, though still lower in Shimoga and Chitaldrug than elsewhere. The following statement gives the maximum and minimum prices in lbs. per rupee for each district :—

	Maximum in lbs. per Rupee. 2nd sort rice.	Maximum in lbs. per Rupee. Ragi.	Minimum in lbs. per Rupee. 2nd sort rice.	Minimum in lbs. per Rupee. Ragi.
Bangalore District (for 8 taluks) ...	18	26	13	16
Kolar „ „ ...	$16\frac{1}{2}$	22	$13\frac{1}{2}$	16
Túmkúr „ (for 6 taluks) ...	16	23	$12\frac{1}{2}$	$16\frac{3}{4}$
Mysore „ (for 8 taluks) ...	15	22	...	13
Hassan „	20	23	12	10
Kadur „ (for 5 taluks) ...	16	26	11	12
Shimoga „ (for 7 taluks) ...	18	36	12	18
Chitaldrug „	16	32	10	$20\frac{1}{4}$

4. The number of laborers on Civil Relief Works was 17,478, or 3,829 less than for last week, due to transfers to the Professional Officers and to the return of people to their homes.

5. Under the Public Works Department, 46,076 laborers were employed on strictly Famine Relief Works, or an increase of 1,106, due to transfers of Civil Agency labor in the

Túmkúr District. The returns, as usual, have been prepared to exclude ordinary Public Works. The following is a list of works on which are employed 500 laborers and upwards :—

District.	Work.	No. employed.
Bangalore	State Railway	20,368
	Bangalore Water-supply	3,219
	Bangalore-Bellary (*viâ* Devanhalli) Road	1,743
	Mallappa Chetti's Tank	1,588
	Bhadram Tank	2,301
Túmkúr	Nelamangala-Túmkúr Road	2,177
	Túmkúr-Shimoga Road	2,191
	Túmkúr-Bellary Road	2,155
	Roads in Kortigere Taluk	1,203
	Túmkúr-Maddagiri Road	664
Mysore	Mysore Water-works	3,002
	Maddur Ane Channel	671
Hassan	Mandigiri Channel	539
Kadur	Devanurkeresante Channel	693
Chitaldrug	Timmenhalli Tank	1,263
	TOTAL	43,777

6. The number fed gratuitously in Relief Camps amounted to 18,371, or a decrease of 1,109, as under :—

District.	Past week.	Present week.	Increase.	Decrease.
Bangalore District	4,443	3,889	...	554
Do. Municipality	3,239	3,791	552	...

Shimoga "	1	8	1
Chitaldrug "	0	15	3

or an average cost per head of fifteen annas and eight pies, compared with one rupee, one anna and seven pies for the preceding week.

By Order,

A. WINGATE,

GOVERNMENT OF INDIA:

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House on Wednesday, the 19th December 1877.

PRESENT:

His Excellency the Viceroy and Governor General of India, G.M.S.I., *presiding*.
His Honour the Lieutenant-Governor of Bengal, C.S.I.
The Hon'ble Sir E. C. Bayley, K.C.S.I.
The Hon'ble Sir A. J. Arbuthnot, K.C.S.I.
Colonel the Hon'ble Sir Andrew Clarke, R.E., K.C.M.G., C.B.
Lieutenant-General the Hon'ble Sir E. B. Johnson, K.C.B.
The Hon'ble Whitley Stokes, C.S.I.
The Hon'ble F. R. Cockerell.
The Hon'ble B. W Colvin.
The Hon'ble Mahárájá Jotíndrá Mohan Tagore.
The Hon'ble T. C. Hope, C.S.I.
The Hon'ble Mumtáz-ud-Daola Nawáb Sir Muhammad Faiz Ali Khán Bahádur, K.C.S.I.
The Hon'ble G. C. Paul.
The Hon'ble E. C. Morgan.

NEW MEMBERS.

The Hon'ble G. C. PAUL and the Hon'ble E. C. MORGAN took their seats as Additional Members.

OPIUM ACT, 1876, AMENDMENT BILL.

The Hon'ble MR. HOPE introduced the Bill to amend the Opium Act, 1876, and moved that it be referred to a Select Committee. He said that, when soliciting leave to introduce the Bill, he had explained its objects so fully, that he thought it was unnecessary for him to add any further remarks on the present occasion.

The Motion was put and agreed to.

The Hon'ble MR. HOPE also moved that the Bill be published in the *Gazette of India* in English, and in the local Gazettes in English and in such other languages as the Local Governments direct.

The Motion was put and agreed to.

INDIAN ARMS BILL.

The Hon'ble SIR E. BAYLEY introduced the Bill to consolidate and amend the law relating to Arms, Ammunition and Military Stores, and moved that it be referred to a Select Committee. He had promised on the last occasion, in introducing the Bill, to afford some explanation of the different sections of the new law which had been proposed with the view of meeting the special difficulties which rendered the introduction of the Bill itself necessary. The whole Act, he might say, had been drafted and recast, although its substance was very much that of the present Bill. But it had been re-arranged and made more concise and put into a more intelligible and compact shape by his hon'ble friend Mr. Stokes, and Mr. Fitzpatrick. There would, no doubt, be many points of drafting in which the Bill might be improved while passing through Select Committee, and he did not propose at the present moment to say that every particular provision of the Bill was in a form in which he should like to see it in its ultimate shape. He thought, however, that, as it was now drawn, it stated the precise policy which the Government of India wished to enforce.

As he had explained at the last meeting of the Council, one main object of the present Bill was to obtain stricter control over the importation of cheap firearms, and also on their possession, even in the non-disarmed parts of India, so as to prevent their transport and sale without, and even within, our own

territories or frontier and their transfer to persons into whose possession it was essential to the peace of the country that such arms should not come. He would, however, before proceeding further, draw attention to the first and twenty-third sections of the Bill, which contained all the exemptions at present in force, and the Council would see further that the Bill contained provisions for the continuance of similar exemptions. He would state to the Council what the chief of these exemptions were; first of all, all Europeans, Americans and Anglo-Indian subjects were exempted; then certain Chiefs, Jágírdárs and other Natives who were specially exempted by the Local Government under the powers given to them. Again, for example, in the Panjáb, all honorary magistrates and Police-zaildárs, who were a class of honorary officials below the degree of magistrates, were exempted. He merely mentioned these examples to show how wide the scope of present exemptions was, and he wished to point out that every exemption existing under the present law would be continued, and would not be affected by the passing of this Bill; and the Local Governments and the Government of India would have similar powers to continue or to renew or to extend these exemptions in future.

Section 4 of the Bill defined "ammunition," "military stores" and "arms," and also contained various other definitions. The particular feature in these definitions was the separation of the definitions of "ammunition" and "military stores." This was a new feature, and the Council would find that this difference affected the Bill, inasmuch as "military stores" included a great many articles which were also used for other purposes, and therefore the absolute restrictions as to these articles were very much less stringent than as to what were called "ammunition." In fact he might say generally, although it did not exactly express the fact, that power was given to the Government to restrict the transport of military stores, rather than that their transport was absolutely restricted by the Bill. He had mentioned at the last meeting of the Council that some very considerable difficulties had occurred from the want of proper definitions in this respect, and that, for example, for the time considerable inconvenience was felt in the saltpetre trade from the want of the separate definition now introduced.

Section 5 of the Bill, or rather a clause of it, contained a new provision in regard to the sale by private persons of arms and ammunition. It had been found, as a matter of fact, and it was only very natural that persons buying arms and ammunition perfectly *bonâ fide* for their own use, ceased to require them, and then sold them to the first purchaser: in that way a considerable number of arms had got into hands to which it was not desirable that they should pass. There would therefore be two restrictions on this point: one that it would not be legal to sell such arms to a person who was not licensed to possess them; and secondly, that any private person selling arms or ammunition would have to give notice thereof to the nearest Police-station. SIR E. BAYLEY did not think that in practice this would be found a very oppressive or harsh provision, while at the same time he believed that it might prevent a good deal of mischief.

Section 7 referred to the duties on cheap firearms. He explained this part of the subject at so much length on the last occasion, that he would not detain the Council at present with any further remarks upon it. The Council would find in the second schedule attached to the Bill the specific duties it was proposed to levy on firearms and military stores, including parts of firearms. This schedule had been prepared with some difficulty, for it required a good deal of technical knowledge to fit it exactly to the facts and necessities of the case. He hoped that, when the Bill went into Committee, his colleagues would assist him in making this schedule as perfect as it could be made.

Section 11 referred to the general restriction which it was proposed to place on the possession of arms all over the country, without reference to the fact whether specific districts were included under what was section 32 of the old Act, whether, that is to say, they were "disarmed" or "undisarmed" districts. It was intended that the necessity for a license should extend to the whole country. He would point out, however, that the last two clauses in this section were intended to meet any difficulty which might be felt by persons who now possessed arms, and it would be seen that this section would not come

so as to give time and opportunity to a person who did not care to take out a license to dispose of his arms, or to take out a license if he chose to do so; and if he could not sell them, or care otherwise to get rid of them, he would be allowed by the third clause of the section to deposit them at the nearest Police-station.

Section 22 was somewhat wide in its terms, but it was a generalization of section 20 of Act XXXI of 1860. The Council would see that sections 25 and 26 of the Bill maintained, in respect to searches in the undisarmed districts all the existing restrictions as to prosecutions and searches to be made, and did not specially extend, but were on the contrary rather intended to mitigate the severity of, the law. Under section 25, in such cases no prosecution could be instituted against any person without the previous sanction of the Magistrate of the District; and by section 26 a search under similar circumstances must be in the presence of some person specially appointed by name by the Lieutenant-Governor in this behalf, and not otherwise; that was to say, an ordinary Police-officer would not have the power of making searches without any special authority or guidance, but in every case some special selected officer of some rank and position would be employed in making searches.

SIR E. BAYLEY did not know whether there was anything else which was new in the Bill as to principle. As he had said before, the subject was a very complicated one, and the drafting of the Act had been one of great difficulty. If hereafter any blots were found in it, he was sure that the Select Committee would be very glad to consider them, and to amend them so as to meet any difficulties which might arise. He did not know how long the Committee would sit, but the Bill would be no doubt in their hands for some time, and both the public and the members of the Council would have the opportunity of bringing to notice any special points which might occur to them.

The Motion was put and agreed to.

The Hon'ble SIR E. BAYLEY also moved that the Bill be published in the *Gazette of India* in English, and in the local Gazettes in English, and in such other languages as the Local Governments direct.

The Motion was put and agreed to.

MADRAS DISTRICT JUDGES BILL.

The Hon'ble MR. STOKES presented the Report of the Select Committee on the Bill to enable the District Judges of the Presidency of Fort Saint George to suspend and remove certain ministerial officers, and for other purposes.

SUNDRY BILLS.

The Hon'ble MR. STOKES also moved that the Hon'ble Mr. Paul be added to the Select Committees on the following Bills:—

To define and amend the law relating to the transfer of property.

To define and amend the law relating to Promissory Notes, Bills of Exchange and Cheques.

The Motion was put and agreed to.

SEA CUSTOMS BILL.

The Hon'ble MR. HOPE moved that the Hon'ble Mr. Morgan be added to the Select Committee on the Bill to consolidate and amend the law relating to the levy of Sea Customs-duties.

The Motion was put and agreed to.

The following Select Committees were named:—

On the Bill to amend the Opium Act, 1876—The Hon'ble Messrs. Stokes, Cockerell and the Mover.

On the Bill to consolidate and amend the law relating to Arms, Ammunition and Military Stores—Lieutenant-General the Hon'ble Sir E. B. Johnson, the Hon'ble Mr. Stokes, the Hon'ble Mahárájá Jotíndrá Mohan Tagore and the Hon'ble Messrs. Hope, Evans, Morgan and the Mover.

The Council adjourned to Thursday, the 27th December 1877.

D. FITZPATRICK,
Secretary to the Government of India,
Legislative Department.

CALCUTTA:
The 19th December 1877.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 18TH DECEMBER 1877.

GENERAL REMARKS.—In Madras general rain has fallen, except in the Godavery district: some damage from locusts is reported from Kistna, Cuddapah and Trichinopoly, and from excessive rain in Tanjore, Trichinopoly, Tinnevelly, Coimbatore, the Nilgiris, and Malabar; prospects are however on the whole very good, and prices have fallen. The total number on works is 183,006 and on gratuitous relief 302,302, 25,501, and 14,699 less than last week respectively. In Mysore also there has been general rain, which has been injurious to the ripening crops, though beneficial to those later sown; the number on works for the week ending the 8th was 63,554, and on gratuitous relief 18,371, being 2,723 and 1,109 less than in the previous week. In Bombay beneficial showers have fallen in parts of Guzerat, Khandesh, Násik, the Deccan and the Southern Mahratta country: in the Southern Deccan and Kaládgi, the fall was general; more is still required in parts of Násik, Ahmednagar and Khandesh. In the Central Provinces showers are reported from nine districts, and it is generally cloudy; the rain is unfavourable to the *jowár* and cotton, but beneficial to the *rabi*. In Berar also a little rain has fallen, and damage to the *jowár* and cotton is reported as well as to the *rabi* from cloudy weather. Showers have fallen in Central India; prospects are good. In Rajputana there has been general and very benefieial rain. In Bengal light rain is reported from the Central districts, and parts of Chota Nagpore and Behar; the recent rain has done much good to the *rabi*, but more is wanted in Behar. In Assam no rain has fallen; prospects are good. In British Burma also there has been no rain; the crops are excellent, and in many districts the harvest is far advanced. In the North-Western Provinces and Oudh partial showers are reported from Agra, Bareilly, Allahabad, Lucknow and Partábgarh; more rain is wanted in some parts, but the prospects of the *rabi* have generally much improved. In the Punjab light rain has fallen in all districts except Hissar, Umballa and Amritsar; prospects are generally favourable.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Ganjam (Dec. 15th)	2·15 in Surda and Russulconda.	Rice 9·44, *raggi* 15·39, *cholum* 15·2, *cumboo* 14·92; average number fed in Berhampore and Aska 159; light *anaddy* being cut; imports, Chilka and land rice 79 tons.
Vizagapatam („ 17th)	·4 in Parvatipur taluk.	Rice 8·8, *cholum* 13·7, *raggi* 14·7, *cumboo* 15·6; imports continue; crops withering in some parts from want of water.
Godavery („ „)	*Nil*	Rice 8·64, *cholum* 13·44, *raggi* 16·79, *cumboo* 17·0; crops generally good, though slightly suffering from blight; harvest of paddy in process, outturn ½ to ¾; that of *jilama*, *budama*, and *aruga* almost completed, outturn ¼ to ¾; water over anicut 8 inches.
Kistna („ 13th)	·15	Rice 7·19, *cholum* 12·61, *raggi* 11·12, *cumboo* 12·90; on works 2,773; in Bander poor-house 108; sick in relief hospitals 63; village relief 2,716; crops generally good; later crops require some rain; locusts damaging *varugu* crops in parts.
Nellore („ 15th)	2·37	Rice 7·51, *cholum* 9·27, *raggi* 10·10, *cumboo* 9·81; on civil works 597; Department Public Works works 18,779; canal 22,303; children 47; camps about 5,600; village relief 941; crops fair, but suffering in parts from insects.
Cuddapah („ 14th)	·21	Rice 7·98, *cholum* 11·31, *raggi* 11·36, *cumboo* 13·87; on works 10,449; children 708; camps 2,236; village relief 3,102; *cumboo*, *raggi*, paddy, and *cholum* harvested in parts, outturn ¾; *cholum* and *raggi* in some places suffering from the effects of locusts.
Bellary (Dec. 15th)	·7	Rice 8·75, *cholum* 11·98, *raggi* 11·74, *cumboo* 11·51; on works 15,172; children 569; camps and houses 4,894; village relief 25,089; first crop paddy being harvested; sowing of white *cholum* and second crop paddy in progress; standing crops of pulses, oil-seeds, *korra*, and cotton as yet in fair condition; future prospects hopeful.
Kurnool („ „)	·41 in Cumbum and Markapur.	Rice 7·60, *cholum* 10·20, *raggi* 12·72, *cumboo* 11·34; on works 20,054; children 1,569; in camps 594; village relief 36,945; fever prevails exceedingly.
North Arcot („ 14th)	1·42	Rice 8·8, *cholum* 9·5, *raggi* 10·0, *cumboo* 10·9, wheat 6·5; on works 29,476; children 7,662; camps and houses 12,102; village relief 19,821; decrease owing to fall of rain; crops good; harvest of paddy, *raggi*, and *varagu*, outturn poor.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*continued.*		
South Arcot (Dec. 15th)	General rain; average of district 1·55.	Rice 8·11, *cholum* 9·24, *raggi* 11·73, *cumboo* 9·94; on works, Revenue Department 234, professional 429; children none; camps 5,959; villages 38,726; 3 returns not received; crops good, except *cholum* slightly damaged in parts; *cholum* harvested in parts, outturn tolerable.
Tanjore („ „)	1·13	Rice 7·22, *cholum* 12·82, *raggi* 12·69, *cumboo* 12·82; on works none; children none; camps and houses none; village relief none; rivers half to full; wet crops thriving, some suffer from excessive water; dry generally in good condition, some suffer from excessive rain; harvest, outturn of *kar* and *kuruvai* ½ to ¾.
Trichinopoly („ „)	·90 (average of district).	Rice 7·81, *cholum* 28·0, available in Museri only, *raggi* 11·30, *cumboo* 14·52; on works 14,272; children 1,923; in camps 600; village relief 5,159; standing crops suffer in some parts from excessive rain and locusts, otherwise good; harvest continues, outturn between a 6 and 12-anna crop.
Madura („ „)	1·01 (average of district).	Rice 7·91, *cholum* 9·72, *raggi* 13·55, *cumboo* 12·86; on works 1,829; children 1,307; in camps 5,820; village relief 17,275; freshes continue in the rivers; *samay*, black *cholum*, and *varagu* harvested in some parts.
Tinnevelly („ „)	1·55	Rice 9·45, *cholum* 13·80, *raggi* 19·65, *cumboo* 21·45; camps and houses 69; village relief 1,028; standing crops generally good, though dry seriously damaged and injured by continued rain and disastrous floods; harvest of *samay*, *cumboo*, *raggi*, and *kadakanni* in parts, outturn fair.
Coimbatore („ „)	1·93	Rice 8·98, *cholum* 10·88, *raggi* 14·03, *cumboo* 17·69; on civil agency works 821; camps and houses 7,598; children 61; village relief 4,964; crops generally good; damage from excessive rain and insects in some places reported in 6 taluks; harvest of paddy, *cholum*, *raggi*, and *cumboo* in parts, outturn, reported in 3 taluks, dry crops ¼ to ¾.
Nilgiris („ „)	5·39	Rice 7·57, *cholum* 9·0, *raggi* 11·63, *cumboo* 8·16; relief works none; all camps and houses closed, but Coonoor 97; village relief 13; harvest of *raggi*, *korali*, and paddy, outturn of *raggi* and *korali* about ½ in parts; crops damaged by excessive rain; very stormy weather.
Salem („ 17th)	·60	Rice 7·64, *raggi* 8·87, *cumboo* 12·55, *cholum* 8·72; on works 34,785; camps 8,600; village relief 15,450; crops thriving; harvest of paddy and *raggi*.
South Canara („ 15th)	1·03	Rice 11·68, *raggi* 14·50; second rice crop in good condition.
Malabar („ „)	2·42	Rice 10·43, *raggi* 15·69; gratuitous relief 47; rain unnecessary for crops, which in some places are suffering, good for fruit trees; second crop, *gingelly* and *gram* in good condition; prospects good.
Chingleput („ „)	1·0 (average of district).	Rice 8·91, *raggi* 11·54, *cumboo* 10·56, *cholum* 9·05; on works 4,275; children 462; camps 2,842; village relief 51,035; crops generally good in all the taluks; some slight damage by insects in Trivellor and Ponneri; *kar*, *samba*, *raggi*, and *cumboo* harvested in 3 talukse outturn from ½ to ¾, *raggi* full.
Madras („ 18th)	·17	Rice 8·03, *raggi* 10·64, *cholum* 9·8. *General Remarks.*—General prospects continue good; generally slight fall in prices; total number on works, 1,83,006; total number gratuitously relieved, 302,302; export of grain by rail from Madras during the week ending the 15th December not yet reported.
Bombay—(Dec. 19th).		
Sind (Dec. 19th).		
Hyderabad ...	·07 on night of 18th.	Small-pox of mild type in Mirpur taluka.
Guzerat (Dec. 19th).		
Ahmedabad ...	·50	Total rainfall 20·40; 4 cases of cholera, no deaths.
Panch Máháls ...	·60	Thunderstorm at Jhálod.
Surat ...	...	Crops generally good; 5 deaths from cholera.
Broach ...	...	No change.
Khandesh and Násik (Dec. 19th).		
Khandesh ...	·75 in Dhulia; ·06 in Amalner; ·50 in Párola; ·06 in Nizámpur.	Rain will improve *rabi* generally; ague and cattle disease prevalent.
Násik ...	Showers in Málegaon and Chándor.	Crops in Málegaon and Chándor better, withering and worm-eaten elsewhere; health good; prices unchanged.
Konkan (Dec. 19th).		
Colába (Dec. 17th)	...	Weather continues good, mornings cold; sowing of *rabi* crops progressing.
Deccan (Dec. 19th).		
Poona ...	·75 in Indápur; ·07 in Bhimthari.	Rain favourable to crops; ague in Khed; 3 deaths from cholera in Purandhar, 1 in Poona.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*continued.*		
Ahmednagar ...	·50 in Karjat; ·32 in Jámkhed.	*Rabi* crops suffering where no rain fell; 1 death from cholera.
Sholapur ...	1·37	Total rainfall 36·28; *jowari* crop improving; rain general in district.
Satara	·77 in Khánápur; ·10 in Mán; ·20 in Tásgaon.	Rain required in Wai, Khatau, and Tásgaon talukas; weather cloudy in some places; crops good; 4 deaths from cholera.
Southern Mahratta Country (Dec. 19th).		
Belgaum ...	...	No change.
Dharwar ...	1·91; heavy rain in Bankápur on 13th and 14th.	Total rainfall 36·53; crops good, but *rabi* damaged by insects in some places; fever general; rain in Bankápur has damaged unstacked *jowari.*
Kanara ...	1·60 in Karwar.	Total rainfall 82·08; weather close; 1 death from cholera.
Kaládgi ...	1·86	Rainfall general and timely, expected to be beneficial to *rabi.*
Kattywar and Gaekwar's Territory (Dec. 19th).		
Rájkot ...	·45	Rain injurious to crops; weather cold; fever continues.
Baroda ...	·20	Total rainfall 24·14; 11 cases of cholera in city, 4 fatal.
		General Remarks.—There have been beneficial showers in parts of Guzerat, the Deccan, and the Southern Mahratta country; more rain is still required in parts of Násik, Ahmednagar, and Khandesh; cloudy and close in Bombay.
Bengal—(Dec. 20th).		
Chittagong ...	*Nil*	Weather fine, but rather hot for the season; the *amun* harvest is going on, and there is a 12-anna crop altogether.
Noakholly	*Nil*	Weather seasonable; the *amun* crop is being reaped; prospects are fair; exportation is active; public health is good.
Chittagong Hill Tracts...	*Nil*	Weather cloudy on the 9th instant; the gathering of the paddy crop of the plough cultivators still continues; mustard is in flower; tobacco plants are still being transplanted.
Hill Tipperah ...	*Nil*	Weather cool; the reaping of the late rice crop continues; the cold weather crops are doing well.
Backergunge ...	*Nil*	No change, all is well as before; the *amun* crop is being cut.
Furreedpore ...	·02	Weather seasonable; the *amun* crop is still being cut; general prospects are fair.
Dacca ...	*Nil*	The rain of last week has been pretty general throughout the district; state and prospects of the crops are favourable; *dhan* is nearly all cut; labour is deficient in Bhowal; fever in Manickgunge has abated.
Mymensingh ...	·28	Slight showers have fallen, and the temperature is decidedly colder; state and prospects of the crops are favourable.
Tipperah ...	*Nil*	Weather cold; about half the *amun dhan* has been reaped, and a great part of the sugarcane cut; the outturn is good; rice is being exported to Noakholly, Chittagong, Naraingunge, and Calcutta; winter crops go on well.
24-Pergunnahs ...	*Nil*	Weather seasonable; *amun* paddy is being reaped; fever and cholera are prevalent in many parts of the district.
Jessore ...	...	Weather cold and seasonable; during the week there was a slight shower, which appears to have been general, but was not enough to be shown on the rain gauge; rain is wanted, but on the whole the winter crops are doing fairly well; fever is still raging throughout the district; cholera also is present.
Nuddea ...	·70	Weather cloudy on one or two days; now cold in the morning and evening; harvesting of the late rice crop is nearly over; it is feared that some damage may be caused to the winter crops by insects engendered during the late cold; cholera is bad in Kooshtea and in part of Bongong.
Moorshedabad ...	·10 Slight rain on the 11th.	Weather cloudy and cold during greater part of the week; *amun* is still being harvested; there is some improvement in the prospects of *rabi* crops since the rainfall; fever and cholera are still prevalent in Berhampore and in the interior.
Pubna ...	·11	Weather seasonable; the harvesting of *amun dhan* is not yet over; the sowing of *haldee, moong, mashkalai, khesaree,* and *muttor* is completed; the harvesting of sugarcane will soon be commenced; fever is still prevalent; cholera seems to have abated a little.
Rajshahye ...	·25	Slight rain in most parts of the district at the commencement of the week, which has benefited the *rabi* crops, but is said to have injured to a slight extent the uncut ripe rice crop; the harvesting of *amun dhan* is progressing; there have been several cases of cholera during the week in different parts of the district.
Bogra ...	·22	Weather dry and cold during the latter part of the week; there was slight rain on the morning of the 10th instant; west wind is prevailing; the reaping of *amun* is going on, and there is a bumper crop; the *rabi* crops are flourishing and promise a good outturn; cholera is on the decrease; the number of fatal cases up to date is 1,294; there is a great deal of fever, specially in the western part of the district.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*continued.*		
Dinagepore ...	*Nil*	Weather seasonable; the state of the rice crop is good; the price of cleaned rice ranges from 20 to 27 seers per rupee.
Rungpore ...	*Nil*	Weather cold and sometimes close; the cutting of *amun* continues; the cold weather crops are being sown; prospects are good; cholera is reported to be prevalent in all the thanas of Gaibunda.
Cooch Behar ...	·1 Mathabhanga ·22	The weather has become much cooler; the sky appears now and then cloudy; there is nothing further to report regarding the rice crop; harvest operations are still proceeding; prospects of the cold weather crops continue favourable; fever is decreasing, and the health of the district is generally good.
Jalpáiguri ...	*Nil*	Weather seasonably cool; winter rice is being harvested; sowings of mustard, wheat, and potato have been completed; sugar-cane is flourishing, and the tobacco plants look well; health of the district is not yet good; fever is yet prevalent in the town of Jalpáiguri.
Darjeeling ...	*Nil*	The rain of the 11th instant fell both on the hills and the plains; the weather is now cloudy and chilly, and there are signs of more rain; *haimunti* rice, *kalai*, and *teel* are being reaped with fair prospects; the ground is being prepared for other crops.
Midnapore ...	*Nil*	Weather cloudy till 14th instant, when it has been bright and cold; state and prospects of the crops are fair.
Howrah ...	*Nil*	Weather cloudy and cool; no change to report in the state and prospects of the crops; the rice harvest is progressing.
Hooghly ...	*Nil*	Weather cool; harvesting of the late rice is going on; *rabi* crops in the ground are doing well; there has been slight change for the better in the state of public health.
Burdwan ...	*Nil*	Reaping of the *amun* crop is progressing; prospects of the *rabi* crops are good; fever is still prevalent.
Bankoora ...	·12	The days have been cloudy and slight rain has fallen in most parts of the district; the reaping of the *amun* rice is nearly finished; the winter crops are in good condition.
Beerbhoom ...	·21	Weather cold and bracing; the rice harvest has very far advanced; the crop is from 13 to 14 annas; the cold weather crops are doing very well.
Sonthal Pergunnahs ...	·10	The early part of the week was cloudy; the latter part was clear and cold; the *rabi* has been benefited by the rain, which was heavier at Godda and Deoghur than at head-quarters.
Bhágalpur ...	*Nil*	Weather cold, and high westerly winds; state and prospects of the crops are excellent.
Monghyr ...	*Nil*	Weather, very cold; the crops are looking well, but one good shower will do a great deal for them, if it falls.
Purneah ...	*Nil*	Weather, very cold, with strong west winds; *dhan* is being cut generally; the average is about a 12-anna crop; *rabi* and tobacco crops are doing fairly, but rain is wanted; fever is still very prevalent, and cholera is on the increase.
Maldah ...	·07	Light rain on 10th and 11th, otherwise fair and cold; state and prospects of the crops continue to be satisfactory; health of the district is very bad; cholera is coming to a focus at Gomastapore and Shibganj, where medical aid is being sent.
Durbhunga ...	*Nil*	Weather cold, with west winds; the people are busily harvesting the paddy crop; the harvesting is nearly completed; the *rabi* crops are looking well, but in the Tajpore Sub-division are in need of rain; public health is generally good.
Mozufferpore ...	*Nil*	Weather cloudy in the early part of the week, clear towards the close; the reaping of the rice crop is going on rapidly; slight showers have been reported from different places in Seetamurhee and Sudder Sub-divisions, which were not, however, sufficient to be of much use; want of rain is much felt throughout the district for *rabi*.
Sarun ...	*Nil* Sewan ·07	Sky overcast on the 10th instant, when a few drops of rain fell; on the morning of the 11th, the weather changed, and it has since been very cold, with strong and dry west wind; there has been slight rain in some parts of the district; the rain has done some little good to the *rabi* crops, the state and prospects of which continue satisfactory; prices have slightly risen; public health is good.
Chumparun ...	*Nil*	Weather seasonable; the rain-fall on the 10th instant was general; it has done much good to the *rabi* crops; the sky is now and then overcast, and there is every probability of a Christmas rain, whereby the prospects of the *rabi* crops will be improved; *aghani* rice has been cut and nearly harvested; on an average there will be about six-annas outturn; the market price of coarse rice has fallen a little, but not so much as to afford the poorer people to have two meals a day of that staple food.
Patna ...	*Nil*	Weather seasonably cold; harvesting of rice is in progress; prospects of the *rabi* crops are good, but a little rain is required; health of the district is excellent.
Gya ...	Slight rain on 10th & 11th.	Weather cloudy in the beginning of the week, ending in slight rain; since then cold and seasonable; no return received from Jehanabad; in Aurungabad the condition of the *rabi* is fair, though more rain is wanted; in Nowáda all the *rabi* is very promising, and the rice is generally good; in the Sadar Sub-division the *rabi* is promising,

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*concluded.*		but the rice has failed in many places; there has not been sufficient rain to do good.
Shahabad ...	*Nil*	Weather cold and dry; the rainfall of last week was very slight; none fell at Sasseram or Bhubooah head-quarters; rain is urgently needed wherever means of irrigation are not available; even the sugarcane, which is ripe and being crushed as fast as possible, is reported as suffering.
Hazáribágh ...	·26	Weather unsettled; more rain is wanted.
Lohardugga ...	·16	Weather seasonable; there has been light rain in most parts of the district, and it has done good; the prospects of all crops are good; public health is good.
Manbhoom ...	*Nil*	Weather cloudy at the commencement of the week; clear and fine since 14th instant; the Deputy Commissioner has lately been on tour, and has found that, owing to early stoppage of rain, the high-land rice, where not irrigated, has for the most part failed, excepting in a few pergunnahs; rain would do good to sugarcane, but it would do harm to the unstored rice; there is not much of a *rabi* crop in any year in this district; this year there has been scarcely any.
Singbhoom ...	·24	Weather seasonable; the cold weather crops are doing well; the district is healthy.
Balasore ...	A few drops	Weather cold; the *saradh* crop is nearly all cut, and the outturn is about an average one; *rabi* crops are doing well; the fever in the north of the district is reported by the Civil Surgeon to be different from the Burdwan fever and as not likely to spread further.
Cuttack ...	*Nil*	Weather cloudy in the beginning of the week; fine and cold at the close; the *saradh* is being cut and the *rabi* is in good condition; a good outturn is expected; cholera has now broken out in Jajpore Sub-division.
Pooree ...	*Nil*	Weather cloudy for most part of the week and cooler than before; harvesting of the *laghu* crop is progressing; *saradh* crop is being cut in some places, and in others it is ripening; of the miscellaneous crops *arhur, moong, biri,* &c., are in pods; mustard is in flower; castor plants are growing well; sugarcane is being cut; *dalua* rice seeds are sown in some places, and in others the plants are shooting forth and are being transplanted; husked rice is being exported to Ganjam by the Chilka on a small scale; prices of articles of food are almost stationary: in the famine tracts charitable relief is being given to those people who are unable to work, while the rest have been employed on the relief and district cess works; sporadic cases of cholera and cattle disease are reported from the sub-division of Khoordah as well as from the interior.
		General Remarks.—The slight rain reported last week appears to have been almost general; it has done some good to the *rabi* and other standing crops, although more is still wanted in Behar, particularly in the unirrigated parts of Shahabad; the harvesting of the late rice crop has far advanced, and is nearly completed in some places; the sugarcane is ripe and is being cut in places; in the famine-stricken tracts of Pooree charitable relief is being given to persons unable to work, while the rest are employed on relief and district road cess works; fever and cholera are still prevalent in several places, although in some districts they are said to be decreasing.
N. W. P. and Oudh—		
Benares (Dec. 18th)	...	No change.
Allahabad („ „)	Slight rain.	More rain wanted throughout the district.
Jhánsi („ 19th)	...	Prospects much improved; weather cloudy.
Agra („ 18th)	1·1	*Rabi* prospects considerably improved.
Bareilly („ 19th)	Heavy shower of rain on 18th.	*Rabi* prospects excellent.
Lucknow („ „)	·1 on night of 17th.	Prospects favourable.
Partabgarh („ 17th)	·2	Prospects good.
Fyzabad („ 19th)	*Nil*	Crops already irrigated benefited by rain; more rain wanted for unirrigated fields.
		General Remarks.—Partial showers are reported this week from some districts; more rain is wanted in parts, but in most places the prospects of the *rabi* crops have greatly improved.
Punjab—(Dec. 18th).		
Delhi ...	·8	Rain still threatening; *rabi* prospects much improved; small-pox continues.
Hissar ...	*Nil*	Agricultural prospects much improved since last week's rain, which was pretty general throughout the division; health generally good, but small-pox in a few villages; cattle still suffering from scarcity of fodder.
Umballa ...	*Nil*	*Rabi* prospects and health good.
Jullundur ...	·5	Crops and health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Punjab—*continued.*		
Amritsar ...	*Nil*	*Rabi* prospects good; small-pox about, otherwise health good.
Lahore ...	·9	State of crops and health good.
Rawalpindi ...	·5	Agricultural prospects and public health good.
Mooltan ...	·3	Prospects of *rabi* very favourable; health good.
Dera Ismail Khan ...	·4	Crops progressing; health good.
Peshâwar ...	·5	Prospects good.
		General Remarks.—Now that improvement is reported from the southern districts, the agricultural prospects throughout the province may be deemed favourable.
Central Provinces—		
UpperGodávari(Dec.15th)	·69	Cloudy and cool; *rabi* doing well; health good; prices high and steady.
Sambalpur ...	·78	Cloudy; rice harvest almost completed; fever continues; prices steady.
Bilâspur ...	Slight rain	Cloudy; rain has benefited *rabi*; fever continues; prices steady.
Raipur ...	...	Cloudy and cool; kharif harvest progressing; *rabi* promising; fever and cattle disease continue; prices stationary.
Bálaghât ...	·71	Cloudy; rice and *rabi* slightly damaged; fever continues; prices unchanged.
Chhindwára ...	1·10	*Jowar* injured to some extent; fever continues; prices rising.
Chánda (Dec. 16th)	·59	*Jowar* and linseed suffered, other *rabi* crops benefited; fever and cattle disease continue; prices slightly risen.
Betúl („ 17th)	·38	Cloudy; prospects favourable; fever continues; prices stationary.
Bhandára („ 18th)	·17	Cloudy; rice harvest progressing; *rabi* fairly good; fever continues; prices stationary.
Nágpur („ 19th)	...	Cloudy; *jowar*, cotton, and *mung* much injured by previous week's rain; *rabi* good; small-pox prevalent in Umrer tahsil; prices falling.
Wardha ...	...	Cloudy; cotton, *jowar*, and linseed slightly damaged by previous week's rain; *rabi* favourable; small-pox continues.
Nimár ...	...	Cool and pleasant; prospects of *rabi* fair; small-pox continues.
Hoshangabad ...	...	Cloudy; cotton slightly damaged by last rain; *rabi* promising.
Narsinghpur ...	...	Cloudy; *rabi* excellent; health good; prices stationary.
Jubbulpore ...	...	Cloudy and warm; *rabi* promising; health good; prices stationary.
Saugor ...	...	Late rains beneficial; prospects favourable; further preparations for *rabi* progressing.
Seoni ...	...	Cloudy; *jowar* much injured by late rains; *rabi* flourishing; prices stationary.
Damoh ...	...	Cloudy; prospects good; prices stationary.
Mandla ...	·25	Cloudy; *kharif* harvesting; *rabi* thriving; fever continues; prices stationary.
		General Remarks.—From seven districts it is reported that the late rain has somewhat damaged the crops, and considerable apprehension exists, as the weather continues cloudy.
British Burma— (Dec. 19th.)		
Arrakan Division ...	*Nil*	Public health good; crops continue to promise well everywhere.
Pegu Division.		
Rangoon ...	*Nil*	Public health good; slight cattle disease in Angyee township; prospects of harvest continue excellent.
Thonkwa ...	...	Health good; crops reaping, outturn good.
Henzada ...	...	Health good; crops excellent; reaping progressing.
Prome ...	...	Five deaths from cholera in Poungday, otherwise healthy; harvest progressing.
Thayetmyo ...	*Nil*	Health and harvest good; reaping nearly over.
Bassein ...	...	Harvest prospects very good; reaping commenced.
Tenasserim Division ...	*Nil*	Public health good; crops continue to promise well.
Assam—		
Gauháti (Dec. 19th)	*Nil*	Weather settled, clear and cool; mornings raw and foggy; the gathering of *sail* partly completed; prospects of other crops tolerably favourable.
Sylhet („ „)	*Nil*	The reaping of the *amun* and *sail* crops not yet finished; price of rice steady; cholera still reported in the district.
Mysore and Coorg— (Dec. 19th)	·17 in Bangalore; ·63 in Mysore; and 1·65 in Coorg; heavy showers in the Nagar Division and in the Túmkúr District.	Rain has been prejudicial to ripening crops, but in parts benefited those later sown; agricultural operations still active; ordinary rice sells in Bangalore at $15\frac{3}{4}$ to $16\frac{1}{4}$ lbs., and *raggi* 21 to 22 lbs. per rupee. For week ending 8th December on Civil Works 17,478, on Professional Department works 46,076, and charitably relieved 18,371; fever of an unusual type prevails.
Hyderabad Assigned Districts—		
Amráoti (Dec. 19th)	·20	Cut *jowari* somewhat, cotton much, damaged by rain; *rabi* slightly injured by cloudy weather.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.

L ...	54,355	34,183	7,963,927	5,018,992								

The week's telegrams show that more or less rain has fallen in most of the districts, and that in Sholápur and Kaládgi the fall has been general and satisfactory.

2. Prices still maintain their downward tendency. There has been no retrograde movement in any of the districts this week.

3. As this is the last Statement to be issued, it may be well here to compare (1) the aggregate of the rainfall that has been week by week recorded in previous Statements with the fall of an ordinary year, and (2) the prices of staple food grains now prevailing with those of an ordinary year.

4. In the districts of Khandesh, Násik, Ahmednagar, Poona and Satara—or, roughly speaking, in the more northern half of the area drought-stricken in 1876—the rainfall of 1877 was unduly light. It was lightest of all in Ahmednagar, where it was less by one-fourth than the average of the five years antecedent to 1876. In the other four districts of Sholápur, Kaládgi, Belgaum and Dharwar the rainfall of 1877 was on the whole abundant, though it fell so irregularly as at times to cause grave apprehension.

5. The prices of the cheaper of the two staple food grains vary now from 36 pounds a rupee in Belgaum to 23 pounds a rupee in Kaládgi. Comparing the present rate in each district with the ordinary prices in that district, it is found that the percentage the former is of the latter varies from 82 per cent. in Satara to 30 per cent. in Kaládgi. Thus prices are dearest in Kaládgi both absolutely and in relation to the ordinary prices of the district.

6. The average price of the cheaper food grain in the nine districts is now a fraction under 30 pounds a rupee, which is 53 per cent. of the ordinary average price. Thus prices are still nearly twice as high as in an ordinary year. But they are still falling, and it is to be borne in mind that, as regards the cultivating classes and all persons directly dependent on them, the effect of high prices now at harvest time is very different to what it was when the whole population had to live upon the stores of grain which dealers and others had in their possession.

7. The following table gives the daily average number of persons gratuitously relieved according to the latest returns received from the different Collectors, and shows that the whole number is little over four thousand. The table also completes the record of expenditure upon the young children of labourers upon relief works, and shows that in the last week that relief works were open the number of such children requiring Government support was only 1,685 :—

Districts.	Collector's Discretionary Grant.			Expenditure incurred under the authority of Government Resolution No. 312 C. W.—1116 of 26th December 1876, on account of children under 7 years of age whose parents are upon relief works.		
	Average daily number of persons relieved.	Expenditure during the week ending 1st December.	Total Expenditure up to 1st December.	Average daily number of children, and of women taking care of them.	Expenditure during the week ending 30th November.	Total Expenditure.
	No.	Rs.	Rs.	No.	Rs.	Rs.

8. In paragraph 6 of last week's Statement it was said by mistake that prices in the Native States continue to rise instead of that they continue to fall.

9. There is continued improvement in the general situation, and the recent falls of rain in most of the affected districts will doubtless have a very beneficial effect on the prospects of the season.

10. No more weekly Statements will be issued, but the result of the census alluded to in the Statement, dated 8th December 1877, will be published in due course.

C. J. MERRIMAN, *Colonel, R.E.*,
Acting Secretary to Government.

Traffic Manager's Office,
Madras;
The 20th December 1877.

R. B. ELWIN,
Agent and Manager.

A. W. DARKE,
Acting Deputy Traffic Manager.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 25TH DECEMBER 1877.

GENERAL REMARKS.—In Madras heavy rain and floods are reported from Tanjore, Tinnevelly and Madura, which have caused serious damage: injury from excessive rain has also occurred in parts of Trichinopoly and Coimbatore; slight rain has fallen in a few other districts, but from most the returns are blank; general prospects are good. The total number on works is 202,323, and on gratuitous relief 281,432, an increase of 19,317 and a decrease of 20,870 on the figures of last week. In Mysore there has been no rain, except ½ an inch in Hassan; the crops are generally in good condition; the numbers on works for the week ending the 15th instant were 58,466, and on gratuitous relief 15,493, 5,088 and 2,878 less than in the previous week. In Bombay good rain is reported from Kaira, and a few showers in Surat, Colába, Poona and Satára; prospects are generally fair, except in Sind, where the river continues high. No rain has fallen in the Central Provinces, but it is generally cloudy; damage to the crops from the late rains is reported from Nágpur and Chánda: the *rabi* generally promises well. In Berar there has been no rain; the prospects of the *rabi* are good. No rain has fallen in Central India. In Rajputana beneficial rain is reported from Abu, Jhallawar and the Harowtee States; prospects are generally favourable. No rain has fallen in Bengal during the week, except showers in Lohardugga and Cooch Behar; the outturn of the *amun* harvest is generally fair, except in parts of the Patna division: the *rabi* promises well, but rain is wanted throughout Behar and Chota Nagpore. No rain is reported from Assam or Burmah: prospects are good. In the North-Western Provinces and Oudh rain has fallen in Jhánsi and Bareilly, and the prospects of the *rabi* are good. In the Punjab rain is reported from Amritsar, Ráwalpindi, Umballa and Peshawar; the *rabi* crops are in good condition.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—		
Ganjam (Dec. 22nd)	*Nil*	Rice 9·65, *raggi* 15·24, *cholum* 15·2, *cumboo* 14·92; average number daily fed at Berhampore and Aska, 263; imports, Chilka land rice, 135 tons.
Vizagapatam („ 24th)	...	Rice 9·1, *cholum* 15·5, *raggi* 15·4, *cumboo* 16·7; from want of water crops withering in some parts; heat excessive; very little dew.
Godavery („ „)	*Nil*	Rice 8·68, *cholum* 12·91, *raggi* 16·87, *cumboo* 17·0; crops generally good, though slightly suffering from blight; harvest of paddy in progress, outturn ½ to ¾; that of *cholum* commenced, outturn ½; water over anicut 20 inches.
Kistna („ 20th)	...	Rice 7·21, *cholum* 13·33, *raggi* 12·23, *cumboo* 13·86; on works 2,871; in Bander poor-house 107; sick in relief hospitals 57; village relief 784; later dry crops want rain and suffer from insects here and there; dry paddy harvested in some taluks, outturn ¼ to full; *perrajonna* harvested in parts, outturn very poor.
Nellore („ 22nd)	·05	Rice 7·71, *cholum* 10·22, *raggi* 10·67, *cumboo* 10·56; on civil works *nil*; on D. P. W. works 18,259; canal 22,148; children *nil*; camps, about 5,600; village relief 1,111; crops fair.
Cuddapah („ 21st)	...	Rice 8·08, *cholum* 11·73, *raggi* 12·82, *cumboo* 14·28; on works 10,208; children 621; camps 2,026; village relief 2,905; *raggi, cholum,* and paddy harvested in parts, outturn full.
Bellary („ 22nd)	*Nil*	Rice 8·08, *cholum* 11·88, *raggi* 12·34, *cumboo* 10·95; on works 11,937; children 393; camps and houses 4,085; village relief 15,488; first crop of paddy and *korra* being harvested; sowing of second crop paddy in progress; standing crops of pulses, oilseeds, *korra,* and cotton fairly progressing; future prospects hopeful.
Kurnool („ „)	*Nil*	Rice 8·15, *cholum* 10·79, *raggi* 14·07, *cumboo* 11·33; on works 17,400; children 994; in camps 306; village relief 33,260.
North Arcot („ 21st)	*Nil*	Rice 9·1, *cholum* 9·7, *raggi* 10·5, *cumboo* 10·7, *wheat* 6·7; on works 30,974; children 8,626; camps and houses 12,848; village relief 13,919; crops good; harvest of *cholum, raggi,* paddy, and *varagu,* outturn poor.
South Arcot („ 22nd)	Slight rain, average of district ·40.	Rice 8·31, *cholum* 15·12, *raggi* 13·93, *cumboo* 13·38; on works, Revenue Department, 1,359; professional department 572; children none; camps 7,119; villages 45,202; crops good; *cholum* and *raggi* harvested in parts, outturn tolerable.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—*continued.*		
Tanjore (Dec. 22nd)	3·85	Rice 6·93, *cholum* 12·39, *raggi* 14·08, *cumboo* 13·36; rivers half full; wet crops thriving, some suffer from excess water; dry generally in good condition, some suffer from excess rain; harvest, wet, *kar* and *kuruvai*, dry, *raggi* and *varagu*, outturn *kar* and *kuruvai* ½ to ¾, *raggi* and *varagu* ¾.
Trichinopoly („ „)	·92	Rice 7·74, *cholum* 28·0, *raggi* 11·30, *cumboo* 14·65; on works 13,707; children 1,933; in camps 611; village relief 5,201; standing crops good, but damaged by excessive rain and locusts in parts; early paddy, *cumboo*, *cholum*, and *raggi* harvested, outturn between 6 and 12-anna crop.
Madura („ „)	2·22	Rice 7·51, *cholum* 10·12, *raggi* 14·20, *cumboo* 12·39; on works 1,182; children 766; in camps 5,440; village relief 13,544; freshes continue, though low; dry crops injured by excessive rain; many tanks breached in Melur taluk; *samay*, *tenai*, *cholum*, and *cumboo* harvested to a small extent.
Tinnevelly („ „)	6·57	Rice 9·30, *cholum* 14·10, *raggi* 22·80, *cumboo* 18·90; camps and houses 52; village relief 724; standing crops generally good, though dry crops seriously damaged by heavy rain and disastrous floods on the night of the 17th instant; harvest of *samay*, *cumboo*, *raggi*, and *kadakanni* in parts, outturn full.
Coimbatore („ „)	·40	Rice 9·23, *cholum* 11·11, *raggi* 14·61, *cumboo* 20·60; on works 15,793; camps and houses 6,944; children 1,031; village relief 3,957; crops generally good; damage from excessive rain and insects in parts reported from 8 taluks; harvest of paddy and some dry crops in parts, outturn, paddy ½ to ¾ths, dry reported poor in Oodumulpetta and Bhowany owing to the above causes.
Nilgiris („ „)	1·14	Rice 7·60, *cholum* 8·97, *raggi* 11·64, *cumboo* 8·16; Coonoor camp 42; village relief 10.
Salem („ 24th)	...	Rice 7·80, *raggi* 10·43, *cumboo* 12·56, *cholum* 8·50; on works 33,330; camps 8,300; village relief 13,000; crops thriving; harvest of paddy and *raggi*.
South Canara („ 22nd)	*Nil*	Rice 11·74, *raggi* 14·49; second rice crop thriving.
Malabar („ „)	·21	Rice 10·70, *raggi* 15·79; gratuitous relief 64; rain unnecessary for crops, good for fruit trees; second crop, *gingelly*, and grain in good condition; prospects good.
Chingleput („ „)	*Nil*	Rice 9·07, *raggi* 10·75, *cumboo* 10·56, *cholum* 9·05; on works 5,302; children 942; camps 2,590; village relief 52,532; private charity 5,337; crops generally good in all taluks; slight damage by insects in Trivellore and Ponnery taluks; *kar*, *raggi*, and *cumboo* harvested in parts, outturn from ½ to ¾, *raggi* full.
Madras („ 25th)	*Nil*	Rice 8·03, *raggi* 10·64, *cholum* 9·80.
		General Remarks.—General prospects good; heavy rain and flood in three southern districts causing serious damage; total number on works 202,323; total gratuitously fed 281,432; exports of grain by rail from Madras 3,870 tons.
Bombay—(Dec. 26th).		
Sind (Dec. 26th).		
Kurrachee ...	...	River at Kotri on 20th still 10 feet 5 inches; slight damage done to *rabi* seedlings in Belo taluka by its rise; fever prevalent.
Shikárpur ...	...	Weather cloudy; slight fever prevalent.
Hyderabad ...	...	No change.
Upper Sind Frontier ...	...	Weather cloudy and cold; prospects poor; fever prevalent.
Guzerat (Dec. 26th).		
Ahmedabad ...	...	Cholera, 2 cases.
Panch Máháls ...	...	Weather warm and cloudy; saved gram improved.
Kaira ...	1·20	*Rabi* prospects good; slight cholera in 2 talukas.
Surat ...	·07	Two deaths from cholera.
Broach ...	...	*Kharif* harvesting commenced, yield much below average; public health good.
Khandesh and Násik. (Dec. 26th).		
Khandesh ...	...	*Rabi* attacked by insects in places; public health as before.
Násik ...	...	No change.
Konkan (Dec. 26th).		
Tanna ...	...	*Rabi* good; fever throughout district; cholera in Panwel and Karjat.
Ratnágiri (Dec. 18th)	...	Crops good.
Colába (Dec. 24th)	·01 in Alibag	Weather good; mornings cold; cholera has appeared at Mahád; *rabi* sowing finished.
Deccan (Dec. 26th).		
Poona ...	·02 in Khed	Few cholera cases in Purandhar and Poona.
Ahmednagar ...	...	Cholera, 1 death.
Sholapur ...	...	No change.
Satara ...	·04 in Tásgaon taluka.	Weather cloudy and warm; rain much required; crops good.
Southern Mahratta Country (Dec. 26th).		
Belgaum ...	...	No change.
Dharwar ...	...	Crops good, but *rabi* damaged by insects in some places; fever general.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*continued.*		
Kanara ...	...	Weather fair; rice harvest continues above Ghat; cholera, deaths 8.
Kaládgi ...	...	*Rabi* and cotton generally well; *tur* slightly suffering from cloudy weather in Bágewári, and cotton from excessive rain in Hungund.
Kattywar and Gaekwar's Territory (Dec. 26th.)		
Rájkot ...	...	Nine cases of cholera in Gohelwár, 2 fatal; small pox prevalent in Sorath.
Wadhwán ...	...	Weather moderate; 1 cholera case at Memka; crops good.
		General Remarks.—Rain in Kaira beneficial; no other change.
Bengal—(Dec. 27th).		
Chittagong ...	*Nil*	Weather fine; the harvesting of the *amun* crop continues; the cold weather crops are progressing well.
Noakholly	*Nil*	Weather seasonable; the reaping of the *amun* crop continues; prospects are fair; public health is good; some cases of small-pox are reported from Forashgunge outpost.
Chittagong Hill Tracts...	*Nil*	Heavy fogs up to 9 A. M.; weather very cold throughout the week; the gathering of the paddy crop of the plough cultivators is nearly over; mustard is in flower; the prospects of tobacco are good; the Assistant Commissioner of Cox's Bazar reports that the state and prospects of the crops are fair; the cold weather crops are doing well.
Hill Tipperah ...	*Nil*	Weather seasonable; the reaping of the late rice crop still continues; the cold weather crops are progressing favourably.
Backergunge ...	*Nil*	Weather seasonable; reaping of the *amun* crop is going on busily; the crops are but slightly damaged by insects in three thanas; health is good.
Furreedpore ...	*Nil*	Weather seasonable, but rain is wanted; the outturn of the *amun* crop is somewhat less than an average one; the prospects of the winter cereals and sugarcane are good.
Dacca ...	*Nil*	Weather seasonable and cold; state and prospects of the crops are good; rice is nearly all cut, and the crop is satisfactory; the cold weather crops are looking well; fever and cholera have abated.
Mymensingh ...	*Nil*	Weather fine; state and prospects of the crops are favourable.
Tipperah ...	*Nil*	Weather fine and cold; the winter rice crop is a very good one; exportation to other districts still continues.
24-Pergunnahs ...	*Nil*	Weather seasonable; state and prospects of the crops are favourable; cholera and much fever are prevalent.
Jessore ...	*Nil*	Weather cold and seasonable during the week; *amun* rice is being harvested; winter crops look fairly well; a little rain would do much good; the prospect of date-juice is favourable; fever and cholera are still heard of throughout the district.
Nuddea ...	*Nil*	Weather cool and cloudy; the prospects of the cold-weather crops are fair; the outturn of the *amun* rice harvest is not as yet ascertained; cholera is still prevalent in Kooshtea sub-division.
Moorshedabad ...	*Nil*	Weather seasonably cold; the harvesting of *amun dhan* is not yet over; the outturn is generally above the average; rain is wanted for the *rabi* crops; fever and cholera have decreased, but of cholera there are still a good many cases reported from six thanas.
Pubna ..	*Nil*	Weather seasonable; state and prospects of the *rabi* crops are favourable; the reaping of *kalai* and *moong* has commenced in some places; fever is still prevalent in the town of Pubna; cholera in some places appears to have abated a little.
Rajshahye ...	*Nil*	Weather cloudy and cold; the cutting of the *amun* rice is still going on; *teel* is also being cut; the prospects of the *rabi* crops are good; there have been several cases of cholera in almost all parts of the district.
Bogra ...	*Nil*	Weather dry and cold; *amun* is still being cut with a good average yield; the cold-weather crops are doing well, and will, it is hoped, yield a good outturn; the health of the district continues the same as before.
Dinagepore ...	*Nil*	Weather cold and foggy; rice is being harvested.
Rungpore ...	*Nil*	Weather cold and close; paddy is being harvested; other crops are doing well; cholera still prevails in the south of the district.
Cooch Behar ...	*Nil* ·3 at Dinháta.	Weather pleasantly cool; the mornings are generally foggy, and there have been occasional gatherings of clouds; the state and prospects of all kinds of crops continue to be satisfactory; the reaping of *amun* rice is still going on; mustard is coming generally into flower, and the transplantation of tobacco plants is progressing well; fever is gradually decreasing, and the general health throughout the district is good.
Jalpáiguri ...	*Nil*	Weather seasonably cool; winter rice is being harvested; in some places the lands are being prepared for *bhadoi* rice; the general prospects of the winter crops are good; health of the town of Jalpáiguri is improving.
Darjeeling ...	*Nil*	Chilly, cloudy weather, threatening rain or snow; all the crops are progressing favourably; about half of the *haimanti* crop has been gathered in with very fair results; the land is being prepared for other crops.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*continued.*		
Midnapore ...	*Nil*	Weather bright, with light clouds at times, rather cool; state and prospects of the crops are fair.
Howrah ...	*Nil*	Weather seasonable; the *amun* harvest is progressing; the highland rice in the north is turning out better than was expected; fever is abating.
Hooghly ...	*Nil*	Weather cool; one-half of the late rice has been already harvested peas, *kaldi*, and potato are being gathered; vegetables are doing well; fever still continues, but there is a slight change for the better; a few cases of cholera have been reported from the Hooghly Municipality.
Burdwan ...	*Nil*	Reaping of the *amun* crop is going on; prospects of the *rabi* crops look favourable; fever is still prevalent; cholera is still continuing in the interior villages of the Culna Sub-division.
Bankoora ...	*Nil*	Weather fine and clear, but unusually warm; prospects of the crops on the ground are good; the winter rice crop is estimated at about 12 annas.
Beerbhoom ...	*Nil*	Weather cold and bracing; no change to report in the state and prospects of the crops.
Sonthal Pergunnahs ...	*Nil*	Weather at times cloudy; no change in the state and prospects of the crops since last report.
Bhágalpur	*Nil*	Weather extremely cold, with high westerly winds; the *aghani* crop is yielding splendidly, but is being exported as fast as it is threshed out; the *rabi* prospects are excellent.
Monghyr ...	*Nil*	Rain threatening; weather cold and cloudy; rain is much wanted for wheat and *bhadoi* crops.
Purneah ...	*Nil*	Weather seasonable; the winter rice has been nearly all cut; mustard is coming on well; a little rain would be good for the growing *rabi;* cholera has appeared in places, and fever is very prevalent everywhere.
Maldah ...	*Nil*	Weather seasonable; state and prospects of the crops are satisfactory; cholera has much abated, but fever of a very bad type is very prevalent.
Durbhunga ...	*Nil*	Weather seasonable; the harvesting of rice is in progress; prospects of the *rabi* crops are good, but a little rain is wanted; health of the district is good.
Mozufferpore ...	*Nil*	Weather cloudy; the rice crop has been nearly all reaped, and the outturn in Mozufferpore and Hajeepore sub-divisions is about 10 annas on the average, but in the Seetamurhee sub-division it does not exceed 6 annas; the *rabi* crops have been benefited by some light showers of rain and are still healthy in most places; large quantities of rice from Nepal and North Durbhunga are being exported through the district to Sarun and Chumparun; all kinds of grain are unusually dear for this time of year.
Sarun	*Nil*	Weather cool and cloudy; west wind prevailing; on the 22nd the weather was more settled; the *rabi* crops throughout the district are still doing fairly, but are in much want of rain; in some places the poppy fields are being irrigated from the *kutcha* wells; prices have risen; public health is good.
Chumparun ...	*Nil*	Weather seasonable; the prospects of the *rabi* have improved in consequence of the late rain; should more fall (of which there at present appears a likelihood) there will be little or no anxiety about this crop.
Patna ...	*Nil*	Weather seasonable and cold; the harvesting of rice crop is in progress; prospects of the *rabi* crops are good, but a little rain is wanted; health is excellent.
Gya ...	*Nil*	Weather cool and at times cloudy; maximum thermometer in the shade 84·2°; general prospects are unchanged; exportation continues, and prices are rising.
Shahabad ...	*Nil*	Weather cool and cloudy; westerly wind is generally prevailing; the *dhan* crop has been harvested; the *rabi* requires rain in Sasseram and Bhubooah, elsewhere it is reported good.
Hazáribágh ...	*Nil*	Weather clear; all signs of rain have passed off; no change to report in the state and prospects of the crops.
Lohardugga ...	Traces at Ranchi; ·07 at Palamow; slight showers in six of the thirteen police circles of the head-quarters division.	The quantity of rain usual and required at this season has not yet fallen; the prospects of the *rabi* crops are not good; public health is good.
Manbhoom ...	*Nil*	Weather seasonable and pleasant; nothing new to report; the reaping of paddy is going on; rain is said to be wanted for what little *rabi* there is, but it would do more harm than good until the paddy is stored.
Singhbhoom ...	*Nil*	Weather seasonable; nothing new to report about the crops; the cold-weather crops are doing well; the district is healthy.
Balasore ...	*Nil*	Weather fine and cold; the *saradh* harvest is nearly completed, and the *rabi* crops are doing well, being almost ripe in some places; public health is on the whole good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*concluded.*		
Cuttack ...	*Nil*	Weather cold and fine; the *saradh* is being reaped; the gathering of the *rabi* crops has commenced; cholera is still prevalent in parts of Kendrapara and Jajpore sub-divisions; otherwise the public health is good.
Pooree ...	*Nil*	Weather seasonable; the harvesting of the *laghu* crop has nearly been completed with an average outturn of 6 annas; *saradh* crop is being harvested; the winter crops, *viz., moong, arhur, biri, kulthi,* mustard, &c., are in pods; sugarcane is being gathered; *dalua* rice seeds are still being sown on the lower lands and on the lands higher up the plants are shooting forth in some places and in others are being transplanted; rice is selling cheaper on account of supply of new rice; public health is good.
		General Remarks.—There has been no rain in the province during the week, except some insignificant showers in Lohardugga and in the Dinháta sub-division of Cooch Behar; the *amun* harvest is still going on, and the outturn is not as yet generally ascertained; in most districts, however, it is said to be fair; in Furreedpore it is somewhat less than an average, and in some parts of the Patna division it is very short; the *rabi* crops are looking well, but rain is wanted almost throughout Behar and Chota Nagpore, specially in Lohardugga, where the prospects are not good; in some districts the gathering of *rabi* and the cutting of sugarcane have commenced; fever and cholera are still prevalent, but seem to be decreasing in many places.
N. W. P. and Oudh—		
Benares (Dec. 25th)	...	No change.
Jhánsi („ 26th)	·2 on 19th instant.	Prospects good.
Agra („ „)	...	*Rabi* sowings look well after last week's rain.
